Office of Secretary,  
Federal Trade Commission  
Rm. 159  
Sixth and Pennsylvania Ave, N.W.,  
Washington, D. C. 20580

Please do not change  
the definition, "Made in U.S.A."

We teach our young  
people honesty and to respect the  
government of the U.S.A.  
If the label remained the same  
and 25% or more was made  
with foreign parts and labor,  
this would be a lie.

I look for "Made in U.S.A."  
when purchasing products.

Mrs. Carl R. Sproles  
2948 Forman Rd.  
Ashtabula, OH 44004-9528

Sincerely  
Betty J. Sproles
