

U.S. Rail Industry Trade Mission Led by U.S. Ambassador Gary Locke

Changchun, Jilin and Shenyang, Liaoning June 5-7, 2012

You are invited to join the U.S. Rail Industry Trade Mission led by **U.S. Ambassador to China Gary Locke** from **June 5-7, 2012** to the cities of **Changchun and Shenyang** in Northeastern China.

China's rail and metro industries have expanded rapidly in recent years. The Rail Industry Trade mission is an excellent opportunity for U.S. firms to meet influential leaders and business contacts that can help you to develop your market in China. The Commercial Service is partnering with the Provincial governments from Jilin and Liaoning, municipal governments from Changchun and Shenyang, China Ministry of Railways and related Rail Bureaus, and China Northern Rail to arrange this mission. In each city we will hold **exclusive networking events** and organize a **Sino-US Rail Transit Cooperation Seminar** targeted at a preselected audience of senior decision makers. Mission delegates will **attend government meetings, participate in Seminar discussions, and attend receptions**. The target audience will be government officials and private sector executives with responsibility for rail and metro projects. Please write to Aigun.Peng@trade.gov to express your interest by **April 30th**.

We look forward to your participation!
