

What Options are available with CRASH?

CRASH allows you immediate access to your GSA Fleet vehicle accident report — no waiting for e-mails or anything else!

CRASH lets you decide the format for your accident report — you have an option of an already formatted Excel spreadsheet instead of the standard text file.

CRASH allows you to select what you want to see in your accident report — no more looking through a data sheet populated with unwanted information.

CRASH has a built-in assist so you can easily select the options you really want from the selections page. Just look for the small pop-up mouse over descriptions on the options page — GSA Fleet Drive-thru provides a full-service customer menu!

Mileage Express Reports Carryout Speed Pay Web Bill

Mileage Express	Mileage Express provides you with a quick and easy way to report your vehicle mileage online--no other data transfer or paperwork is required.
Reports Carryout	Reports Carryout allows you to generate a GSA Fleet vehicle inventory report on the internet at any time.
Speed Pay	Speed Pay allows you to enter vehicle accounting information to help simplify bill reconciliation and payments.
Dial-a-Mile	Dial-a-Mile allows you to use your telephone to report vehicle mileage. Just dial the toll-free-number (877) 472-3773 to report up to 20 vehicles.
Web Bill	Web Bill allows GSA customers who lease government vehicles or purchase supplies to access billing information via internet. You can download the data in an Excel spreadsheet or PDF files.
CRASH	Collision, Repair, Accident & System History allows GSA customers who lease government vehicles to track accident activity.

Introducing **CRASH**, our newest GSA Fleet Drive-thru module. With **CRASH**, you can track your GSA Fleet vehicle accident activity, past and present, and make use of other helpful options.
