

Pediatric Services

Adolescent Medicine

Routine health care for patients age 12 to 21, and for specialty services pertaining to reproductive health, gynecologic problems, behavioral health and preventive services.

Allergy & Immunology

Consultative evaluation, diagnosis & treatment of patients of all ages for immunological & hypersensitivity disorders such as asthma, allergies or chronic urticaria/angioedema.

Cardiology

Consultation & management of children from birth through adolescence with congenital & acquired heart disease. Collaborate with perinatal obstetricians & neonatologists to evaluate fetuses at risk for heart-related disorders.

Clinical Nutrition/Dietitian

Consultation & management of children of all ages for conditions pertaining to the relationship between food & health.

Endocrinology

Consultative evaluation, diagnosis & management of children of all ages with acute & chronic endocrine and metabolic disorders.

Gastroenterology

Consultative evaluation, diagnosis & management for children of all ages with disorders of the esophagus, stomach, intestines, pancreas & liver, working closely with nutrition, surgery and other specialties.

General Pediatrics

Routine primary health care & coordination of specialty care for patients from birth to age 21.

Hematology-Oncology

Consultative evaluation, diagnosis & management for children of all ages with blood disorders such as sickle cell disease, hemophilia & other bleeding disorders; and for leukemia & other cancers. We are the only Navy member of the NIH Children's Oncology Group.

Infectious Diseases

Consultative evaluation, diagnosis & management of childhood infectious & communicable diseases.

Nephrology

Pediatric nephrology support is provided through a contract with a local pediatric nephrologist at CHKD.

Neurology

Consultative evaluation, diagnosis & management for children of all ages for seizures, epilepsy, headache, migraine, stroke, cerebral palsy, developmental delay, autism, & neuromuscular & sleep disorders.

Neurodevelopmental Pediatrics

Consultative evaluation, diagnosis & management of children through age 21 with developmental & behavioral disabilities such as severe prematurity, autism, mental retardation, cerebral palsy, & chromosomal & syndromic disorders.

Ophthalmology

Consultative evaluation, diagnosis, & medical & surgical management for children of all ages with a multitude of eye conditions, including eye movement & alignment problems, glaucoma, cataracts, refractive errors, amblyopia, congenital ptosis, trauma & strabismus, & neuro-ophthalmology diseases.

Orthopedic Surgery

Consultative evaluation, diagnosis, & medical & surgical management for children of all ages for the full spectrum of pediatric orthopedic conditions, including spinal & foot deformities, sports injuries, hip dysplasia, cerebral palsy, & spinal bifida.

Pediatric Surgery

Consultative evaluation, diagnosis and management of children from birth through the teen years for the surgical treatment of conditions such as congenital GI and thoracic anomalies, solid organ tumors, and utero-diagnosed congenital anomalies.

Pulmonary Medicine

Management of the full spectrum of pediatric pulmonary disorders, including asthma, cystic fibrosis and chronic lung disease. Procedures and treatments include respiratory therapy, bronchoscopy, tracheostomy management, bronchial brush biopsies, laryngoscopy, spirometry, oscillometry, methacholine challenge, exercise challenge and nitric oxide analysis.
