

Anthony Forte 6.23.97

To: Secretary Federal Trade Commission;

Thank you for accepting  
comments on this issue "Made in USA."

I am strongly opposed to  
diluting the "Made in USA" label.  
It's a label that many corporations  
& countries would love to be a  
part of. By lessening or lowering  
the standard, you will also  
lower the importance and ultimately  
it's integrity will diminish.
