Dear Ms. Dortch:

On February 24, 2011, Rob Hale, Chief Executive Officer, Granite Telecommunications, LLC; Sam Kline Vice President Strategic Initiatives, Granite Telecommunications, LLC (collectively "Granite"); and the undersigned counsel to Granite, met with Commissioner Robert M. McDowell and Christine D. Kurth, Policy Director and Wireline Counsel, Office of Commissioner Robert M. McDowell. Granite updated the attendees on its progress in serving the multi-location business market and addressed three matters during that meeting.

Granite representatives discussed their current ability to obtain DSL services for resale on a financially viable basis from a number of local exchange carriers with the notable exception of AT&T. AT&T only provides a dry loop solution that requires Granite and other requesting carriers to use an additional and separate line making AT&T's DSL services inefficient and economically infeasible for resale.

Granite representatives further noted their appreciation of the Commission's efforts toward intercarrier compensation reform and urged that the Commission consider any modifications to that regime only in a deliberate and thoughtful fashion. Specifically, Granite representatives cautioned the Commission against moving precipitously to reduce intrastate access rates without an adequate understanding of what impact such changes would have on relevant industry sectors.

Granite representatives also expressed a specific concern about the pending Qwest/CenturyLink transaction and the post-merger wholesale local services market in the regions that will be served by that entity. Granite currently has a satisfactory agreement for Qwest's wholesale local services and obtains such services at discounted rates based on traffic volume. In contrast, CenturyLink in its and the legacy territories has to date refused to provide similar wholesale services to Granite. Granite specifically requested that the Commission require Qwest/CenturyLink, as a direct and specific condition to its pending merger, to offer wholesale local services not only in the former Qwest regions but also in the legacy CenturyLink territories as condition of the merger.

The attached handout was distributed at the meeting.

Sincerely,

Andrew D. Lipman
