SECRETARY

Dear Sec. of Federal Trade Commission,

Please keep the current rules on the Made in U.S.A. label, so we know what we are buying is made, labor & material in the U.S.A. In today's world there is very little in this country that we can buy which is made in this country. There is far too much imported items and far too many of our people out of work as a result. I am a Korea war vet with 2 Purple Hearts I give a lot for my country & would like to keep it strong. We need more pride in our country, flag & government. Let us keep more

jobs here and help keep our
people off welfare and back to
work. Please do not let
this new proposal be put into
effect. Let Medicare U.S.A.
mean something to all of
us. IF you could help on
this matter to keep pride in
our country I would be ever
grateful to you.

Thank you so much,

Don Roush
