Administration**

Office of Airport Safety
and Standards

800 Independence Ave., SW
Washington, DC 20591

AUG 01 2012

Dear Industry Representative:

We posted Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5210-XX, Performance Specification for Airport Vehicle Runway Incursion Warning Systems (RIWS), for your review. This AC provides a performance specification for airport vehicle runway incursion warning system (RIWS) equipment.

This is a new draft Advisory Circular. Reviewers should read the entire document and submit and provide justification for comments, including any suggested modifications. We may revise the final document as a result of comments received and further review by the Office of Airport Safety and Standards.

Please use the provided comments matrix to submit your comments. We have posted the comments matrix and a PDF version of the draft advisory circular on the FAA website at http://www.faa.gov/airports/resources/draft_advisory_circulars/. Send completed comments matrices to Mark Sedarous at Mark.Sedarous@faa.gov.

We will consider comments received by August 27, 2012 for inclusion in the advisory circular.

Sincerely,

A handwritten signature in blue ink, appearing to read "John R. Dermody".

John R. Dermody, P.E.
Manager, Airport Engineering Division
