

Post Construction Report Use of Environmentally Preferred Products

MSA Subcontract # _____

Subcontract Name: _____

Date: _____

In accordance with the requirements of your subcontract with MSA, LLC, at the completion of your construction project, please provide the following information to your MSA cognizant Contract Specialist:

<u>Product</u>	<u>% Content Level</u>	<u>Estimated \$ of total purchased of this product</u>	<u>Estimated \$ of product meeting the % content level</u>
<u>Biobased Products</u>			
Chain and cable lubricants	77%		
Corrosion preventatives	53%		
Gear lubricants	58%		
2-cycle engine oils	34%		
Greases:			
Multi-purpose	72%		
Rail track	30%		
Truck	71%		
Unspecified	75%		
Metalworking fluids:			
Straight oils	66%		
General purposes	57%		
High performance	40%		
Hydraulic fluids for mobile equipment	44%		
Carpets	7%		
Insulating foam	7%		
Panels:			
Acoustical	37%		
Interior	55%		
Plastic lumber composite	23%		
Structural interior	89%		
Structural wall	94%		
Concrete and asphalt release fluids	87%		
Urethane roof coating	20%		
Water tank coating	59%		
Wood and Concrete sealers:			

Membrane	11%		
Penetrating	79%		
Dust suppressants	85%		
Hydraulic fluids (stationary equipment)	44%		
Diesel fuel additives	90%		

<u>Product</u>	<u>% Content Level</u>	<u>Estimated \$ of total purchased of this product</u>	<u>Estimated \$ of product meeting the % content level</u>
<u>EPA Requirements</u>			
Insulation:			
Cellulose loose fill and spray on	75% post-consumer paper		
Fiberglass	20% glass cullet		
Foam-in-place	5% recycled		
Glass Fiber reinforced	6% recycled		
Perlite composite board	23% post consumer paper		
Phenolic rigid foam	5% recycled		
Plastic rigid foam	9% recycled		
Rock wool	75% slag		
Carpet – polyester	25% PET		
Cement and Concrete	40% coal fly ash, 50% furnace slag		
Fiberboard	80% recycled		
Floor tiles	90% post consumer rubber		
Patio blocks	90% recycled plastic		
Paperboard laminated	100% post consumer
