F.T.C. Made in U.S.A.

That is what it says & that is  
 what it means - Nothing else  
 American consumers have a  
 fundamental right to know the  
 truth, it is your role to protect,  
 not compromise, that right,  
 you people are just like  
 that that truth brunch in  
 the white house, I hope  
 that we still have a U.S.A.

After you strange people  
Are "Impressed & thrown out"  
I am glad that, that I am old  
But I feel sorry for my  
Grand children
