ARTICLE I PURCHASE; CLOSING

1.1 Purchase. On the terms and subject to the conditions set forth in this Agreement, the Company agrees to sell to the Investor, and the Investor agrees to purchase from the Company, at the Closing (as hereinafter defined), the Purchased Securities for the price set forth on Schedule A (the "*Purchase Price*").

1.2 Closing.

(a) On the terms and subject to the conditions set forth in this Agreement, the closing of the Purchase (the "*Closing*") will take place at the location specified in Schedule A, at the time and on the date set forth in Schedule A or as soon as practicable thereafter, or at such other place, time and date as shall be agreed between the Company and the Investor. The time and date on which the Closing occurs is referred to in this Agreement as the "*Closing Date*".

(b) Subject to the fulfillment or waiver of the conditions to the Closing in this Section 1.2, at the Closing the Company will deliver the Preferred Shares and the Warrant, in each case as evidenced by one or more certificates dated the Closing Date and bearing appropriate legends as hereinafter provided for, in exchange for payment in full of the Purchase Price by wire transfer of immediately available United States funds to a bank: account designated by the Company on Schedule A.

(c) The respective obligations of each of the Investor and the Company to consummate the Purchase are subject to the fulfillment (or waiver by the Investor and the Company, as applicable) prior to the Closing of the conditions that (i) any approvals or authorizations of all United States and other governmental, regulatory or judicial authorities (collectively, "*Governmental Entities*") required for the consummation of the Purchase shall have been obtained or made in form and substance reasonably satisfactory to each party and shall be in full force and effect and all waiting periods required by United States and other applicable law, if any, shall have expired and (ii) no provision of any applicable United States or other law and no judgment, injunction, order or decree of any Governmental Entity shall prohibit the purchase and sale of the Purchased Securities as contemplated by this Agreement.

(ii) the Investor shall have received a certificate signed on behalf of the Company by a senior executive officer certifying to the effect that the conditions set forth in Section 1.2(d)(i) have been satisfied;

The terms defined in the singular have a comparable meaning when used in the plural, and vice versa. References to “herein”, “hereof”, “hereunder” and the like refer to this Agreement as a whole and not to any particular section or provision, unless the context requires otherwise. The table of contents and headings contained in this Agreement are for reference purposes only and are not part of this Agreement. Whenever the words “include,” “includes” or “including” are used in this Agreement, they shall be deemed followed by the words “without limitation.” No rule of construction against the draftsman shall be applied in connection with the interpretation or enforcement of this Agreement, as this Agreement is the product of negotiation between sophisticated parties advised by counsel. All references to “\$” or “dollars” mean the lawful currency of the United States of America. Except as expressly stated in this Agreement, all references to any statute, rule or regulation are to the statute, rule or regulation as amended, modified, supplemented or replaced from time to time (and, in the case of statutes, include any rules and regulations promulgated under the statute) and to any section of any statute, rule or regulation include any successor to the section. (b) “*Company Material Adverse Effect*” means a material adverse effect on (i) the business, results of operation or financial condition of the Company and its consolidated subsidiaries taken as a whole; *provided, however*, that Company Material Adverse Effect shall not be deemed to include the effects of (A) changes after the date of the Letter Agreement (the “*Signing Date*”) in general business, economic or market conditions (including changes generally in prevailing interest rates, credit availability and liquidity, currency exchange rates and price levels or trading volumes in the United States or foreign securities or credit markets), or any outbreak or escalation of hostilities, declared or undeclared acts of war or terrorism, in each case generally affecting the industries in which the Company and its subsidiaries operate, (B) changes or proposed changes after the Signing Date in generally accepted accounting principles in the United States (“*GAAP*”) or regulatory accounting requirements, or authoritative interpretations thereof, or (C) changes or proposed changes after the Signing Date in securities, banking and other laws of general applicability or related policies or interpretations of Governmental Entities (in the case of each of these clauses (A), (B) and (C), other than changes

or occurrences to the extent that such changes or occurrences have or would reasonably be expected to have a materially disproportionate adverse effect on the Company and its consolidated subsidiaries taken as a whole relative to comparable U.S. banking or financial services organizations); or (ii) the ability of the Company to consummate the Purchase and other transactions contemplated by this Agreement and the Warrant and perform its obligations hereunder or thereunder on a timely basis.

(c) *“Previously Disclosed”* means information set forth on the Disclosure Schedule, provided, however, that disclosure in any section of such Disclosure Schedule shall apply only to the indicated section of this Agreement except to the extent that it is reasonably apparent from the face of such disclosure that such disclosure is relevant to another section of this Agreement.

Company or any Company Subsidiary is a party or by which it or any Company Subsidiary may be bound, or to which the Company or any Company Subsidiary or any of the properties or assets of the Company or any Company Subsidiary may be subject, or (B) subject to compliance with the statutes and regulations referred to in the next paragraph, violate any statute, rule or regulation or any judgment, ruling, order, writ, injunction or decree applicable to the Company or any Company Subsidiary or any of their respective properties or assets except, in the case of clauses (A)(ii) and (B), for those occurrences that, individually or in the aggregate, have not had and would not reasonably be expected to have a Company Material Adverse Effect.

(iii) Other than the filing of the Certificates of Designations with the Secretary of State of its jurisdiction of organization or other applicable Governmental Entity, such filings and approvals as are required to be made or obtained under any state “blue sky” laws and such as have been made or obtained, no notice to, filing with, exemption or review by, or authorization, consent or approval of, any Governmental Entity is required to be made or obtained by the Company in connection with the consummation by the Company of the Purchase except for any such notices, filings, exemptions, reviews, authorizations, consents and approvals the failure of which to make or obtain would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect.

The Board of Directors of the Company (the “*Board of Directors*”) has taken all necessary action to ensure that the transactions contemplated by this Agreement and the Warrant and the consummation of the transactions contemplated hereby and thereby, including the exercise of the Warrant in accordance with its terms, will be exempt from any anti-takeover or similar provisions of the Company's Charter and bylaws, and any other provisions of any applicable “moratorium”, “control share”, “fair price”, “interested stockholder” or other anti-takeover laws and regulations of any jurisdiction.

(g) No Company Material Adverse Effect. Since the last day of the last completed fiscal period for which financial statements are included in the Company Financial Statements (as defined below), no fact, circumstance, event, change, occurrence, condition or development has occurred that, individually or in the aggregate, has had or would reasonably be expected to have a Company Material Adverse Effect.

3.4 Certain Notifications Until Closing. From the Signing Date until the Closing, the Company shall promptly notify the Investor of (i) any fact, event or circumstance of which it is aware and which would reasonably be expected to cause any representation or warranty of the Company contained in this Agreement to be untrue or inaccurate in any material respect or to - cause any covenant or agreement of the Company contained in this Agreement not to be complied with or satisfied in any material respect and (ii) except as Previously Disclosed, any fact, circumstance, event, change, occurrence, condition or development of which the Company is aware and which, individually or in the aggregate, has had or would reasonably be expected to have a Company Material Adverse Effect; provided, however, that delivery of any notice pursuant to this Section 3.4 shall not limit or affect any rights of or remedies available to the Investor; provided further, that a failure to comply with this Section 3.4 shall not constitute a breach of this Agreement or the failure of any condition set forth in Section 1.2 to be satisfied unless the underlying Company Material Adverse Effect or material breach would independently result in the failure of a condition set forth in Section 1.2 to be satisfied.

3.5 Access, Information and Confidentiality.

(a) From the Signing Date until the date when the Investor holds an amount of Preferred Shares having an aggregate liquidation value of less than 10% of the Purchase Price, the Company will permit the Investor and its agents, consultants, contractors and advisors (x) acting through the Appropriate Federal Banking Agency, or otherwise to the extent necessary to evaluate, manage, or transfer its investment in the Company, to examine the corporate books and make copies thereof and to discuss the affairs, finances and accounts of the Company and the Company Subsidiaries with the principal officers of the Company, all upon reasonable notice and at such reasonable times and as often as the Investor may reasonably request and (y) to review any information material to the Investor's investment in the Company provided by the Company to its Appropriate Federal Banking Agency. Any investigation pursuant to this Section 3.5 shall be conducted during normal business hours and in such manner as not to interfere unreasonably with the conduct of the business of the Company, and nothing herein shall require the Company

or any Company Subsidiary to disclose any information to the Investor to the extent (i) prohibited by applicable law or regulation, or (ii) that such disclosure would reasonably be expected to cause a violation of any agreement to which the Company or any Company Subsidiary is a party or would cause a risk of a loss of privilege to the Company or any Company Subsidiary (*provided* that the Company shall use commercially reasonable efforts to make appropriate substitute disclosure arrangements under circumstances where the restrictions in this clause (ii) apply).

(b) From the Signing Date until the date on which all of the Preferred Shares and Warrant Shares have been redeemed in whole, the Company will deliver, or will cause to be delivered, to the Investor:

“THE SECURITIES REPRESENTED BY THIS INSTRUMENT ARE NOT SAVINGS ACCOUNTS, DEPOSITS OR OTHER OBLIGATIONS OF A BANK AND ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENTAL AGENCY.

THE SECURITIES REPRESENTED BY THIS INSTRUMENT HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), OR THE SECURITIES LAWS OF ANY STATE AND MAY NOT BE TRANSFERRED, SOLD OR OTHERWISE DISPOSED OF EXCEPT WHILE A REGISTRATION STATEMENT RELATING THERETO IS IN EFFECT UNDER SUCH ACT AND APPLICABLE STATE SECURITIES LAWS OR PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER SUCH ACT OR SUCH LAWS. EACH PURCHASER OF

THE SECURITIES REPRESENTED BY THIS INSTRUMENT IS NOTIFIED THAT THE SELLER MAY BE RELYING ON THE EXEMPTION FROM SECTION 5 OF THE SECURITIES ACT PROVIDED BY RULE 144A THEREUNDER. ANY TRANSFEREE OF THE SECURITIES REPRESENTED BY THIS INSTRUMENT BY ITS ACCEPTANCE HEREOF (1) REPRESENTS THAT IT IS A "QUALIFIED INSTITUTIONAL BUYER" (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT), (2) AGREES THAT IT WILL NOT OFFER, SELL OR OTHERWISE TRANSFER THE SECURITIES REPRESENTED BY THIS INSTRUMENT EXCEPT (A) PURSUANT TO A REGISTRATION STATEMENT WHICH IS THEN EFFECTIVE UNDER THE SECURITIES ACT, (B) FOR SO LONG AS THE SECURITIES REPRESENTED BY THIS INSTRUMENT ARE ELIGIBLE FOR RESALE PURSUANT TO RULE 144A, TO A PERSON IT REASONABLY BELIEVES IS A "QUALIFIED INSTITUTIONAL BUYER" AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT THAT PURCHASES FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER TO WHOM NOTICE IS GIVEN THAT THE TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A, (C) TO THE ISSUER OR (D) PURSUANT TO ANY OTHER AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND (3) AGREES THAT IT WILL GIVE TO EACH PERSON TO WHOM THE SECURITIES REPRESENTED BY THIS INSTRUMENT ARE TRANSFERRED A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND.

THE SECURITIES REPRESENTED BY THIS INSTRUMENT MAY NOT BE SOLD OR OTHERWISE TRANSFERRED EXCEPT IN COMPLIANCE WITH SAID AGREEMENT. ANY SALE OR OTHER TRANSFER NOT IN COMPLIANCE WITH SAID AGREEMENT WILL BE VOID."

(c) In the event that any Purchased Securities or Warrant Shares (i) become registered under the Securities Act or (ii) are eligible to be transferred without restriction in accordance with Rule 144 or another exemption from registration under the Securities Act (other than Rule 144A), the Company shall issue new certificates or other instruments representing such Purchased Securities or Warrant Shares, which shall not contain the applicable legends in Sections 4.2(a) and (b) above; provided that the Investor surrenders to the Company the previously issued certificates or other instruments.

4.3 Certain Transactions. The Company will not merge or consolidate with, or sell, transfer or lease all or substantially all of its property or assets to, any other party unless the successor, transferee or lessee party (or its ultimate parent entity), as the case may be (if not the Company), expressly assumes the due and punctual performance and observance of each and every covenant, agreement and condition of this Agreement to be performed and observed by the Company.

4.4 Transfer of Purchased Securities and Warrant Shares; Restrictions on Exercise of the Warrant. Subject to compliance with applicable securities laws, the Investor shall be permitted to transfer, sell, assign or otherwise dispose of ("Transfer") all or a portion of the

Purchased Securities or Warrant Shares at any time, and the Company shall take all steps as may be reasonably requested by the Investor to facilitate the Transfer of the Purchased Securities and the Warrant Shares; provided that the Investor shall not Transfer any Purchased Securities or Warrant Shares if such transfer would require the Company to be subject to the periodic reporting requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act"). In furtherance of the foregoing, the Company shall provide reasonable cooperation to facilitate any Transfers of the Purchased Securities or Warrant Shares, including, as is reasonable under the circumstances, by furnishing such information concerning the Company and its business as a proposed transferee may reasonably request (including such information as is required by Section 4.5(k)) and making management of the Company reasonably available to respond to questions of a proposed transferee in accordance with customary practice, subject in all cases to the proposed transferee agreeing to a customary confidentiality agreement.

4.5 Registration Rights.

(a) Unless and until the Company becomes subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company shall have no obligation to comply with the provisions of this Section 4.5 (other than Section 4.5(b)(iv)-(vi)); provided that the Company covenants and agrees that it shall comply with this Section 4.5 as soon as practicable after the date that it becomes subject to such reporting requirements.

(b) Registration.

(i) Subject to the terms and conditions of this Agreement, the Company covenants and agrees that as promptly as practicable after the date that the Company becomes subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act (and in any event no later than 30 days thereafter), the Company shall prepare and file with the SEC a Shelf Registration Statement covering all Registrable Securities (or otherwise designate an existing Shelf Registration Statement filed with the SEC to cover the Registrable Securities), and, to the extent the Shelf Registration Statement has not theretofore been declared effective or is not automatically effective upon such filing, the Company shall use reasonable best efforts to cause such Shelf Registration Statement to be declared or become effective and to keep such Shelf Registration Statement continuously effective and in compliance with the Securities Act and usable for resale of such Registrable Securities for a period from the date of its initial effectiveness until such time as there are no Registrable Securities remaining (including by refiling such Shelf Registration Statement (or a new Shelf Registration Statement) if the initial Shelf Registration Statement expires). Notwithstanding the foregoing, if the Company is not eligible to file a registration statement on Form S-3, then the Company shall not be obligated to file a Shelf Registration Statement unless and until requested to do so in writing by the Investor.

(ii) Any registration pursuant to Section 4.5(b)(i) shall be effected by means of a shelf registration on an appropriate form under Rule 415 under the Securities Act (a "*Shelf Registration Statement*"). If the Investor or any other Holder intends to distribute any Registrable Securities by means of an underwritten offering it shall promptly so

advise the Company and the Company shall take all reasonable steps to facilitate such distribution, including the actions required pursuant to Section 4.5(d); *provided* that the Company shall not be required to facilitate an underwritten offering of Registrable Securities unless the expected gross proceeds from such offering exceed (i) 2% of the initial aggregate liquidation preference of the Preferred Shares if such initial aggregate liquidation preference is less than \$2 billion and (ii) \$200 million if the initial aggregate liquidation preference of the Preferred Shares is equal to or greater than \$2 billion. The lead underwriters in any such distribution shall be selected by the Holders of a majority of the Registrable Securities to be distributed; provided that to the extent appropriate and permitted under applicable law, such Holders shall consider the qualifications of any broker-dealer Affiliate of the Company in selecting the lead underwriters in any such distribution.

(iii) The Company shall not be required to effect a registration (including a resale of Registrable Securities from an effective Shelf Registration Statement) or an underwritten offering pursuant to Section 4.5(b): (A) with respect to securities that are not Registrable Securities; or (B) if the Company has notified the Investor and all other Holders that in the good faith judgment of the Board of Directors, it would be materially detrimental to the Company or its security holders for such registration or underwritten offering to be effected at such time, in which event the Company shall have the right to defer such registration for a period of not more than 45 days after receipt of the request of the Investor or any other Holder; provided that such right to delay a registration or underwritten offering shall be exercised by the Company (1) only if the Company has generally exercised (or is concurrently exercising) similar black-out rights against holders of similar securities that have registration rights and (2) not more than three times in any 12-month period and not more than 90 days in the aggregate in any 12-month period.

(iv) If during any period when an effective Shelf Registration Statement is not available, the Company proposes to register any of its equity securities, other than a registration pursuant to Section 4.5(b)(i) or a Special Registration, and the registration form to be filed may be used for the registration or qualification for distribution of Registrable Securities, the Company will give prompt written notice to the Investor and all other Holders of its intention to effect such a registration (but in no event less than ten days prior to the anticipated filing date) and will include in such registration all Registrable Securities with respect to which the Company has received written requests for inclusion therein within ten business days after the date of the Company's notice (a "*Piggyback Registration*"). Any such person that has made such a written request may withdraw its Registrable Securities from such Piggyback Registration by giving written notice to the Company and the managing underwriter, if any, on or before the fifth business day prior to the planned effective date of such Piggyback Registration. The Company may terminate or withdraw any registration under this Section 4.5(b)(iv) prior to the effectiveness of such registration, whether or not Investor or any other Holders have elected to include Registrable Securities in such registration.

(v) If the registration referred to in Section 4.5(b)(iv) is proposed to be underwritten, the Company will so advise Investor and all other Holders as a part of the written notice given pursuant to Section 4.5(b)(iv). In such event, the right of Investor

and all other Holders to registration pursuant to Section 4.5(b) will be conditioned upon such persons' participation in such underwriting and the inclusion of such person's Registrable Securities in the underwriting if such securities are of the same class of securities as the securities to be offered in the underwritten offering, and each such person will (together with the Company and the other persons distributing their securities through such underwriting) enter into an underwriting agreement in customary form with the underwriter or underwriters selected for such underwriting by the Company; provided that the Investor (as opposed to other Holders) shall not be required to indemnify any person in connection with any registration. If any participating person disapproves of the terms of the underwriting, such person may elect to withdraw therefrom by written notice to the Company, the managing underwriters and the Investor (if the Investor is participating in the underwriting).

(vi) If either (x) the Company grants “piggyback” registration rights to one or more third parties to include their securities in an underwritten offering under the Shelf Registration Statement pursuant to Section 4.5(b)(ii) or (y) a Piggyback Registration under Section 4.5(b)(iv) relates to an underwritten offering on behalf of the Company, and in either case the managing underwriters advise the Company that in their reasonable opinion the number of securities requested to be included in such offering exceeds the number which can be sold without adversely affecting the marketability of such offering (including an adverse effect on the per share offering price), the Company will include in such offering only such number of securities that in the reasonable opinion of such managing underwriters can be sold without adversely affecting the marketability of the offering (including an adverse effect on the per share offering price), which securities will be so included in the following order of priority: (A) first, in the case of a Piggyback Registration under Section 4.5(b)(iv), the securities the Company proposes to sell, (B) then the Registrable Securities of the Investor and all other Holders who have requested inclusion of Registrable Securities pursuant to Section 4.5(b)(ii) or Section 4.5(b)(iv), as applicable, *pro rata* on the basis of the aggregate number of such securities or shares owned by each such person and (C) lastly, any other securities of the Company that have been requested to be so included, subject to the terms of this Agreement; *provided*, however, that if the Company has, prior to the Signing Date, entered into an agreement with respect to its securities that is inconsistent with the order of priority contemplated hereby then it shall apply the order of priority in such conflicting agreement to the extent that it would otherwise result in a breach under such agreement.

(c) Expenses of Registration. All Registration Expenses incurred in connection with any registration, qualification or compliance hereunder shall be borne by the Company. All Selling Expenses incurred in connection with any registrations hereunder shall be borne by the holders of the securities so registered *pro rata* on the basis of the aggregate offering or sale price of the securities so registered.

(d) Obligations of the Company. Whenever required to effect the registration of any Registrable Securities or facilitate the distribution of Registrable Securities pursuant to an effective Shelf Registration Statement, the Company shall, as expeditiously as reasonably practicable:

(i) Prepare and file with the SEC a prospectus supplement or post-effective amendment with respect to a proposed offering of Registrable Securities pursuant to an effective registration statement, subject to Section 4.5(d), keep such registration statement effective and keep such prospectus supplement current until the securities described therein are no longer Registrable Securities.

(ii) Prepare and file with the SEC such amendments and supplements to the applicable registration statement and the prospectus or prospectus supplement used in connection with such registration statement as may be necessary to comply with the provisions of the Securities Act with respect to the disposition of all securities covered by such registration statement.

(iii) Furnish to the Holders and any underwriters such number of copies of the applicable registration statement and each such amendment and supplement thereto (including in each case all exhibits) and of a prospectus, including a preliminary prospectus, in conformity with the requirements of the Securities Act, and such other documents as they may reasonably request in order to facilitate the disposition of Registrable Securities owned or to be distributed by them.

(iv) Use its reasonable best efforts to register and qualify the securities covered by such registration statement under such other securities or Blue Sky laws of such jurisdictions as shall be reasonably requested by the Holders or any managing underwriter(s), to keep such registration or qualification in effect for so long as such registration statement remains in effect, and to take any other action which may be reasonably necessary to enable such seller to consummate the disposition in such jurisdictions of the securities owned by such Holder; provided that the Company shall not be required in connection therewith or as a condition thereto to qualify to do business or to file a general consent to service of process in any such states or jurisdictions.

(v) Notify each Holder of Registrable Securities at any time when a prospectus relating thereto is required to be delivered under the Securities Act of the happening of any event as a result of which the applicable prospectus, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading in light of the circumstances then existing.

(vi) Give written notice to the Holders:

(A) when any registration statement filed pursuant to Section 4.5(a) or any amendment thereto has been filed with the SEC (except for any amendment effected by the filing of a document with the SEC pursuant to the Exchange Act) and when such registration statement or any post-effective amendment thereto has become effective;

(B) of any request by the SEC for amendments or supplements to any registration statement or the prospectus included therein or for additional information;

(C) of the issuance by the SEC of any stop order suspending the effectiveness of any registration statement or the initiation of any proceedings for that purpose;

(D) of the receipt by the Company or its legal counsel of any notification with respect to the suspension of the qualification of the applicable Registrable Securities for sale in any jurisdiction or the initiation or threatening of any proceeding for such purpose;

(E) of the happening of any event that requires the Company to make changes in any effective registration statement or the prospectus related to the registration statement in order to make the statements therein not misleading (which notice shall be accompanied by an instruction to suspend the use of the prospectus until the requisite changes have been made); and

(F) if at any time the representations and warranties of the Company contained in any underwriting agreement contemplated by Section 4.5(d)(x) cease to be true and correct.

(vii) Use its reasonable best efforts to prevent the issuance or obtain the withdrawal of any order suspending the effectiveness of any registration statement referred to in Section 4.5(d)(vi)(C) at the earliest practicable time.

(viii) Upon the occurrence of any event contemplated by Section 4.5(d)(v) or 4.5(d)(vi)(E), promptly prepare a post-effective amendment to such registration statement or a supplement to the related prospectus or file any other required document so that, as thereafter delivered to the Holders and any underwriters, the prospectus will not contain an untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. If the Company notifies the Holders in accordance with Section 4.5(d)(vi)(E) to suspend the use of the prospectus until the requisite changes to the prospectus have been made, then the Holders and any underwriters shall suspend use of such prospectus and use their reasonable best efforts to return to the Company all copies of such prospectus (at the Company's expense) other than permanent file copies then in such Holders' or underwriters' possession. The total number of days that any such suspension may be in effect in any 12-month period shall not exceed 90 days.

(ix) Use reasonable best efforts to procure the cooperation of the Company's transfer agent in settling any offering or sale of Registrable Securities, including with respect to the transfer of physical stock certificates into book-entry form in accordance with any procedures reasonably requested by the Holders or any managing underwriter(s).

(x) If an underwritten offering is requested pursuant to Section 4.5(b)(ii), enter into an underwriting agreement in customary form, scope and substance and take all such other actions reasonably requested by the Holders of a majority of the Registrable Securities being sold in connection therewith or by the managing underwriter(s), if any,

to expedite or facilitate the underwritten disposition of such Registrable Securities, and in connection therewith in any underwritten offering (including making members of management and executives of the Company available to participate in “road shows”, similar sales events and other marketing activities), (A) make such representations and warranties to the Holders that are selling stockholders and the managing underwriter(s), if any, with respect to the business of the Company and its subsidiaries, and the Shelf Registration Statement, prospectus and documents, if any, incorporated or deemed to be incorporated by reference therein, in each case, in customary form, substance and scope, and, if true, confirm the same if and when requested, (B) use its reasonable best efforts to furnish the underwriters with opinions of counsel to the Company, addressed to the managing underwriter(s), if any, covering the matters customarily covered in such opinions requested in underwritten offerings, (C) use its reasonable best efforts to obtain “cold comfort” letters from the independent certified public accountants of the Company (and, if necessary, any other independent certified public accountants of any business acquired by the Company for which financial statements and financial data are included in the Shelf Registration Statement) who have certified the financial statements included in such Shelf Registration Statement, addressed to each of the managing underwriter(s), if any, such letters to be in customary form and covering matters of the type customarily covered in “cold comfort” letters, (D) if an underwriting agreement is entered into, the same shall contain indemnification provisions and procedures customary in underwritten offerings (provided that the Investor shall not be obligated to provide any indemnity), and (E) deliver such documents and certificates as may be reasonably requested by the Holders of a majority of the Registrable Securities being sold in connection therewith, their counsel and the managing underwriter(s), if any, to evidence the continued validity of the representations and warranties made pursuant to clause (i) above and to evidence compliance with any customary conditions contained in the underwriting agreement or other agreement entered into by the Company.

(xi) Make available for inspection by a representative of Holders that are selling stockholders, the managing underwriter(s), if any, and any attorneys or accountants retained by such Holders or managing underwriter(s), at the offices where normally kept, during reasonable business hours, financial and other records, pertinent corporate documents and properties of the Company, and cause the officers, directors and employees of the Company to supply all information in each case reasonably requested (and of the type customarily provided in connection with due diligence conducted in connection with a registered public offering of securities) by any such representative, managing underwriter(s), attorney or accountant in connection with such Shelf Registration Statement.

(xii) Use reasonable best efforts to cause all such Registrable Securities to be listed on each national securities exchange on which similar securities issued by the Company are then listed or, if no similar securities issued by the Company are then listed on any national securities exchange, use its reasonable best efforts to cause all such Registrable Securities to be listed on such securities exchange as the Investor may designate.

(xiii) If requested by Holders of a majority of the Registrable Securities being registered and/or sold in connection therewith, or the managing underwriter(s), if any, promptly include in a prospectus supplement or amendment such information as the Holders of a majority of the Registrable Securities being registered and/or sold in connection therewith or managing underwriter(s), if any, may reasonably request in order to permit the intended method of distribution of such securities and make all required filings of such prospectus supplement or such amendment as soon as practicable after the Company has received such request.

(xiv) Timely provide to its security holders earning statements satisfying the provisions of Section 11 (a) of the Securities Act and Rule 158 thereunder.

(e) Suspension of Sales. Upon receipt of written notice from the Company that a registration statement, prospectus or prospectus supplement contains or may contain an untrue statement of a material fact or omits or may omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading or that circumstances exist that make inadvisable use of such registration statement, prospectus or prospectus supplement, the Investor and each Holder of Registrable Securities shall forthwith discontinue disposition of Registrable Securities until the Investor and/or Holder has received copies of a supplemented or amended prospectus or prospectus supplement, or until the Investor and/or such Holder is advised in writing by the Company that the use of the prospectus and, if applicable, prospectus supplement may be resumed, and, if so directed by the Company, the Investor and/or such Holder shall deliver to the Company (at the Company's expense) all copies, other than permanent file copies then in the Investor and/or such Holder's possession, of the prospectus and, if applicable, prospectus supplement covering such Registrable Securities current at the time of receipt of such notice. The total number of days that any such suspension may be in effect in any 12-month period shall not exceed 90 days.

(f) Termination of Registration Rights. A Holder's registration rights as to any securities held by such Holder (and its Affiliates, partners, members and former members) shall not be available unless such securities are Registrable Securities.

(g) Furnishing Information.

(i) Neither the Investor nor any Holder shall use any free writing prospectus (as defined in Rule 405) in connection with the sale of Registrable Securities without the prior written consent of the Company.

(ii) It shall be a condition precedent to the obligations of the Company to take any action pursuant to Section 4.5(d) that Investor and/or the selling Holders and the underwriters, if any, shall furnish to the Company such information regarding themselves, the Registrable Securities held by them and the intended method of disposition of such securities as shall be required to effect the registered offering of their Registrable Securities.

(h) Indemnification.

(i) The Company agrees to indemnify each Holder and, if a Holder is a person other than an individual, such Holder's officers, directors, employees, agents, representatives and Affiliates, and each Person, if any, that controls a Holder within the meaning of the Securities Act (each, an "*Indemnitee*"), against any and all losses, claims, damages, actions, liabilities, costs and expenses (including reasonable fees, expenses and disbursements of attorneys and other professionals incurred in connection with investigating, defending, settling, compromising or paying any such losses, claims, damages, actions, liabilities, costs and expenses), joint or several, arising out of or based upon any untrue statement or alleged untrue statement of material fact contained in any registration statement, including any preliminary prospectus or final prospectus contained therein or any amendments or supplements thereto or any documents incorporated therein by reference or contained in any free writing prospectus (as such term is defined in Rule 405) prepared by the Company or authorized by it in writing for use by such Holder (or any amendment or supplement thereto); or any omission to state therein a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; *provided*, that the Company shall not be liable to such Indemnitee in any such case to the extent that any such loss, claim, damage, liability (or action or proceeding in respect thereof) or expense arises out of or is based upon (A) an untrue statement or omission made in such registration statement, including any such preliminary prospectus or final prospectus contained therein or any such amendments or supplements thereto or contained in any free writing prospectus (as such term is defined in Rule 405) prepared by the Company or authorized by it in writing for use by such Holder (or any amendment or supplement thereto), in reliance upon and in conformity with information regarding such Indemnitee or its plan of distribution or ownership interests which was furnished in writing to the Company by such Indemnitee for use in connection with such registration statement, including any such preliminary prospectus or final prospectus contained therein or any such amendments or supplements thereto, or (B) offers or sales effected by or on behalf of such Indemnitee "by means of (as defined in Rule 159A) a "free writing prospectus" (as defined in Rule 405) that was not authorized in writing by the Company.

(ii) If the indemnification provided for in Section 4.5(h)(i) is unavailable to an Indemnitee with respect to any losses, claims, damages, actions, liabilities, costs or expenses referred to therein or is insufficient to hold the Indemnitee harmless as contemplated therein, then the Company, in lieu of indemnifying such Indemnitee, shall contribute to the amount paid or payable by such Indemnitee as a result of such losses, claims, damages, actions, liabilities, costs or expenses in such proportion as is appropriate to reflect the relative fault of the Indemnitee, on the one hand, and the Company, on the other hand, in connection with the statements or omissions which resulted in such losses, claims, damages, actions, liabilities, costs or expenses as well as any other relevant equitable considerations. The relative fault of the Company, on the one hand, and of the Indemnitee, on the other hand, shall be determined by reference to, among other factors, whether the untrue statement of a material fact or omission to state a material fact relates to information supplied by the Company or by the Indemnitee and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such

statement or omission; the Company and each Holder agree that it would not be just and equitable if contribution pursuant to this Section 4.5(h)(ii) were determined by pro rata allocation or by any other method of allocation that does not take account of the equitable considerations referred to in Section 4.5(h)(i). No Indemnitee guilty of fraudulent misrepresentation (within the meaning of Section 11 (f) of the Securities Act) shall be entitled to contribution from the Company if the Company was not guilty of such fraudulent misrepresentation.

(i) Assignment of Registration Rights. The rights of the Investor to registration of Registrable Securities pursuant to Section 4.5(b) may be assigned by the Investor to a transferee or assignee of Registrable Securities with a liquidation preference or, in the case of the Warrant, the liquidation preference of the underlying shares of Warrant Preferred Stock, no less than an amount equal to (i) 2% of the initial aggregate liquidation preference of the Preferred Shares if such initial aggregate liquidation preference is less than \$2 billion and (ii) \$200 million if the initial aggregate liquidation preference of the Preferred Shares is equal to or greater than \$2 billion; provided, however, the transferor shall, within ten days after such transfer, furnish to the Company written notice of the name and address of such transferee or assignee and the number and type of Registrable Securities that are being assigned.

(j) Clear Market. With respect to any underwritten offering of Registrable Securities by the Investor or other Holders pursuant to this Section 4.5, the Company agrees not to effect (other than pursuant to such registration or pursuant to a Special Registration) any public sale or distribution, or to file any Shelf Registration Statement (other than such registration or a Special Registration) covering any preferred stock of the Company or any securities convertible into or exchangeable or exercisable for preferred stock of the Company, during the period not to exceed ten days prior and 60 days following the effective date of such offering or such longer period up to 90 days as may be requested by the managing underwriter for such underwritten offering. The Company also agrees to cause such of its directors and senior executive officers to execute and deliver customary lock-up agreements in such form and for such time period up to 90 days as may be requested by the managing underwriter. "Special Registration" means the registration of equity securities and/or options or other rights in respect thereof solely registered on Form S4 or Form S-8 (or successor form) or (B) shares of equity securities and/or options or other rights in respect thereof to be offered to directors, members of management, employees, consultants, customers, lenders or vendors of the Company or Company Subsidiaries or in connection with dividend reinvestment plans.

(k) Rule 144; Rule 144A. With a view to making available to the Investor and Holders the benefits of certain rules and regulations of the SEC which may permit the sale of the Registrable Securities to the public without registration, the Company agrees to use its reasonable best efforts to:

(i) make and keep public information available, as those terms are understood and defined in Rule 144(c)(1) or any similar or analogous rule promulgated under the Securities Act, at all times after the Signing Date;

(ii) (A) file with the SEC, in a timely manner, all reports and other documents required of the Company under the Exchange Act, and (B) if at any time the Company is

not required to file such reports, make available, upon the request of any Holder, such information necessary to permit sales pursuant to Rule 144A (including the information required by Rule 144A(d)(4) under the Securities Act);

(iii) so long as the Investor or a Holder owns any Registrable Securities, furnish to the Investor or such Holder forthwith upon request: a written statement by the Company as to its compliance with the reporting requirements of Rule 144 under the Securities Act, and of the Exchange Act; a copy of the most recent annual or quarterly report of the Company; and such other reports and documents as the Investor or Holder may reasonably request in availing itself of any rule or regulation of the SEC allowing it to sell any such securities to the public without registration; and

(iv) take such further action as any Holder may reasonably request, all to the extent required from time to time to enable such Holder to sell Registrable Securities without registration under the Securities Act.

(l) As used in this Section 4.5, the following terms shall have the following respective meanings:

(n) Specific Performance. The parties hereto acknowledge that there would be no adequate remedy at law if the Company fails to perform any of its obligations under this Section 4.5 and that the Investor and the Holders from time to time may be irreparably harmed by any such failure, and accordingly agree that the Investor and such Holders, in addition to any other remedy to which they may be entitled at law or in equity, to the fullest extent permitted and enforceable under applicable law shall be entitled to compel specific performance of the obligations of the Company under this Section 4.5 in accordance with the terms and conditions of this Section 4.5.

(o) No Inconsistent Agreements. The Company shall not, on or after the Signing Date, enter into any agreement with respect to its securities that may impair the rights granted to the Investor and the Holders under this Section 4.5 or that otherwise conflicts with the provisions hereof in any manner that may impair the rights granted to the Investor and the Holders under this Section 4.5. Section 3. Dividends.

(a) Rate. Holders of Designated Preferred Stock shall be entitled to receive, on each share of Designated Preferred Stock if, as and when declared by the Board of Directors or any duly authorized committee of the Board of Directors, but only out of assets legally available therefor, cumulative cash dividends with respect to each Dividend Period (as defined below) at a rate per annum equal to the Applicable Dividend Rate on (i) the Liquidation Amount per share of Designated Preferred Stock and (ii) the amount of accrued and unpaid dividends for any prior Dividend Period on such share of Designated Preferred Stock, if any. Such dividends shall begin to accrue and be cumulative from the Original Issue Date, shall compound on each subsequent Dividend Payment Date (*i.e.*, no dividends shall accrue on other dividends unless and until the first Dividend Payment Date for such other dividends has passed without such other dividends having been paid on such date) and shall be payable quarterly in arrears on each Dividend Payment Date, commencing with the first such Dividend Payment Date to occur at least 20 calendar days after the Original Issue Date. In the event that any Dividend Payment Date would otherwise fall on a day that is not a Business Day, the dividend payment due on that date will be postponed to the next day that is a Business Day and no additional dividends will accrue as a result of that postponement. The period from and including any Dividend Payment Date to, but excluding, the next Dividend Payment Date is a “Dividend Period”, provided that the initial

Dividend Period shall be the period from and including the Original Issue Date to, but excluding, the next Dividend Payment Date.

Dividends that are payable on Designated Preferred Stock in respect of any Dividend Period shall be computed on the basis of a 360-day year consisting of twelve 30-day months. The amount of dividends payable on Designated Preferred Stock on any date prior to the end of a Dividend Period, and for the initial Dividend Period, shall be computed on the basis of a 360-day year consisting of twelve 30-day months, and actual days elapsed over a 30-day month.

Dividends that are payable on Designated Preferred Stock on any Dividend Payment Date will be payable to holders of record of Designated Preferred Stock as they appear on the stock register of the Issuer on the applicable record date, which shall be the 15th calendar day immediately preceding such Dividend Payment Date or such other record date fixed by the Board of Directors or any duly authorized committee of the Board of Directors that is not more than 60 nor less than 10 days prior to such Dividend Payment Date (each, a “Dividend Record Date”). Any such day that is a Dividend Record Date shall be a Dividend Record Date whether or not such day is a Business Day.

Holders of Designated Preferred Stock shall not be entitled to any dividends, whether payable in cash, securities or other property, other than dividends (if any) declared and payable on Designated Preferred Stock as specified in this Section 3 (subject to the other provisions of the Certificate of Designations).

(b) Priority of Dividends. So long as any share of Designated Preferred Stock remains outstanding, no dividend or distribution shall be declared or paid on the Common Stock or any other shares of Junior Stock (other than dividends payable solely in shares of Common Stock) or Parity Stock, subject to the immediately following paragraph in the case of Parity Stock, and no Common Stock, Junior Stock or Parity Stock shall be, directly or indirectly, purchased, redeemed or otherwise acquired for consideration by the Issuer or any of its subsidiaries unless all accrued and unpaid dividends for all past Dividend Periods, including the latest completed Dividend Period (including, if applicable as provided in Section 3(a) above, dividends on such amount), on all outstanding shares of Designated Preferred Stock have been or are contemporaneously declared and paid in full (or have been declared and a sum sufficient for the payment thereof has been set aside for the benefit of the holders of shares of Designated Preferred Stock on the applicable record date). The foregoing limitation shall not apply to (i) redemptions, purchases or other acquisitions of shares of Common Stock or other Junior Stock in connection with the administration of any employee benefit plan in the ordinary course of business and consistent with past practice; (ii) the acquisition by the Issuer or any of its subsidiaries of record ownership in Junior Stock or Parity Stock for the beneficial ownership of any other persons (other than the Issuer or any of its subsidiaries), including as trustees or custodians; and (iii) the exchange or conversion of Junior Stock for or into other Junior Stock or of Parity Stock for or into other Parity Stock (with the same or lesser aggregate liquidation amount) or Junior Stock, in each case, solely to the extent required pursuant to binding contractual agreements entered into prior to the Signing Date or any subsequent agreement for the accelerated exercise, settlement or exchange thereof for Common Stock.

When dividends are not paid (or declared and a sum sufficient for payment thereof set aside for the benefit of the holders thereof on the applicable record date) on any Dividend Payment Date (or, in the case of Parity Stock having dividend payment dates different from the Dividend Payment Dates, on a dividend payment date falling within a Dividend Period related to such Dividend Payment Date) in full upon Designated Preferred Stock and any shares of Parity Stock, all dividends declared on Designated Preferred Stock and all such Parity Stock and payable on such Dividend Payment Date (or, in the case of Parity Stock having dividend payment dates different from the Dividend Payment Dates, on a dividend payment date falling within the Dividend Period related to such Dividend Payment Date) shall be declared *pro rata* so that the respective amounts of such dividends declared shall bear the same ratio to each other as all accrued and unpaid dividends per share on the shares of Designated Preferred Stock (including, if applicable as provided in Section 3(a) above, dividends on such amount) and all Parity Stock payable on such Dividend Payment Date (or, in the case of Parity Stock having dividend payment dates different from the Dividend Payment Dates, on a dividend payment date falling within the Dividend Period related to such Dividend Payment Date) (subject to their having been declared by the Board of Directors or a duly authorized committee of the Board of Directors out of legally available funds and including, in the case of Parity Stock that bears cumulative dividends, all accrued but unpaid dividends) bear to each other. If the Board of Directors or a duly authorized committee of the Board of Directors determines not to pay any dividend or a full dividend on a Dividend Payment Date, the Issuer will provide written notice to the holders of Designated Preferred Stock prior to such Dividend Payment Date.

Subject to the foregoing, and not otherwise, such dividends (payable in cash, securities or other property) as may be determined by the Board of Directors or any duly authorized committee of the Board of Directors may be declared and paid on any securities, including Common Stock and other Junior Stock, from time to time out of any funds legally available for such payment, and holders of Designated Preferred Stock shall not be entitled to participate in any such dividends.

Section 4. Liquidation Rights.

(a) Voluntary or Involuntary Liquidation. In the event of any liquidation, dissolution or winding up of the affairs of the Issuer, whether voluntary or involuntary, holders of Designated Preferred Stock shall be entitled to receive for each share of Designated Preferred Stock, out of the assets of the Issuer or proceeds thereof (whether capital or surplus) available for distribution to stockholders of the Issuer, subject to the rights of any creditors of the Issuer, before any distribution of such assets or proceeds is made to or set aside for the holders of Common Stock and any other stock of the Issuer ranking junior to Designated Preferred Stock as to such distribution, payment in full in an amount equal to the sum of (i) the Liquidation Amount per share and (ii) the amount of any accrued and unpaid dividends (including, if applicable as provided in Section 3(a) above, dividends on such amount), whether or not declared, to the date of payment (such amounts collectively, the "Liquidation Preference").

(b) Partial Payment. If in any distribution described in Section 4(a) above the assets of the Issuer or proceeds thereof are not sufficient to pay in full the amounts payable with respect to all outstanding shares of Designated Preferred Stock and the corresponding amounts payable with respect of any other stock of the Issuer ranking equally with Designated Preferred Stock as

to such distribution, holders of Designated Preferred Stock and the holders of such other stock shall share ratably in any such distribution in proportion to the full respective distributions to which they are entitled.

(c) Residual Distributions. If the Liquidation Preference has been paid in full to all holders of Designated Preferred Stock and the corresponding amounts payable with respect of any other stock of the Issuer ranking equally with Designated Preferred Stock as to such distribution has been paid in full, the holders of other stock of the Issuer shall be entitled to receive all remaining assets of the Issuer (or proceeds thereof) according to their respective rights and preferences.

(d) Merger, Consolidation and Sale of Assets Not Liquidation. For purposes of this Section 4, the merger or consolidation of the Issuer with any other corporation or other entity, including a merger or consolidation in which the holders of Designated Preferred Stock receive cash, securities or other property for their shares, or the sale, lease or exchange (for cash, securities or other property) of all or substantially all of the assets of the Issuer, shall not constitute a liquidation, dissolution or winding up of the Issuer.

Section 5. Redemption.

(a) Optional Redemption. Except as provided below, the Designated Preferred Stock may not be redeemed prior to the first Dividend Payment Date falling on or after the third anniversary of the Original Issue Date. On or after the first Dividend Payment Date falling on or after the third anniversary of the Original Issue Date, the Issuer, at its option, subject to the approval of the Appropriate Federal Banking Agency, may redeem, in whole or in part, at any time and from time to time, out of funds legally available therefor, the shares of Designated Preferred Stock at the time outstanding, upon notice given as provided in Section 5(c) below, at a redemption price equal to the sum of (i) the Liquidation Amount per share and (ii) except as otherwise provided below, any accrued and unpaid dividends (including, if applicable as provided in Section 3(a) above, dividends on such amount) (regardless of whether any dividends are actually declared) to, but excluding, the date fixed for redemption.

Notwithstanding the foregoing, prior to the first Dividend Payment Date falling on or after the third anniversary of the Original Issue Date, the Issuer, at its option, subject to the approval of the Appropriate Federal Banking Agency, may redeem, in whole or in part, at any time and from time to time, the shares of Designated Preferred Stock at the time outstanding, upon notice given as provided in Section 5(c) below, at a redemption price equal to the sum of (i) the Liquidation Amount per share and (ii) except as otherwise provided below, any accrued and unpaid dividends (including, if applicable as provided in Section 3(a) above, dividends on such amount) (regardless of whether any dividends are actually declared) to, but excluding, the date fixed for redemption; *provided* that (x) the Issuer (or any successor by Business Combination) has received aggregate gross proceeds of not less than the Minimum Amount (plus the "Minimum Amount" as defined in the relevant certificate of designations for each other outstanding series of preferred stock of such successor that was originally issued to the United States Department of the Treasury (the "Successor Preferred Stock") in connection with the Troubled Asset Relief Program Capital Purchase Program) from one or more Qualified Equity Offerings (including Qualified Equity Offerings of such successor), and (y) the aggregate

redemption price of the Designated Preferred Stock (and any Successor Preferred Stock) redeemed pursuant to this paragraph may not exceed the aggregate net cash proceeds received by the Issuer (or any successor by Business Combination) from such Qualified Equity Offerings (including Qualified Equity Offerings of such successor).

The redemption price for any shares of Designated Preferred Stock shall be payable on the redemption date to the holder of such shares against surrender of the certificate(s) evidencing such shares to the Issuer or its agent. Any declared but unpaid dividends payable on a redemption date that occurs subsequent to the Dividend Record Date for a Dividend Period shall not be paid to the holder entitled to receive the redemption price on the redemption date, but rather shall be paid to the holder of record of the redeemed shares on such Dividend Record Date relating to the Dividend Payment Date as provided in Section 3 above.

(b) No Sinking Fund. The Designated Preferred Stock will not be subject to any mandatory redemption, sinking fund or other similar provisions. Holders of Designated Preferred Stock will have no right to require redemption or repurchase of any shares of Designated Preferred Stock.

(c) Notice of Redemption. Notice of every redemption of shares of Designated Preferred Stock shall be given by first class mail, postage prepaid, addressed to the holders of record of the shares to be redeemed at their respective last addresses appearing on the books of the Issuer. Such mailing shall be at least 30 days and not more than 60 days before the date fixed for redemption. Any notice mailed as provided in this Subsection shall be conclusively presumed to have been duly given, whether or not the holder receives such notice, but failure duly to give such notice by mail, or any defect in such notice or in the mailing thereof, to any holder of shares of Designated Preferred Stock designated for redemption shall not affect the validity of the proceedings for the redemption of any other shares of Designated Preferred Stock. Notwithstanding the foregoing, if shares of Designated Preferred Stock are issued in book-entry form through The Depository Trust Company or any other similar facility, notice of redemption may be given to the holders of Designated Preferred Stock at such time and in any manner permitted by such facility. Each notice of redemption given to a holder shall state: (1) the redemption date; (2) the number of shares of Designated Preferred Stock to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder; (3) the redemption price; and (4) the place or places where certificates for such shares are to be surrendered for payment of the redemption price.

(d) Partial Redemption. In case of any redemption of part of the shares of Designated Preferred Stock at the time outstanding, the shares to be redeemed shall be selected either *pro rata* or in such other manner as the Board of Directors or a duly authorized committee thereof may determine to be fair and equitable. Subject to the provisions hereof, the Board of Directors or a duly authorized committee thereof shall have full power and authority to prescribe the terms and conditions upon which shares of Designated Preferred Stock shall be redeemed from time to time. If fewer than all the shares represented by any certificate are redeemed, a new certificate shall be issued representing the unredeemed shares without charge to the holder thereof.

(e) Effectiveness of Redemption. If notice of redemption has been duly given and if on or before the redemption date specified in the notice all funds necessary for the redemption

have been deposited by the Issuer, in trust for the *pro rata* benefit of the holders of the shares called for redemption, with a bank or trust company doing business in the Borough of Manhattan, The City of New York, and having a capital and surplus of at least \$500 million and selected by the Board of Directors, so as to be and continue to be available solely therefor, then, notwithstanding that any certificate for any share so called for redemption has not been surrendered for cancellation, on and after the redemption date dividends shall cease to accrue on all shares so called for redemption, all shares so called for redemption shall no longer be deemed outstanding and all rights with respect to such shares shall forthwith on such redemption date cease and terminate, except only the right of the holders thereof to receive the amount payable on such redemption from such bank or trust company, without interest. Any funds unclaimed at the end of three years from the redemption date shall, to the extent permitted by law, be released to the Issuer, after which time the holders of the shares so called for redemption shall look only to the Issuer for payment of the redemption price of such shares.

(f) Status of Redeemed Shares. Shares of Designated Preferred Stock that are redeemed, repurchased or otherwise acquired by the Issuer shall revert to authorized but unissued shares of Preferred Stock (*provided* that any such cancelled shares of Designated Preferred Stock may be reissued only as shares of any series of Preferred Stock other than Designated Preferred Stock).

Section 6. Conversion. Holders of Designated Preferred Stock shares shall have no right to exchange or convert such shares into any other securities.

Section 7. Voting Rights.

(a) General. The holders of Designated Preferred Stock shall not have any voting rights except as set forth below or as otherwise from time to time required by law.

(b) Preferred Stock Directors. Whenever, at any time or times, dividends payable on the shares of Designated Preferred Stock have not been paid for an aggregate of six quarterly Dividend Periods or more, whether or not consecutive, the authorized number of directors of the Issuer shall automatically be increased by two and the holders of the Designated Preferred Stock shall have the right, with holders of shares of any one or more other classes or series of Voting Parity Stock outstanding at the time, voting together as a class, to elect two directors (hereinafter the "Preferred Directors" and each a "Preferred Director") to fill such newly created directorships at the Issuer's next annual meeting of stockholders (or at a special meeting called for that purpose prior to such next annual meeting) and at each subsequent annual meeting of stockholders until all accrued and unpaid dividends for all past Dividend Periods, including the latest completed Dividend Period (including, if applicable as provided in Section 3(a) above, dividends on such amount), on all outstanding shares of Designated Preferred Stock have been declared and paid in full at which time such right shall terminate with respect to the Designated Preferred Stock, except as herein or by law expressly provided, subject to reversion in the event of each and every subsequent default of the character above mentioned; *provided* that it shall be a qualification for election for any Preferred Director that the election of such Preferred Director shall not cause the Issuer to violate any corporate governance requirements of any securities exchange or other trading facility on which securities of the Issuer may then be listed or traded that listed or traded companies must have a majority of independent directors. Upon any

termination of the right of the holders of shares of Designated Preferred Stock and Voting Parity Stock as a class to vote for directors as provided above, the Preferred Directors shall cease to be qualified as directors, the term of office of all Preferred Directors then in office shall terminate immediately and the authorized number of directors shall be reduced by the number of Preferred Directors elected pursuant hereto. Any Preferred Director may be removed at any time, with or without cause, and any vacancy created thereby may be filled, only by the affirmative vote of the holders a majority of the shares of Designated Preferred Stock at the time outstanding voting separately as a class together with the holders of shares of Voting Parity Stock, to the extent the voting rights of such holders described above are then exercisable. If the office of any Preferred Director becomes vacant for any reason other than removal from office as aforesaid, the remaining Preferred Director may choose a successor who shall hold office for the unexpired term in respect of which such vacancy occurred.

(c) Class Voting Rights as to Particular Matters. So long as any shares of Designated Preferred Stock are outstanding, in addition to any other vote or consent of stockholders required by law or by the Charter, the vote or consent of the holders of at least 66 2/3% of the shares of Designated Preferred Stock at the time outstanding, voting as a separate class, given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, shall be necessary for effecting or validating:

(i) Authorization of Senior Stock. Any amendment or alteration of the Certificate of Designations for the Designated Preferred Stock or the Charter to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of capital stock of the Issuer ranking senior to Designated Preferred Stock with respect to either or both the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding up of the Issuer;

(ii) Amendment of Designated Preferred Stock. Any amendment, alteration or repeal of any provision of the Certificate of Designations for the Designated Preferred Stock or the Charter (including, unless no vote on such merger or consolidation is required by Section 7(c)(iii) below, any amendment, alteration or repeal by means of a merger, consolidation or otherwise) so as to adversely affect the rights, preferences, privileges or voting powers of the Designated Preferred Stock; or

(iii) Share Exchanges, Reclassifications, Mergers and Consolidations. Any consummation of a binding share exchange or reclassification involving the Designated Preferred Stock, or of a merger or consolidation of the Issuer with another corporation or other entity, unless in each case (x) the shares of Designated Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which the Issuer is not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (y) such shares remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and limitations and restrictions

thereof, of Designated Preferred Stock immediately prior to such consummation, taken as a whole;

provided, however, that for all purposes of this Section 7(c), any increase in the amount of the authorized Preferred Stock, including any increase in the authorized amount of Designated Preferred Stock necessary to satisfy preemptive or similar rights granted by the Issuer to other persons prior to the Signing Date, or the creation and issuance, or an increase in the authorized or issued amount, whether pursuant to preemptive or similar rights or otherwise, of any other series of Preferred Stock, or any securities convertible into or exchangeable or exercisable for any other series of Preferred Stock, ranking equally with and/or junior to Designated Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and the distribution of assets upon liquidation, dissolution or winding up of the Issuer will not be deemed to adversely affect the rights, preferences, privileges or voting powers, and shall not require the affirmative vote or consent of, the holders of outstanding shares of the Designated Preferred Stock.

(d) Changes after Provision for Redemption. No vote or consent of the holders of Designated Preferred Stock shall be required pursuant to Section 7(c) above if, at or prior to the time when any such vote or consent would otherwise be required pursuant to such Section, all outstanding shares of the Designated Preferred Stock shall have been redeemed, or shall have been called for redemption upon proper notice and sufficient funds shall have been deposited in trust for such redemption, in each case pursuant to Section 5 above.

(e) Procedures for Voting and Consents. The rules and procedures for calling and conducting any meeting of the holders of Designated Preferred Stock (including, without limitation, the fixing of a record date in connection therewith), the solicitation and use of proxies at such a meeting, the obtaining of written consents and any other aspect or matter with regard to such a meeting or such consents shall be governed by any rules of the Board of Directors or any duly authorized committee of the Board of Directors, in its discretion, may adopt from time to time, which rules and procedures shall conform to the requirements of the Charter, the Bylaws, and applicable law and the rules of any national securities exchange or other trading facility on which Designated Preferred Stock is listed or traded at the time.

Section 8. Record Holders. To the fullest extent permitted by applicable law, the Issuer and the transfer agent for Designated Preferred Stock may deem and treat the record holder of any share of Designated Preferred Stock as the true and lawful owner thereof for all purposes, and neither the Issuer nor such transfer agent shall be affected by any notice to the contrary.

Section 10. No Preemptive Rights. No share of Designated Preferred Stock shall have any rights of preemption whatsoever as to any securities of the Issuer, or any warrants, rights or options issued or granted with respect thereto, regardless of how such securities, or such warrants, rights or options, may be designated, issued or granted.

Section 11. Replacement Certificates. The Issuer shall replace any mutilated certificate at the holder's expense upon surrender of that certificate to the Issuer. The Issuer shall replace certificates that become destroyed, stolen or lost at the holder's expense upon delivery to the Issuer of reasonably satisfactory evidence that the certificate has been destroyed, stolen or lost, together with any indemnity that may be reasonably required by the Issuer.

Section 3. Dividends.

(a) Rate. Holders of Designated Preferred Stock shall be entitled to receive, on each share of Designated Preferred Stock if, as and when declared by the Board of Directors or any duly authorized committee of the Board of Directors, but only out of assets legally available therefor, cumulative cash dividends with respect to each Dividend Period (as defined below) at a per annum rate of 9.0% on (i) the Liquidation Amount per share of Designated Preferred Stock and (ii) the amount of accrued and unpaid dividends for any prior Dividend Period on such share of Designated Preferred Stock, if any. Such dividends shall begin to accrue and be cumulative from the Original Issue Date, shall compound on each subsequent Dividend Payment Date (*i.e.*, no dividends shall accrue on other dividends unless and until the first Dividend Payment Date for such other dividends has passed without such other dividends having been paid on such date) and shall be payable quarterly in arrears on each Dividend Payment Date, commencing with the first such Dividend Payment Date to occur at least 20 calendar days after the Original Issue Date. In the event that any Dividend Payment Date would otherwise fall on a day that is not a Business Day, the dividend payment due on that date will be postponed to the next day that is a Business Day and no additional dividends will accrue as a result of that postponement. The period from and including any Dividend Payment Date to, but excluding, the next Dividend Payment Date is a “Dividend Period”, provided that the initial Dividend Period shall be the period from and including the Original Issue Date to, but excluding, the next Dividend Payment Date.

Dividends that are payable on Designated Preferred Stock in respect of any Dividend Period shall be computed on the basis of a 360-day year consisting of twelve 30-day months. The amount of dividends payable on Designated Preferred Stock on any date prior to the end of a

Dividend Period, and for the initial Dividend Period, shall be computed on the basis of a 360-day year consisting of twelve 30-day months, and actual days elapsed over a 30-day month.

Dividends that are payable on Designated Preferred Stock on any Dividend Payment Date will be payable to holders of record of Designated Preferred Stock as they appear on the stock register of the Issuer on the applicable record date, which shall be the 15th calendar day immediately preceding such Dividend Payment Date or such other record date fixed by the Board of Directors or any duly authorized committee of the Board of Directors that is not more than 60 nor less than 10 days prior to such Dividend Payment Date (each, a “Dividend Record Date”). Any such day that is a Dividend Record Date shall be a Dividend Record Date whether or not such day is a Business Day.

Holders of Designated Preferred Stock shall not be entitled to any dividends, whether payable in cash, securities or other property, other than dividends (if any) declared and payable on Designated Preferred Stock as specified in this Section 3 (subject to the other provisions of the Certificate of Designations).

(b) Priority of Dividends. So long as any share of Designated Preferred Stock remains outstanding, no dividend or distribution shall be declared or paid on the Common Stock or any other shares of Junior Stock (other than dividends payable solely in shares of Common Stock) or Parity Stock, subject to the immediately following paragraph in the case of Parity Stock, and no Common Stock, Junior Stock or Parity Stock shall be, directly or indirectly, purchased, redeemed or otherwise acquired for consideration by the Issuer or any of its subsidiaries unless all accrued and unpaid dividends for all past Dividend Periods, including the latest completed Dividend Period (including, if applicable as provided in Section 3(a) above, dividends on such amount), on all outstanding shares of Designated Preferred Stock have been or are contemporaneously declared and paid in full (or have been declared and a sum sufficient for the payment thereof has been set aside for the benefit of the holders of shares of Designated Preferred Stock on the applicable record date). The foregoing limitation shall not apply to (i) redemptions, purchases or other acquisitions of shares of Common Stock or other Junior Stock in connection with the administration of any employee benefit plan in the ordinary course of business and consistent with past practice; (ii) the acquisition by the Issuer or any of its subsidiaries of record ownership in Junior Stock or Parity Stock for the beneficial ownership of any other persons (other than the Issuer or any of its subsidiaries), including as trustees or custodians; and (iii) the exchange or conversion of Junior Stock for or into other Junior Stock or of Parity Stock for or into other Parity Stock (with the same or lesser aggregate liquidation amount) or Junior Stock, in each case, solely to the extent required pursuant to binding contractual agreements entered into prior to the Signing Date or any subsequent agreement for the accelerated exercise, settlement or exchange thereof for Common Stock.

When dividends are not paid (or declared and a sum sufficient for payment thereof set aside for the benefit of the holders thereof on the applicable record date) on any Dividend Payment Date (or, in the case of Parity Stock having dividend payment dates different from the Dividend Payment Dates, on a dividend payment date falling within a Dividend Period related to such Dividend Payment Date) in full upon Designated Preferred Stock and any shares of Parity Stock, all dividends declared on Designated Preferred Stock and all such Parity Stock and payable on such Dividend Payment Date (or, in the case of Parity Stock having dividend

payment dates different from the Dividend Payment Dates, on a dividend payment date falling within the Dividend Period related to such Dividend Payment Date) shall be declared *pro rata* so that the respective amounts of such dividends declared shall bear the same ratio to each other as all accrued and unpaid dividends per share on the shares of Designated Preferred Stock (including, if applicable as provided in Section 3(a) above, dividends on such amount) and all Parity Stock payable on such Dividend Payment Date (or, in the case of Parity Stock having dividend payment dates different from the Dividend Payment Dates, on a dividend payment date falling within the Dividend Period related to such Dividend Payment Date) (subject to their having been declared by the Board of Directors or a duly authorized committee of the Board of Directors out of legally available funds and including, in the case of Parity Stock that bears cumulative dividends, all accrued but unpaid dividends) bear to each other. If the Board of Directors or a duly authorized committee of the Board of Directors determines not to pay any dividend or a full dividend on a Dividend Payment Date, the Issuer will provide written notice to the holders of Designated Preferred Stock prior to such Dividend Payment Date.

Subject to the foregoing, and not otherwise, such dividends (payable in cash, securities or other property) as may be determined by the Board of Directors or any duly authorized committee of the Board of Directors may be declared and paid on any securities, including Common Stock and other Junior Stock, from time to time out of any funds legally available for such payment, and holders of Designated Preferred Stock shall not be entitled to participate in any such dividends.

Section 4. Liquidation Rights.

(a) Voluntary or Involuntary Liquidation. In the event of any liquidation, dissolution or winding up of the affairs of the Issuer, whether voluntary or involuntary, holders of Designated Preferred Stock shall be entitled to receive for each share of Designated Preferred Stock, out of the assets of the Issuer or proceeds thereof (whether capital or surplus) available for distribution to stockholders of the Issuer, subject to the rights of any creditors of the Issuer, before any distribution of such assets or proceeds is made to or set aside for the holders of Common Stock and any other stock of the Issuer ranking junior to Designated Preferred Stock as to such distribution, payment in full in an amount equal to the sum of (i) the Liquidation Amount per share and (ii) the amount of any accrued and unpaid dividends (including, if applicable as provided in Section 3(a) above, dividends on such amount), whether or not declared, to the date of payment (such amounts collectively, the "Liquidation Preference").

(b) Partial Payment. If in any distribution described in Section 4(a) above the assets of the Issuer or proceeds thereof are not sufficient to pay in full the amounts payable with respect to all outstanding shares of Designated Preferred Stock and the corresponding amounts payable with respect of any other stock of the Issuer ranking equally with Designated Preferred Stock as to such distribution, holders of Designated Preferred Stock and the holders of such other stock shall share ratably in any such distribution in proportion to the full respective distributions to which they are entitled.

(c) Residual Distributions. If the Liquidation Preference has been paid in full to all holders of Designated Preferred Stock and the corresponding amounts payable with respect of any other stock of the Issuer ranking equally with Designated Preferred Stock as to such

distribution has been paid in full, the holders of other stock of the Issuer shall be entitled to receive all remaining assets of the Issuer (or proceeds thereof) according to their respective rights and preferences.

(d) Merger, Consolidation and Sale of Assets Not Liquidation. For purposes of this Section 4, the merger or consolidation of the Issuer with any other corporation or other entity, including a merger or consolidation in which the holders of Designated Preferred Stock receive cash, securities or other property for their shares, or the sale, lease or exchange (for cash, securities or other property) of all or substantially all of the assets of the Issuer, shall not constitute a liquidation, dissolution or winding up of the Issuer.

Section 5. Redemption.

(a) Optional Redemption. Except as provided below, the Designated Preferred Stock may not be redeemed prior to the later of (i) first Dividend Payment Date falling on or after the third anniversary of the Original Issue Date; and (ii) the date on which all outstanding shares of UST Preferred Stock have been redeemed, repurchased or otherwise acquired by the Issuer. On or after the first Dividend Payment Date falling on or after the third anniversary of the Original Issue Date, the Issuer, at its option, subject to the approval of the Appropriate Federal Banking Agency, may redeem, in whole or in part, at any time and from time to time, out of funds legally available therefor, the shares of Designated Preferred Stock at the time outstanding, upon notice given as provided in Section 5(c) below, at a redemption price equal to the sum of (i) the Liquidation Amount per share and (ii) except as otherwise provided below, any accrued and unpaid dividends (including, if applicable as provided in Section 3(a) above, dividends on such amount) (regardless of whether any dividends are actually declared) to, but excluding, the date fixed for redemption.

Notwithstanding the foregoing, prior to the first Dividend Payment Date falling on or after the third anniversary of the Original Issue Date, the Issuer, at its option, subject to the approval of the Appropriate Federal Banking Agency and subject to the requirement that all outstanding shares of UST Preferred Stock shall previously have been redeemed, repurchased or otherwise acquired by the Issuer, may redeem, in whole or in part, at any time and from time to time, the shares of Designated Preferred Stock at the time outstanding, upon notice given as provided in Section 5(c) below, at a redemption price equal to the sum of (i) the Liquidation Amount per share and (ii) except as otherwise provided below, any accrued and unpaid dividends (including, if applicable as provided in Section 3(a) above, dividends on such amount) (regardless of whether any dividends are actually declared) to, but excluding, the date fixed for redemption; *provided* that (x) the Issuer (or any successor by Business Combination) has received aggregate gross proceeds of not less than the Minimum Amount (plus the “Minimum Amount” as defined in the relevant certificate of designations for each other outstanding series of preferred stock of such successor that was originally issued to the United States Department of the Treasury (the “Successor Preferred Stock”) in connection with the Troubled Asset Relief Program Capital Purchase Program) from one or more Qualified Equity Offerings (including Qualified Equity Offerings of such successor), and (y) the aggregate redemption price of the Designated Preferred Stock (and any Successor Preferred Stock) redeemed pursuant to this paragraph may not exceed the aggregate net cash proceeds received by the Issuer (or any

successor by Business Combination) from such Qualified Equity Offerings (including Qualified Equity Offerings of such successor).

The redemption price for any shares of Designated Preferred Stock shall be payable on the redemption date to the holder of such shares against surrender of the certificate(s) evidencing such shares to the Issuer or its agent. Any declared but unpaid dividends payable on a redemption date that occurs subsequent to the Dividend Record Date for a Dividend Period shall not be paid to the holder entitled to receive the redemption price on the redemption date, but rather shall be paid to the holder of record of the redeemed shares on such Dividend Record Date relating to the Dividend Payment Date as provided in Section 3 above.

(b) No Sinking Fund. The Designated Preferred Stock will not be subject to any mandatory redemption, sinking fund or other similar provisions. Holders of Designated Preferred Stock will have no right to require redemption or repurchase of any shares of Designated Preferred Stock.

(c) Notice of Redemption. Notice of every redemption of shares of Designated Preferred Stock shall be given by first class mail, postage prepaid, addressed to the holders of record of the shares to be redeemed at their respective last addresses appearing on the books of the Issuer. Such mailing shall be at least 30 days and not more than 60 days before the date fixed for redemption. Any notice mailed as provided in this Subsection shall be conclusively presumed to have been duly given, whether or not the holder receives such notice, but failure duly to give such notice by mail, or any defect in such notice or in the mailing thereof, to any holder of shares of Designated Preferred Stock designated for redemption shall not affect the validity of the proceedings for the redemption of any other shares of Designated Preferred Stock. Notwithstanding the foregoing, if shares of Designated Preferred Stock are issued in book-entry form through The Depository Trust Company or any other similar facility, notice of redemption may be given to the holders of Designated Preferred Stock at such time and in any manner permitted by such facility. Each notice of redemption given to a holder shall state: (1) the redemption date; (2) the number of shares of Designated Preferred Stock to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder; (3) the redemption price; and (4) the place or places where certificates for such shares are to be surrendered for payment of the redemption price.

(d) Partial Redemption. In case of any redemption of part of the shares of Designated Preferred Stock at the time outstanding, the shares to be redeemed shall be selected either *pro rata* or in such other manner as the Board of Directors or a duly authorized committee thereof may determine to be fair and equitable. Subject to the provisions hereof, the Board of Directors or a duly authorized committee thereof shall have full power and authority to prescribe the terms and conditions upon which shares of Designated Preferred Stock shall be redeemed from time to time. If fewer than all the shares represented by any certificate are redeemed, a new certificate shall be issued representing the unredeemed shares without charge to the holder thereof.

(e) Effectiveness of Redemption. If notice of redemption has been duly given and if on or before the redemption date specified in the notice all funds necessary for the redemption have been deposited by the Issuer, in trust for the *pro rata* benefit of the holders of the shares called for redemption, with a bank or trust company doing business in the Borough of

Manhattan, The City of New York, and having a capital and surplus of at least \$500 million and selected by the Board of Directors, so as to be and continue to be available solely therefor, then, notwithstanding that any certificate for any share so called for redemption has not been surrendered for cancellation, on and after the redemption date dividends shall cease to accrue on all shares so called for redemption, all shares so called for redemption shall no longer be deemed outstanding and all rights with respect to such shares shall forthwith on such redemption date cease and terminate, except only the right of the holders thereof to receive the amount payable on such redemption from such bank or trust company, without interest. Any funds unclaimed at the end of three years from the redemption date shall, to the extent permitted by law, be released to the Issuer, after which time the holders of the shares so called for redemption shall look only to the Issuer for payment of the redemption price of such shares.

(f) Status of Redeemed Shares. Shares of Designated Preferred Stock that are redeemed, repurchased or otherwise acquired by the Issuer shall revert to authorized but unissued shares of Preferred Stock (*provided* that any such cancelled shares of Designated Preferred Stock may be reissued only as shares of any series of Preferred Stock other than Designated Preferred Stock).

Section 6. Conversion. Holders of Designated Preferred Stock shares shall have no right to exchange or convert such shares into any other securities.

Section 7. Voting Rights.

(a) General. The holders of Designated Preferred Stock shall not have any voting rights except as set forth below or as otherwise from time to time required by law.

(b) Preferred Stock Directors. Whenever, at any time or times, dividends payable on the shares of Designated Preferred Stock have not been paid for an aggregate of six quarterly Dividend Periods or more, whether or not consecutive, the authorized number of directors of the Issuer shall automatically be increased by two and the holders of the Designated Preferred Stock shall have the right, with holders of shares of any one or more other classes or series of Voting Parity Stock outstanding at the time, voting together as a class, to elect two directors (hereinafter the "Preferred Directors" and each a "Preferred Director") to fill such newly created directorships at the Issuer's next annual meeting of stockholders (or at a special meeting called for that purpose prior to such next annual meeting) and at each subsequent annual meeting of stockholders until all accrued and unpaid dividends for all past Dividend Periods, including the latest completed Dividend Period (including, if applicable as provided in Section 3(a) above, dividends on such amount), on all outstanding shares of Designated Preferred Stock have been declared and paid in full at which time such right shall terminate with respect to the Designated Preferred Stock, except as herein or by law expressly provided, subject to revesting in the event of each and every subsequent default of the character above mentioned; *provided* that it shall be a qualification for election for any Preferred Director that the election of such Preferred Director shall not cause the Issuer to violate any corporate governance requirements of any securities exchange or other trading facility on which securities of the Issuer may then be listed or traded that listed or traded companies must have a majority of independent directors. Upon any termination of the right of the holders of shares of Designated Preferred Stock and Voting Parity Stock as a class to vote for directors as provided above, the Preferred Directors shall cease to be

qualified as directors, the term of office of all Preferred Directors then in office shall terminate immediately and the authorized number of directors shall be reduced by the number of Preferred Directors elected pursuant hereto. Any Preferred Director may be removed at any time, with or without cause, and any vacancy created thereby may be filled, only by the affirmative vote of the holders a majority of the shares of Designated Preferred Stock at the time outstanding voting separately as a class together with the holders of shares of Voting Parity Stock, to the extent the voting rights of such holders described above are then exercisable. If the office of any Preferred Director becomes vacant for any reason other than removal from office as aforesaid, the remaining Preferred Director may choose a successor who shall hold office for the unexpired term in respect of which such vacancy occurred.

(c) Class Voting Rights as to Particular Matters. So long as any shares of Designated Preferred Stock are outstanding, in addition to any other vote or consent of stockholders required by law or by the Charter, the vote or consent of the holders of at least 66 2/3% of the shares of Designated Preferred Stock at the time outstanding, voting as a separate class, given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, shall be necessary for effecting or validating:

(i) Authorization of Senior Stock. Any amendment or alteration of the Certificate of Designations for the Designated Preferred Stock or the Charter to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of capital stock of the Issuer ranking senior to Designated Preferred Stock with respect to either or both the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding up of the Issuer;

(ii) Amendment of Designated Preferred Stock. Any amendment, alteration or repeal of any provision of the Certificate of Designations for the Designated Preferred Stock or the Charter (including, unless no vote on such merger or consolidation is required by Section 7(c)(iii) below, any amendment, alteration or repeal by means of a merger, consolidation or otherwise) so as to adversely affect the rights, preferences, privileges or voting powers of the Designated Preferred Stock; or

(iii) Share Exchanges, Reclassifications, Mergers and Consolidations. Any consummation of a binding share exchange or reclassification involving the Designated Preferred Stock, or of a merger or consolidation of the Issuer with another corporation or other entity, unless in each case (x) the shares of Designated Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which the Issuer is not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (y) such shares remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of Designated Preferred Stock immediately prior to such consummation, taken as a whole;

provided, however, that for all purposes of this Section 7(c), any increase in the amount of the authorized Preferred Stock, including any increase in the authorized amount of Designated Preferred Stock necessary to satisfy preemptive or similar rights granted by the Issuer to other persons prior to the Signing Date, or the creation and issuance, or an increase in the authorized or issued amount, whether pursuant to preemptive or similar rights or otherwise, of any other series of Preferred Stock, or any securities convertible into or exchangeable or exercisable for any other series of Preferred Stock, ranking equally with and/or junior to Designated Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and the distribution of assets upon liquidation, dissolution or winding up of the Issuer will not be deemed to adversely affect the rights, preferences, privileges or voting powers, and shall not require the affirmative vote or consent of, the holders of outstanding shares of the Designated Preferred Stock.

(d) Changes after Provision for Redemption. No vote or consent of the holders of Designated Preferred Stock shall be required pursuant to Section 7(c) above if, at or prior to the time when any such vote or consent would otherwise be required pursuant to such Section, all outstanding shares of the Designated Preferred Stock shall have been redeemed, or shall have been called for redemption upon proper notice and sufficient funds shall have been deposited in trust for such redemption, in each case pursuant to Section 5 above.

(e) Procedures for Voting and Consents. The rules and procedures for calling and conducting any meeting of the holders of Designated Preferred Stock (including, without limitation, the fixing of a record date in connection therewith), the solicitation and use of proxies at such a meeting, the obtaining of written consents and any other aspect or matter with regard to such a meeting or such consents shall be governed by any rules of the Board of Directors or any duly authorized committee of the Board of Directors, in its discretion, may adopt from time to time, which rules and procedures shall conform to the requirements of the Charter, the Bylaws, and applicable law and the rules of any national securities exchange or other trading facility on which Designated Preferred Stock is listed or traded at the time.

Section 8. Record Holders. To the fullest extent permitted by applicable law, the Issuer and the transfer agent for Designated Preferred Stock may deem and treat the record holder of any share of Designated Preferred Stock as the true and lawful owner thereof for all purposes, and neither the Issuer nor such transfer agent shall be affected by any notice to the contrary.

Section 9. Notices. All notices or communications in respect of Designated Preferred Stock shall be sufficiently given if given in writing and delivered in person or by first class mail, postage prepaid, or if given in such other manner as may be permitted in this Certificate of Designations, in the Charter or Bylaws or by applicable law. Notwithstanding the foregoing, if shares of Designated Preferred Stock are issued in book-entry form through The Depository Trust Company or any similar facility, such notices may be given to the holders of Designated Preferred Stock in any manner permitted by such facility.

Section 10. No Preemptive Rights. No share of Designated Preferred Stock shall have any rights of preemption whatsoever as to any securities of the Issuer, or any warrants, rights or options issued or granted with respect thereto, regardless of how such securities, or such warrants, rights or options, may be designated, issued or granted.

The Issuer shall replace certificates that become destroyed, stolen or lost at the holder's expense upon delivery to the Issuer of reasonably satisfactory evidence that the certificate has been destroyed, stolen or lost, together with any indemnity that may be reasonably required by the Issuer.

Section 12. Other Rights. FORM OF WAIVER

In consideration for the benefits I will receive as a result of my employer's participation in the United States Department of the Treasury's TARP Capital Purchase Program, I hereby voluntarily waive any claim against the United States or my employer for any changes to my compensation or benefits that are required to comply with the regulation issued by the Department of the Treasury as published in the Federal Register on October 20, 2008.

I acknowledge that this regulation may require modification of the compensation, bonus, incentive and other benefit plans, arrangements, policies and agreements (including so-called "golden parachute" agreements) that I have with my employer or in which I participate as they relate to the period the United States holds any equity or debt securities of my employer acquired through the TARP Capital Purchase Program.

This waiver includes all claims I may have under the laws of the United States or any state related to the requirements imposed by the aforementioned regulation, including without limitation a claim for any compensation or other payments I would otherwise receive, any challenge to the process by which this regulation was adopted and any tort or constitutional claim about the effect of these regulations on my employment relationship.

FORM OF OPINION

(a) The Company has been duly incorporated and is validly existing as a corporation in good standing under the laws of the state of its incorporation.

(b) The Preferred Shares have been duly and validly authorized, and, when issued and delivered pursuant to the Agreement, the Preferred Shares will be duly and validly issued and fully paid and non-assessable, will not be issued in violation of any preemptive rights, and will rank *pari passu* with or senior to all other series or classes of Preferred Stock issued on the Closing Date with respect to the payment of dividends and the distribution of assets in the event of any dissolution, liquidation or winding up of the Company.

(c) The Warrant has been duly authorized and, when executed and delivered as contemplated by the Agreement, will constitute a valid and legally binding obligation of the Company enforceable against the Company in accordance with its terms, except as the same may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally and general equitable principles, regardless of whether such enforceability is considered in a proceeding at law or in equity.

(d) The shares of Warrant Preferred Stock issuable upon exercise of the Warrant have been duly authorized and reserved for issuance upon exercise of the Warrant and when so issued in accordance with the terms of the Warrant will be validly issued, fully paid and non-assessable, and will rank *pari passu* with or senior to all other series or classes of Preferred Stock, whether or not issued or outstanding, with respect to the payment of dividends and the distribution of assets in the event of any dissolution, liquidation or winding up of the Company.

(e) The Company has the corporate power and authority to execute and deliver the Agreement and the Warrant and to carry out its obligations thereunder (which includes the issuance of the Preferred Shares, Warrant and Warrant Shares).

(f) The execution, delivery and performance by the Company of the Agreement and the Warrant and the consummation of the transactions contemplated thereby have been duly authorized by all necessary corporate action on the part of the Company and its stockholders, and no further approval or authorization is required on the part of the Company.

(g) The Agreement is a valid and binding obligation of the Company enforceable against the Company in accordance with its terms, except as the same may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally and general equitable principles, regardless of whether such enforceability is considered in a proceeding at law or in equity; *provided, however*, such counsel need express no opinion with respect to Section 4.5(h) or the severability provisions of the Agreement insofar as Section 4.5(h) is concerned.

Company, in whole or in part, after the receipt of all applicable Regulatory Approvals, if any, up to an aggregate of the number of fully paid and nonassessable shares of Preferred Stock set forth in Item 7 of Schedule A hereto (the “*Shares*”), at a purchase price per share of Preferred Stock equal to the Exercise Price.

3. Exercise of Warrant; Term. Subject to Section 2, to the extent permitted by applicable laws and regulations, the right to purchase the Shares represented by this Warrant is exercisable, in whole or in part by the Warrantholder, at any time or from time to time after the execution and delivery of this Warrant by the Company on the date hereof, but in no event later than 5:00 p.m., New York City time on the tenth anniversary of the Issue Date (the “*Expiration Time*”), by (A) the surrender of this Warrant and Notice of Exercise annexed hereto, duly completed and executed on behalf of the Warrantholder, at the principal executive office of the Company located at the address set forth in Item 8 of Schedule A hereto (or such other office or agency of the Company in the United States as it may designate by notice in writing to the Warrantholder at the address of the Warrantholder appearing on the books of the Company), and (B) payment of the Exercise Price for the Shares thereby purchased, by having the Company withhold, from the shares of Preferred Stock that would otherwise be delivered to the Warrantholder upon such exercise, shares of Preferred Stock issuable upon exercise of the Warrant with an aggregate Liquidation Amount equal in value to the aggregate Exercise Price as to which this Warrant is so exercised.

If the Warrantholder does not exercise this Warrant in its entirety, the Warrantholder will be entitled to receive from the Company within a reasonable time, and in any event not exceeding three business days, a new warrant in substantially identical form for the purchase of that number of Shares equal to the difference between the number of Shares subject to this Warrant and the number of Shares as to which this Warrant is so exercised. Notwithstanding anything in this Warrant to the contrary, the Warrantholder hereby acknowledges and agrees that its exercise of this Warrant for Shares is subject to the condition that the Warrantholder will have first received any applicable Regulatory Approvals.

4. Issuance of Shares; Authorization. Certificates for Shares issued upon exercise of this Warrant will be issued in such name or names as the Warrantholder may designate and will be delivered to such named Person or Persons within a reasonable time, not to exceed three business days after the date on which this Warrant has been duly exercised in accordance with the terms of this Warrant. The Company hereby represents and warrants that any Shares issued upon the exercise of this Warrant in accordance with the provisions of Section 3 will be duly and validly authorized and issued, fully paid and nonassessable and free from all taxes, liens and charges (other than liens or charges created by the Warrantholder, income and franchise taxes incurred in connection with the exercise of the Warrant or taxes in respect of any transfer occurring contemporaneously therewith). The Company agrees that the Shares so issued will be deemed to have been issued to the Warrantholder as of the close of business on the date on which this Warrant and payment of the Exercise Price are delivered to the Company in accordance with the terms of this Warrant, notwithstanding that the stock transfer books of the Company may then be closed or certificates representing such Shares may not be actually delivered on such date. The Company will at all times reserve and keep available, out of its authorized but unissued preferred stock, solely for the purpose of providing for the exercise of this Warrant, the aggregate number of shares of Preferred Stock then issuable upon exercise of this Warrant at any

time. The Company will use reasonable best efforts to ensure that the Shares may be issued without violation of any applicable law or regulation or of any requirement of any securities exchange on which the Shares are listed or traded.

5. No Rights as Stockholders; Transfer Books. This Warrant does not entitle the Warrantholder to any voting rights or other rights as a stockholder of the Company prior to the date of exercise hereof. The Company will at no time close its transfer books against transfer of this Warrant in any manner which interferes with the timely exercise of this Warrant.

6. Charges, Taxes and Expenses. Issuance of certificates for Shares to the Warrantholder upon the exercise of this Warrant shall be made without charge to the Warrantholder for any issue or transfer tax or other incidental expense in respect of the issuance of such certificates, all of which taxes and expenses shall be paid by the Company.

7. Transfer/Assignment.

(A) Subject to compliance with clause (B) of this Section 7, this Warrant and all rights hereunder are transferable, in whole or in part, upon the books of the Company by the registered holder hereof in person or by duly authorized attorney, and a new warrant shall be made and delivered by the Company, of the same tenor and date as this Warrant but registered in the name of one or more transferees, upon surrender of this Warrant, duly endorsed, to the office or agency of the Company described in Section 3. All expenses (other than stock transfer taxes) and other charges payable in connection with the preparation, execution and delivery of the new warrants pursuant to this Section 7 shall be paid by the Company.

(B) The transfer of the Warrant and the Shares issued upon exercise of the Warrant are subject to the restrictions set forth in Section 4.4 of the Purchase Agreement. If and for so long as required by the Purchase Agreement, this Warrant shall contain the legends as set forth in Section 4.2(a) of the Purchase Agreement.

8. Exchange and Registry of Warrant. This Warrant is exchangeable, upon the surrender hereof by the Warrantholder to the Company, for a new warrant or warrants of like tenor and representing the right to purchase the same aggregate number of Shares. The Company shall maintain a registry showing the name and address of the Warrantholder as the registered holder of this Warrant. This Warrant may be surrendered for exchange or exercise in accordance with its terms, at the office of the Company, and the Company shall be entitled to rely in all respects, prior to written notice to the contrary, upon such registry.

9. Loss, Theft, Destruction or Mutilation of Warrant. Upon receipt by the Company of evidence reasonably satisfactory to it of the loss, theft, destruction or mutilation of this Warrant, and in the case of any such loss, theft or destruction, upon receipt of a bond, indemnity or security reasonably satisfactory to the Company, or, in the case of any such mutilation, upon surrender and cancellation of this Warrant, the Company shall make and deliver, in lieu of such lost, stolen, destroyed or mutilated Warrant, a new Warrant of like tenor and representing the right to purchase the same aggregate number of Shares as provided for in such lost, stolen, destroyed or mutilated Warrant.

10. Saturdays, Sundays, Holidays, etc. If the last or appointed day for the taking of any action or the expiration of any right required or granted herein shall not be a business day, then such action may be taken or such right may be exercised on the next succeeding day that is a business day.

11. Rule 144 Information. The Company covenants that it will use its reasonable best efforts to timely file all reports and other documents required to be filed by it under the Securities Act and the Exchange Act and the rules and regulations promulgated by the SEC thereunder (or, if the Company is not required to file such reports, it will, upon the request of any Warrantholder, make publicly available such information as necessary to permit sales pursuant to Rule 144 under the Securities Act), and it will use reasonable best efforts to take such further action as any Warrantholder may reasonably request, in each case to the extent required from time to time to enable such holder to, if permitted by the terms of this Warrant and the Purchase Agreement, sell this Warrant without registration under the Securities Act within the limitation of the exemptions provided by (A) Rule 144 under the Securities Act, as such rule may be amended from time to time, or (B) any successor rule or regulation hereafter adopted by the SEC. Upon the written request of any Warrantholder, the Company will deliver to such Warrantholder a written statement that it has complied with such requirements.

12. Adjustments and Other Rights. For so long as the Original Warrantholder holds this Warrant or any portion thereof, if any event occurs that, in the good faith judgment of the Board of Directors of the Company, would require adjustment of the Exercise Price or number of Shares into which this Warrant is exercisable in order to fairly and adequately protect the purchase rights of the Warrants in accordance with the essential intent and principles of the Purchase Agreement and this Warrant, then the Board of Directors shall make such adjustments in the application of such provisions, in accordance with such essential intent and principles, as shall be reasonably necessary, in the good faith opinion of the Board of Directors, to protect such purchase rights as aforesaid.

Whenever the Exercise Price or the number of Shares into which this Warrant is exercisable shall be adjusted as provided in this Section 12, the Company shall forthwith file at the principal office of the Company a statement showing in reasonable detail the facts requiring such adjustment and the Exercise Price that shall be in effect and the number of Shares into which this Warrant shall be exercisable after such adjustment, and the Company shall also cause a copy of such statement to be sent by mail, first class postage prepaid, to each Warrantholder at the address appearing in the Company's records.

13. No Impairment. The Company will not, by amendment of its Charter or through any reorganization, transfer of assets, consolidation, merger, dissolution, issue or sale of securities or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms to be observed or performed hereunder by the Company, but will at all times in good faith assist in the carrying out of all the provisions of this Warrant and in taking of all such action as may be necessary or appropriate in order to protect the rights of the Warrantholder.

14. Governing Law. This Warrant will be governed by and construed in accordance with the federal law of the United States if and to the extent such law is applicable, and otherwise in accordance with the laws of the State of New York applicable to contracts made and

to be performed entirely within such State. Each of the Company and the Warrantholder agrees (a) to submit to the exclusive jurisdiction and venue of the United States District Court for the District of Columbia for any civil action, suit or proceeding arising out of or relating to this Warrant or the transactions contemplated hereby, and (b) that notice may be served upon the Company at the address in Section 17 below and upon the Warrantholder at the address for the Warrantholder set forth in the registry maintained by the Company pursuant to Section 8 hereof. To the extent permitted by applicable law, each of the Company and the Warrantholder hereby unconditionally waives trial by jury in any civil legal action or proceeding relating to the Warrant or the transactions contemplated hereby or thereby.

15. Binding Effect. This Warrant shall be binding upon any successors or assigns of the Company.

16. Amendments. This Warrant may be amended and the observance of any term of this Warrant may be waived only with the written consent of the Company and the Warrantholder.

17. Notices. Any notice, request, instruction or other document to be given hereunder by any party to the other will be in writing and will be deemed to have been duly given (a) on the date of delivery if delivered personally, or by facsimile, upon confirmation of receipt, or (b) on the second business day following the date of dispatch if delivered by a recognized next day courier service. All notices hereunder shall be delivered as set forth in Item 9 of Schedule A hereto, or pursuant to such other instructions as may be designated in writing by the party to receive such notice.

18. Entire Agreement. This Warrant, the forms attached hereto and Schedule A hereto (the terms of which are incorporated by reference herein), and the Letter Agreement (including all documents incorporated therein), contain the entire agreement between the parties with respect to the subject matter hereof and supersede all prior and contemporaneous arrangements or undertakings with respect thereto.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Northway is a bank holding company formed in 1997 under the laws of New Hampshire and is registered under the Bank Holding Company Act of 1956. Northway's only business activity has been to own all of the shares of, and provide management, capital and operational support to Northway Bank ("Bank"), formerly known as The Berlin City Bank, and its Delaware statutory business trusts Northway Capital Trust I and Northway Capital Trust II. October 1, 2005 The Berlin City Bank was renamed Northway Bank and The Pemigewasset National Bank of Plymouth, New Hampshire was merged into Northway Bank. The Company's headquarters are in Berlin, New Hampshire. The banking subsidiary is engaged principally in the business of attracting deposits from the general public and investing those deposits in securities, commercial loans, real estate loans, and consumer loans.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in the consolidation.

Northway Capital Trust I and Northway Capital Trust II, subsidiaries of the Company, were formed to sell capital securities to the public through a third party trust pool. In accordance with FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"), these subsidiaries have not been included in the consolidated financial statements.

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry.

In preparing the financial statements, management is required to make estimates and judgments that affect the reported amounts of assets and liabilities as of the dates of the consolidated balance sheets, and income and expense for the periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to change in the near-term relate to the determination of the allowance for loan losses.

Reclassifications

Certain amounts in the prior years' financial statements have been reclassified to conform with the current year's presentation.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and due from banks, interest-bearing deposits, and federal funds sold.

Securities

Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and reported at amortized cost; if debt and equity securities are bought and held principally for the purpose of selling in the near term they would be classified as trading and reported at fair value, with unrealized gains and losses included in earnings; and debt and equity securities not classified as either held-to-maturity or trading are classified as available-for-sale and reported at fair value, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders' equity, net of estimated income taxes. At this time, the Company has not established a trading account.

Premiums and discounts are amortized and accreted primarily on the level yield method over the contractual life of the securities adjusted for expected prepayments.

If a decline in the fair value below the adjusted cost basis of an investment is judged to be other than temporary, the cost basis of the investment is written down to fair value as the new cost basis and the amount of the write-down is included in noninterest expense.

Gains and losses on sales of securities available-for-sale are recognized at the time of the sale on a specific identification basis.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Loans Held-for-Sale

Loans held-for-sale are generally identified as such at origination and are stated at the lower of aggregate cost or market. Market value is based on outstanding investor commitments. When loans are sold, a gain or loss is recognized to the extent that the sale proceeds exceed or are less than the carrying value of the loans. Gains and losses are determined using the specific identification method. All loans sold are without recourse to the Company.

Loans

Loans are carried at the principal amounts outstanding, net of any unearned income or unamortized cost, premiums on originated loans and discounts on acquired loans. Unearned income and unamortized cost includes loan origination fees, net of direct loan origination costs. This income or expense is deferred and recognized as adjustments to loan income over the contractual life of the related notes using a method the result of which approximates that of the interest method.

Loans are placed on nonaccrual when payment of principal or interest is considered to be in doubt or is past due 90 days or more. The Company may choose to place a loan on nonaccrual status due to payment delinquency or uncertain collectibility, while not classifying the loan as impaired, if (i) it is probable that the Company will collect all amounts due in accordance with the contractual terms of the loan or (ii) the loan is not a commercial, commercial real estate or an individually significant mortgage or consumer loan. Previously accrued income on nonaccrual loans that has not been collected is reversed from current income, and subsequent cash receipts are recorded as income if principal on the loans is deemed collectible. Loans are returned to accrual status when collection of all contractual principal and interest is reasonably assured and there has been sustained repayment performance.

The Company's loans are primarily secured by real estate in New Hampshire. In addition, other real estate owned is located in this market. Accordingly, the ultimate collectibility of a substantial portion of the Company's loan portfolio and the recovery of other real estate owned are susceptible to changing conditions in this market.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level considered adequate by management on the basis of many factors including the risk characteristics of the portfolio, trends in loan delinquencies and an assessment of existing economic conditions. Additions to the allowance are charged to earnings; realized losses, net of recoveries, are charged directly to the allowance.

While management uses available information in establishing the allowance for loan losses, future additions to the allowance may be necessary if economic conditions differ substantially from the estimates used in making the evaluations. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Company's allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance based on judgments different from those of management.

Commercial, commercial real estate and individually significant mortgage and consumer loans are considered impaired, and are placed on nonaccrual, when it is probable that the Company will not be able to collect all amounts due according to the contractual terms of the loan agreement. Mortgage and consumer loans, which are not individually significant, are measured for impairment collectively. Loans that experience insignificant payment delays and insignificant shortfalls in payment amounts generally are not classified as impaired. The amount of impairment for all impaired loans is determined by the difference between the present value of the expected cash flows related to the loan, using the original contractual interest rate, and its recorded value, or, as a practical expedient in the case of collateralized loans, the difference between the fair value of the collateral and the recorded amount of the loan.

When foreclosure is probable, impairment is measured based on the fair value of the collateral.

Servicing Assets

Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. Capitalized servicing rights are reported in other assets and are amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets. Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to amortized cost. Impairment is determined by stratifying rights by predominant characteristics, such as interest rates and terms. Fair value is determined using prices for similar assets with similar characteristics, when available, or based upon discounted cash flows using market-based assumptions. Impairment is recognized through a valuation allowance for an individual stratum, to the extent that fair value is less than the capitalized amount for the stratum.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Premises and Equipment

Premises and equipment are carried at cost less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the respective assets. Estimated lives are thirty-nine years for buildings, ten to fifteen years for building improvements and three to seven years for furniture and equipment.

Amortization of leasehold improvements is accumulated on a straight-line basis over the lesser of the term of the respective lease or the asset's useful life, not to exceed ten years.

Other Real Estate Owned

Other real estate owned is comprised of properties acquired either through foreclosure proceedings or acceptance of a deed in lieu of foreclosure, and for which the Company has taken physical possession. The Company classifies loans as repossessed or foreclosed if the Company receives physical possession of the debtor's assets, regardless of whether or not foreclosure proceedings take place.

Assets acquired through foreclosure or a similar conveyance of title are initially recorded at the lower of the carrying value of the loan or the fair value, less estimated costs to sell, of the property constructively or actually received. Gains and losses upon disposition are reflected in the statement of income as realized.

Advertising

The Company directly expenses costs associated with advertising as they are incurred.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and the respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-Based Compensation

At December 31, 2005, the Company has a stock-based employee compensation plan which is described more fully in NOTE 15. The Company accounts for this plan under the recognition and measurement principles of Accounting Principles Board ("APB") Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock on the date of the grant. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), "Share-Based Payment", to stock-based employee compensation.

Earnings Per Share

Basic earnings per share ("EPS") excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS, if applicable, reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Earnings per common share have been computed based on the following:

Recent Accounting Pronouncements

In December 2003, the American Institute of Certified Public Accountants ("AICPA") issued Statement of Position 03-3 ("SOP 03-3") "Accounting for Certain Loans or Debt Securities Acquired in a Transfer." SOP 03-3 requires loans acquired through a transfer, such as a business combination, where there are differences in expected cash flows and contractual cash flows due in part to credit quality be recognized at their fair value. The excess of contractual cash flows over expected cash flows is not to be recognized as an adjustment of yield, loss accrual, or valuation allowance. Valuation allowances cannot be created nor "carried over" in the initial accounting for loans acquired in a transfer on loans subject to SFAS 114, "Accounting by Creditors for Impairment of a Loan." This SOP is effective for loans acquired in fiscal years beginning after December 15, 2004, with early adoption encouraged. The adoption of SOP 03-3 did not have a material impact on the Company's financial position or results of operations.

In December 2004, the FASB issued SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123R"). This Statement revises FASB Statement No. 123, "Accounting for Stock Based Compensation" and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. SFAS 123R requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. It establishes fair value as the measurement objective in accounting for share-based payment arrangements and requires all entities to apply a fair-value based measurement method in accounting for share-based payment transactions with employees except for equity instruments held by employee share ownership plans. This Statement is effective for the Company as of the beginning of the first interim reporting period that begins after December 15, 2005. The Company does not believe the adoption of this Statement will have a material impact on the Company's financial position or results of operations.

NOTE 2 CASH AND DUE FROM BANKS

There was no cash due from banks at December 31, 2005 subject to withdrawals and usage restrictions to satisfy the reserve requirements of the Federal Reserve Bank. At December 31, 2004, there was \$3,753,000, which was subject to withdrawals and usage restrictions to satisfy the reserve requirements of the Federal Reserve Bank.

These securities had an unrealized loss due to the current interest rate environment. As these securities are guaranteed by U.S. government agencies such as FHLB, FHLMC or FNMA there is no credit risk associated with them. These securities are not other-than-temporarily impaired as the Company has the ability and the intent to hold these securities until recovery to cost basis.

Mortgage-backed securities with a fair value of \$23,901,000 had an unrealized loss of \$774,000 at December 31, 2005. Net loans	<u>\$455,223</u>	<u>\$469,502</u>

Total loans above are net of unearned discount on loans acquired in the amount of \$275,000 and \$415,000 at December 31, 2005 and 2004, respectively. In addition, total loans above are net of unamortized premium on indirect installment loans originated in the amount of \$789,000 and \$2,005,000 at December 31, 2005 and 2004, respectively.

Loans are made in the ordinary course of business to directors, executive officers, and their immediate families and to organizations in which such persons have more than a 10% ownership interest. These loans are made on substantially the same terms, including interest rate and collateral, as those prevailing at the same time for comparable transactions with unrelated persons and did not involve more than the normal risk of collectibility or present other unfavorable features. Total loans to such persons and their companies amounted to \$544,000 as of December 31, 2005. During 2005, principal payments were \$125,000 and principal advances amounted to \$156,000.

The Company's lending activities are conducted principally in New Hampshire. Although the loan portfolio is diversified, a portion of its debtors' ability to repay is dependent upon the economic conditions prevailing in New Hampshire. The Company maintains significant credit relationships with borrowers in the hotel and motel industry. The aggregate loan balances to these industries totaled \$67,152,000 at December 31, 2005 and \$59,730,000 at December 31, 2004.

The Company capitalized \$79,000 and \$80,000 of servicing rights and amortized \$144,000 and \$168,000 of total servicing rights in 2005 and 2004, respectively. The impairment valuation allowance of mortgage servicing rights was reduced by \$3,000 and \$2,000 in 2005 and 2004, respectively. Impairment of mortgage servicing rights is assessed based on the fair value of those rights. Fair values are estimated using discounted cash flows based on a current market interest rate. The amount of the impairment recognized is the amount by which the capitalized mortgage servicing rights exceed their fair value. At December 31, 2005 and 2004, respectively, the carrying amount of servicing rights was \$236,000 and \$298,000, and is included in other assets. At December 31, 2005 and 2004, respectively, the fair value of servicing rights was \$389,000 and \$415,000.

Restructured, accruing loans entered into prior to the adoption of SFAS No. 114 and 118 are not required to be reported as impaired loans unless such loans are not performing in accordance with the restructured terms at adoption of SFAS No. 114. Restructured, accruing loans entered into subsequent to the adoption of these statements are reported as impaired loans. In the year subsequent to restructure these loans may be removed from the impaired loan disclosure provided that the loan bears a market rate of interest at the time of restructure and is performing under the restructured terms.

At December 31, 2005 and 2004, loans restructured in a troubled debt restructuring before January 1, 1995, the effective date of SFAS No. 114, that are not impaired based on the terms specified by the restructuring agreement totaled \$0 and \$838,000, respectively. The recorded investment in loans that are considered to be impaired under SFAS No. 114 was \$2,082,000 and \$1,914,000 at December 31, 2005 and 2004, respectively, for which the related allowance for loan losses is \$0 and \$307,000 as of December 31, 2005 and 2004, respectively. All of the Company's impaired loans are collateralized and therefore all impaired loans are measured by the difference between the fair value of the collateral and the recorded amount of the loan. The average recorded investment in impaired loans during the twelve months ended December 31, 2005 and 2004 was approximately \$2,147,000 and \$2,305,000, respectively. NOTE 12 REGULATORY MATTERS

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's and the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). As of December 31, 2005, the most recent notification from the FDIC categorized the Bank as "well-capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well-capitalized" the Bank must maintain total risk-based, Tier 1 risk-based and Tier 1 leverage ratios above regulatory prescribed minimum levels. There are no conditions or events since that notification that management believes have changed the Bank's category. Management believes, as of December 31, 2005 and 2004, that the Company and the Bank meet all capital adequacy requirements to which they are subject.

Federal regulations prohibit banking companies from paying dividends on their stock if the effect would cause stockholders' equity to be reduced below applicable regulatory capital requirements or if such declaration and payment would otherwise violate regulatory requirements.

As of December 31, 2005, the Bank is restricted from declaring dividends to the Company in an amount greater than approximately \$22,050,000, as such declaration would decrease capital below the Bank's required minimum level of regulatory capital.

NOTE 15 EMPLOYEE BENEFITS

Pension Plan

The Company maintains a trustee non-contributory pension plan (the "Plan") covering substantially all full-time employees. Assuming retirement at age 65 after 30 years or more of service, the benefits are computed as the sum of one percent of final average earnings up to a covered compensation limit, plus 0.65 percent of final average earnings in excess of covered compensation, times years of service, up to 30. Final average earnings are defined as the five consecutive years out of the employee's last ten years of employment during which compensation is highest. The amounts contributed to the Plan are determined annually on the basis of (a) the maximum amount that can be deducted for federal income tax purposes or (b) the amount certified by a consulting actuary as necessary to avoid an accumulated funding deficiency as defined by the Employee Retirement Income Security Act of 1974. Contributions are intended to provide not only benefits attributed to service to date but also for those expected to be earned in the future.

The following table sets forth information about the Plan as of December 31, using a measurement date of December 31, and for the years then ended:

Long-term rate of return on plan assets	8.00	8.00	8.00
Rate of compensation increase	3.50	3.50	4.00

The expected long-term rate of return for the plan's total assets is based on the expected return of asset categories identified below, weighted based on the target allocations for each class. Equity funds are expected to return 8% to 10% over the long-term and bond funds and short-term money markets are expected to return between 4% and 6%.

At December 31, 2005 and 2004, the comprehensive loss for the unfunded pension accumulated benefit obligation was \$0 and \$672,000, net of taxes, respectively.

The Company's pension plan actual asset allocations by asset category are as follows:

<u>Asset Category</u>	<u>Plan Assets at December 31,</u>		
	<u>2005</u>	<u>2004</u>	<u>2003</u>

Total	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>

The investment policy, as established by the Company, is to provide for a moderate growth of capital with a moderate level of volatility by investing assets per the target allocations as follows:

<u>Asset Category</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Mutual funds:			
Bond funds	40-60%	40-60%	40.0%
Equity securities	30-50	30-50	50.0
Real estate funds	0-15	0-15	10.0

The assets will be re-allocated quarterly to meet the above target allocations. The investment policy is reviewed on an annual basis, under the advisement of the Company's certified investment advisor, to determine if the policy should be changed.

The plan assets do not include any Company common stock at December 31, 2005 and 2004.

The Company does not expect to make a contribution to its pension plan in 2006.

Estimated future benefit payments, which reflect future service, as appropriate, are as follows for the years ended December 31:

Supplemental Executive Retirement Plan (SERP)

Effective May 29, 2003, the existing Executive Life program sponsored by the Company was terminated and replaced with a SERP. The existing Split Dollar Life Insurance policy designed to support the Executive Life program is now fully owned by Northway. This policy will be maintained by Northway and is used as the benchmark for the SERP.

The total retirement SERP benefit is as follows: Upon Mr. Woodward's termination of employment for reasons other than death or for cause, the account balance is paid out to him in ten (10) equal annual installments on the first day of the month following the month in which employment is terminated. Upon death after retirement, the unpaid account balance, if any, is paid out in a lump sum to the named beneficiary. During retirement, an additional retirement payment, based on the policy gains associated with the prior calendar year, will also be paid on an annual basis until the executive's death. In the event of Mr. Woodward's death while employed by the Company, the SERP permits a death benefit of \$2,000,000 be paid to his beneficiary.

Stock-Based Compensation

The Board of Directors (the "Committee") administers the 1999 Stock Option and Grant Plan (the "1999 Plan") which is described below.

Under the 1999 Plan, the Committee may select the individuals to whom awards may from time to time be granted; determine the time or times of grant; and determines the extent, if any, of incentive stock options, non-qualified stock options, restricted stock awards, unrestricted stock awards, performance share awards, or any combination of the foregoing.

The 1999 Plan expires in February 2009. The aggregate number of shares of the Company's common stock which may be issued upon the exercise of options granted under the 1999 Plan is 175,000. The option price is fixed by the Committee at the time of the grant and may not be less than 100 percent of the fair market value of the stock, as determined by the Committee, in good faith as of the grant date. Each option may be exercised at such times as shall be determined by the Committee at or after the grant date; provided, however, that no option may be exercised ten years after the date of grant. The fair value of each option granted is estimated on grant date using the Black-Scholes option pricing model.

A summary of the status of the Company's 1999 Plan as of December 31, 2005, 2004 and 2003 and changes during the years then ended is presented below:

Change in Control

The Company and its subsidiaries have entered into Key Employee agreements with the specific Executive Officers as well as other Senior Officers of the Company. These agreements provide for payments, under certain circumstances, to the officer upon the officer's termination after a change in control. Payments will be made under these agreements upon the officer's termination or resignation in connection with certain specified actions adverse to the officer's employment status after a change in control. The amount of such payments ranges from 1.0 to 1.5 times such officer's annual compensation.

NOTE 16 FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to originate loans and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Financial instruments with off-balance sheet credit risk at December 31, are as follows:

	(\$000 Omitted)	
	<u>2005</u>	<u>2004</u>
Financial instrument whose contract amounts represent credit risk:		
Unadvanced portions of home equity loans	\$18,718	\$17,748
Unadvanced portions of lines of credit	7,897	9,216
Unadvanced portions of commercial real estate loans	2,467	1,888
Unadvanced portions of Bounce Protection™	11,294	12,091
Commitments to originate all other loans	19,971	15,952
Commitments to originate municipal notes	-	2,995
Standby letters of credit	71	400

Commitments to originate loans and municipal notes, unadvanced portions of home equity loans, lines of credit and commercial real estate loans are agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without having been drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower.

Unadvanced portions of Bounce Protection™ represent the unused portion of the Bank's overdraft privilege program.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers. As of December 31, 2005 and 2004, the maximum potential amount of the Company's obligation was \$71,000 and \$400,000, respectively, for financial and standby letters of credit. The Company's outstanding letters of credit generally have a term of less than one year. If a letter of credit is drawn upon, the Company may seek recourse through the customer's underlying line of credit. If the customer's line of credit is also in default, the Company may take possession of the collateral, if any, securing the line of credit.

At December 31, 2005, the Bank had commitments to purchase state and political subdivision bonds totaling \$2,206,000.

On December 13, 2005, the Bank entered into an agreement with Washington Mutual Bank to purchase two branch locations located in Belmont and Tilton, New Hampshire. The Bank expects to acquire approximately \$31,000,000 of deposits and \$10,000,000 of loans. This transaction is expected to close on or about April 7, 2006.

NOTE 17 FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents approximates the fair value of those assets.

Securities: Fair values for securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

FHLB and Federal Reserve Bank ("FRB") Stock: The carrying amounts reported in the consolidated balance sheets for FHLB and FRB Stock approximates their fair value. If redeemed, the Company will receive an amount equal to the par value of the stocks.

Loans held-for-sale: Fair values for loans held-for-sale are estimated based on outstanding investor commitments, or in the absence of such commitments, are based on current investor yield requirements.

Loans: For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The fair value of nonaccrual loans was estimated using discounted cash flow analysis or the estimated fair value of the underlying collateral where applicable.

Accrued interest receivable: The carrying value of accrued interest receivable approximates its fair value because of the short-term nature of this financial instrument.

Deposits: The fair value of demand deposits (e.g. NOW and super NOW checking, noninterest bearing checking, regular savings, money market accounts and mortgagors' escrow accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e. their carrying amounts). Fair values for certificates of deposit are estimated using a discounted cash flow technique that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities of time deposits.

Short-term borrowings: The carrying value of short-term borrowings approximates its fair value because of the short-term nature of these financial instruments.

Long-term debt: The fair values of long-term debt are determined by discounting the anticipated future cash payments by using the rates currently available to the Company for debt with similar terms and remaining maturities.

Junior subordinated debentures: The fair values of junior subordinated debentures are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

Off-balance sheet instruments: The fair value of commitments to originate loans is estimated using the fees currently charged to enter similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed-rate loan commitments and the unadvanced portion of loans, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of letters of credit is based on fees currently charged for similar agreements or on the estimated cost to terminate them or otherwise settle the obligation with the counterparties at the reporting date. See NOTE 16 for further information.

At December 31, 2005 and 2004, all the Company's financial instruments were held for purposes other than trading.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for some of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, cash flows, current economic conditions, risk characteristics, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions and changes in the loan, debt and interest rate markets could significantly affect the estimates. Further, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on the fair value estimates and have not been considered. The fair value amounts presented do not represent the underlying value of the Company because fair values of certain other financial instruments, assets and liabilities have not been determined.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Northway is a bank holding company formed in 1997 under the laws of New Hampshire and is registered under the Bank Holding Company Act of 1956. Northway's only business activity has been to own all of the shares of, and provide management, capital and operational support to Northway Bank ("Bank"), formerly known as The Berlin City Bank, and its Delaware statutory business trusts Northway Capital Trust I and Northway Capital Trust II. On October 1, 2005 The Berlin City Bank was renamed Northway Bank and The Pemigewasset National Bank of Plymouth, New Hampshire was merged into Northway Bank. The Company's headquarters are in Berlin, New Hampshire. The banking subsidiary is engaged principally in the business of attracting deposits from the general public and investing those deposits in securities, commercial loans, real estate loans, and consumer loans.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated in the consolidation.

Northway Capital Trust I and Northway Capital Trust II, affiliates of the Company, were formed to sell capital securities to the public through a third party trust pool. In accordance with FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"), these affiliates have not been included in the consolidated financial statements.

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry.

In preparing the financial statements, management is required to make estimates and judgments that affect the reported amounts of assets and liabilities as of the dates of the consolidated balance sheets, and income and expense for the periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to change in the near-term relate to the determination of the allowance for loan losses.

Reclassifications

Certain amounts in the prior years' financial statements have been reclassified to conform with the current year's presentation.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and due from banks, interest-bearing deposits, and federal funds sold.

Securities

Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and reported at amortized cost; if debt and equity securities are bought and held principally for the purpose of selling in the near term they would be classified as trading and reported at fair value, with unrealized gains and losses included in earnings; and debt and equity securities not classified as either held-to-maturity or trading are classified as available-for-sale and reported at fair value, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders' equity, net of estimated income taxes. At this time, the Company has not established a trading account.

Premiums and discounts are amortized and accreted primarily on the level yield method over the contractual life of the securities adjusted for expected prepayments.

If a decline in the fair value below the adjusted cost basis of an investment is judged to be other than temporary, the cost basis of the investment is written down to fair value as the new cost basis and the amount of the write-down is included in noninterest expense.

Gains and losses on sales of securities available-for-sale are recognized at the time of the sale on a specific identification basis.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Loans Held-for-Sale

Loans held-for-sale are generally identified as such at origination and are stated at the lower of aggregate cost or market. Market value is based on outstanding investor commitments. When loans are sold, a gain or loss is recognized to the extent that the sale proceeds exceed or are less than the carrying value of the loans. Gains and losses are determined using the specific identification method. All loans sold are without recourse to the Company.

Loans

Loans are carried at the principal amounts outstanding, net of any unearned income or unamortized cost, premiums on originated loans and discounts on acquired loans. Unearned income and unamortized cost includes loan origination fees, net of direct loan origination costs. This income or expense is deferred and recognized as adjustments to loan income over the contractual life of the related notes using a method the result of which approximates that of the interest method.

Loans are placed on nonaccrual when payment of principal or interest is considered to be in doubt or is past due 90 days or more. The Company may choose to place a loan on nonaccrual status due to payment delinquency or uncertain collectibility, while not classifying the loan as impaired, if (i) it is probable that the Company will collect all amounts due in accordance with the contractual terms of the loan or (ii) the loan is not a commercial, commercial real estate or an individually significant mortgage or consumer loan. Previously accrued income on nonaccrual loans that has not been collected is reversed from current income, and subsequent cash receipts are recorded as income if principal on the loans is deemed collectible. Loans are returned to accrual status when collection of all contractual principal and interest is reasonably assured and there has been sustained repayment performance.

The Company's loans are primarily secured by real estate in New Hampshire. In addition, other real estate owned is located in this market. Accordingly, the ultimate collectibility of a substantial portion of the Company's loan portfolio and the recovery of other real estate owned are susceptible to changing conditions in this market.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level considered adequate by management on the basis of many factors including the risk characteristics of the portfolio, trends in loan delinquencies and an assessment of existing economic conditions. Additions to the allowance are charged to earnings; realized losses, net of recoveries, are charged directly to the allowance.

While management uses available information in establishing the allowance for loan losses, future additions to the allowance may be necessary if economic conditions differ substantially from the estimates used in making the evaluations. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Company's allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance based on judgments different from those of management.

Commercial, commercial real estate and individually significant mortgage and consumer loans are considered impaired, and are placed on nonaccrual, when it is probable that the Company will not be able to collect all amounts due according to the contractual terms of the loan agreement. Mortgage and consumer loans, which are not individually significant, are measured for impairment collectively. Loans that experience insignificant payment delays and insignificant shortfalls in payment amounts generally are not classified as impaired. The amount of impairment for all impaired loans is determined by the difference between the present value of the expected cash flows related to the loan, using the original contractual interest rate, and its recorded value, or, as a practical expedient in the case of collateralized loans, the difference between the fair value of the collateral and the recorded amount of the loan.

When foreclosure is probable, impairment is measured based on the fair value of the collateral.

Servicing Assets

Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. Capitalized servicing rights are reported in other assets and are amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets. Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to amortized cost. Impairment is determined by stratifying rights by predominant characteristics, such as interest rates and terms. Fair value is determined using prices for similar assets with similar characteristics, when available, or based upon discounted cash flows using market-based assumptions. Impairment is recognized through a valuation allowance for an individual stratum, to the extent that fair value is less than the capitalized amount for the stratum.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Premises and Equipment

Premises and equipment are carried at cost less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the respective assets. Estimated lives are thirty-nine years for buildings, ten to fifteen years for building improvements and three to seven years for furniture and equipment.

Amortization of leasehold improvements is accumulated on a straight-line basis over the lesser of the term of the respective lease or the asset's useful life, not to exceed ten years.

Other Real Estate Owned

Other real estate owned is comprised of properties acquired either through foreclosure proceedings or acceptance of a deed in lieu of foreclosure, and for which the Company has taken physical possession. The Company classifies loans as repossessed or foreclosed if the Company receives physical possession of the debtor's assets, regardless of whether or not foreclosure proceedings take place.

Assets acquired through foreclosure or a similar conveyance of title are initially recorded at the lower of the carrying value of the loan or the fair value, less estimated costs to sell, of the property constructively or actually received. Gains and losses upon disposition are reflected in the statement of income as realized.

Advertising

The Company directly expenses costs associated with advertising as they are incurred.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and the respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-Based Compensation

At December 31, 2006, the Company has a stock-based employee compensation plan which is described more fully in NOTE 16. Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004) "Share-Based Payment" ("SFAS 123R"). This Statement revised SFAS No. 123, "Accounting for Stock Based Compensation" and superceded Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. SFAS 123R requires that the cost resulting from all share-based payment transactions be recognized in the financial statements and establishes fair value as the measurement objective in accounting for share-based payment arrangements. No compensation expense was recognized for the twelve months ended December 31, 2006 related to SFAS 123R. Prior to January 1, 2006, the Company accounted for the plan under the recognition and measurement principles of APB Opinion No. 25. No stock-based employee compensation cost had been recognized during periods prior to January 1, 2006 for its fixed stock option plans.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS 123R to stock-based employee compensation during the years ended December 31, 2005 and 2004.

Earnings Per Share

Basic earnings per share ("EPS") excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS, if applicable, reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Earnings per common share have been computed based on the following:

Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 155, "Accounting for Certain Hybrid Instruments" (SFAS 155), which permits, but does not require, fair value accounting for any hybrid financial instrument that contains an embedded derivative that would otherwise require bifurcation in accordance with SFAS 133. The statement also subjects beneficial interests issued by securitization vehicles to the requirements of SFAS 133. The statement is effective as of January 1, 2007. The adoption of SFAS 155 is not expected to have a material impact on the Company's financial condition, results of operations or cash flow.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets- an amendment of FASB Statement No. 140" (SFAS 156). SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in specific situations. Additionally, the servicing asset or servicing liability shall be initially measured at fair value; however, an entity may elect the "amortization method" or "fair value method" for subsequent balance sheet reporting periods. SFAS 156 is effective as of an entity's first fiscal year beginning after September 15, 2006. Early adoption is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements, including interim financial statements, for any period of that fiscal year. The Company does not expect the adoption of this statement to have a material impact on its financial condition, results of operations or cash flows.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles (GAAP) and enhances disclosures about fair value measurements. SFAS 157 retains the exchange price notion and clarifies that the exchange price is the price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. SFAS 157 is effective for the Company's consolidated financial statements for the year beginning on January 1, 2008, with earlier adoption permitted. The Company does not expect the adoption of this statement to have a material impact on its financial condition, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 158, "Employer's Accounting for Defined Benefit Pension and other Postretirement Plans – an amendment of FASB Statements No. 87, 88, 106, and 132(R)" (SFAS 158). SFAS 158 requires 1) the recognition of an asset or liability for the over-funded or under-funded status of a defined benefit plan, 2) the recognition of actuarial gains and losses and prior service costs and credits in other comprehensive income, 3) measurement of plan assets and benefit obligations as of the employer's balance sheet date, rather than at interim measurement dates as currently allowed, and 4) disclosure of additional information concerning actuarial gains and losses and prior service costs and credits recognized in other comprehensive income. This statement is effective for financial statements with fiscal years ending after December 15, 2006. The adoption of this Statement did not have a material impact on the Company's financial position, result of operations or cash flows.

NOTE 4 LOANS (CONTINUED)

Loans are made in the ordinary course of business to directors, executive officers, and their immediate families and to organizations in which such persons have more than a 10% ownership interest. These loans are made on substantially the same terms, including interest rate and collateral, as those prevailing at the same time for comparable transactions with unrelated persons and did not involve more than the normal risk of collectibility or present other unfavorable features. Total loans to such persons and their companies amounted to \$571,000 as of December 31, 2006. During 2006, principal payments were \$203,000 and principal advances amounted to \$230,000.

The Company's lending activities are conducted principally in New Hampshire. Although the loan portfolio is diversified, a portion of its debtors' ability to repay is dependent upon the economic conditions prevailing in New Hampshire. The Company maintains significant credit relationships with borrowers in the hotel and motel industry. The aggregate loan balances to these industries totaled \$71,874,000 at December 31, 2006 and \$67,152,000 at December 31, 2005.

Loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balances of these loans total \$36,225,000 and \$39,219,000 at December 31, 2006 and 2005, respectively. The Company sold \$5,965,000 of mortgage loans in 2006 and \$9,132,000 of mortgage loans in 2005.

The Company capitalized \$77,000 and \$79,000 of servicing rights and amortized \$115,000 and \$144,000 of total servicing rights in 2006 and 2005, respectively. The impairment valuation allowance of mortgage servicing rights was reduced by \$0 and \$3,000 in 2006 and 2005, respectively. Impairment of mortgage servicing rights is assessed based on the fair value of those rights. Fair values are estimated using discounted cash flows based on a current market interest rate. The amount of the impairment recognized is the amount by which the capitalized mortgage servicing rights exceed their fair value. At December 31, 2006 and 2005, respectively, the carrying amount of servicing rights was \$198,000 and \$236,000, and is included in other assets. At December 31, 2006 and 2005, respectively, the fair value of servicing rights was \$417,000 and \$389,000.

Restructured, accruing loans entered into prior to the adoption of SFAS No. 114 and 118 are not required to be reported as impaired loans unless such loans are not performing in accordance with the restructured terms at adoption of SFAS No. 114. Restructured, accruing loans entered into subsequent to the adoption of these statements are reported as impaired loans. In the year subsequent to restructure these loans may be removed from the impaired loan disclosure provided that the loan bears a market rate of interest at the time of restructure and is performing under the restructured terms.

At December 31, 2006 and 2005, the Company had no loans restructured in a troubled debt restructuring before January 1, 1995, the effective date of SFAS No. 114.

At December 31, 2006 and 2005, nonperforming loans totaled \$3,698,000 and \$3,013,000, respectively. No nonperforming loans were past due 90 days or more and still accruing interest at December 31, 2006 and 2005.

The recorded investment in loans that are considered to be impaired under SFAS No. 114 was \$2,666,000 and \$2,082,000 at December 31, 2006 and 2005, respectively, for which the related allowance for loan losses is \$0 for both years. All of the Company's impaired loans are collateralized and therefore all impaired loans are measured by the difference between the fair value of the collateral and the recorded amount of the loan. The average recorded investment in impaired loans during the twelve months ended December 31, 2006 and 2005 was approximately \$2,787,000 and \$2,147,000, respectively. For the twelve months ended December 31, 2006 and 2005 the Company recognized interest income on impaired loans of \$231,000 and \$88,000, respectively, which was recognized using the cash-basis method of income recognition.

Currently, the interest rate on these securities is 9.01%. Payments of distributions and other amounts due on the Trust II Capital Securities are irrevocably guaranteed by the Company, to the extent that Capital Trust II has funds available for the payments of such distributions, pursuant to a Guarantee Agreement, dated July 11, 2002, between the Company and Wilmington Trust Company, as Guarantee Trustee. The Trust II Junior Subordinated Debt and the Trust II Capital Securities may be redeemed at the option of the Company on fixed quarterly dates beginning on July 7, 2007.

NOTE 11 ACQUISITIONS

On April 7, 2006, the Company acquired certain assets and assumed the deposits of two branch offices of Washington Mutual Bank located in Laconia and Belmont, New Hampshire. This acquisition has allowed the Company to expand its market area further in Belknap County. Deposits assumed totaled \$29,438,000 for which the Company paid a deposit purchase premium of 6.30%. In addition, the Company acquired certain loans associated with the branches totaling \$8,192,000. As a result of this purchase, the Company made the following entries to record this transaction:

	(\$000 Omitted)	
Cash	\$19,130	
Loans	8,192	
Goodwill	425	
Core deposit intangible	1,234

Building and equipment expense	1	
Deposits		\$29,438
Other liabilities		74

	<u>\$29,517</u>	<u>\$29,517</u>

This transaction was accounted for using the purchase method of accounting. The results of operations of the acquired branches are included in the 2006 consolidated statements of income of the Company from the date of the transaction.

The cost of the acquired branch offices exceeded the fair value of the assets acquired and liabilities assumed by \$1,659,000. Of this amount, \$1,234,000 was assigned to core deposit intangible and \$425,000 was recorded as goodwill. All of the goodwill was deductible for tax purposes. The core deposit intangible of \$1,234,000 is being amortized to noninterest expense over fourteen years using the sum-of-the-years'-digits method.

NOTE 12 GOODWILL AND OTHER INTANGIBLE ASSETS

At December 31, 2006, the Company has goodwill and core deposit intangibles totaling \$12,755,000. Core deposit intangibles are being amortized over their useful lives and both core deposit intangibles and goodwill are tested for impairment at least annually.

The changes in the carrying amount of goodwill and core deposit intangibles for the years ended December 31, 2006 and 2005 are as follows:

	(\$000 Omitted)	
	Goodwill	Core Deposit Intangibles

2008	464
2009	453
2010	227
2011	109
2012 and thereafter	449

The following table reflects the gross carrying amount and accumulated amortization of core deposit intangibles as of December 31, 2006:

	(\$000 Omitted)		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Core deposit intangibles	<u>\$6,566</u>	<u>\$4,388</u>	<u>\$2,178</u>

Management reviews the carrying amount of intangible assets on an ongoing basis, taking into consideration any events and circumstances that might have diminished such amount. During 2006 and 2005, the Company reviewed the carrying amount of intangible assets and determined that no impairment write-down was required.

NOTE 13 REGULATORY MATTERS

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's and the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). As of December 31, 2006, the most recent notification from the FDIC categorized the Bank as "well-capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well-capitalized" the Bank must maintain total risk-based, Tier 1 risk-based and Tier 1 leverage ratios above regulatory prescribed minimum levels. There are no conditions or events since that notification that management believes have changed the Bank's category. Management believes, as of December 31, 2006 and 2005, that the Company and the Bank meet all capital adequacy requirements to which they are subject.

NOTE 13 REGULATORY MATTERS (CONTINUED)

These minimum capital amounts and ratios, as well as the Company's and Bank's actual capital amounts and ratios, are presented in the following table:

Federal regulations prohibit banking companies from paying dividends on their stock if the effect would cause stockholders' equity to be reduced below applicable regulatory capital requirements or if such declaration and payment would otherwise violate regulatory requirements.

As of December 31, 2006, the Bank is restricted from declaring dividends to the Company in an amount greater than approximately \$23,900,000, as such declaration would decrease capital below the Bank's required minimum level of regulatory capital.

NOTE 16 EMPLOYEE BENEFITS

Pension Plan

The Company maintains a trustee non-contributory pension plan (the "Plan") covering substantially all full-time employees. Assuming retirement at age 65 after 30 years or more of service, the benefits are computed as the sum of one percent of final average earnings up to a covered compensation limit, plus 0.65 percent of final average earnings in excess of covered compensation, times years of service, up to 30. Final average earnings are defined as the five consecutive years out of the employee's last ten years of employment during which compensation is highest. The amounts contributed to the Plan are determined annually on the basis of (a) the maximum amount that can be deducted for federal income tax purposes or (b) the amount certified by a consulting actuary as necessary to avoid an accumulated funding deficiency as defined by the Employee Retirement Income Security Act of 1974. Contributions are intended to provide not only benefits attributed to service to date but also for those expected to be earned in the future.

The following table sets forth information about the Plan as of December 31, using a measurement date of December 31, and for the years then ended:

Assumptions used to determine benefit obligations and benefit cost as of and for the years ending December 31,

	2006		2005		2004
Discount rate:

The expected long-term rate of return for the plan's total assets is based on the expected return of asset categories identified below, weighted based on the target allocations for each class. Equity funds are expected to return 8% to 10% over the long-term and bond funds and short-term money markets are expected to return between 4% and 6%.

NOTE 16 EMPLOYEE BENEFITS (CONTINUED)

The Company's pension plan actual asset allocations by asset category are as follows:

The assets will be re-allocated quarterly to meet the above target allocations. The investment policy is reviewed on an annual basis, under the advisement of the Company's certified investment advisor, to determine if the policy should be changed.

The plan assets do not include any Company common stock at December 31, 2006 and 2005.

The Company expects to contribute \$435,000 to its pension plan in 2007.

Under the Northway Financial, Inc. 401(k) and Profit Sharing Plan (the "401K Plan") employees must have attained age 21, completed six months of service and be credited with 1,000 hours of service in order to participate. Employees of the Company are eligible to participate. Under the 401K Plan, the Company matches 50 percent of the first 4 percent of employee contributions. Total 401(k) matching expense in 2006, 2005 and 2004 amounted to \$151,000, \$139,000 and \$143,000, respectively, and Profit Sharing contribution expense for 2006, 2005, and 2004 was \$0, \$0, and \$38,000, respectively.

Supplemental Executive Retirement Plan (SERP)

Effective May 29, 2003, the existing Executive Life program sponsored by the Company was terminated and replaced with a SERP in which Mr. Woodward participates. The existing Split Dollar Life Insurance policy designed to support the Executive Life program is now fully owned by Northway. This policy will be maintained by Northway and is used as the benchmark for the SERP.

NOTE 16 EMPLOYEE BENEFITS (CONTINUED)

The total retirement SERP benefit is as follows: Upon Mr. Woodward's termination of employment for reasons other than death or for cause, the account balance is paid out to him in ten (10) equal annual installments on the first day of the month following the month in which employment is terminated. Upon death after retirement, the unpaid account balance, if any, is paid out in a lump sum to the named beneficiary. During retirement, an additional retirement payment, based on the policy gains associated with the prior calendar year, will also be paid on an annual basis until the executive's death. In the event of Mr. Woodward's death while employed by the Company, the SERP permits a death benefit of \$2,000,000 be paid to his beneficiary.

Stock-Based Compensation

The Board of Directors (the "Committee") administers the 1999 Stock Option and Grant Plan (the "1999 Plan") which is described below.

Under the 1999 Plan, the Committee may select the individuals to whom awards may from time to time be granted; determine the time or times of grant; and determines the extent, if any, of incentive stock options, non-qualified stock options, restricted stock awards, unrestricted stock awards, performance share awards, or any combination of the foregoing.

The 1999 Plan expires in February 2009. The aggregate number of shares of the Company's common stock which may be issued upon the exercise of options granted under the 1999 Plan is 175,000. The option price is fixed by the Committee at the time of the grant and may not be less than 100 percent of the fair market value of the stock, as determined by the Committee, in good faith as of the grant date. Each option may be exercised at such times as shall be determined by the Committee at or after the grant date; provided, however, that no option may be exercised ten years after the date of grant. The fair value of each option granted is estimated on grant date using the Black-Scholes option pricing model.

A summary of the status of the Company's 1999 Plan as of December 31, 2006, 2005 and 2004 and changes during the years then ended is presented below:

Change in Control

The Company and its subsidiary have entered into Key Employee agreements with specific Executive Officers as well as other Senior Officers of the Company. These agreements provide for payments, under certain circumstances, to the officer upon the officer's termination after a change in control. Payments will be made under these agreements upon the officer's termination or resignation in connection with certain specified actions adverse to the officer's employment status after a change in control. The amount of such payments ranges from 1.0 to 1.5 times such officer's annual compensation.

NOTE 17 FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to originate loans and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Financial instruments with off-balance sheet credit risk at December 31, are as follows:

	(\$000 Omitted)	
	2006	2005
Financial instrument whose contract amounts represent credit risk:		
Unadvanced portions of home equity loans	\$17,691	\$18,761
Unadvanced portions of lines of credit	21,424	14,485
Unadvanced portions of commercial real estate loans	17,421	17,381
Unadvanced portions of Bounce Protection™	13,667	11,294
Commitments to originate all other loans	20,742	19,971
Commitments to originate municipal notes	972	-
Standby letters of credit	303	78
Total	<u>\$92,220</u>	<u>\$81,970</u>

Commitments to originate loans and municipal notes, unadvanced portions of home equity loans, lines of credit and commercial real estate loans are agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without having been drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower.

Unadvanced portions of Bounce Protection™ represent the unused portion of the Bank's overdraft privilege program.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers. As of December 31, 2006 and 2005, the maximum potential amount of the Company's obligation was \$303,000 and \$78,000, respectively, for financial and standby letters of credit. The Company's outstanding letters of credit generally have a term of less than one year. If a letter of credit is drawn upon, the Company may seek recourse through the customer's underlying line of credit. If the customer's line of credit is also in default, the Company may take possession of the collateral, if any, securing the line of credit.

NOTE 18 FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents approximates the fair value of those assets.

Securities: Fair values for securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

FHLB Stock: The carrying amount reported in the consolidated balance sheets for FHLB Stock approximates its fair value. If redeemed, the Company will receive an amount equal to the par value of the stock.

Loans held-for-sale: Fair values for loans held-for-sale are estimated based on outstanding investor commitments, or in the absence of such commitments, are based on current investor yield requirements.

Loans: For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The fair values of nonaccrual loans was estimated using discounted cash flow analyses or the estimated fair value of the underlying collateral where applicable.

Accrued interest receivable: The carrying value of accrued interest receivable approximates its fair value because of the short-term nature of this financial instrument.

Deposits: The fair value of demand deposits (e.g. NOW and super NOW checking, noninterest bearing checking, regular savings, money market accounts and mortgagors' escrow accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e. their carrying amounts). Fair values for certificates of deposit are estimated using a discounted cash flow technique that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities of time deposits.

Short-term borrowings: The carrying value of short-term borrowings approximates its fair value because of the short-term nature of these financial instruments.

Long-term debt: The fair values of long-term debt are determined by discounting the anticipated future cash payments by using the rates currently available to the Company for debt with similar terms and remaining maturities.

Junior subordinated debentures: The fair values of junior subordinated debentures are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

Off-balance sheet instruments: The fair value of commitments to originate loans is estimated using the fees currently charged to enter similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed-rate loan commitments and the unadvanced portion of loans, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of letters of credit is based on fees currently charged for similar agreements or on the estimated cost to terminate them or otherwise settle the obligation with the counterparties at the reporting date. See NOTE 17 for further information.

The estimated fair values of the Company's financial instruments are as follows:

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for some of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, cash flows, current economic conditions, risk characteristics, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions and changes in the loan, debt and interest rate markets could significantly affect the estimates. Further, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on the fair value estimates and have not been considered. The fair value amounts presented do not represent the underlying value of the Company because fair values of certain other financial instruments, assets and liabilities have not been determined.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The purpose of this discussion is to focus on significant changes in the financial condition and results of operations of Northway Financial, Inc. ("Northway") and its subsidiaries (collectively, the "Company"). It is intended to supplement and highlight information contained in the accompanying consolidated financial statements and the selected financial data presented elsewhere in this report. The discussion set forth below contains certain statements that may be considered "forward-looking statements." Forward-looking statements involve risks, uncertainties and other factors that may cause the Company's actual results to materially differ from those projected in the forward-looking statements. For further information regarding forward-looking statements, you should review the discussion under the caption "FORWARD-LOOKING STATEMENTS" below.

FORWARD-LOOKING STATEMENTS

Certain statements in this report are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, but are not limited to, projections of revenue, income or loss, plans for future operations and acquisitions, projections based on assumptions regarding market and liquidity risk, and plans related to products or services of the Company. Such forward-looking statements are subject to known and unknown risks, uncertainties and contingencies, many of which are beyond the control of the Company. To the extent any such risks, uncertainties and contingencies are realized, the Company's actual results, performance or achievements could differ materially from anticipated results, performance or achievements. Factors that might affect such forward-looking statements include, among other factors, overall economic and business conditions, economic and business conditions in the Company's market areas, interest rate fluctuations, a prolonged continuation of the current interest rate environment, the demand for the Company's products and services, competitive factors in the industries in which the Company competes, changes in government regulations, and the timing, impact and other uncertainties of future acquisitions.

In addition to the factors described above, the following are some additional factors that could cause our financial performance to differ from any forward-looking statement contained herein: i) changes in interest rates over the past year and the relative relationship between the various interest rate indices that the Company uses; ii) a deterioration in the financial markets affecting the valuation of securities held in the Company's investment portfolio; (iii) a change in product mix attributable to changing interest rates, customer preferences or competition; iv) deterioration in the residential and other sectors of the real estate market generally; v) a significant portion of the Company's loan customers are in the hospitality business and therefore could be affected by a slower economy, adverse weather conditions and/or rising gasoline prices; and vi) the effectiveness of advertising, marketing and promotional programs.

The words "believe," "expect," "anticipate," "intend," "estimate," "project" or the negative of such terms and other similar expressions which are predictions of or indicate future events and trends and which do not relate to historical matters identify forward-looking statements. Reliance should not be placed on forward-looking statements because they involve known or unknown risks, uncertainties or other factors, which may cause the actual results, performance or achievements of the Company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. The Company expressly disclaims any obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Though the Company has attempted to list comprehensively the factors which might affect forward-looking statements, the Company wishes to caution you that other factors may in the future prove to be important in affecting the Company's results of operations. New factors emerge from time to time and it is not possible for management to anticipate all of such factors, nor can it assess the impact of each such factor, or combination of factors, which may cause actual results to differ materially from forward-looking statements.

OVERVIEW OF PERFORMANCE

The Company derives substantially all of its revenue and income from community bank-related activities. Northway Bank (the "Bank") operates as a typical community banking institution and does not engage in any specialized finance or capital markets activities. Northway functions primarily as the holder of stock of its subsidiary and assists in the management of the operations of its subsidiary as appropriate.

The principal components of the Company's income sources are net interest and dividend income. Net interest and dividend income is the difference between interest, dividends and fee income received on interest earning assets, such as loans and investments, and the interest expense paid on interest bearing liabilities, such as deposits and borrowed funds. Our other sources of income include revenues from sales of securities, deposit account service fees and fee-based services, such as cash management fees and alternative investment income.

OVERVIEW OF PERFORMANCE (CONTINUED)

Economic and industry factors that could cause the Company's financial performance to differ from expected results include changes in applicable federal and state regulations, changes in the hospitality industry on which the Company's business is largely dependent, interest rate volatility, significant changes in loan losses which may affect the Company's allowance for loan losses and the related provision for loan losses, and changes in the securities market that would affect the performance of the Company's investment portfolio. Management evaluates each of these factors on an ongoing basis to determine their impact and to effect any strategies necessary to mitigate these risks.

The Company reported net income of \$3,279,000, or \$1.16 basic earnings per common share, in 2007 compared to net income of \$3,215,000, or \$1.08 basic earnings per common share, in 2006 and \$2,673,000, or \$0.89 basic earnings per common share, in 2005. Return on average equity was 6.53% in 2007, compared to 6.24% in 2006 and 5.33% in 2005. Return on average assets was 0.49% in 2007, compared to 0.51% in 2006 and 0.43% in 2005.

On August 28, 2007 at the Annual Meeting of Stockholders, the stockholders of the Company approved a 1-400 reverse stock split. As a result of the reverse stock split, each stockholder owning fewer than 400 shares of common stock of Northway immediately before the reverse stock split received \$37.50 in cash, without interest, for each share of Northway common stock owned by such stockholder immediately prior to the reverse stock split and is no longer a stockholder of Northway. Further, the stockholders approved an 800-for-1 forward stock split of the remaining Northway common stock. Each holder of 400 or more shares of common stock immediately before the reverse stock split participated in the forward stock split, which resulted in such stockholder holding twice the number of shares of common stock he held prior to the reverse stock split. The record date for the reverse stock split and the forward stock split was Tuesday September 4, 2007. The effective date for the transaction was September 11, 2007. As a result of the transaction, the Company deregistered its common stock with the Securities and Exchange Commission ("SEC") and, therefore, terminated applicable reporting obligations under the federal securities laws.

On April 7, 2006, the Company acquired from Washington Mutual Bank the former Provident National Bank branches located in Tilton and Belmont, New Hampshire. This transaction included the purchase of approximately \$8,192,000 in loan balances, net of discount, and the acquisition of deposits, net of deposit assumption premium, totaling approximately \$27,779,000, for which the Company paid a deposit assumption premium of 6.30%. See NOTE 11 to the Consolidated Financial Statements.

During 2007, the Company recorded a decrease in net interest and dividend income of \$397,000, as an increase in the cost of interest bearing liabilities of 0.55% was only partially offset by an increase in the yield on earning assets of 0.26% and an increase in average earning assets of \$40,704,000. During 2007, interest and dividend income increased \$3,817,000 due primarily to an increase in the average balances on loans and investments of \$14,347,000 and \$25,466,000, respectively, as well as an increase in the yield on both loans and investments. Interest expense increased \$4,223,000 due to an increase in the rates paid for certificates of deposit and borrowed funds as well as an increase in interest bearing liabilities of \$41,780,000. The provision for loan losses increased \$345,000 as the total provision for 2007 was \$810,000 compared to \$465,000 for 2006. The increase in the provision for loan losses was the result of the ongoing review of the adequacy of the allowance for loan losses. Noninterest income, excluding securities gains, decreased \$181,000 from last year due to a decrease in the valuation of the Company's cash surrender value life insurance and a decrease in one-time items from 2006 relating to the resolution of a significant loan relationship workout as well as unwind fee income from a Federal Home Loan Bank ("FHLB") symmetrical advance. During 2007, the Company realized net securities gains of \$520,000 compared to \$394,000 in 2006. Noninterest expense decreased \$688,000 from last year due primarily to decreases in salaries and benefits expense, office occupancy and equipment expense, and the amortization of core deposit intangibles, which was partially offset by one-time expenses associated with the reverse and forward stock split transaction and the write down of unamortized deferred costs associated with the refinance of \$20,620,000 in junior subordinated debentures.

During 2006, the Company recorded a decrease in net interest and dividend income of \$974,000, as an increase in the cost of interest bearing liabilities of 0.92% was only partially offset by an increase in the yield on earning assets of 0.65% and an increase in average earning assets of \$9,026,000. During 2006, interest and dividend income increased \$3,862,000 due primarily to an improvement in the yield on loans as well as an increase in both the yield and average balances of investments. Interest expense increased \$4,837,000 due primarily to an increase in interest bearing liabilities of \$10,079,000 as well as a shift in liabilities from savings and NOW accounts, a less expensive source of funds, into certificates of deposits and securities sold under agreements to repurchase, more costly sources of funds. The provision for loan losses increased \$390,000 as the total provision for 2006 was \$465,000 compared to \$75,000 for 2005. The increase in the provision for loan losses was the result of the ongoing review of the adequacy of the allowance for loan losses. Noninterest income, excluding securities gains, increased \$931,000 from last year due primarily to an increase in overdraft income, debit card fees and one-time favorable items relating to the resolution of a significant loan relationship workout as well as unwind fee income from a FHLB symmetrical advance. During 2006, the Company realized net securities gains of \$394,000 compared to net securities losses of \$551,000 for the prior year. The 2005 net losses were the result of the restructuring of the investment portfolio as well as the sale of corporate bonds at a loss of \$499,000. Noninterest expense increased \$159,000 over the prior year.

NET INTEREST AND DIVIDEND INCOME ANALYSIS

Fluctuations in interest rates as well as changes in volume and mix of income earning assets and interest bearing liabilities can materially impact net interest and dividend income, the principal source of our income. The discussion of net interest and dividend income is presented on a taxable equivalent basis, unless otherwise noted, to facilitate performance comparisons among various taxable and tax-exempt assets.

The table below under the caption “Consolidated Average Balances, Interest and Dividend Income/Expense and Average Yields/Rates,” presents the average balances, income earned or interest paid, and average yields earned or rates paid on the Company’s assets and liabilities for the years ended December 31, 2007, 2006, and 2005.

Net interest and dividend income for 2007 remained relatively unchanged at \$23,203,000 compared to 2006. Interest and dividend income increased \$4,215,000, or 11%, in 2007 compared to 2006. This was the result of both an increase in the average balances on loans and investments of \$14,347,000 and \$25,466,000, respectively, as well as an improvement in the yield on investments and loans of 0.41% and 0.29%, respectively. The increase in investment securities was due primarily to an increase in US government-agency mortgage-backed securities and municipal bonds. The increase in loan portfolio occurred in residential mortgage loans, commercial real estate and commercial loans and municipal loans and was accompanied by a decrease in consumer loans, primarily indirect installment loans.

Interest expense increased \$4,223,000, or 31%, in 2007 compared to 2006. Interest expense increased due primarily to an increase in the average balance of interest bearing liabilities of \$41,780,000 as well as an increase in the rate paid on interest bearing liabilities of 0.55%. The increase in interest bearing liabilities occurred principally in certificates of deposit, securities sold under agreements to repurchase and FHLB advances, all of which are more expensive sources of funds.

Net interest and dividend income for 2006 decreased \$488,000, or 2%, compared to 2005. Interest and dividend income increased \$4,349,000, or 13%, in 2006 compared to 2005. Rising interest rates and a shift in the loan mix resulted in an improvement on the yield on loans of 0.65%. Further, the average balance on investments increased \$14,266,000 and the yield on investments increased 0.66% resulting in an improvement in investment income of \$1,419,000.

The increase in interest income was more than offset by an increase in interest expense of \$4,837,000, or 54%, in 2006 compared to 2005. Interest expense increased due primarily to an increase in the cost of interest bearing liabilities of 0.92%. This increase was the result of an increase in rates paid on money market accounts, certificates of deposit, securities sold under agreements to repurchase, FHLB advances and junior subordinated debentures. These rates increased as a result of the increase in interest rates during 2006. Further, the Company experienced a shift in liabilities from lower costing savings and NOW accounts into more expensive sources of funds, including money markets accounts, certificates of deposit and securities sold under agreements to repurchase.

The trend in net interest and dividend income is commonly evaluated in terms of average rates using net interest margin and interest rate spread. The net interest margin is computed by dividing fully taxable equivalent net interest and dividend income by average total earning assets. This ratio represents the difference between the average yield returned on average earning assets and the average rate paid for all funds used to support those earning assets, including both interest bearing and noninterest bearing sources of funds. The net interest margin decreased 0.25% to 3.67% in 2007 and decreased 0.15% to 3.92% in 2006. The decrease in the net interest margin for 2007 was a direct result of the increase in the cost of interest bearing liabilities, which increase was only partially offset by the increase in the yield on earning assets and the increase in average earning assets. The decrease in the net interest margin for 2006 was also a direct result of the increase in the cost of interest bearing liabilities, which increase was only partially offset by an increase in the yield on earning assets.

The interest rate spread measures the difference between the average yield on earning assets and the average rate paid on interest bearing liabilities. The interest rate spread eliminates the impact of noninterest bearing funds and gives a direct perspective on the effect of interest rate fluctuations. During 2007, the net interest rate spread decreased 0.29% to 3.24% as the cost of interest bearing liabilities increased 0.55% and was only partially offset by an increase in the yield on earning assets of 0.26%. During 2006, the net interest rate spread decreased 0.27% to 3.53% as the cost of interest bearing liabilities increased 0.92% and was only partially offset by an increase in the yield on earning assets of 0.65%.

PROVISION FOR LOAN LOSSES

The provision for loan losses represents the annual cost of providing an allowance for losses inherent in the loan portfolio. The size of the provision for each year is determined by management based upon many factors, including loan growth, net charge-offs, changes in the composition of the loan portfolio, delinquencies, management's assessment of loan portfolio quality, the value of collateral and general economic factors.

The provision for loan losses was \$810,000 in 2007, an increase of \$345,000 from the provision recorded in 2006. The provision for loan losses was \$465,000 in 2006, a increase of \$390,000 from the provision recorded in 2005. The provision for each of the three years was based upon a review of the adequacy of the allowance for loan losses, which is conducted on a quarterly basis. This review is based upon many factors, including the risk characteristics of the portfolio, trends in loan delinquencies, and an assessment of existing economic conditions. In addition, various regulatory agencies, as part of their examination process, review the Company's allowance for loan losses and such review may result in changes to the provision based on judgments different from those of management.

The increase in the 2007 provision was due in large part to an increase in commercial loans, especially large hospitality loans, which require a higher risk weighting in the allowance for loan loss calculation. Further, economic conditions in late 2007 impacted the loss calculation resulting in the need for a higher provision. The increase in the 2006 provision was due in large part to an increase in commercial loans, especially large hospitality loans, which require a higher risk weighting in the allowance for loan loss calculation.

Although management utilizes its best judgment in providing for losses, there can be no assurance that the Company will not have to change its provision for loan losses in subsequent periods. Management will continue to monitor the allowance for loan losses and modify the provision to the allowance for loan losses as appropriate.

NONINTEREST INCOME

Noninterest income consists of revenues generated from a broad range of financial services and activities, including fee-based services and income earned through securities sales.

The following table sets forth the components of the Company's noninterest income:

	(\$000 Omitted)		
	Years Ended December 31,		
	2007	2006	2005
Service charges and fees on deposit accounts	\$2,953	\$2,837	\$2,430
Gain (loss) on sales of securities available-for-sale, net	520	394	(551)
Debit card fees	662	557	456
Gain on sales of loans, net	185	137	260
Other	1,487	1,937	1,391
Total noninterest income	<u>\$5,807</u>	<u>\$5,862</u>	<u>\$3,986</u>

Fee income from service charges and fees on deposit accounts increased 4% in 2007, 17% in 2006 and 9% in 2005. The improvement in 2007 was due primarily to an increase in overdraft fee income. The improvement in 2006 was due primarily to an increase in overdraft fee income due to a 20% increase in the insufficient funds ("NSF") per item fees in May 2006 as well as the impact of the two branches acquired April 7, 2006. The improvement in 2005 was due primarily to an increase in overdraft fee income due to the full year impact of the introduction of Bounce Protection™, an overdraft privilege program, in April 2004.

During 2007, the Company recognized a net gain on sales of securities of \$520,000 compared to a net gain on sales of securities of \$394,000 in 2006 and a net loss on sales of securities of \$551,000 in 2005. Securities gains in 2007 and 2006 were primarily the result of the strong equity market. Securities losses in 2005 were primarily due to the restructuring of the investment portfolio, which resulted in the sale of U.S. Government Agency bonds at a loss, as well as the sale of corporate bonds at a loss of \$499,000. Securities gains, net, in 2007 included \$593,000 of net gains on sales of equity securities compared to \$440,000 and \$117,000 in 2006 and 2005, respectively. Net losses on the sales of debt securities totaled \$73,000 in 2007 compared to net losses of \$46,000 and \$668,000 in 2006 and 2005, respectively.

Debit card fees were \$662,000 in 2007 compared to \$557,000 in 2006 and \$456,000 in 2005. The \$105,000 increase in debit card fees in 2007 and \$101,000 in 2006 reflects the increase in debit card usage over the past several years. Further, during 2007 the Company instituted a program entitled Dime-A-Time, which allows customers to earn ten cents for each credit-based transaction using their debit card and has enhanced debit card usage.

Gains on sales of loans, net increased \$48,000 in 2007 compared to 2006 as gains on sales of mortgage loans increased \$32,000. Gains on sales of loans, net, decreased \$123,000 in 2006 compared to 2005 as gains on sales of mortgage loans declined \$52,000 to \$77,000 and the Company recorded no gain on the sale of commercial loans in 2006 compared to \$68,000 in 2005. Gains on sales of loans, net, decreased \$114,000 in 2005 compared to 2004.

Other noninterest income (sources of which include credit card merchant income, ATM fees, loan fees, safe deposit fees and commissions on alternative investment products) decreased \$450,000, or 23%, to \$1,487,000 in 2007 following an increase of \$546,000, or 39%, to \$1,937,000 in 2006 and a increase of \$22,000, or 2%, to \$1,391,000 in 2005. The decrease in 2007 was due primarily to a decrease in the valuation of the Company's cash surrender value life insurance and to 2006 one-time favorable items relating to the resolution of a significant loan relationship workout as well as unwind fee income from a FHLB symmetrical advance. The increase in 2006 was due primarily to an increase in income from alternative investment products, an increase in the valuation of the cash surrender value of a company-owned life insurance and several one-time favorable items relating to the recapture of prior years' interest and expenses on the payoff of a large commercial loan workout totaling \$100,000, gains on sale of OREO property of \$86,000 as well as an unwind fee of \$84,000 from the redemption of a FHLB symmetrical advance. The increase in 2005 was due primarily to an increase in income from alternative investments products as well as an increase in debit card income.

NONINTEREST EXPENSE

Total noninterest expense decreased \$688,000, or 3%, during 2007 following an increase of \$159,000, or 1%, during 2006 and an increase \$1,188,000, or 5%, during 2005. In 2007, noninterest expense decreased due primarily to decreases in salaries and benefits expense, office occupancy and equipment expense, and the amortization of core deposit intangibles, which was partially offset by one-time expenses of \$918,000 associated with the reverse and forward stock split transaction and the write down of unamortized deferred costs associated with the refinance of \$20,620,000 in junior subordinated debentures. During 2006, noninterest expense was impacted by expenses totaling approximately \$125,000 associated with the acquisition of the two branches in April 2006 and \$357,000 associated with a FHLB unwind penalty due to the early prepayment of FHLB advances. The increase in expenses during 2005 is due primarily to one-time expenses of \$1,161,000 resulting from the merger of the Company's two subsidiary banks.

The following table sets forth information relating to the Company's noninterest expense during the periods indicated:

	(\$000 Omitted) Years Ended December 31,		
	2007	2006	2005
Salaries and employee benefits	\$12,164	\$12,252	\$11,633

Other	3,030	3,653	3,488
Total noninterest expense	<u>\$23,053</u>	<u>\$23,741</u>	<u>\$23,582</u>

One-time expenses of \$918,000 for 2007 consisted of \$353,000 in costs related to the reverse and forward stock split transaction completed September 11, 2007 and \$565,000 associated with the write down of unamortized deferred costs associated with the refinance of \$20,620,000 in junior subordinated debentures.

During 2006, noninterest expense included approximately \$126,000 in one-time costs associated with the acquisition of the two former Providian Bank deposits of \$29.5 million. These expenses were related primarily to system conversion costs, marketing, postage and shipping and the expense of providing checks to our new deposit customers.

The merger related expenses, which totaled \$1,161,000 for 2005, consisted primarily of advertising expense of \$386,000, stationery and supplies of \$337,000, equipment expense of \$141,000, professional fees of \$83,000, legal fees of \$81,000 and state transfer tax of \$71,000. These one-time costs related to marketing the Northway brand, replacing all existing forms, replacing all existing signage, transfer of real estate, and all necessary legal and computer systems issues related to the merger. These expenses are included in the table above in the appropriate expense categories.

Salaries and employee benefits decreased \$88,000, or 1%, from 2006 to 2007 and increased \$619,000, or 5%, from 2005 to 2006. The decrease in 2007 was due primarily to a decrease in salary expense partially offset by an increase in incentive compensation expense and Supplemental Employee Retirement Plan ("SERP") expense. The increase in 2006 was attributable primarily to increases in health and dental insurance, pension expense and the SERP expense as well as one-time separation expenses from the centralization of consumer lending. The decrease in 2005 was due primarily to a focus on staffing levels, an increase in SFAS No. 91 credits associated with deferred loan origination costs, and a decrease in the expense related to the SERP.

Office occupancy and equipment expense decreased \$249,000 in 2007 compared to 2006 due primarily to a decrease in equipment expense and maintenance expense. Office occupancy and equipment expense decreased \$92,000 in 2006 compared to 2005. Further, 2005 included one-time merger related expenses of \$141,000. The primary reason for the decrease of \$233,000, net of merger related expenses, was the decrease in occupancy depreciation expense, leases and property maintenance partially offset by an increase in equipment depreciation and maintenance expense. Office occupancy and equipment expenses increased \$268,000, net of merger related expenses of \$141,000, during 2005 compared to 2004. The increase in 2005 was due primarily to increases in building maintenance costs as well as one-time expenses associated with the write-down of leasehold improvements associated with the closure of two supermarket branch facilities.

During 2007, the amortization of core deposit intangibles expense decreased \$575,000 as amortization of the branches acquired in 2002 ended in December 2006. The amortization of core deposit intangibles increased \$97,000 from 2005 to 2006 due to the core deposit intangibles amortization associated with the two branches acquired in April 2006. There was no change from 2004 to 2005. Management reviews the carrying amount of intangible assets on an ongoing basis, taking into consideration any events and circumstances that might have diminished such amount. During 2007 and 2006, the Company reviewed the carrying amount of intangible assets and determined that no impairment write-down was required.

INCOME TAX EXPENSE

The Company recognized \$470,000, \$652,000 and \$842,000 in income tax expense for the years ended December 31, 2007, 2006 and 2005, respectively. The effective tax rate was 12.5% for 2007, 16.9% for 2006 and 24.0% for 2005. For additional information relating to income taxes, see NOTE 15 to the Consolidated Financial Statements.

ASSETS

Total assets increased \$37,896,000, or 6%, to \$688,773,000 at December 31, 2007 compared to \$650,877,000 at December 31, 2006. The following is a summary of significant balance sheet changes.

	(\$000 Omitted)

Stockholders' equity	44,645	52,149	(7,504)	(14.4)

The increase in earning assets of \$36,252,000 was due primarily to an increase in loans and securities available-for-sale partially offset by a decrease in federal funds sold. The increase in earning assets was accompanied by an increase in borrowings which was partially offset by a decrease in deposits. The decrease in stockholders' equity was due primarily to the payment of \$9,029,000 to complete the reverse stock split transaction.

SECURITIES AVAILABLE-FOR-SALE

The Company's securities are classified into one of two categories based on management's intent to hold the securities: (i) "held-to-maturity" securities, or (ii) securities "available-for-sale." Securities designated to be held-to-maturity are reported at amortized cost. Securities classified as available-for-sale are required to be reported at fair value with unrealized gains and losses, net of taxes, excluded from earnings and shown separately as a component of stockholders' equity. At December 31, 2007 and 2006 the Company had no securities designated as held-to-maturity.

The following table summarizes the Company's securities portfolio at December 31, 2007 and 2006 showing amortized cost and fair value for each category:

	(\$000 Omitted)

SECURITIES AVAILABLE-FOR-SALE (CONTINUED)

The fair value of total securities available-for-sale increased \$17,705,000 during 2007 to \$143,543,000 as a result of the growth in funding sources. The Company purchased U.S. government agency mortgage-backed securities, marketable equity securities and state and political subdivision bonds and notes.

The net unrealized loss on securities available-for-sale was \$875,000 at December 31, 2007 compared to a net unrealized loss of \$499,000 at December 31, 2006 due primarily to the continued level of low interest rates, which decreases the value of our security holdings. At December 31, 2007, the net unrealized loss on debt securities was \$560,000 and the net unrealized loss on marketable equity securities was \$315,000. At December 31, 2006, the net unrealized loss on debt securities was \$752,000 and the net unrealized gain on marketable equity securities was \$253,000.

At December 31, 2007, the Company's investment in equity securities totaled \$5,910,000. This amount is net of a market value adjustment of (\$315,000), of which the full amount was reflected as an increase in accumulated other comprehensive loss in stockholders' equity.

The Company has a general policy of purchasing investment grade securities and U.S. government securities to minimize credit risk. All securities, however, carry interest rate risk, which affect their market values such that as market yields increase, the value of the Company's debt securities decline and vice versa. Additionally, mortgage-backed securities carry prepayment risk whereby expected yields may not be achieved due to the inability to reinvest proceeds from prepayment at comparable yields. Moreover, such mortgage-backed securities may not benefit from price appreciation in periods of declining rates to the same extent as the remainder of the portfolio.

A portion of the securities portfolio is pledged to secure public deposits, securities sold under agreements to repurchase, FHLB advances and treasury, tax and loan accounts. Refer to NOTE 3 to the Consolidated Financial Statements for a further discussion of pledging of securities.

LOANS

Gross loans increased \$25,640,000, or 5.5%, to \$489,542,000 at December 31, 2007 compared to December 31, 2006. This increase was due primarily to an increase in commercial real estate, residential real estate, commercial and municipal loans, which was partially offset by a decrease in indirect installment loans of \$18,648,000. Gross loans increased \$2,087,000, or 0.5%, to \$463,902,000 at December 31, 2006 compared to December 31, 2005. This increase was due primarily to an increase in commercial real estate, residential real estate, commercial and installment loans, which was partially offset by a decrease in indirect installment loans of \$33,507,000. The following table presents the composition of the loan portfolio as of December 31, 2007 and 2006:

	(\$000 Omitted)			
	2007	Percent of Total	2006	Percent of Total
Real estate:				
Residential	\$177,931	36.3	\$167,172	36.0
Commercial	169,744	34.7	158,464	34.2
Construction	14,368	2.9	10,700	2.3
Commercial	39,924	8.2	33,569	7.2
Installment	41,867	8.6	42,489	9.2
Indirect installment	10,066	2.0	28,714	6.2
Other (including municipal)	35,642	7.3	22,794	4.9
	<u>\$489,542</u>	<u>100.0</u>	<u>\$463,902</u>	<u>100.0</u>

During 2007, the loan portfolio mix continued to shift as runoff from the indirect installment loan portfolio was redeployed into residential real estate, commercial real estate, commercial and municipal loans. Residential real estate loans increased modestly to account for 36.3% of the portfolio from 36.0% at December 31, 2006 due in part to the decision to continue the retention of high credit quality fixed-rate mortgages in the portfolio rather than sell in the secondary market. Commercial real estate and construction loans now comprise 34.7% and 2.9%, respectively of total loans compared to 34.2% and 2.3%, respectively at December 31, 2006 due to the continued efforts of our seasoned commercial lenders. Indirect installment loans, which originations were discontinued in August 2004, now comprise 2.0% of total loans compared to 6.2% at December 31, 2006. Other loans, which consist primarily of municipal loans, now comprise 7.3% to total loans compared to 4.9% at December 31, 2006.

LOANS (CONTINUED)

Commercial real estate loans consist of loans secured by income producing and owner-occupied commercial real estate and commercial loans consist of loans that are either unsecured or are secured by inventories, receivables or other corporate assets, and some are additionally secured by a guarantee of the federal Small Business Administration. Commercial real estate and commercial loans increased by \$17,635,000 in 2007 as compared to 2006. The Company continues to emphasize commercial real estate and commercial loans in order to enhance earnings and maintain the balance of its portfolio.

Residential real estate loans increased by \$10,759,000, a 6% increase from 2006, compared to an increase of \$8,443,000, or 5%, in 2006 compared to 2005. The Company originates both fixed-rate and adjustable-rate residential loans for its portfolio. Some fixed-rate residential loans are originated for sale to investors in the secondary market. The increase in residential real estate loans in 2007 resulted primarily from the Company's decision to retain a greater percentage of fixed-rate residential mortgage loans.

During 2007, other loan balances, consisting primarily of municipal loans, increased \$12,848,000, or 56%, from 2006. Indirect installment loans decreased by \$18,648,000, or 65%, in 2007 compared to a decrease of \$33,507,000, or 54%, in 2006.

NONPERFORMING ASSETS

Nonperforming assets were \$4,962,000, or 0.72%, of total assets, at December 31, 2007 compared to \$3,714,000, or 0.57% of total assets, at December 31, 2006, an increase of \$1,248,000, or 34%. Nonperforming assets are comprised primarily of nonaccrual loans, other chattels owned and real estate acquired by foreclosure or a similar conveyance of title. The accrual of interest on a loan is discontinued when there is reasonable doubt as to its collectability or whenever the payment of principal or interest is more than 90 days past due. However, there are loans within this nonaccrual classification that provide periodic payments, but which have a weakness with respect to the collateral securing the loan.

At December 31, 2007, nonaccrual loans totaled \$4,268,000, or 0.87% of total loans, compared to \$3,698,000, or 0.80% of total loans, in 2006. At December 31, 2007 the Company had \$666,000 in other real estate owned. At December 31, 2006, the company had no other real estate owned. Other chattels owned increased \$12,000 to \$28,000 at December 31, 2007 compared to \$16,000 at December 31, 2006.

ALLOWANCE FOR LOAN LOSSES

The Company maintains an allowance for loan losses to absorb losses inherent in the existing loan portfolio. When a loan, or portion thereof, is considered uncollectible, it is charged against the allowance. Recoveries of amounts previously charged-off are added to the allowance when collected. The adequacy of the allowance for loan losses is evaluated on a regular basis by management. Factors considered in evaluating the adequacy of the allowance include previous loss experience, current economic conditions and their effect on borrowers and the market area in general, and the performance of individual credits in relation to the contract terms. In addition various federal and state regulatory agencies, as an integral part of their examination process, periodically review the adequacy of the Company's allowance for loan losses.

The Company's allowance for loan losses increased \$659,000 from December 31, 2006 to \$6,240,000, or 1.27% of total loans, at December 31, 2007.

The following table sets forth the activity of the allowance for loan losses for the periods indicated:

The following table sets forth the components of deposits for the periods indicated:

BORROWINGS

At December 31, 2007 short-term borrowings consisted of a FHLB advance totaling \$9,435,000 and securities sold under agreements to repurchase of \$54,430,000 compared to securities sold under agreements to repurchase of \$36,497,000 at December 31, 2006.

Long-term debt in 2007 consisted of FHLB term advances of \$76,000,000 as well as \$20,620,000 of junior subordinated debentures, compared to \$53,000,000 of FHLB term advances and \$20,620,000 of junior subordinated debentures in 2006. Thirteen long-term term FHLB advances are callable quarterly with their next call dates ranging from January 2008 through May 2010. The increase in FHLB advances is the result of new advances totaling \$41,000,000 partially offset by the maturity and redemption of \$18,000,000 in advances.

Junior subordinated debentures consist of two issues of floating rate trust preferred securities acquired during April and July 2007 in the amount of \$10,310,000 each, due in 2032. These junior subordinated debentures were offered for the purpose of refinancing junior subordinated debentures issued in 2002. The refinance was completed in order for the Company to reduce its interest expense relating to these securities. The original junior subordinated debentures were offered for the purpose of providing capital to the subsidiary bank to ensure adequate capital following branch acquisitions and for general corporate purposes. As of December 31, 2007, of the \$20,620,000 principal amount outstanding, \$15,354,000 qualified as Tier 1 capital and \$5,266,000 was allocated to Tier 2 capital.

OFF-BALANCE SHEET ARRANGEMENTS

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to originate loans and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet. The amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for balance sheet instruments.

Financial instruments with off-balance sheet credit risk at December 31, 2007 and 2006 totaled \$94,531,000 and \$92,220,000, respectively.

See NOTE 17 to the Consolidated Financial Statements for additional information regarding off-balance sheet arrangements.

CAPITAL

The Company's stockholders' equity serves to support growth and provide depositors and other creditors protection against loss. Equity capital represents the stockholders' investment in the Company. Management strives to maintain an optimal level of capital on which an attractive return to the stockholders will be realized over both the short-term and long-term, while serving depositors' and creditors' needs.

The Company must also observe the minimum requirements enforced by the federal banking regulators. There are three capital requirements that banks and bank holding companies must meet: Tier 1 capital, total capital (combination of Tier 1 capital and Tier 2 capital), and leverage (Tier 1 capital to average assets) ratios. Tier 1 capital consists of stockholders' equity, net of intangible assets as well as a portion of junior subordinated debentures. Tier 2 capital consists of a limited amount of allowance for loan losses and the portion of junior subordinated debentures not allocated to Tier 1 capital. Tier 1 capital, total capital and leverage ratios do not include any adjustments for unrealized gains and losses relating to securities available-for-sale except net unrealized losses relating to marketable equity securities. The minimum requirements for the leverage ratio, risk-based Tier 1 capital and risk-based total capital are 4%, 4% and 8%, respectively. As of December 31, 2007 and 2006, the Bank was "well capitalized" as defined under FDIC regulations.

The following table sets forth the Company's risk-based capital and leverage ratios:

	(\$000 Omitted)	
	December 31,	
	2007	2006
Risk-adjusted assets	\$434,753	\$416,735

Tier 1 capital (to risk weighted assets)	11.36	14.02
Total capital (to risk weighted assets)	13.82	15.95

Total stockholders' equity includes a \$1,881,000 negative adjustment for accumulated other comprehensive loss, net of tax, at December 31, 2007 and a \$1,256,000 negative adjustment for accumulated other comprehensive loss, net of tax, at December 31, 2006. At December 31, 2007 this adjustment was comprised of a net unrealized loss on securities available-for-sale, net of taxes, of \$528,000, a \$1,729,000 unrealized loss on pension valuation, net of tax and a \$376,000 unrealized credit on prior pension service cost. At December 31, 2006 this adjustment was comprised of a net unrealized loss on securities available-for-sale, net of taxes, of \$301,000, a \$1,382,000 unrealized loss on pension valuation, net of tax and a \$427,000 unrealized credit on prior pension service cost.

The Company intends to continue to pay dividends on a quarterly basis subject to the financial condition and earnings of the Company, capital requirements, and other factors, including applicable governmental regulations. No dividends will be payable unless declared by the Board of Directors and then only to the extent funds are legally available for the payment of such dividends.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Northway Financial, Inc. (“Northway”) is a bank holding company formed in 1997 under the laws of New Hampshire and is registered under the Bank Holding Company Act of 1956. Northway’s only business activity has been to own all of the shares of, and provide management, capital and operational support to Northway Bank (“Bank”), its subsidiary, and its Delaware statutory business trusts Northway Capital Trust III and Northway Capital Trust IV, affiliates of Northway. Northway and its subsidiary (the “Company”) are headquartered in Berlin, New Hampshire. The Bank is engaged principally in the business of attracting deposits from the general public and investing those deposits in securities, commercial loans, real estate loans, and consumer loans.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated in the consolidation.

Northway Capital Trust III and Northway Capital Trust IV, affiliates of the Company, were formed to sell capital securities to the public through a third party trust pool. In accordance with FASB Interpretation No. 46, “Consolidation of Variable Interest Entities” (“FIN 46”), these affiliates have not been included in the consolidated financial statements.

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry.

Earnings per share and dividends per share have been adjusted to reflect the impact of the reverse and forward stock split transaction completed September 11, 2007.

In preparing the financial statements, management is required to make estimates and judgments that affect the reported amounts of assets and liabilities as of the dates of the consolidated balance sheets, and income and expense for the periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to change in the near-term relate to the determination of the allowance for loan losses.

Reclassifications

Certain amounts in the prior years’ financial statements have been reclassified to conform with the current year’s presentation.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and due from banks, interest-bearing deposits, and federal funds sold.

Securities

Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and reported at amortized cost; if debt and equity securities are bought and held principally for the purpose of selling in the near term they would be classified as trading and reported at fair value, with unrealized gains and losses included in earnings; and debt and equity securities not classified as either held-to-maturity or trading are classified as available-for-sale and reported at fair value, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders’ equity, net of estimated income taxes. At this time, the Company has not established a trading account.

Premiums and discounts are amortized and accreted primarily on the level yield method over the contractual life of the securities adjusted for expected prepayments.

If a decline in the fair value below the adjusted cost basis of an investment is judged to be other than temporary, the cost basis of the investment is written down to fair value as the new cost basis and the amount of the write-down is included in noninterest expense.

Gains and losses on sales of securities available-for-sale are recognized at the time of the sale on a specific identification basis.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Loans Held-for-Sale

Loans held-for-sale are generally identified as such at origination and are stated at the lower of aggregate cost or market. Market value is based on outstanding investor commitments. When loans are sold, a gain or loss is recognized to the extent that the sale proceeds exceed or are less than the carrying value of the loans. Gains and losses are determined using the specific identification method. All loans sold are without recourse to the Company.

Loans

Loans are carried at the principal amounts outstanding, net of any unearned income or unamortized cost, premiums on originated loans and discounts on acquired loans. Unearned income and unamortized cost includes loan origination fees, net of direct loan origination costs. This income or expense is deferred and recognized as adjustments to loan income over the contractual life of the related notes using a method the result of which approximates that of the interest method.

Loans are placed on nonaccrual when payment of principal or interest is considered to be in doubt or is past due 90 days or more. The Company may choose to place a loan on nonaccrual status due to payment delinquency or uncertain collectability, while not classifying the loan as impaired, if (i) it is probable that the Company will collect all amounts due in accordance with the contractual terms of the loan or (ii) the loan is not a commercial, commercial real estate or an individually significant mortgage or consumer loan. Previously accrued income on nonaccrual loans that has not been collected is reversed from current income, and subsequent cash receipts are recorded as income if principal on the loans is deemed collectible. Loans are returned to accrual status when collection of all contractual principal and interest is reasonably assured and there has been sustained repayment performance.

The Company's loans are primarily secured by real estate in New Hampshire. In addition, other real estate owned is located in this market. Accordingly, the ultimate collectability of a substantial portion of the Company's loan portfolio and the recovery of other real estate owned are susceptible to changing conditions in this market.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level considered adequate by management on the basis of many factors including the risk characteristics of the portfolio, trends in loan delinquencies and an assessment of existing economic conditions. Additions to the allowance are charged to earnings; realized losses, net of recoveries, are charged directly to the allowance.

While management uses available information in establishing the allowance for loan losses, future additions to the allowance may be necessary if economic conditions differ substantially from the estimates used in making the evaluations. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Company's allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance based on judgments different from those of management.

Commercial, commercial real estate and individually significant mortgage and consumer loans are considered impaired, and are placed on nonaccrual, when it is probable that the Company will not be able to collect all amounts due according to the contractual terms of the loan agreement. Mortgage and consumer loans, which are not individually significant, are measured for impairment collectively. Loans that experience insignificant payment delays and insignificant shortfalls in payment amounts generally are not classified as impaired. The amount of impairment for all impaired loans is determined by the difference between the present value of the expected cash flows related to the loan, using the original contractual interest rate, and its recorded value, or, as a practical expedient in the case of collateralized loans, the difference between the fair value of the collateral and the recorded amount of the loan.

When foreclosure is probable, impairment is measured based on the fair value of the collateral less estimated costs to sell.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Servicing Assets

Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. Capitalized servicing rights are reported in other assets and are amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets. Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to amortized cost. Impairment is determined by stratifying rights by predominant characteristics, such as interest rates and terms. Fair value is determined using prices for similar assets with similar characteristics, when available, or based upon discounted cash flows using market-based assumptions. Impairment is recognized through a valuation allowance for an individual stratum, to the extent that fair value is less than the capitalized amount for the stratum.

Premises and Equipment

Premises and equipment are carried at cost less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the respective assets. Estimated lives are thirty-nine years for buildings, ten to fifteen years for building improvements and three to seven years for furniture and equipment.

Amortization of leasehold improvements is accumulated on a straight-line basis over the lesser of the term of the respective lease or the asset's useful life, not to exceed ten years.

Other Real Estate Owned

Other real estate owned is comprised of properties acquired either through foreclosure proceedings or acceptance of a deed in lieu of foreclosure, and for which the Company has taken physical possession. The Company classifies loans as repossessed or foreclosed if the Company receives physical possession of the debtor's assets, regardless of whether or not foreclosure proceedings take place.

Assets acquired through foreclosure or a similar conveyance of title are initially recorded at the lower of the carrying value of the loan or the fair value, less estimated costs to sell, of the property constructively or actually received. Gains and losses upon disposition are reflected in the statement of income as realized.

Advertising

The Company directly expenses costs associated with advertising as they are incurred.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and the respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-Based Compensation

At December 31, 2007, the Company has a stock-based employee compensation plan which is described more fully in NOTE 16. Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004) "Share-Based Payment" ("SFAS 123R"). This Statement revised SFAS No. 123, "Accounting for Stock Based Compensation" and superceded Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. SFAS 123R requires that the cost resulting from all share-based payment transactions be recognized in the financial statements and establishes fair value as the measurement objective in accounting for share-based payment arrangements. No compensation expense was recognized for the twelve months ended December 31, 2007 and 2006 related to SFAS 123R. Prior to January 1, 2006, the Company accounted for the plan under the recognition and measurement principles of APB Opinion No. 25. No stock-based employee compensation cost had been recognized during periods prior to January 1, 2006 for its fixed stock option plans.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS 123R to stock-based employee compensation during the year ended December 31, 2005.

Earnings Per Share

Basic earnings per share ("EPS") excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS, if applicable, reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Earnings per common share have been computed based on the following:

Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 155, "Accounting for Certain Hybrid Instruments" (SFAS 155), which permits, but does not require, fair value accounting for any hybrid financial instrument that contains an embedded derivative that would otherwise require bifurcation in accordance with SFAS 133. The statement also subjects beneficial interests issued by securitization vehicles to the requirements of SFAS 133. The statement is effective as of January 1, 2007. The adoption of SFAS 155 did not have a material impact on the Company's financial condition, results of operations or cash flow.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets - an amendment of FASB Statement No. 140" (SFAS 156). SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in specific situations. Additionally, the servicing asset or servicing liability shall be initially measured at fair value; however, an entity may elect the "amortization method" or "fair value method" for subsequent balance sheet reporting periods. SFAS 156 is effective as of an entity's first fiscal year beginning after September 15, 2006. Early adoption is permitted as of the beginning of an entity's fiscal year, provided the entity has not yet issued financial statements, including interim financial statements, for any period of that fiscal year. The adoption of this statement did not have a material impact on the Company's financial condition, results of operations or cash flows.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In June 2006 the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement 109" ("FIN 48"). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of FIN 48 did not have a material impact on the Company's financial statements.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles (GAAP) and enhances disclosures about fair value measurements. SFAS 157 retains the exchange price notion and clarifies that the exchange price is the price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. SFAS 157 is effective for the Company's consolidated financial statements for the year beginning on January 1, 2008, with earlier adoption permitted. The Company does not expect the adoption of this statement to have a material impact on its financial condition, results of operations or cash flows.

In September 2006, the FASB ratified the consensus reached by the Emerging Issues Task Force ("EITF") on Issue No. 06-4 "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements," (EITF 06-4). EITF 06-4 requires companies with an endorsement split-dollar life insurance arrangement to recognize a liability for future postretirement benefits. The effective date is for fiscal years beginning after December 15, 2007, with earlier application permitted. Companies should recognize the effects of applying this issue through either (a) a change in accounting principle through a cumulative effect adjustment to retained earnings or (b) a change in accounting principle through retrospective application to all periods. The Company's adoption of this issue is not expected to have a material impact on its financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115" (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The new standard is effective at the beginning of the Company's fiscal year beginning January 1, 2008, and early application may be elected in certain circumstances. The Company's adoption of this statement is not expected to have a material impact on its financial position, results of operations or cash flows.

NOTE 2 CASH AND DUE FROM BANKS

At December 31, 2007 and 2006, there was \$699,000 and \$64,000, respectively, which was subject to withdrawals and usage restrictions to satisfy the reserve requirements of the Federal Reserve Bank.

NOTE 3 SECURITIES AVAILABLE-FOR-SALE (CONTINUED)

At December 31, 2007, securities with a total fair value of \$80,339,000 were in a loss position. These securities included seven U.S. government agency securities with a fair value of \$23,312,000 and an unrealized loss of \$169,000. These securities had an unrealized loss due to the current interest rate environment. As these securities are guaranteed or issued by U.S. government agencies or government sponsored enterprises such as FHLB, FHLMC or FNMA there is little or no credit risk associated with them. These securities are not other-than-temporarily impaired as the Company has the ability and the intent to hold these securities until recovery to cost basis.

Mortgage-backed securities with a fair value of \$20,077,000 had an unrealized loss of \$416,000 at December 31, 2007. As with the U.S. government agency securities, these securities have an unrealized loss due to the current interest rate environment. As all of these mortgage-backed securities are guaranteed or issued by U.S. government agencies or government sponsored enterprises such as FHLMC, GNMA or FNMA there is little or no credit risk associated with them. These securities have not been classified as other-than-temporarily impaired as the Company has the ability and intent to hold these securities until recovery to cost basis.

Twenty-one marketable equity securities with a fair value of \$3,927,000 had an unrealized loss of \$495,000 at December 31, 2007. Marketable equity securities are subject to internal testing on a quarterly basis to determine impairment. Testing includes review of industry analyst reports, credit ratings, sector analysis and earnings projections. Based upon the December 31, 2007 review, these securities were not determined to be other-than-temporarily impaired.

Three corporate bond securities with a fair value of \$4,711,000 had an unrealized loss of \$204,000 at December 31, 2007. Corporate bond securities are subject to internal testing on a quarterly basis to determine other-than-temporary impairment. Based upon the December 31, 2007 review, these securities were not determined to be other-than-temporarily impaired.

One asset-backed security with a fair value of \$4,795,000 had an unrealized loss of \$180,000 at December 31, 2007. Asset-backed securities are subject to internal testing on a quarterly basis to determine other-than-temporary impairment. Based upon the December 31, 2007 review, this security was not determined to be other-than-temporarily impaired.

Forty-four state and political subdivision securities with a fair value of \$23,517,000 had an unrealized loss of \$500,000 at December 31, 2007. As all of these state and political subdivision securities are guaranteed by municipalities there is minimal credit risk associated with them. These securities have not been classified as other-than-temporarily impaired as the Company has the ability to hold these securities until recovery to cost basis.

NOTE 4 LOANS (CONTINUED)

Loans are made in the ordinary course of business to directors, executive officers, and their immediate families and to organizations in which such persons have more than a 10% ownership interest. These loans are made on substantially the same terms, including interest rate and collateral, as those prevailing at the same time for comparable transactions with unrelated persons and did not involve more than the normal risk of collectibility or present other unfavorable features. The total of such loans amounted to \$864,000 as of December 31, 2007. During 2007, principal payments were \$220,000 and principal advances amounted to \$513,000.

The Company's lending activities are conducted principally in New Hampshire. Although the loan portfolio is diversified, a portion of its debtors' ability to repay is dependent upon the economic conditions prevailing in New Hampshire. The Company maintains significant credit relationships with borrowers in the hotel and motel industry. The aggregate loan balances to these industries totaled \$87,648,000 at December 31, 2007 and \$71,874,000 at December 31, 2006.

Loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balances of these loans total \$34,858,000 and \$36,225,000 at December 31, 2007 and 2006, respectively. The Company sold \$8,607,000 of mortgage loans in 2007 and \$5,965,000 of mortgage loans in 2006.

The Company capitalized \$94,000 and \$77,000 of servicing rights and amortized \$106,000 and \$115,000 of total servicing rights in 2007 and 2006, respectively. The impairment valuation allowance of mortgage servicing rights remained unchanged in both 2007 and 2006. Impairment of mortgage servicing rights is assessed based on the fair value of those rights. Fair values are estimated using discounted cash flows based on a current market interest rate. The amount of the impairment recognized is the amount by which the capitalized mortgage servicing rights exceed their fair value. At December 31, 2007 and 2006, respectively, the carrying amount of servicing rights was \$186,000 and \$198,000, and is included in other assets. At December 31, 2007 and 2006, respectively, the fair value of servicing rights was \$371,000 and \$417,000.

At December 31, 2007 and 2006, nonperforming loans totaled \$4,268,000 and \$3,698,000, respectively, and represent 0.87% and 0.80% of total loans, respectively. No nonperforming loans were past due 90 days or more and still accruing interest at December 31, 2007 and 2006.

The recorded investment in loans that are considered to be impaired under SFAS No. 114 was \$3,678,000 and \$2,666,000 at December 31, 2007 and 2006, respectively, for which the related allowance for loan losses is \$255,000 and \$0 at December 31, 2007 and 2006, respectively. All of the Company's impaired loans are collateralized and therefore all impaired loans are measured by the difference between the fair value of the collateral and the recorded amount of the loan. The average recorded investment in impaired loans during the twelve months ended December 31, 2007 and 2006 was approximately \$4,090,000 and \$2,787,000, respectively. For the twelve months ended December 31, 2007 and 2006 the Company recognized interest income on impaired loans of \$136,000 and \$231,000, respectively, which was recognized using the cash-basis method of income recognition. Further, for the twelve months ended December 31, 2007 and 2006 the Company applied \$161,000 and \$0, respectively, of interest payments received on impaired loans with a determined collateral shortfall as a reduction in the Bank's carrying balance.

NOTE 13 REGULATORY MATTERS

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's and the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). As of December 31, 2007, the most recent notification from the FDIC categorized the Bank as "well-capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well-capitalized" the Bank must maintain total risk-based, Tier 1 risk-based and Tier 1 leverage ratios above regulatory prescribed minimum levels. There are no conditions or events since that notification that management believes have changed the Bank's category. Management believes, as of December 31, 2007 and 2006, that the Company and the Bank meet all capital adequacy requirements to which they are subject.

These minimum capital amounts and ratios, as well as the Company's and Bank's actual capital amounts and ratios, are presented in the following table:

Federal regulations prohibit banking companies from paying dividends on their stock if the effect would cause stockholders' equity to be reduced below applicable regulatory capital requirements or if such declaration and payment would otherwise violate regulatory requirements.

As of December 31, 2007, the Bank is restricted from declaring dividends to the Company in an amount greater than approximately \$20,685,000, as such declaration would decrease capital below the Bank's required minimum level of regulatory capital.

NOTE 16 EMPLOYEE BENEFITS

Pension Plan

The Company maintains a trustee non-contributory pension plan (the "Plan") covering substantially all full-time employees. Assuming retirement at age 65 after 30 years or more of service, the benefits are computed as the sum of one percent of final average earnings up to a covered compensation limit, plus 0.65 percent of final average earnings in excess of covered compensation, times years of service, up to 30. Final average earnings are defined as the five consecutive years out of the employee's last ten years of employment during which compensation is highest. The amounts contributed to the Plan are determined annually on the basis of (a) the maximum amount that can be deducted for federal income tax purposes or (b) the amount certified by a consulting actuary as necessary to avoid an accumulated funding deficiency as defined by the Employee Retirement Income Security Act of 1974. Contributions are intended to provide not only benefits attributed to service to date but also for those expected to be earned in the future.

The following table sets forth information about the Plan as of December 31, using a measurement date of December 31, and for the years then ended:

401(k) Plan

The Company offers a contributory 401(k) Plan. Under the Northway Financial, Inc. 401(k) and Profit Sharing Plan (the "401K Plan") employees must have attained age 21, completed six months of service and be credited with 1,000 hours of service in order to participate. Employees of the Company are eligible to participate. Under the 401K Plan, the Company matches 50 percent of the first 4 percent of employee contributions. Total 401(k) matching expense in 2007, 2006 and 2005 amounted to \$144,000, \$151,000 and \$139,000, respectively, and there was no Profit Sharing contribution expense for each of the three years ended December 31, 2007.

Supplemental Executive Retirement Plan (SERP)

Effective May 29, 2003, the existing Executive Life program sponsored by the Company was terminated and replaced with a SERP in which the Chief Executive Officer ("CEO") participates. The existing Split Dollar Life Insurance policy designed to support the Executive Life program is now fully owned by Northway. This policy will be maintained by Northway and is used as the benchmark for the SERP.

The total retirement SERP benefit is as follows: Upon the CEO's termination of employment for reasons other than death or for cause, the account balance is paid out to him in ten (10) equal annual installments on the first day of the month following the month in which employment is terminated. Upon death after retirement, the unpaid account balance, if any, is paid out in a lump sum to the CEO's named beneficiary. During retirement, an additional retirement payment, based on the policy gains associated with the prior calendar year, will also be paid on an annual basis until the executive's death. In the event of the CEO's death while employed by the Company, the SERP permits a death benefit of \$2,000,000 be paid to his beneficiary. As of December 31, 2007 and 2006, the Company has accrued a liability related to the SERP in the amount of \$1,435,000 and \$1,095,000, respectively.

Stock-Based Compensation

The Board of Directors (the "Committee") administers the 1999 Stock Option and Grant Plan (the "1999 Plan") which is described below.

Under the 1999 Plan, the Committee may select the individuals to whom awards may from time-to-time be granted; determine the time or times of grant; and determines the extent, if any, of incentive stock options, non-qualified stock options, restricted stock awards, unrestricted stock awards, performance share awards, or any combination of the foregoing.

The 1999 Plan expires in February 2009. The aggregate number of shares of the Company's common stock which may be issued upon the exercise of options granted under the 1999 Plan is 350,000. The option price is fixed by the Committee at the time of the grant and may not be less than 100 percent of the fair market value of the stock, as determined by the Committee, in good faith as of the grant date. Each option may be exercised at such times as shall be determined by the Committee at or after the grant date; provided, however, that no option may be exercised ten years after the date of grant. The fair value of each option granted is estimated on grant date using the Black-Scholes option pricing model.

A summary of the status of the Company's 1999 Plan as of December 31, 2007, 2006 and 2005 and changes during the years then ended is presented below:

Change in Control

The Company and its subsidiary have entered into Key Employee agreements with specific Executive Officers as well as other Senior Officers of the Company. These agreements provide for payments, under certain circumstances, to the officer upon the officer's termination after a change in control. Payments will be made under these agreements upon the officer's termination or resignation in connection with certain specified actions adverse to the officer's employment status after a change in control. The amount of such payments ranges from 1.0 to 1.5 times such officer's annual compensation.

NOTE 17 FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to originate loans and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Financial instruments with off-balance sheet credit risk at December 31, are as follows:

	(\$000 Omitted)	
	2007	2006
Financial instrument whose contract amounts represent credit risk:		
Unadvanced portions of home equity loans	\$17,731	\$17,691
Unadvanced portions of lines of credit	26,668	21,424
Unadvanced portions of commercial real estate loans	16,660	17,421
Unadvanced portions of Bounce Protection™	13,057	13,667
Commitments to originate all other loans	16,355	20,742
Commitments to originate municipal notes	3,838	972
Standby letters of credit	222	303
Total	<u>\$94,531</u>	<u>\$92,220</u>

Commitments to originate loans and municipal notes, unadvanced portions of home equity loans, lines of credit and commercial real estate loans are agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without having been drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower.

Unadvanced portions of Bounce Protection™ represent the unused portion of the Bank's overdraft privilege program.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers. As of December 31, 2007 and 2006, the maximum potential amount of the Company's obligation was \$222,000 and \$303,000, respectively, for financial and standby letters of credit. The Company's outstanding letters of credit generally have a term of less than one year. If a letter of credit is drawn upon, the Company may seek recourse through the customer's underlying line of credit. If the customer's line of credit is also in default, the Company may take possession of the collateral, if any, securing the line of credit.

NOTE 18 FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents approximates the fair value of those assets.

Securities: Fair values for securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

FHLB Stock: The carrying amount reported in the consolidated balance sheets for FHLB Stock approximates its fair value. If redeemed, the Company will receive an amount equal to the par value of the stock.

Loans held-for-sale: Fair values for loans held-for-sale are estimated based on outstanding investor commitments, or in the absence of such commitments, are based on current investor yield requirements.

Loans: For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The fair values of nonaccrual loans was estimated using discounted cash flow analyses or the estimated fair value of the underlying collateral where applicable.

Accrued interest receivable: The carrying value of accrued interest receivable approximates its fair value because of the short-term nature of this financial instrument.

Deposits: The fair value of demand deposits (e.g. NOW and super NOW checking, noninterest bearing checking, regular savings, money market accounts and mortgagors' escrow accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e. their carrying amounts). Fair values for certificates of deposit are estimated using a discounted cash flow technique that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities of time deposits.

Short-term borrowings: The carrying value of short-term borrowings approximates its fair value because of the short-term nature of these financial instruments.

Long-term debt: The fair values of long-term debt are determined by discounting the anticipated future cash payments by using the rates currently available to the Company for debt with similar terms and remaining maturities.

Junior subordinated debentures: The fair values of junior subordinated debentures are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

Off-balance sheet instruments: The fair value of commitments to originate loans is estimated using the fees currently charged to enter similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed-rate loan commitments and the unadvanced portion of loans, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of letters of credit is based on fees currently charged for similar agreements or on the estimated cost to terminate them or otherwise settle the obligation with the counterparties at the reporting date. See NOTE 17 for further information.

The estimated fair values of the Company's financial instruments are as follows:

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for some of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, cash flows, current economic conditions, risk characteristics, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions and changes in the loan, debt and interest rate markets could significantly affect the estimates. Further, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on the fair value estimates and have not been considered. The fair value amounts presented do not represent the underlying value of the Company because fair values of certain other financial instruments, assets and liabilities have not been determined.

The Board of Directors and Stockholders
Northway Financial, Inc.
Berlin, New Hampshire

We have audited the accompanying consolidated balance sheets of Northway Financial, Inc. and Subsidiaries as of December 31, 2007 and 2006 and the related consolidated statements of income, comprehensive income, changes in stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2007. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Northway Financial, Inc. and Subsidiaries as of December 31, 2007 and 2006 and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

**First Quarter Report
2008**

TO OUR STOCKHOLDERS:

We are pleased to report that, even in today's uncertain and volatile economy, our net income surpassed that of the same quarter last year by 20.7%. This is the result of several factors, including a significant improvement in net interest and dividend income, gains on the sale of investment securities, and careful monitoring of overhead expenses. The increase of \$32,000,000 in our loan portfolio is reflective of Northway's strong lending position in northern and central New Hampshire.

With the assistance of our new executive management team, we are ramping up our efforts to be the "Bank of Choice", by strengthening and expanding relationships with our customers. This is an intensive Bank-wide initiative that we expect will yield positive and lasting results.

We also are pleased to report that we have not participated in the sub-prime lending that has been so damaging to many other lenders. Nevertheless, in today's rapidly evolving economy, our Board of Directors and management remain alert to changes that might threaten shareholder value, and will address such situations with all of the resources at our disposal."

Net income for the quarter ended March 31, 2008 of \$1,021,000, or \$0.41 per share-basic, compared to \$846,000, or \$0.29 per share-basic, for the same quarter in 2007, an increase of \$175,000, or 20.7%. Per share results were favorably affected by the reduction in outstanding shares as a result of the previously reported reverse and forward stock split transactions, which occurred on September 11, 2007.

Net interest and dividend income for the quarter ended March 31, 2008 increased \$225,000 to \$5,409,000 compared to \$5,184,000 for the same period last year due primarily to an increase in average earning assets of \$28,000,000. The provision for loan losses for the quarter ended March 31, 2008 increased \$150,000 to \$270,000 compared to \$120,000 for the same period in 2007, primarily due to the potential impact of the current unfavorable economic conditions; and, to a lesser degree, a 7% increase in gross loans. Securities gains for the quarter ended March 31, 2008 increased \$120,000 to \$261,000 compared to \$141,000 for the same period

last year. Other noninterest income for the quarter ended March 31, 2008 decreased \$119,000 to \$1,185,000 compared to \$1,304,000 for the same period last year. Other operating expense decreased \$180,000 to \$5,342,000 for the quarter ended March 31, 2008 compared to \$5,522,000 for the same period last year due primarily to a decrease in salaries and benefits expense and equipment expense. Income tax expense for the quarter ended March 31, 2008 increased \$81,000 from the quarter ended March 31, 2007.

At March 31, 2008, the Company had total assets of \$683,881,000 compared to \$678,729,000 at March 31, 2007, an increase of \$5,152,000. Federal funds sold decreased \$17,065,000 from March 31, 2007 to March 31, 2008. Securities available-for-sale decreased \$8,397,000 to \$135,341,000 at March 31, 2008 compared to \$143,738,000 at March 31, 2007. Loans at March 31, 2008 increased \$32,745,000 to \$499,535,000 compared to \$466,790,000 at March 31, 2007. Total deposits were \$477,819,000 at March 31, 2008 compared to \$489,080,000 at March 31, 2007, a decrease of \$11,261,000. Securities sold under agreements to repurchase increased \$8,599,000 to \$48,718,000 at March 31, 2008 compared to \$40,119,000 at March 31, 2007. Other borrowings increased \$18,800,000 to \$106,730,000 at March 31, 2008 compared to \$87,930,000 at March 31, 2007.

Total equity decreased \$7,761,000 to \$45,100,000 at March 31, 2008 compared to \$52,861,000 at March 31, 2007 due primarily to the shares cashed out in the reverse and forward stock split transaction. Stockholders' equity of \$45,100,000 resulted in a book value of \$17.99 per share at March 31, 2008, based on 2,506,804 shares of common stock outstanding, an increase of \$0.30 per share.

On April 30, 2008, the Board of Directors declared a dividend of \$0.135 cents per share, an increase of 8% over the dividend declared last quarter. This dividend is payable on May 19, 2008 to shareholders of record on May 9, 2008.

**Second Quarter Report
2008**

TO OUR STOCKHOLDERS:

We are pleased with the improvement in earnings, particularly in light of the difficulty in the economy and the slowdown in the housing market. Not only are our earnings improving, but our loan demand continues to be strong. The total loan portfolio at June 30 has increased by \$53 million over the year-ago balances, and is a reflection of Northway's strong capability in commercial, real estate mortgage, and municipal lending, even in the face of a difficult economic environment. This growth in loan balances has been a major contributor to the total asset growth of \$30 million over last year. In the current circumstances, we continue to closely monitor asset quality, with respect to both existing loans and requests for new loans.

Net income for the quarter ended June 30, 2008 was \$1,143,000, or \$0.45 per share-basic, compared to \$816,000, or \$0.27 per share-basic, for the same quarter in 2007, an increase of \$327,000, or 40.1%. Net income for the six months ended June 30, 2008 was \$2,164,000, or \$0.86 per share-basic, compared to \$1,662,000, or \$0.56 per share-basic, for the six months ended June 30, 2007, an increase of \$502,000, or 30.2%. In addition to improved earnings, per share results were favorably affected by the reduction in outstanding shares as a result of the previously reported reverse and forward stock split transactions, which occurred on September 11, 2007.

Net interest and dividend income for the quarter ended June 30, 2008 increased \$255,000 to \$5,727,000 compared to \$5,472,000 for the same period last year. The provision for loan losses for the quarter ended June 30, 2008 increased \$150,000 to \$360,000 compared to \$210,000 for the same period in 2007. Securities gains for the quarter ended June 30, 2008 decreased \$84,000 to \$122,000 compared to \$206,000 for the same period last year. Other noninterest income for the quarter ended June 30, 2008 increased \$19,000 to \$1,351,000 compared to \$1,332,000 for the same period last year. Other operating expense decreased \$406,000 to \$5,470,000 for the quarter ended June 30, 2008 compared to \$5,876,000 for the same period last year. Income tax expense for the quarter ended June 30, 2008 increased \$119,000 from the quarter ended June 30, 2007.

Net interest and dividend income for the six months ended June 30, 2008 increased \$480,000 to \$11,136,000 compared to \$10,656,000 for the same period last year due primarily to an increase in average earning assets of \$27,000,000. The provision for loan losses for the six months ended June 30, 2008 increased \$300,000 to \$630,000 compared to \$330,000 for the same period in 2007, primarily due to the potential impact of the current

unfavorable economic conditions; and, to a lesser degree, an 11% increase in gross loans. Securities gains for the six months ended June 30, 2008 increased \$36,000 to \$383,000 compared to \$347,000 for the same period last year. Other noninterest income for the six months ended June 30, 2008 decreased \$100,000 to \$2,536,000 compared to \$2,636,000 for the same period last year. Other operating expense decreased \$586,000 to \$10,812,000 for the six months ended June 30, 2008 compared to \$11,398,000 for the same period last year due primarily to a decrease in salaries and benefits expense and equipment expense. Income tax expense for the six months ended June 30, 2008 increased \$200,000 from the same period in 2007.

At June 30, 2008, the Company had total assets of \$719,885,000 compared to \$689,954,000 at June 30, 2007, an increase of \$29,931,000. Securities available-for-sale decreased \$16,835,000 to \$123,972,000 at June 30, 2008 compared to \$140,807,000 at June 30, 2007. Loans at June 30, 2008 increased \$52,616,000 to \$540,988,000 compared to \$488,372,000 at June 30, 2007. Total deposits were \$502,964,000 at June 30, 2008 compared to \$497,896,000 at June 30, 2007, an increase of \$5,068,000. Securities sold under agreements to repurchase increased \$5,238,000 to \$52,641,000 at June 30, 2008 compared to \$47,403,000 at June 30, 2007. Other borrowings increased \$17,947,000 to \$106,970,000 at June 30, 2008 compared to \$89,023,000 at June 30, 2007.

Total equity decreased \$7,270,000 to \$44,512,000 at June 30, 2008 compared to \$51,782,000 at June 30, 2007 due primarily to the shares cashed out in the reverse and forward stock split transaction. Stockholders' equity of \$44,512,000 resulted in a book value of \$17.76 per share at June 30, 2008, based on 2,506,804 shares of common stock outstanding, an increase of \$0.43 per share from June 30, 2007.

On July 30, 2008, the Board of Directors declared a dividend of \$0.15 cents per share, an increase of 11% over the dividend declared last quarter. This dividend is payable on August 18, 2008 to shareholders of record on August 8, 2008.

**Third Quarter Report
2008**

TO OUR STOCKHOLDERS:

I am pleased to inform you that, on October 29, 2008, the Board of Directors of Northway Financial, Inc. (the "Company") declared a dividend of \$0.15 per share, payable on November 20, 2008 to stockholders of record on November 10, 2008.

I also am pleased to report that, even in the midst of the widespread concerns about the health of our national economy, the Company's prudent and conservative community banking practices have resulted in our having solid core earnings for the third quarter and for the nine months ended September 30, 2008.

These core earnings reflect the fact that through September 30, 2008, the Company's loan portfolio increased by \$68.7 million (14%), and deposits increased \$32.9 million (7%) over the September 30, 2007 levels. In addition, net interest and dividend income for this period increased \$542,000 (3%) over last year, and operating expenses decreased \$874,000 (5%).

It does not appear that New Hampshire is experiencing the same severe problems which, unfortunately, are plaguing other areas of the country. Northway Bank, the Company's subsidiary bank, did not participate in sub-prime lending; the kind of lending that created problems for many larger banks. Some of our borrowers, however, are experiencing pressure in keeping up their regular payments. We believe that these situations are manageable.

Notwithstanding our strong performance in lending, deposit growth, net interest and dividend income and reduced operating expenses noted above, the Company's net income for the third quarter and year-to-date September 30, 2008 has been negatively impacted by the failure of the two government sponsored enterprises ("GSE") that play a huge role in the housing sector of the country's economy. These GSE – informally known as Freddie Mac and Fannie Mae – issued common and preferred stock that many banks were encouraged to buy for their investment portfolios by their respective regulators.

Over time, Northway Bank purchased \$6.0 million of these GSE perpetual preferred stocks. With the impending failure of both GSE, in early September 2008 the federal government took over control of them, placed them under conservatorship, and immediately terminated any further payment of dividends. This action is unprecedented in recent history. As a consequence of these events, the market value of these preferred stocks dropped precipitously, and we were required under generally accepted accounting principles ("GAAP") and regulatory accounting rules to "impair" them on our books; i.e. to record a loss reflecting their current very low market value.

This after-tax impairment loss, booked in the third quarter, was \$5.1 million because we were required under GAAP and regulatory accounting rules to record it as a "capital" loss in September. However, under the provisions of the Emergency Economic Stabilization Act of 2008 passed by Congress in early October and subsequently signed into law by the President, in October we were able to reclassify the loss and treat it as an "ordinary" loss for tax purposes. Thus, in October we booked an increase of approximately \$1.7 million in the tax benefit of the September impairment write-down. The effect of this somewhat complex set of regulations is that our after-tax loss on the write-down in value of the GSE preferred stocks was approximately \$3.4 million, and not the \$5.1 million loss we were required to book in September. Considering this adjustment, net income for the month of October was \$2.1 million, of which \$379,000 was core earnings.

Despite the required impairment write-down, it is important to note that the Company and Northway Bank continue to meet their regulators' highest standards with respect to the level of capitalization, which is one of the key metrics regulators use to describe the health of a bank-holding company and a bank. I am pleased to report that, as of September 30, 2008, the Company and Northway Bank remain well-capitalized, the highest rating. Our level of capital and regulatory designation of "well-capitalized", allows Northway Bank to help its customers meet their banking needs.

The Board of Directors and Management of the Company are supportive of the actions taken by Congress, the President, the U. S. Treasury and the Federal Reserve to stabilize the economy. It is a positive and encouraging signal from the Federal Government that they are willing to inject capital into the banking system, and to purchase some of the troubled loans. Depositors should be especially pleased that the insurance provided by the FDIC has been increased from \$100,000 to \$250,000 per eligible account.

The Company recorded a net loss for the quarter ended September 30, 2008 of \$4,319,000, or \$(1.72) per share-basic, compared to net income of \$1,080,000, or \$0.38 per share-basic, for the same quarter in 2007, a decrease of \$5,399,000. For the nine months ended September 30, 2008, the Company recorded a net loss of \$2,155,000, or \$(0.86) per share-basic, compared to net income of \$2,742,000, or \$0.93 per share-basic, for the nine months ended September 30, 2007, a decrease of \$4,897,000. The third quarter and year-to-date September 30, 2008 net losses include the after-tax Fannie Mae and Freddie Mac perpetual preferred stock impairment write-down of \$5,152,000.

If the Company had not been required, under GAAP and regulatory accounting rules, to record the loss from impairment of our holdings of Freddie Mac and Fannie Mae perpetual preferred stock, net income for the quarter ended September 30, 2008 would have been \$833,000, or \$0.33 per share-basic, compared to net income of \$1,080,000, or \$0.38 per share-basic, for the same quarter in 2007, a decrease of \$247,000. For the nine months ended September 30, 2008, net income would have been \$2,997,000 or \$1.20 per share-basic, compared to net income of \$2,742,000, or \$0.93 per share-basic, for the nine months ended September 30, 2007, an increase of \$255,000.

As noted above, despite the financial statement impact of the impairment charges, the Company and Northway Bank remain "well-capitalized" at September 30, 2008 under regulatory requirements.

Net interest and dividend income for the quarter ended September 30, 2008 increased \$62,000 to \$5,723,000 compared to \$5,661,000 for the same period last year. The provision for loan losses for the quarter ended September 30, 2008 increased \$150,000 to \$360,000 compared to \$210,000 for the same period in 2007. For the quarter ended September 30, 2008 the Company recorded net securities losses of \$39,000 compared to net securities gains of \$148,000 for the quarter ended September 30, 2007, a decrease of \$187,000. All other sources of noninterest income for the quarter ended September 30, 2008 amounted to \$1,060,000, compared to \$1,353,000 for the same period last year. During the quarter ended September 30, 2008, a write-down of equity securities, relating primarily to the above mentioned impairment of Freddie Mac and Fannie Mae perpetual preferred stock, of \$5,698,000 was recorded. All other types of noninterest expense decreased \$288,000 to \$5,393,000 for the quarter ended September 30, 2008 compared to \$5,681,000 for the same period last year. Income tax expense for the quarter ended September 30, 2008 decreased \$579,000 from the quarter ended September 30, 2007.

Net interest and dividend income for the nine months ended September 30, 2008 increased \$542,000 to \$16,859,000 compared to \$16,317,000 for the same period last year due primarily to an increase in average earning assets of \$29,000,000. The provision for loan losses for the nine months ended September 30, 2008 increased \$450,000 to \$990,000 compared to \$540,000 for the same period in 2007, primarily due to the potential impact of the current unfavorable economic conditions; and, to a lesser degree, a 14% increase in gross loans. Securities gains for the nine months ended September 30, 2008 decreased \$151,000 to \$344,000 compared to \$495,000 for the same period last year. Year-to-date September 30, 2008 all other sources of noninterest income of \$3,596,000 decreased \$393,000 over the comparable prior period last year. For the nine months ended September 30, 2008, a write-down of equity securities, relating primarily to the above-mentioned impairment of Freddie Mac and

Fannie Mae perpetual preferred stock, of \$5,698,000 was recorded. All other types of noninterest expense decreased \$874,000 to \$16,205,000 for the nine months ended September 30, 2008 compared to \$17,079,000 for the same period last year due primarily to a decrease in salaries and benefits expense, equipment expense and expenses associated with the 2007 reverse and forward stock split transaction. Income tax expense for the nine months ended September 30, 2008 decreased \$379,000 from the same period in 2007.

At September 30, 2008, the Company had total assets of \$721,111,000 compared to \$685,445,000 at September 30, 2007, an increase of \$35,666,000. Securities available-for-sale at fair value decreased \$33,798,000 to \$112,659,000 at September 30, 2008 compared to \$146,457,000 at September 30, 2007. Net unrealized losses included in the fair value of the securities available-for-sale were \$7,170,000 compared to \$1,395,000 at September 30, 2008. This increase is generally reflective of current economic conditions. Loans at September 30, 2008 increased \$68,703,000 to \$558,795,000 compared to \$490,092,000 at September 30, 2007. Total deposits were \$512,340,000 at September 30, 2008 compared to \$479,435,000 at September 30, 2007, an increase of \$32,905,000. Securities sold under agreements to repurchase decreased \$3,626,000 to \$48,605,000 at September 30, 2008 compared to \$52,231,000 at September 30, 2007. Other borrowings increased \$11,500,000 to \$117,120,000 at September 30, 2008 compared to \$105,620,000 at September 30, 2007.

Total equity decreased \$6,702,000 to \$37,787,000 at September 30, 2008 compared to \$44,489,000 at September 30, 2007 due primarily to the current year-to-date net loss of \$2,155,000 as well as an increase in the tax affected unrealized loss on available-for-sale securities of \$3,488,000. Stockholders' equity of \$37,787,000 resulted in a book value of \$15.07 per share at September 30, 2008, based on 2,506,804 shares of common stock outstanding, a decrease of \$2.68 per share from September 30, 2007.

On a positive note, I am pleased to report that the dividend declared is consistent with the dividend paid in the second quarter of 2008, and these both represent a significant increase in quarterly dividends over those paid in the past two years. Your Board of Directors and Management are pleased that, notwithstanding the unusual events taking place in the general economy, Northway's core operating performance throughout this year supports the payment of this third quarter dividend.

Both the Directors and Management intend to continue the prudent and conservative community banking practices that have guided them for many years, and throughout 2008.

During this period of stress and uncertainty about our national economy and markets, we are pleased that, consistent with our long-held principles of conservative banking, Northway Bank's depositors and borrowers can continue to call the bank "My Bank of Choice."

Chairman, President and Chief Executive Officer
