## INTRODUCTION

This Guide is published by the Portland Export Assistance Center, the Export Council of Oregon and the Small Business Administration as a quick reference tool. It is a compilation of local, regional and national export resources with a focus on financing to provide export businesses in Oregon with current information

The Portland U.S. Export Assistance Center (USEAC) helps companies which are export-ready and interested in expanding into international markets with marketing assistance; financing information and SBA export loan applications.

- **Start-up exporter** services – see page 4
- **Licensing** for exports – see page 5

### ***Export Trade Financing Issues***

Export financing questions may pertain to methods of payment, payment options, risk assessment and mitigation, how to structure a transaction, how to find local contacts for export financing or how to apply for SBA export loans. Here's survey of the main issues:

- ❖ **Payment method:** May involve documentary letters of credit, documentary collections, wire transfers, or foreign currency exchange. The International Departments of major banks (page 17) assist the exporter with these services. If your bank of account does not have an international department, it still may have a correspondent banking relationship that provides these services. Contact the USEAC office (page 7) for Letter of Credit template and instructions. See also due diligence resources, page 18.
- ❖ **Financing the export transaction:** Requires identifying a source of working capital to fund the export transaction. The needed financing may be pre-shipment financing for the production cycle (materials, inventory, labor), post-shipment financing to extend credit terms, or both. Typically, such financing is available from the commercial lending departments of a bank, often a bank's Small Business Lending Divisions is the best place to begin. Early stage exporters may need a government-guaranty, i.e., SBA export loan guaranty, to get financing. See SBA export loan programs, page 8. A few banks provide export financing through their international banking departments, typically for larger accounts and mainly for receivable financing.
- ❖ **Extending credit to overseas buyers:** Is less risky with proper due diligence on buyers and insurance. See the listing of specialized risk insurance brokers, page 19.

**Buyer financing:** For longer terms and/or larger transactions may be available through the Export-Import Bank of the United States (Ex-Im Bank) or, for agricultural / commodity financing, through the U.S. Department of Agriculture; see CCC information, page 15.

## EXPORT LICENSING: Regulatory & Control Agencies

Export businesses don't need a separate "export" license aside from the local business license required for all businesses. While most products can be shipped abroad without special approval by the U.S. government, there are exceptions. These exceptions include prohibited countries, prohibited entities, both businesses and individuals, and prohibited products or goods that require an export license. Usually, the special licensing is for so-called dual-use products which have a military application; they require an application for a 'validated' export license. Included here is also the access point for temporary, duty free exports, the ATA Carnet.

### 1. **Prohibited Countries**

The Country Limitation Schedule (CLS) compiled by Ex-Im Bank identifies legally prohibited countries for U.S. exporters with the footnote #7; see [http://www.exim.gov/tools/country/country\\_limits.html](http://www.exim.gov/tools/country/country_limits.html).

### 2. **Prohibited Entities**

The International Money Laundering Abatement and Anti-Terrorism Act makes it illegal for U.S. businesses to trade with prohibited companies and individuals. A list of these special designated nationals (SDN) is compiled by the Office of Foreign Assets Control, U.S. Treasury Department. For the list which is continuously updated, posted online and searchable, see <http://www.ustreas.gov/offices/enforcement/ofac/>.

### 3. **Export Licensing for Controlled Products**

For the classification of products, regulations for controlled products and countries, information on licensing and applications for a validated license of controlled products are handled by the Bureau of Industry and Security, U.S. Department of Commerce. For general information, see <http://www.bis.doc.gov/>.

**Contact:** For application information:

Western Regional Office, Bureau of Industry and Security, Newport Beach, CA  
Tel: (949) 660-0144 Ext. 112 Fax: (949) 660-9347

### 4. **Licensing for Military Products and Weapons**

For military products, weapons, munitions and some gun components, the U.S. State Department has jurisdiction. For product classification and licensing information, including the new paperless arms export license application, contact <http://www.pmdtc.state.gov/> or the office in Washington, D.C.:

**Contact:** U.S. Department of State, Directorate of Defense Trade Controls (DDTC)  
2401 E Streets, NW, Washington, DC 20520  
Tel: (202) 663-1282 Fax: (202) 261-8199

### 5. **Temporary Export of Products (Duty Free), ATA Carnet**

The Carnet allows for temporary duty free customs clearance of commercial samples, professional equipment and items for exhibitions and fairs into more than 75 countries. Carnets eliminate the payment of VAT and duties and act as a U.S. Customs registration. Carnets can be used for unlimited trips for a period of up to one year. Carnets are now available online; applications have a 24-hour turnaround. See <http://www.uscib.org/> and click on ATA Carnet Export Service.

## EXPORT COUNCIL OF OREGON

<http://exportcounciloforegon.org/>

The Export Council of Oregon (ECO) is an official US “District Export Council” (DEC) member, and has been providing a variety of export-oriented services to businesses in Oregon and Southwest Washington.

DEC members are local business people and government officials appointed by the US Secretary of Commerce whose knowledge of international business provides a source of professional advice to companies seeking to expand international sales. DEC members play a major role in the planning and coordination of export expansion activities of the US Department of Commerce and serve as a communication link between the business community and the Department. ECO works very closely with the US Department of Commerce [Export Assistance Center](#) located in Portland.

Each DEC has approximately 30 members, at least half of whom are exporters. Members also include export trading or management company representatives; bankers; international lawyers and accountants; freight forwarders; and others whose profession supports the U.S. government’s export promotion mission.

### ***Export University***

As part of its efforts to educate private businesses on aspects of exporting and other international business, the Export Council of Oregon sponsors seminars for private companies and governmental and nongovernmental organizations in Oregon and in southwest Washington: Export 101 and Export 201.

## SBA EXPORT FINANCE PROGRAMS

[http://www.sba.gov/localresources/district/or/or\\_itresources.html](http://www.sba.gov/localresources/district/or/or_itresources.html)

When exporters are not bankable on their own, a government guaranteed loan from the U.S. Small Business Administration (SBA) may help with financing; SBA offers several loan programs specifically for exporters. Participating banks can receive up to a 90% guaranty on export loans to small businesses. The loans have varying loan size limits with \$5 million the maximum. Interest rates are market-based, (not subsidized) and negotiated between the bank and borrower. SBA fees vary by loan terms/amounts. A personal guaranty by owners (with 20% stake) is required and other conditions may apply.

### ELIGIBILITY

- Meet SBA's size standards for small businesses
- Have been in business for at least 12 continuous months
- For businesses not directly exporting but who produce or sell product / services for export
- For all types of businesses, incl. service exporters

**Depending on the type of export financing, i.e., export transaction financing, export market development and start-up or long term financing for construction and equipment, four SBA loan programs are available.**

### A. **Export Working Capital Program (EWCP)**

<http://www.sba.gov/content/export-working-capital-program-fact-sheet-small-businesses>

For single orders or multiple sales (line of credit) the Export Working Capital Program (EWCP) provides export working capital for pre-shipment or post-shipment financing or both for terms of 12 months or less. While the maximum SBA guarantee is \$4.5; the loan limit is \$5 million. It can also be used for a Stand-by Letter of Credit in bid bonds and performance guarantees. SBA's guarantee fee is 0.25% for 1 year maturities; the loan guarantee to banks is 90%.

#### Eligible Uses:

- Pre-shipment: for the manufacture of goods, to purchase finished goods or services for export. WIP eligible.
- Post-shipment: to finance accounts receivable resulting from export sales (180 days maximum).
- Combination: to finance both the acquisition or production of export goods and services and the resulting accounts receivable; especially well-suited for contract financing of export sales.

### B. **Export Express**

<http://www.sba.gov/content/sba-export-express-fact-sheet-small-businesses>

For a variety of export financing needs, i.e., marketing, trade shows, transactions, equipment, expansion, etc., Export Express loans are available through designated SBA Express Lenders. As a sub-program of SBA Express these loans have the same expedited review; maximum loan size is \$500,000. The SBA guaranty for lenders is 90% up to \$375,000 and 75% for loans above \$350,000.

### C. **Export Expansion Loan – ITL**

This program offers long term financing to support growing export businesses which can be used for fixed asset uses, i.e., construction, buildings, equipment, etc. Companies adversely affected by import competition are also eligible. Maximum loan size is \$5 million and lender guaranty is 90%. For a combination ITL loan and EWCP the sub-limit for working capital is \$4 million.

### D. **504 Loan Program**

<http://www.sba.gov/content/cdc504-loan-program>

Major business expansion, equipment, construction and modernization financing for long term (10 or 20 years) and fixed rates based on U.S. Treasury notes is available through SBA designated CDCs (Community Development Corporation) and requires at least 10% equity participation by the borrower.

## EXPORT-IMPORT BANK OF THE UNITED STATES

<http://www.exim.gov/>

The Export-Import Bank of the United States (Ex-Im Bank) is the primary U.S. agency charged with providing financing support for American exports through credit risk protection and / or loan guarantee programs.

### **Ex-Im Bank Programs**

- Working Capital Guarantee Program, similar to SBA's EWCP program, except for some features (no cap on loan size; no limit on business size; domestic content requirement on export goods)  
<http://www.exim.gov/smallbiz/index.html>
- Loan guarantees to foreign buyers of U.S. goods and services  
<http://www.exim.gov/portals/buyer/index.cfm>
- Risk insurance for open account sales; see Export Credit Insurance, page 19  
For small exporters Ex-Im has a special program; see Small Business Export Credit Insurance website: [http://www.exim.gov/products/insurance/small\\_bus\\_multi\\_buyer.cfm](http://www.exim.gov/products/insurance/small_bus_multi_buyer.cfm)

Ex-Im Bank's toll-free hotline, **1-800-565-EXIM**, provides information on seminars and the programs available to finance the sale of U.S. goods and services abroad.

## OVERSEAS PRIVATE INVESTMENT CORPORATION

<http://www.opic.gov/>

The Overseas Private Investment Corporation (OPIC) provides project financing, loan guarantees or insurance on foreign investments and a variety of investor services for U.S. companies in some 140 developing nations and emerging economies throughout the world.

**Finance** - To foster investment, OPIC offers medium- and long-term project financing. Direct loans are available for projects sponsored by American small businesses. For large projects, OPIC will guarantee loans to projects sponsored by U.S. investors, starting at \$2 million per project. OPIC also sponsors several funds offering equity capital for investment projects in targeted countries.

**Insurance** - To mitigate the risks of investing overseas, OPIC insures U.S. investments against political violence, inconvertibility of currency, and expropriation.

**Investor Services** - For companies considering overseas investment, OPIC offers a variety of fee-based services including feasibility studies, investment missions, a database of business opportunities, and business outreach.

[http://www.export.gov/articles/marketofmonth/eg\\_main\\_020102.asp](http://www.export.gov/articles/marketofmonth/eg_main_020102.asp)

The U.S. Department of Commerce assists U.S. firms with information on MDB-funded project opportunities, ensuring that project information is available on a timely basis. Liaison officers located in each of these institutions identify projects at the earliest stage possible and serve as advocates for U.S. bidders. The MDBs assist primarily developing countries in financing social and economic infrastructure and privatization projects.

Registry in the DACON system (<http://tenders.dgmarket.com/dacon>) is required for consultants to be eligible to bid on MDB projects.

Subscription fees for individual bank publications and on-line information services may apply. For subscriptions to MDB publications contact each bank directly.

## U.S. TRADE & DEVELOPMENT AGENCY

<http://www.ustda.gov/>

The U.S. Trade and Development Agency (USTDA) provide grants to foreign countries for feasibility studies and other planning services for major projects in those countries. U.S. companies or consortia must perform USTDA-funded studies. The host country plays an active role in developing the scope of work for the study, selecting (on a competitive basis) the U.S. firm to complete it, and then monitoring the progress of the study. By participating in a USTDA-funded study, a U.S. company is usually able to establish a presence in the country and initiate what could well develop into a long-term relationship with host country officials and project managers leading to additional business opportunities.

USTDA operates in developing and middle-income countries. The types of projects USTDA funds include energy and natural resource development, transportation, telecommunications, and the environment. USTDA reviews project proposals to determine whether they meet project criteria, e.g., being an economic development priority for the country, creating U.S. export potential, and falling within funding availability.

### ***Feasibility Studies***

USTDA funds studies to determine the technical, economic and financial feasibility of major development projects. Feasibility studies provide detailed data that support decisions on whether and how to proceed with project implementation. Host countries using competitive procedures select feasibility study contractors.

Requests for proposals are listed in *Commerce Business Daily*\*

\*For on-line information on *Commerce Business Daily*, please go to <http://cbdnet.access.gpo.gov/>.

### ***USTDA News and Information***

USTDA publishes a newsletter called the *USTDA News and Information*, which provides U.S. suppliers and manufacturers with up-to-date information on USTDA supported projects. Small businesses may identify subcontracting opportunities through the publication. To sign up for a bi-weekly E-mail Update, see <http://www.ustda.gov/pubs/>.

## U.S. AGENCY FOR INTERNATIONAL DEVELOPMENT

<http://www.usaid.gov/>

The U.S. Agency for International Development (USAID) implements U.S. foreign economic assistance programs in nearly 100 countries throughout the developing world by providing loans and grants to eligible countries to support technical assistance projects and economic development programs which often require the procurement of services and/or commodities from U.S. suppliers.

USAID's Center for Trade and Investment Services promotes increased business activity between U.S. businesses and foreign entrepreneurs in Asia, the Near East, Africa, Latin America, Eastern Europe, and the Newly Independent States of the former Soviet Union. CTIS provides information on USAID-financed procurement opportunities.

**WESTERN U.S. AGRICULTURAL TRADE ASSOCIATION**  
 U.S. DEPARTMENT OF AGRICULTURE  
<http://www.wusata.org/>

**Also see information on Oregon Department of Agriculture and  
 Commodity Credit Corporation, USDA (page 15)**

The Western United States Agricultural Trade Association (WUSATA) is funded by the Foreign Agricultural Service (FAS), USDA, and helps agri-businesses to develop and expand their export sales. WUSATA is one of four non-profit regional trade groups and serves 13 Western States (Alaska, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, **Oregon**, Utah, Washington and Wyoming).

**Programs**

- **Company Matching Funds**

Also called 'branded program', it reimburses qualified companies for 50% of the costs of promoting branded products in the foreign market(s) of their choice. Companies must be pre-qualified and may claim reimbursements for half of eligible promotional expenses, i.e., trade shows, travel to international shows, in-store demonstrations, point-of-sale materials, print and broadcast advertising, etc. Pre-qualification worksheets available on the WUSATA web site.

- **Industry Programs**

Two or more companies can participate in industry-wide projects managed jointly by WUSATA staff and marketing specialists from member States' Department of Agriculture. Funded activities include trade missions, trade shows, in-store promotions, market research, trade seminars, etc. Application for funds is through member States' agricultural departments. Individual companies can apply to WUSATA or the Oregon Department of Agriculture, International Division.

- **Export Readiness Seminars**

For new-to-market or new-to-export firms; free advice from technical specialists.

## COMMODITY CREDIT CORPORATION

FOREIGN AGRICULTURAL SERVICE, USDA

<http://www.fas.usda.gov/excredits/ecgp.asp>

Export credit guarantees for purchases of US agricultural commodities are offered through a variety of programs available through the Commodity Credit Corporation (CCC). Coverage is typically 98% of the port value of the export item. Two major programs provide coverage for short term and medium term credits (<http://www.fas.usda.gov/info/factsheets/gsm102-03.asp>).

- (a) GSM 102 – for a period of 6 months to 3 years
- (b) GSM 103 – for more than 3 years

Under both programs, CCC underwrites credit extended by the private US banking sector for food and agricultural products sold to foreign buyers using dollar-denominated irrevocable letters of credit. The letters of credit must be opened by a CCC-approved foreign bank. Any product must be 100% US origin; manufactured inputs, i.e., pesticides, fertilizers, machinery, etc., are not covered.

### **Steps for Reviewing CCC Export Credit Guarantee Program Eligibility:**

1. Identify current CCC coverage for export product and target country.
2. Identify banks in importing country that are CCC approved.
3. Identify participating US bank.
4. Request letter of credit for transaction from eligible foreign bank.
5. Apply for CCC approval.

- **The National Bank of Cooperatives**

Very active in financing agricultural exports using USDA programs

## EXPORT CREDIT INSURANCE

Export Credit Insurance is specialized insurance to protect against non-payment due to the commercial and/or country risk when selling on open account terms into export markets. Commercial coverage protects against a buyer's nonpayment and political coverage protects against default due to war or adverse sovereign actions. Export credit insurance may give exporters a competitive advantage and lenders will often add insured accounts receivables to a customer's borrowing base, thereby increasing the availability of working capital financing. Private sector and government policies are offered through brokers.

Helping Oregon small and medium business and industries expand their exports of goods and services is the primary focus of the State of Oregon's International Trade Services. Overseas trade representatives located in China, Japan, Korea, and Europe help key industry clusters and individual companies develop and foster important business and government contacts. International Trade Officers are specialists in global marketing with private sector experience and assist Oregon companies to develop and expand their export markets. In coordination with the overseas trade representatives they help Oregon companies with:

- Preliminary market assessment
- Qualified agents and distributors search
- Direct sales opportunities and project bidding opportunities
- Company background investigation
- Industry specific analysis
- One-on-one business meetings and matchmaking
- Overseas trade leads
- International trade shows
- Trade missions
- Product seminars
- Consultation on government policy and regulation
- Strategic use of limited grant funds for official trade missions and trade shows overseas

## OREGON MANUFACTURING EXTENSION PARTNERSHIP
