2010 - 2011
DEPARTMENT OF STATE (DOS)**

**SECTION 1
TERMS AND CONDITIONS**

GENERAL: The following Request for Offers (RFO) and its filing Instructions (FI) are provided in addition to the terms and conditions of the General Services Administration's (GSA's) Standard Tender of Service (STOS), General Freight Traffic Management Program, GSA General Freight Tender of Service No. 1-F (GSA TOS No. 1-F) dated December 04, 2001, supplements and reissues thereto. However, certain provisions and requirements of this RFO and its FI may deviate from and supersede those published in the STOS, GSA TOS No. 1-F.

Traffic to be included under this RFO and its FI will be freight-all-kinds (FAK) and crated household goods personal effects generally self contained in wooden liftvans 87" high shipments, moving via closed van for all less than truckload (LTL) (0 pounds to 19,999 pounds) shipments and all truckload (TL) (20,000 pounds to 40,000 pounds and over) shipments. Shipments may contain hazardous material, excluding Class A, B, and C explosives. Hazardous materials will be specifically described on the shipping document in accordance with 49 CFR 172.202. 100% of all FAK and household goods personal effects will be crated. Rates will be applicable only to interstate shipments moving in the Continental United States (CONUS), the identified intrastate shipments within CONUS and shipments moving between CONUS and the identified Canadian provinces and territories (see Section 9-14.B.). Rate offers WILL NOT be accepted for shipments moving between points in Canada.

Non-alternating Standing Route Orders (SRO) rate offers are being requested where SRO is defined as the normal, repetitive movement of two or more shipments per month of specific items between specified points. The non-alternating SRO rate offers being requested will apply specifically to Department of State (DOS) locations identified in Section 9 of this RFO and its FI and WILL NOT alternate with any other accepted rate offer and the accepted rates and charges MAY NOT be used in the construction of combination through rates, charges or other provisions.

1-1. **EFFECTIVE PERIOD:** Acceptable rate offers submitted in response to this RFO and its FI for Section 9 will be for the period **November 1, 2010 through October 31, 2011.**

1-2. **FILING PERIOD:**

A. **INITIAL FILINGS:** Rate offers made by Transportation Service Providers (TSPs) approved to participate in GSA's Freight Management Program are due by 10:00p.m. Central Standard Time (CST), **September 30, 2010**, and will be processed in accordance with 1-2.C.

B. **REFILINGS OF ELECTRONICALLY SUBMITTED FILING DEFICIENCIES:** Electronic rate filings received between **September 1, 2010 and September 30, 2010**, which do not meet the requirements as stated in this RFO and its FI will be considered unacceptable and rates will not be included in GSA's Transportation Management Services Solution (TMSS) system. TSPs utilizing the GSA supplied JUpload will be notified daily of any deficiencies submitted per **Section 11-5** by an e-mail confirmation acknowledging the receipt and processing of the file. The e-mail will contain the number of records processed and the number of errors encountered. If a TSP's rate offer is submitted in accordance with this RFO and its FI by a Rate Filing Service Provider (RFSP), the RFSP will be notified of the deficiencies and not the TSP. Corrected rate offers **must be** resubmitted no later than 10:00p.m. CST, **September 30, 2010**. In those instances where corrections are not received by 10:00p.m. CST, **September 30, 2010**, rate offers will be considered unacceptable and the TSP and RFSP will not be allowed to re-file. TSP's utilizing TMSS online rate filing will **NOT** receive error reports via JUpload since the validation notifies the TSP in real time of any errors encountered.

RATE OFFERS SUBMITTED BY JUPLOAD WILL BE VALIDATED DAILY at 10:00AM, 2:00PM, 6:00PM, and 10:00PM CST, ALLOWING TSPS AND RFSPS TO RESUBMIT CORRECTIONS AFTER EACH VALIDATION. TSPS AND RFSPS WILL NOT HAVE AN OPPORTUNITY TO CORRECT ANY ERRORS FOUND DURING THE 10:00PM VALIDATION ON THE CLOSING DATE OF SEPTEMBER 30, 2010. RATE OFFERS CREATED WITHIN TMSS ONLINE RATE FILING ARE VALIDATED IN REAL TIME.

D. TSP NOTIFICATIONS: If the submitting TSP or RFSP receives no communication from GSA pursuant to Paragraph 1-2.B. by November 1, 2010, the TSP or RFSP is on notice that its rate offer(s) has been made available to GSA's Office of Transportation Audits.

E. ACCEPTED/EFFECTIVE DATE: Rate offers will be accepted and entered into TMSS on the date indicated below or the first working day of the month, whichever occurs later.

F. INITIAL FILINGS: Initial rate offers allowable under Paragraph 1-2.A. will be processed as shown below, except in those instances of a failure to meet the resubmission requirements of corrected Rate Filing Deficiencies as identified in Paragraph 1-2.B:

DATE RECEIVED	COMPUTER ENTRY DATE	ACCEPTED/EFFECTIVE DATES
9/1/2010 through 9/30/2010	11/01/2010 or before	11/01/2010 through 10/31/2011

1-3. APPLICABILITY OF RATE OFFERS: By submission of a rate offer to GSA for the traffic identified in this RFO and its FI, the offeror agrees that it can and will service the identified origin facility(ies) or all points in an identified origin state(s), Canadian province or territory for which a rate is offered and all points within each identified destination state, Canadian province or territory for which a rate is offered.

Note: As a TSP submitting a rate offer in accordance with this RFO and its FI you are stating you will honor that rate. Failure to do so could result in the immediate placement of your TSP in temporary nonuse.

1-4. OPTION TO EXTEND: The Government reserves the right to extend the expiration date of all or part of the rate offers accepted in accordance with this RFO and its FI for up to ninety (90) days.

1-5. TERMINATION:

A. The following provision will apply in addition to Item 18.e. of the Optional Form 280 (REV. 6/2003):

1. Accepted rate offers may be terminated upon determination that a TSP has failed to satisfactorily respond to a show cause notice(s); and

2. Accepted rate offers may be terminated by the Government immediately upon the debarment or suspension of the TSP in accordance with the 41 Code of Federal Regulation (CFR) 102-117.

B. Upon termination of the rate offer under 1-5.A.1 and/or 2 above, the TSP shall be paid any sum due the TSP for services performed under this RFO and its FI to the date of such termination; and in the event of partial termination, shall be paid in accordance with the terms of this rate offer for any services furnished under the portion of the rate offer that is not terminated; provided any such payments shall be without prejudice to any claim which the Government may have against the TSP and the Government shall have the right to offset any such claims against such payment.

1-6. TERMINATION FOR CONVENIENCE OF THE GOVERNMENT: The Government, by written notice, may terminate all or part of the rate offers accepted in accordance with this RFO and its FI when it is in the Government's best interest. If a rate offer(s) is terminated, the Government shall only be liable for payment for services rendered before the effective date of the termination.

SECTION 2 ACCEPTANCE

2-1. ACCEPTANCE:

A. The Department of State, Transportation and Travel Management Division, Washington, DC, will be responsible for TSP selections and for the issuance of bills of lading.

B. TSP notification of acceptance will be in accordance with Paragraph 1-2.D. Accepted rate offers will be contained in GSA's Transportation Management Services Solution (TMSS) system. When identified in TMSS, the acceptable rate offers will be listed based on price only. The listing of TSP's and their rate offers will be based on the anticipated shipping date, the origin of the shipment, the destination of the shipment, the weight of the shipment, the number of miles between the origin and destination of the shipment, and any accessorial services requested by the customer agency. TSP's with applicable rates for the requested shipment will be listed on the cost comparison in cost ascending order. In the case of brokers and shippers agents/Intermodal Marketing Companies, please note that the broker's name and/or the shipper agent's/Intermodal Marketing Company's name and not the names of its underlying TSP's will be identified on cost comparisons. However, when rate information is made available to GSA's Office of Transportation Audits, rate information will be submitted in the name of the broker's and/or a shipper agent's/Intermodal Marketing Company's underlying TSP's and not in the name of the broker and/or the shipper agent/Intermodal Marketing Company. If the occasion arises when two or more TSP's have offered the exact same rate offer (both for transportation and the requested accessorial services), then the TSP's will be listed on the cost comparison in alphabetical order according to the TSP's names.

PLEASE NOTE: The Department of State, Transportation and Travel Management Division Washington, DC may consider other factors when routing shipments other than just price. As a result, the listing of TSP's on a cost comparison is for viewing/verification purposes only and does not guarantee any traffic will be awarded.

SECTION 3 LETTER OF INTENT CERTIFICATION

By the submission of a rate offer to GSA in accordance with this RFO and its FI, the submitting TSP certifies that:

SECTION 11 ELECTRONIC RATE TRANSMISSION SPECIAL INSTRUCTIONS

11-1. SUBMISSION INSTRUCTIONS: All electronic rate transmissions submitted in accordance with Sections 9, 10, & 11 of this RFO and its Filing Instructions (FI) **MUST** be via the rate filing capabilities of TMSS or via the Internet utilizing the GSA supplied Java Upload (JUpload) client.

NOTE: If the TSP intends to transmit its rate offer(s) via JUpload without utilizing the services of a RFSP and the TSP does not already have an assigned User ID and Password to access the JUpload, it will need to notify the Transportation Management Zone Office, Kansas City, MO, in order to receive a User ID and Password to access the JUpload. Requests for a User ID and Password may be emailed or faxed to the attention of Jim Stroup at jim.stroup@gsa.gov or (816) 823-3656. The response from GSA assigning the TSP's User ID and Password will be emailed, so please be sure to include the TSP's email address when submitting the request. Please be aware that it will take several days upon the receipt of the request to process and assign a User ID and Password to the JUpload.

NOTE: THE JUPLOAD USER ID AND PASSWORD ARE NOT THE SAME ID AND PASSWORD AS TMSS.

A. **FORMAT REQUIREMENTS:** Electronic format requirements as set out in this RFO and its FI must be strictly adhered to. Submissions received from TSPs and RFSPs not conforming to format requirements identified in Section 9, 10, and 11 will be found unacceptable.

B. FILE PREPARATION:

In order to transfer the file via JUpload, the file must be saved and transmitted as an unformatted ASCII (TEXT ONLY) flat file (i.e. no tab characters, etc.). The file must not have a top, bottom, right, or left margin.

11-2. FILE NAMING CONVENTION: Implementation of TMSS has created the need for the development of a File Naming Convention. This File Naming Convention applies to rate offers transmitted in accordance with this RFO and its FI. Extensions (.FRT) to file names are NOT permitted.

FILE NAME	MAXIMUM POSITIONS	POSTIONS	CONTENTS
Prefix	3	1-3	Must be FRT
TSP's SCAC	4	1-4	RFSP: If transmitting rates on behalf of a TSP, enter TSP's SCAC. Do not append any characters if the SCAC assigned to you is less than four (4) positions.
Rate File Number	3	5-8	A running serial number starting with 001
Extension			File Extensions will NOT be supported.

Examples of filenames for SCAC with different number of positions:

File name where assigned SCAC has four positions: FRTABCD001 where 'ABCD' is the SCAC

File name where assigned SCAC has three positions: FRTABC001 where 'ABC' is the SCAC

File name where assigned SCAC has two positions: FRTAB001 where 'AB' is the SCAC

The TSP can send one or more files for rate filing. The TSP can send one or more rate types in a single file. It is strongly recommended that the number of files be kept to a minimum by combining multiple rate types. Irrespective of the number of files transmitted a 3-digit file number is required.

Examples of multiple filenames for a SCAC:

TSP transmitting only one file: File Name: FRTABCD**001**

TSP transmitting two files: First File Name: FRTABCD**001**, Second File Name: FRTABCD**002**

TSP transmitting three files: First File Name: FRTABCD**001**, Second File Name: FRTABCD**002**, Third File Name: FRTABCD**003**.

If a TSP or RFSP is unsure of its TSP's SCAC/RFSP Code (up to 4 positions) in GSA's Freight Management Program, please contact Jim Stroup at (816) 823-3646 or via e-mail at jim.stroup@gsa.gov, respectively, for verification.

The file naming convention identified above MUST be strictly adhered to. Failure to do so will result in the rate offer(s) not being picked up and/or automatic rejection of the rate offer(s). Furthermore, if the TSP or RFSP submits multiple rate files on the same day, files named the same will be overwritten without warning; therefore, it is extremely important that files submitted on the same day have different names.

11-3. ACCESSING JUPLOAD: If TSPs choose not to use the rate filing module within TMSS system to file rate offers requested under this RFO and its FI, then TSPs and RFSPs must use the GSA supplied Java Upload Client (JUpload) function contained within TMSS. The JUpload function is different than the old FTP process used previously by GSA for the submission of rate offers. GSA **WILL NOT** accept or process rate offers submitted via FTP.

A. In order to access the new JUpload module to upload rate offers created in accordance with Sections 9, 10 & 11 of this RFO and its FI, a TSP's TMSS Group Administrator must first designate who will have access to this module and grant them access via TMSS. The administrator can do this by selecting the "Account Info" link from the TMSS Main screen. This will take them to the "Account Info - Update Profile" screen where they will need to select "User List." They will then be able to select the applicable user(s) and check the "Allow Upload" toggle button from the available menu. They will also need to ensure that the "Rate File" toggle button is also checked. If needed, they can add additional users on this screen.

B. Once access has been granted and the rate filing window has opened, the specified user(s) can access the "Upload Rate File" link by first choosing the "Freight Rate Filing" link from the TMSS Main screen.

Please Note: If the TSP currently has freight rate offers on file within TMSS, the user may receive a pop-up window when they first access the "Freight Rate Filing" link asking if the user would like to copy existing rate offers over to the next rate cycle. The user should select "Accept" if they want the identified rate offers copied over. If the user plans on re-filing the identified rate offers via the JUpload function, the user should select "Reject." If "Accept" is selected, TMSS must process the request and notification will be sent once it is completed. **Any changes made prior to the user receiving the e-mail WILL NOT be saved. DO NOT make any changes until receiving the e-mail that the request has been processed. If "Reject" is selected, the user may continue with the JUpload process.**

C. When a TSP's rate file(s) is ready for submission, the user will need to click on the "Upload Rate File" link. At that point, the module will load and bring the user to a login screen to authenticate to the server.

Please Note: The User's system must have Java installed to allow for proper loading of the module. If Java is not currently installed on the system, the user will be given a link that will take them to a site for free download.

D. At the login screen, the user will be asked to input a User Name and Password. This User Name and Password is the same as the TSP's old FTP User Name and Password used for previous rate submissions. If the user does not know their TSP's User Name and Password, please contact GSA as identified in Section 11-1 of this RFO and its FI.

E. Once the user has logged in, the easiest way to get acclimated with the module is to view the Help File. This will walk the user through the complete file upload process.

11-4. DIRECTORY ACCESS: Once a file has been placed in a TSP's directory using JUpload, the TSP or RFSP may verify that its file was successfully transmitted by using the "File Download" option in the TMSS Main page. If the file doesn't appear in the TSP's or RFSP's directory, the TSP or RFSP will need to "Upload" the file again. This will only assist in verifying that the TSP's rate offer/file was transferred successfully and WILL NOT verify that the contents of the rate offer/file have been formatted correctly. Please refer to the Help File for further information on how to check the TSP's or RFSP's directory where the files are uploaded to the server and follow the instructions.

11-5. CONFIRMING RATE TRANSMISSIONS: Every day during the rate filing window at 10:00am, 2:00pm, 6:00pm and 10:00pm CST, an automated process will search the rate files uploaded that day by TSPs and RFSPs and process them. An email confirmation acknowledging the receipt and processing of the file will be sent to the TSP's email address OR the RFSP's email address if an RFSP has filed on behalf of the TSP. The email will contain the number of records processed and the number of errors encountered. In order to receive timely notifications on the outcome of file processing it is essential that a correct email address be kept on file. Error files will be generated and placed in the TSP's or RFSP's upload directory and will be named as FRTSCAC999ERR where SCAC is the SCAC of the TSP (Not the RFSP), 999 is the original file number assigned by the TSP. The TSP or RFSP will need to go to the "File Download" link and download the error file(s), if any. If appropriate, TSP's will receive notification of rate filing deficiencies in accordance with Section 1, Paragraph 1-2.B. of this RFO and its FI. TSPs and RFSPs will not have an opportunity to correct any errors detected in a file submitted during the 10:00pm CST validation on the closing date of September 30, 2010. These rate offers will be considered unacceptable and the TSP and/or RFSP will not be allowed to re-file. Rate offer created using TMSS are validated in real time.
