

## TRAINING ANNOUNCEMENT

### Relay Users Workshop

**Training will be held in Denver, CO, at the Denver Federal Center, Bldg 67, Hungry Horse Conference Room (next to the cafeteria) on April 19 and 20, 2011, from 8:00 a.m. to 4:00 p.m.:**

**Background:** This 2-day course will familiarize participants with protective system testing directly related to the new Facility Instructions, Standards and Techniques, Volume 3 - 8 and North American Electric Reliability Corporation PRC-005. The course will also discuss the Bureau of Reclamation's Relay Information System or Advanced System for Power Engineering, Inc. database.

**What you will learn:** The course will cover testing of instrument transformers, protective relays, battery systems, and power circuit breakers. Basic operation of primary and secondary test sets, review of single-line and protection drawings, and site implementation will also be presented.

**Who should attend:** Relay technicians, electricians, and electrical engineers. Both classroom and limited hands-on training will be provided to participants.

**Tuition:** There are no tuition costs for this training course.

**Registration:** Registration is via DOI LEARN at <http://www.doi.gov/doilearn/index.cfm>. When searching for the course, use the keywords: Relay Users Workshop. Employees must register and receive approval for the course before enrolling in the class.

Questions on course content may be directed to Mr. Nathan Myers at 303-445-2643. Registration and DOI Learn questions may be directed to Ms. Dee Sandoval at 303-445-3284 or [dsandoval@usbr.gov](mailto:dsandoval@usbr.gov).
