1-4. OPTION TO EXTEND: The Government reserves the right to extend the expiration date of all or part of the rate offers accepted in accordance with this RFO and its FI for up to ninety (90) days.

SECTION 2 EVALUATION AND ACCEPTANCE

2-1. EVALUATION: All submitted rate offers which have been determined to be acceptable in accordance with this Request for Offers (RFO), Special Filing Instructions (FI), and the General Services Administration's (GSA) Freight Management Program will be evaluated by the Freight Program Management Office (FPMO) based on price only. Price will be determined by calculating both the price of the line-haul transportation and the price of the accessorial service(s) (Item Numbers identified in the GSA National Rules Tender 100-D containing rates or charges) requested by the customer agency for each cost comparison requested. Individual agencies may use other methods of evaluation such as prior performance; however, the FPMO will provide accepted rate information according to paragraph 2-2, below.

2-2. ACCEPTANCE: Accepted rate offers will be listed base on price within GSA's TMSS system. TMSS displays freight comparisons for the use by federal agencies. The listing of firms on individual cost comparisons will be based on the anticipated shipping date, the origin of the shipment, the destination of the shipment, the weight of the shipment, the number of miles between the origin and destination of the shipment, and any accessorial services requested by the customer agency. Firms with applicable rates for the requested shipment will be listed on the cost comparison in cost ascending order. Please note that in the case of brokers and shippers agents/Intermodal Marketing Companies that the broker's name and/or the shippers agent's/Intermodal Marketing Company's name and not the names of underlying carriers will be identified on the cost comparison. However, when rate information is made available to GSA's Office of Transportation Audits, rate information will be submitted in the name of a broker's and/or a shipper agent's/Intermodal Marketing Company's underlying carriers and not in the name of the broker and/or the shipper agent/Intermodal Marketing Company. When two or more firms have offered the exact same rate, (both for transportation and the requested accessorial services) TMSS will display the TSPs on the cost comparisons in alphabetical order according to the TSPs name.

PLEASE NOTE: GSA and other participating agencies may consider other factors when routing shipments other than just price. As a result, the listing of firms on a cost comparison is for viewing/verification purposes only and does not guarantee any traffic will be awarded.

SECTION 3 LETTER OF INTENT CERTIFICATION

By the submission of a rate offer to the General Services Administration (GSA) in accordance with this Request for Offers (RFO), and Filing Instructions (FI), the submitting firm certifies that:

SECTION 17 FILE FORMAT REQUIREMENTS

17-1. FILE FORMAT REQUIREMENTS FOR THE SUBMISSION OF ELECTRONIC RATE OFFERS: TSPs submitting rate offers for this RFO and its FI, **MUST** submit their rate offers electronically per instructions located in Section 17, or via the filing capabilities of the Transportation Management Services Solution (TMSS) system. TSPs submitting rate offers via GSA-supplied Java Upload Client (JUpload) must also adhere to format requirements contained in this section. Rate offers received which do not conform to these format requirements will be found unacceptable. Please note that Sections 8 - 17 can provide general data and rate collection information to those TSPs utilizing TMSS to create their rate offers.

17-2. HEADER RECORD FORMAT REQUIREMENTS: In addition to each TSPs rate records, for all rate offers filed in accordance with this RFO TSPs must file ONE SET of the following “F Records” at the beginning of EVERY RATE FILE submitted to GSA.

➤ **Important Notes:**

Mandatory E-mail Address: Booking office e-mails contained in the rate offer have become **MANDATORY** for the purpose of online booking within TMSS;

The TSP must provide an Email address and is encouraged to provide a fax number for each rate record. The e-mail address provided in the rate record will be used by TMSS for automated booking notification. The e-mail is expected to be associated with the booking office at the route level. If no such e-mail can be provided at the route level, a corporate level e-mail must be provided in this record. For automated booking notifications to be sent by TMSS to the TSP’s, the government will consider offering a system-to-system level information exchange between TMSS and the TSP’s system, in lieu of sending a booking request via e-mail.

NOTE: When the rate file is complete, it MUST be saved as an unformatted ASCII (Text Only) flat file (e.g. no tab characters, etc.) before attempting to transfer the file.

SECTION 18 RATE SUBMISSION SPECIAL INSTRUCTIONS

18-1. **SUBMISSION INSTRUCTIONS:** All electronic rate transmissions submitted in accordance with Sections 8, 9, 10, 11, 12, 13, 15, 16, and 17 of this Request and its FI **MUST** be via the rate filing capabilities of TMSS, or via the internet, utilizing the GSA-supplied Java Upload Client (JUpload). Below are the instructions for accessing the JUpload module.

NOTE: If the company intends to transmit its rate offer(s) via JUpload without utilizing the services of a Rate Filing Service Provider (RFSP) and the company does not already have an assigned **User ID and Password** under GSA's Freight Management Program, they will need to notify the Transportation Management Zone Office, Kansas City, MO, in order to receive a User ID and Password to access the JUpload. Requests for a User ID and Password may be emailed or faxed to the attention of Jim Stroup at jim.stroup@gsa.gov, or (816) 823-3656. The response from GSA assigning the company a User ID and Password will be emailed, so please be sure to include the company's email address when submitting a request. Please be aware that it will take several days upon the receipt of your request to process and assign a User ID and Password to the JUpload.

*** NOTE: THE JUpload USER ID AND PASSWORD ARE NOT THE SAME USER ID AND PASSWORDS AS TMSS.**

A. **FORMAT REQUIREMENTS:** Electronic format requirements as set out in this Request and its FI must be strictly adhered to. Submissions received from TSPs, Rate Filing Service Providers, or Tariff Publishing Agents not conforming to format requirements identified in Sections 8, 9, 10, 11, 12, 13, 15, 16, and 17 will be found unacceptable.

B. FILE PREPARATION:

In order to transfer the file via JUpload, the file must be saved and transmitted as an unformatted ASCII (TEXT ONLY) flat file (i.e. no tab characters, etc.). The file must not have a top, bottom, right, or left margin.

18-2. **FILE NAMING CONVENTION:** Implementation of the Transportation Management Services Solution (TMSS) has created the need for the development of a File Naming Convention. This File Naming Convention applies to any initial, new, late, or supplemental rate offer(s) transmitted in accordance with this Request and FI. Extensions like **.FRT** to file names are **NOT** permitted.

FILE NAME	MAXIMUM POSITIONS	POSITIONS	CONTENTS
Prefix	3	1-3	Must be FRT
TSPs SCAC	4	1-4	RFSP: If transmitting rates on behalf of a TSP, enter TSPs SCAC. Do not append any characters if the SCAC assigned to you is less than four (4) positions.
Rate File Number	3	5-8	A running serial number starting with 001
Extension			File Extensions (ie; .FRT) will NOT be supported.

Examples of filenames for SCAC with different number of positions:

File name where assigned SCAC has four positions: FRTABCD001 where 'ABCD' is the SCAC

File name where assigned SCAC has three positions: FRTABC001 where 'ABC' is the SCAC

File name where assigned SCAC has two positions: FRTAB001 where 'AB' is the SCAC

The TSP can send one or more files for rate filing. The TSP can send one or more rate types in a single file. It is strongly recommended that the number of files be kept to a minimum by combining multiple rate types. Irrespective of the number of files transmitted a 3-digit file number is required.

Examples of multiple filenames for a SCAC:

TSP transmitting only one file: File Name: FRTABCD001

TSP transmitting two files: First File Name: FRTABCD001, Second File Name: FRTABCD002

TSP transmitting three files: First File Name: FRTABCD001, Second File Name: FRTABCD002, Third File Name: FRTABCD003.

If as a TSP, RFSP, or TPA, you are unsure of TSPs SCAC/RFSP Code (up to 4 positions) or TPA code (up to 4 positions) in GSA's Freight Management Program, please contact Jim Stroup at (816) 823-3646 or via e-mail at jim.stroup@gsa.gov, for verification.

The file naming convention identified above MUST be strictly adhered to. Failure to do so will result in the rate offer(s) not being picked up from your directory on the server and/or automatic rejection of the rate offer(s).

Furthermore, if your company submits multiple rate files on the same day, files named the same will be overwritten without a warning; therefore, it is extremely important that files submitted on the same day have different names.

18-3. ACCESSING JUpload:

If TSPs choose not to use the rate filing module within the Transportation Management Services Solution (TMSS) system to file rate offers under this RFO and its FI, then TSPs must use the GSA supplied Java Upload Client (JUpload) function contained within TMSS. GSA "WILL NOT" accept or process rate offers submitted via FTP.

- A. In order to access the Rate File Upload module, the TMSS Group Administrator must first designate who will have access to this module and grant them access via TMSS. The administrator can do this by selecting the Account Information link from the Main screen. This takes them to the Account Info - Update Profile screen, where they can select the User List. They will then be able to select the applicable user(s) and check the "Allow Upload" toggle button from the available menu. They will also need to ensure the "Rate File" toggle button is also checked.
- B. Once access has been granted and the rate filing window has been opened, the specified user(s) will have the Upload Rate File link available from the Review/Edit Freight Rates screen.

Please Note: If the TSP currently has other freight rate offers on file within TMSS, the user will receive a pop-up window when they first access the "Freight Rate Filing" link stating "I would like to transfer the following rates in the current rate cycle to the next rate cycle: Rates for ____." The ____ will be filled in with a description of the types of rate offers that are about to expire. The user should select "Accept" if they want the identified rate offers copied over. If the user plans on re-filing the identified rate offers via the new JUpload function, the user should select "Reject." If "Accept" is selected, TMSS must process the request and notification will be sent once it is completed. The user will not be able to continue until processed. **Any changes made prior to the user receiving the e-mail WILL NOT be saved. DO NOT make any changes until receiving the e-mail that the request has been processed.** If "Reject" is selected, the user may continue with the JUpload process.

- C. When the rate files are ready for submission, the User will click on the Upload Rate File link. At that point, the module will load and bring up a login screen to authenticate to the server.

Please Note: The User's system must have Java installed to allow for proper loading of the module. If Java is not currently installed on the system, the user will be given a link that will take them to a site for free download.

At the login screen, it will ask to input a User Name and Password. This User Name and Password is the same as used for annual rate submissions. If User Name and Password is unknown, please contact GSA as identified in this RFO.

D. Once logged in, the easiest way to get acclimated with the module is to view the Help File.

18-4 DIRECTORY ACCESS:

Once you have placed a file within your TSP's directory using GSA JUpload, you may verify that your company's file was successfully transmitted by using the File Download option in the TMSS Main page. If the file doesn't appear in your directory, you will need to "Upload" the file again. This will only assist you in verifying that your rate offer/file was transferred successfully and WILL NOT verify that the contents of your rate offer/file have been formatted correctly. Please refer to the Help File for further information on how to check your directory where the files are uploaded to the server and follow the instructions.

18-5. CONFIRMING RATE TRANSMISSIONS:

An automated process will search for rate files uploaded by TSPs and RFSPs then process them at 10:00am, 2:00pm, 6:00pm and 10:00pm CST each day during the rate filing window. An email confirmation acknowledging the receipt and processing of the file will be sent to the TSPs email address or the RFSPs email address if an RFSP has filed on behalf of the TSP. The email will contain the number of records processed and the number of errors encountered. In order to receive timely notifications on the outcome of file processing it is essential that a correct email address be kept on file. Error files will be generated and placed in the TSPs or RFSPs upload directory and will be named as FRTSCAC999ERR where SCAC is the SCAC of the TSP (Not the RFSP), 999 is the original file number assigned by the TSP. You need to connect to File Download link and download the error files, if any. If appropriate, TSPs will receive notification of rate filing deficiencies in accordance with Section 1, Paragraph 1-2.C. of this Request and FI. TSPs and RFSPs will not have an opportunity to correct any errors detected in a file submitted during the 10:00pm CST validation on the closing date April 13, 2010 or October 5, 2010, these rate offers will be considered unacceptable and the firm will not be allowed to re-file. Rate offers created using TMSS are validated in real time.
