

# Blind and Disabled Recipients

---

**Chart 1.**  
**Number who work, December 1987–2006**

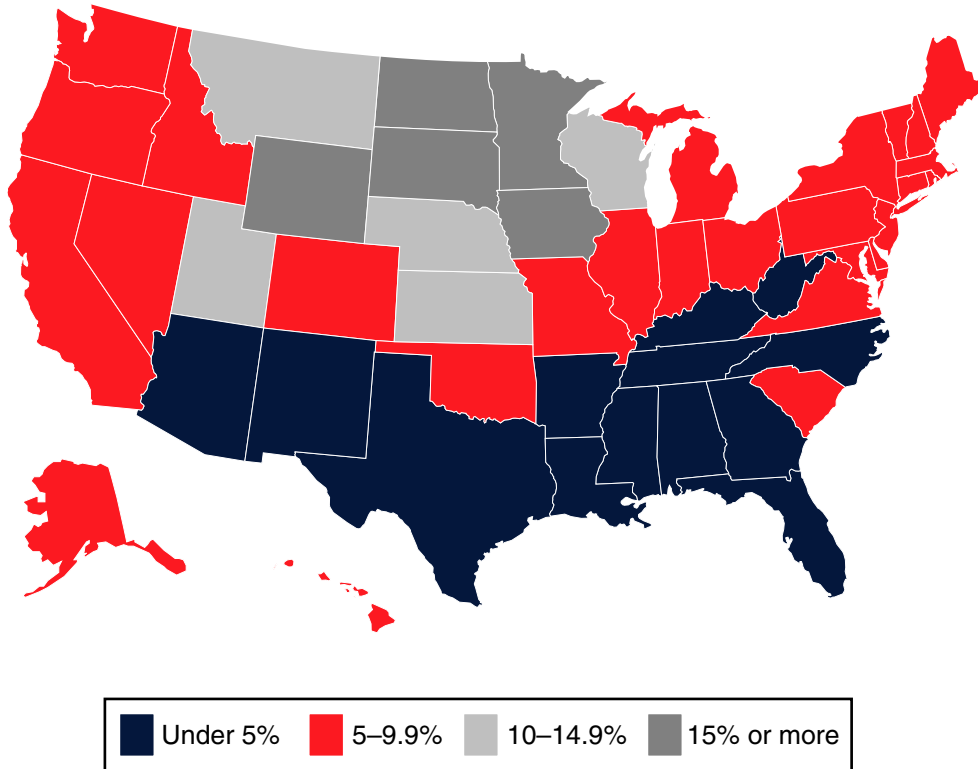

The number of blind and disabled recipients who work more than doubled between 1987 and 2006, from 173,000 to 349,000. Initially, the number of participants under sections 1619(a) and 1619(b) were approximately equal. However, participation under section 1619(b) gradually increased to almost six times the initial total, and it now exceeds participation under section 1619(a) by more than five to one. The number of working recipients not participating under either of these provisions has increased by more than 70 percent.

SOURCE: Tables 1 and 8.

**Chart 2.**  
**Percentage who work, by state, December 2006**

In 13 of the 50 states, mostly in the South and Southeast, less than 5 percent of blind and disabled recipients were working in December 2006. The highest employment rates, 15 percent or more, were in the upper Midwest: Iowa, Minnesota, North Dakota, South Dakota, and Wyoming.

SOURCE: Social Security Administration, Supplemental Security Record (Characteristic Extract Record format), 100 percent data.

a. Includes section 1619(b) participants.

b. Most disabled recipients classified as blind are included in this category. A few blind recipients with a primary impairment other than diseases of the eye are coded in other categories. Also, a few recipients are classified with diseases of the eye, but their impairment does not meet the definition of blindness.
