

Mission Support Alliance Support presents how to do business with the Mission Support Alliance.

The supplier advocacy office within the Mission Support Alliance provides assistance to suppliers interested in business opportunities with the Mission Support Alliance. We strive to uphold DOE's small business requirements and encourage all small disadvantaged, 8(a), women owned, veteran owned and/or HubZone businesses within the eight surrounding counties of the Hanford Site, to contact us for future business opportunities.

We are interested in knowing if your company accepts credit card payments, electronic transfer of funds, offers online ordering, stocks items and has a quality assurance program.

Mission Support Alliance's Supplier Advocacy Office is available to meet with suppliers one-on-one. To schedule an appointment please contact 509-376-4697 or email us at [small underscore business underscore advocate at rl dot gov](mailto:small underscore business underscore advocate at rl dot gov).

Please have a prepared list of goods and services your company provides and have an electronic line card available to distribute and view.

Based on the nature of the scope of work that the Mission Support Alliance is responsible for, the following listing provides an example of the types of goods and services that the Mission Support Alliance would typically acquire.
