step one - selecting the report

The Report Setup page allows Administrators to determine which roles will have rights to run each report. After a user has been given access to run reports, follow the directions below:

1. Choose **Reports**, then **Create** from the main menu bar. The **Report List** will be displayed.
2. Select a report category from the drop-down list. The Report List defaults to All reports.

Report List			
All	Type	Description	Schedule
<ul style="list-style-type: none"> All My Saved Reports Accounts Transaction Order Custom Audit Merchant Administration 			
	Merchant	The 1099 Merchant report can be used to analyze purchases made from 1099 Merchants. The report lists: MCC Code and Description, Merchant Name and Address, Merchant DBA Name, Contact, Taxpayer ID, Count (Number of Transactions) and Dollar Amount.	
	Accounts	The 45 Day report can be used to monitor delinquencies as it identifies accounts that are between 30 and 60 days past due. The report lists: Account Number, Account Name, 30 Days Past Due Amount, 60 Days Past Due Amount, Number of Days Past Due, Bill Date and Balance.	
	Accounts	The Card and Manager Hierarchy report shows all individuals with their card hierarchy and their manager hierarchy. It includes individual names including non-cardholders and shows card account numbers where appropriate. Roles are also displayed.	
	Audit	Any changes made to a credit card using PaymentNet can be queried using a date range. The report will demonstrate all card changes made over the requested period of time. This report contains credit card number, change date, a description of the field changed, original data, new data and User ID that made the change	

The Reporting section of PaymentNet provides eight main categories: **My Saved Reports, Accounts, Transaction, Order, Custom, Audit, Merchant, and Administration**. Once a category button is selected, only reports and descriptions from that category will be displayed. Each category will list the applicable reports alphabetically. The **All** category will display every report alphabetically.

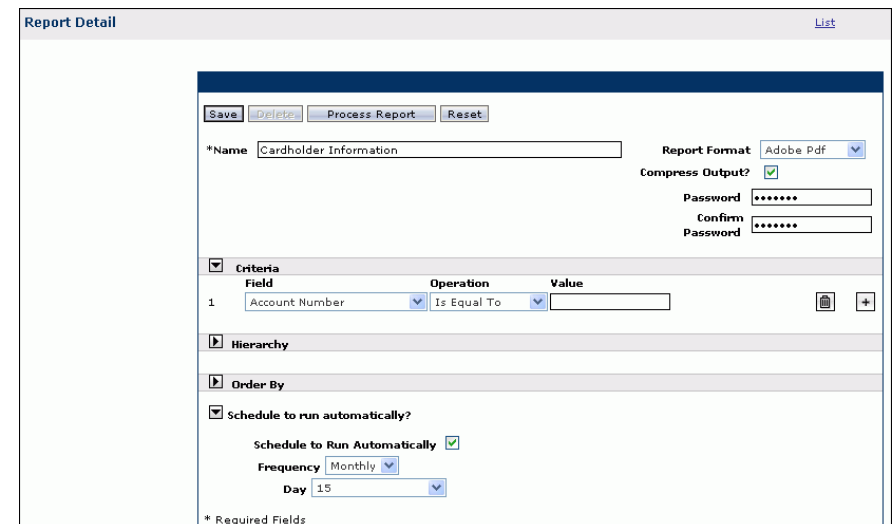

3. To run a report, simply point to the desired report name and click once. The **Report Detail** page will be displayed.

step two - entering report criteria

Reports, by default, are run on general information of the company's database. Users can cater these reports by refining this information using criteria filters (as shown below). Simply choose from the criteria headings provided, by clicking on the drop-down arrows. Once the data is defined, click the **Process Report** button to continue. If the default report description is adequate, simply skip these filters and click the **Process Report** button to continue.

1. Select the desired **Report Format**. The report format can be in Adobe PDF, Text, Microsoft Excel, or XML Formats.
2. Select the Compress Output check box to compress the output of and password protect the report. If desired, enter and confirm a Password to be given to the downloaded report.
3. If desired, change the name for the report in the Name text box. The report name entered will appear on the Available Download page.
4. If you wish to run the report on your entire organizational hierarchy without specifying criteria, click **Process Report**.
5. To enter a new row of Report Criteria, click .
6. Enter the **field**, **operation**, and **value** for each row for criteria. Select **And** or **Or** for each additional row of criteria.
7. Click **Process Report** button to continue.

The screenshot shows the 'Report Detail' form with the following configuration:

- Name:** Cardholder Information
- Report Format:** Adobe Pdf
- Compress Output?:**
- Password:** [masked]
- Confirm Password:** [masked]
- Criteria:**

Criteria	Field	Operation	Value
1	Account Number	Is Equal To	
- Schedule to run automatically?:**
- Schedule to Run Automatically:**
 - Frequency:** Monthly
 - Day:** 15

* Required Fields

step three - viewing report

Once you have processed the report, you will be directed to the **Available Download** page. You can also access this page by selecting **Reports** and **Download** from the main menu.

1. Choose **Reports** from the drop-down menu showing All, Export, Mapper, and Report.
2. Click on the desired report title to view the report.

PaymentNet reporting allows reports to be run in three formats:

Microsoft Excel - this is an ideal format for reports that may need some additional formatting or manipulation of data.

Microsoft Word - this format permits manipulation of extracted data and allows the user to run reports that are too large for an Excel file.

Adobe PDF - this format allows Program Administrators the best aesthetic view of PaymentNet reports. PDF format is chosen when reports will be run for display purposes. PDF will also assure that data electronically transferred will not be manipulated or changed.

PaymentNet also allows a user to change the title of the report file that will be generated, to help identify the report.

	accounts

1:: accounts

The **accounts** section of reporting in PaymentNet contains reports that give fast, concise documentation of current and former cardholder information. This help guide has divided reports from the account category into three sections. The **cardholder/account information reporting** section, the **suspended & cancelled accounts** section, and the **reporting for individual liability** section. Each section gives a brief description of the reports found within.

a:: cardholder/account information reporting

The first section of reports provides lists of cardholder information sorted by name, hierarchy, addresses, current account status, available limits and renewing accounts.

b:: suspended & cancelled accounts

The second section contain reports that detail declined transactions and cancelled accounts. These reports gives Program Administrators a quick way to see what accounts have been cancelled or suspended.

c:: reporting for individual liability

Individual liability programs need to follow-up on the status of payments made by the cardholders in their program. These reports allow the Program Administrator to do just that.

accounts

a:: cardholder/account information reporting

PaymentNet offers several reports that provide Program Administrators with the ability to quickly and easily access information about their cardholders. The Cardholder/Account Information Reporting category of PaymentNet reporting contains reports displaying basic cardholder or account information. These reports are listed below:

- > cardholder information
- > cardholder listing by hierarchy
- > cardholder listing with addresses
- > accounts renewing within three months
- > cardholder status with hierarchy and closed date
- > cardholder with default account codes
- > account and employee hierarchy
- > cardholder status
- > available limit by low available balance

The Cardholder/Account Information Reporting section of this Reporting Book will take a close look at each of these reports and help Program Administrators decipher which reports will be most helpful to use in their respective programs.

accounts

cardholder information

The Cardholder Information report provides a listing of card accounts. The report lists: Account Name, Account Number, Address, Business Phone, and Total Number of Accounts.

cardholder listing by hierarchy

The Cardholder Listing by Hierarchy report can be used to monitor the number and status of accounts in each cost center. The report lists: Hierarchy, Account Name, Account Number, Credit Limit, Cash Limit, Single Transaction Limit, and Status.

For each hierarchy node presented, the report totals the number of accounts that are located in that node.

The report lists the **account name, account number, credit limit, cash limit, & the current status** of the card.

Hierarchy ID and description or department the employee belongs to.

cardholder listing with addresses

The Cardholder Listing with Addresses report provides a list of accounts in each department or division of the company along with the cardholder's address and card expiration date. The report lists: Hierarchy, Account Name, Account Number, Address, Business Phone, and Card Expiration Date.

The **address** listed in this report is the cardholder's address listed within PaymentNet. Most employees will have the business address of the department their card belongs to.

The **expiration date** of the account number is listed on this report.

b:: suspended and cancelled accounts

The Account section of reporting helps Program Administrators check on their programs suspended and cancelled accounts with two reports:

- > suspension-cancellation
- > suspension-cancellation by hierarchy

These two reports provide very similar information. The way the information is grouped and displayed is different providing Program Administrators with viewing preference options.

suspension-cancellation

The Suspension-Cancellation report identifies accounts that have been suspended or cancelled. The report lists: Cardholder Name, Account Number, Status, and Account Balance.

suspension-cancellation by hierarchy

The Suspension-Cancellation by Hierarchy report provides the same information listed in the Suspension/Cancellation report. The difference is the addition and listing of information by hierarchy.

c:: reporting for individual liability

Individual liability programs have the responsibility of reviewing their cardholder's payment status and managing cardholders who have let their payments fall into arrears. This section lists reports that are used for these types of programs. The reports provided are as follows:

- > 45 day
- > charge off
- > delinquencies with current balance
- > write-off

The main purpose of these reports is to track late accounts as they fall between different cycle days, past due, and are eventually written off.

transaction

2:: transaction

The **Transaction** category of reports in PaymentNet offers a quick and detailed reconciling tool for all procurement programs. Matching total spend with total outflows is a daunting task for any corporation. The **Transaction** category provides a means for Program Administrators to track and control spending for their programs. All the transaction reports are divided into two sections. The reports that provide transaction detail reporting and travel and expense reporting.

a:: transaction reporting

Reconciliation can be accomplished by a number of transaction detail reports listed in this section. Also, transaction dispute reports can be found along with central bill reports, diversion accounts, and foreign currency reports.

b:: travel and expense reporting

Travel and expense activity reports detail all the information for air travel, lodging, restaurant, and many other such travel expenditures.

transaction

a:: transaction reporting

The transaction category of reporting in PaymentNet is the most popular section due to the transaction information Program Administrators can access to reconcile monthly spend. The most popular report used for this type of spend reconciliation is the transaction detail report. This section highlights the transaction detail report in all its variations.

The transaction detail reports shown in this document include:

- > central bill reconciliation
- > central bill reconciliation summary
- > declines
- > diversion detail by cardholder
- > foreign currency
- > level III temp services data
- > spending analysis by tax ID
- > transaction audit (excel)
- > transaction audit (.pdf)
- > transaction detail
- > transaction detail by central bill account
- > transaction detail by hierarchy
- > transaction detail by merchant
- > transaction detail with account codes and notes
- > transaction detail with addendum
- > transaction detail with page breaks
- > transaction detail with payments
- > transaction disputes by hierarchy
- > transaction disputes by status
- > transaction summary
- > transaction summary by hierarchy
- > transaction summary by merchant

The **Transaction Detail** report provides detailed transaction information delineated by cardholder.

transaction detail

Transaction reports are most run by cardholders and managers to reconcile accounts at the end of an accounting period. Transaction Detail reports are the most used reports in PaymentNet due to their high functionality and common use by both purchasing programs and travel and entertainment programs.

The Transaction Detail report can be used to monitor the purchases for each account. (Payments are excluded from this report.) Subtotals are provided for each account, as well as Grand Totals for the entire report. The report lists: Account Name, Account Number, Transaction Date, Post Date, Merchant Name, Merchant City and State, Merchant Category Code, Debit Amount, Credit Amount, and Sales Tax.

transaction detail with addendum

The Transaction Detail with Addendum report is used to analyze only purchasing type transactions. A transaction is classified by the report as purchasing by an indicator in the merchant category screen. The report groups the transactions by cardholder. It displays Transaction Date, Post Date, Merchant Name, Merchant City, Merchant State, Merchant Category Code, Debit Amount, Credit Amount, Merchant Dales Tax and if applicable, the Level 3 data sent by the merchant such as item quantity, item description, unit cost, line item total, product code and unit of measure.

b:: travel and expense reporting

PaymentNet offers a full array of reports that help Program Administrators reconcile and track travel and expense spending. PaymentNet also allows Program Administrators to highlight certain merchants and define whether that merchant is airline, car, lodging, mass transportation, transportation, restaurant, cash, or other type of expenditure. Some of the reports in this section use these criteria to provide detail on dollars spent (where and with whom). Other reports use Merchant Category Codes (MCC) to provide detailed information. The reports provided in this section include:

- > air travel activity
- > air travel summary by hierarchy
- > air travel summary for CTA
- > airline ticket credit summary
- > cash advance detail by hierarchy
- > purchase detail summary
- > t & e expense activity
- > t & e expense activity by cardholder
- > t & e transaction activity report
- > t & e transactions by industry/vendor

A Program Administrators understanding and familiarity of these reports will assist in reconciliation and decision making about their travel and entertainment programs.

transaction audit

The Transaction Audit report is used to review the audit trail for employees' changes to transactions. It includes the Employee's Name, Date/Time of the Change, Transaction ID, the Field Changed, the Field's Previous Value and the Field's New Value.

	merchant

5:: merchant reporting

The merchant section of reporting in PaymentNet provides information Program Administrators can use for detailed spend analysis. Section One of PaymentNet's merchant reporting provides detail spend analysis for travel and entertainment programs. Section Two of PaymentNet's merchant reports tracks information by transaction detail, summary of transactions per merchant and ranking spend by merchants. Section three of merchant reporting contains merchant profile reports or, in other words, any socioeconomic data, 1099 information and other data that may be required to track in a purchasing program.

a:: spending analysis reports

Spending analysis reports quickly show dollar amounts and spend frequency of merchants used within travel and entertainment programs.

b:: merchant information

The merchant information section gives a good count and dollar reconciliation for spend with merchants. This information then can be used for decision making and price negotiations.

c:: merchant profile reports

A merchants profile can be set to display a wide range of information. Many procurement programs need to track different types of data associated with different merchants. The merchant profile reports are a Program Administrator's tool to keep track of the spend that happens with these merchants.

a:: spending analysis reports

PaymentNet offers seven different spending analysis reports. These reports analyze spend from merchants that belong to merchant category codes that fall under travel and entertainment classes. These classes are distinguished by the headings of airline carriers, car rental agencies, hotel and lodging chains, restaurants, transportation carriers, and distinguishing lodging between different cities.

The analysis reports available in PaymentNet are:

- > airline city pairs summary by carrier-top pair
- > airline spending analysis by top carrier
- > car rental spending analysis by top agency
- > lodging spending analysis by city
- > lodging spending analysis by top chain
- > restaurant spending analysis by top restaurant
- > transportation spending analysis by top carrier
- > spending analysis by tax ID

These reports are all similar, if not identical, in their structure and setup. Therefore, if there is an analysis report that is not provided in this document the information class will differ but the setup and view will match what is provided.

airline spending analysis by top carrier

The Airline Spending Analysis by Top Carrier report identifies the Airlines used most frequently and can be used for negotiations with Airlines. The report is sorted by Dollar Amount (with the largest amount listed first). The report lists: Carrier, Dollar Amount, Number of Charge Transactions, Average Transaction Amount, and Grand Totals.

Travel and entertainment reporting with regard to merchant information becomes a valuable tool for managers and Program Administrators who use the reports to monitor budget targets or restraints. By viewing the company's spend categorized by merchants of a specific industry (airline, rental cars, restaurants, etc.) quick informed decisions can be made.

The spending analysis reports classify the industry then list every merchant coded with an Merchant Category Code in that industry.

The **average** transaction amount is provided for each merchant.

The **amount** list the total dollar amount that has been charged at the merchant.

spending analysis by tax id

The Spending Analysis by Tax ID report can be used to analyze the purchases within the following merchant classifications: Sole proprietorship, Partnership, and Unincorporated. Sub-totals for service related and non-service related industries are provided within each merchant classification. The report lists: Merchant Classification, Merchant Name, Address, City, State, Zip, Tax ID, Merchant Category Code, Current Month Spend, and Year-to-date Spend.

b:: merchant information

Merchant information reports are organized to provide information by vendor and industry (merchant name or Merchant Category Code). When Program Administrators need to track transactions by merchant, the transaction detail by merchant report and the merchant ranking report provide information by merchants in alphabetical order. These reports are excellent decision making tools for managers and rate negotiation with vendors. PaymentNet also provides three reports that detail spending by Merchant Category Codes (MCC). These reports provide a detail listing by industry category. These reports are good tools to use in determining spend allocation among different merchant classes.

The merchant section of reporting offers three reports that provide information about all the spending incurred by industry or merchant:

- > merchant ranking
- > summary quarterly merchant
- > summary quarterly vendor analysis

Merchant Ranking

Company Name

Date/Time Printed: 10/6/2005
6:58:26 AM

Orientation: Portrait

Industry	Merchant Name	Net Amount	Count	Average
Lodging				
	SONESTA HOTELS	\$3,679.38	6	\$613.23
	CATAMARAN RESORT HOTEL	\$505.88	1	\$505.88
	INTERCONTINENTAL HOTELS	\$1,179.08	2	\$589.54
Lodging Total:		\$5,364.34	9	\$596.04
Transportation				
	PARKING CO OF AMERICA INC	\$210.00	3	\$70.00
	ACADEMY LINES	\$61.50	1	\$61.50
	ROW SELF PARK #0410	\$10.00	1	\$10.00
	CENTRAL PARKING	\$16.00	1	\$16.00
Transportation Total:		\$297.50	6	\$49.58

merchant ranking

The Merchant Ranking report identifies the merchants where the accounts are being used, the dollar amount spent per merchant, and can be used for negotiations. Subtotals are provided for each of the following industries: Airlines, Car Rental, Lodging, Restaurants, and Transportation. The report is sorted by largest net dollar amount within each industry, and lists the following information: Industry, Merchant Name, Net Dollar Amount, Number of Transactions, and Average Transaction Dollar Amount.

The merchant ranking report will display company spending by industry.

A total transaction **count** and **average** transaction dollar amount is shown for each industry.

The report lists the merchant name and dollar amounts within that industry.

Summary Quarterly Merchant
Company Name

Date/Time Printed: 10/25/2005 11:40:28 AM

Orientation: Portrait

MCC Code	Merchant Category	Transactions	Amount	Average Amount
1st Quarter				
3640	HYATT HOTELS	3	\$61.50	\$20.50
1st Quarter Total:		3	\$61.50	\$20.50
4th Quarter				
		4	-\$393.56	-\$98.39
4th Quarter Total:		4	-\$393.56	-\$98.39
Grand Totals:		7	-\$332.06	-\$47.44

summary quarterly merchant

The Summary Quarterly Merchant report summarizes the total number of transactions, total dollar amounts, and average dollar amounts spent per quarter for each merchant category code. The report lists: Quarter, Merchant Category Code, Merchant Category Code Description, Number of Transactions, Total Dollar Amount, and Average Dollar Amount.

Summary Quarterly Vendor Analysis					
Company Name					
Date/Time Printed: 10/25/2005 11:40:56 AM					Orientation: Portrait
Quarter	MCC	Merchant Name	Address	Transactions	Amount
1st Quarter					
	3640	HYATT HOTELS	CHICAGO, IL	3	\$61.50
Total for: Hyatt Hotels				3	\$61.50
1st Quarter Total:				3	\$61.50
4th Quarter					
			N/A	4	-\$393.56
Total for:				4	-\$393.56
4th Quarter Total:				4	-\$393.56
Grand Total:				7	-\$332.06

summary quarterly vendor analysis

Along with industry totals PaymentNet can provide a more specific merchant detail in the Summary Quarterly Vendor Analysis report. Along with industry dollar totals, the Summary Quarterly Vendor Analysis summarizes the total number of transactions and dollar amounts spent per Quarter with each Merchant. Subtotals are provided for each Merchant Category. The report lists: Quarter, Merchant Category Code, Merchant Category Code Description, Merchant Name and Address, Number of Transactions, and Dollar Amount.

c:: merchant profile reports

Procurement programs often times need to track specific information about certain merchants. The merchant profile reports allow program administrators to track information that they may need about particular merchants. This information would include 1099 info, socioeconomic data, accounting code defaults, or any information that is specific to meeting a corporation's spending goals. The eleven reports in the merchant profile section of reporting include:

- > 1099 merchant
- > MCC with default account codes
- > merchants with default accounting codes
- > merchants profile with custom fields
- > MasterCard 1099 transaction detail
- > MasterCard enhanced merchant data
- > MasterCard socioeconomic
- > MasterCard vendor information
- > Visa 1099 transaction detail
- > Visa merchant
- > Visa socioeconomic
- > Visa vendor information

merchant profile with custom fields

The Merchant Profile with Custom Fields report displays all merchants by Name, City, Street, ZIP, Merchant Category Code, Minority Code, Incorporated Status, Tax Payer ID, 1099 Indicator along with their classification labels, types, and values. These labels and types are values provided by the merchant in the transaction detail. Program Administrators can also designate custom fields according to the requirement of their procurement program.

MasterCard 1099 Transaction Detail

Use the MasterCard 1099 Transaction Detail report to review transactions at merchants to understand whether or not to include each specific transaction in the total spent for 1099 MISC reporting. Most clients will not need this level of detail except when there are questions as to whether all transactions at a specific merchant need to be included for 1099 reporting purposes. To keep the information reported from getting to large only review merchants that may have both merchandise and service transactions.

MasterCard vendor information

The MasterCard Vendor Information report is used to support 1099-MISC and socioeconomic (Form 1057) reporting needs. It includes the most current merchant information provided by MasterCard. The report should be created in Excel format as it will not fit on a standard size page. The report includes merchant name and address information, MCC, Taxpayer Identification Number (TIN), incorporation status, socio-economic status indicators, PaymentNet Preferred Vendor indicators, and both PaymentNet 1099 indicator and the MasterCard 1099able using MCC procedure indicator. Contents of the report are best viewed in Microsoft Excel format.

Visa 1099 transaction detail

Use the Visa 1099 Transaction Detail report to review transactions at merchants to understand whether or not to include each specific transaction in the total spent for 1099 MISC reporting. Most clients will not need this level of detail except when there are questions as to whether all transactions at a specific merchant need to be included for 1099 reporting purposes. To keep the information reported from getting too large only review merchants that may have both merchandise and service transactions.

Visa merchant

The Visa Merchant Report is used to support 1099 and socioeconomic reporting needs. It includes the most current merchant information provided by Visa. Contents of this report are best viewed in Microsoft Excel format.

administration

6:: administration reports

The Administration section of reporting is an all-purpose section with the common thread of giving Program Administrators more tools to help them better run their procurement programs. The Administration section contains two reports:

- > hierarchy list by level
- > unusual activity analysis

administration

Hierarchy Listing by Level

Company Name

Date/Time Printed: 10/6/2005 6:39:13 AM

Orientation: Portrait

Hierarchy Level	Name	Description
Organizational Hierarchy for US00000		
	Root	Default Root Node
	00001	Headquarters
	Deleted	Deleted
	Unassigned	Unassigned

Copyright JPMorganChase 2005

hierarchy list by level

The Hierarchy List by Level report displays the company hierarchy tree structure. The levels and ids of the hierarchy are ordered by how they report up to the top level of the hierarchy. The report displays the Hierarchy Level, ID and description.
