

Helicopter Route Charts

- Three-color charts that depict current aeronautical information useful to helicopter pilots navigating in areas with high concentrations of helicopter activity.
- Information consists of helicopter routes, four classes of heliports with associated frequency and lighting capabilities, NAVAIDS, and obstructions.
- Pictorial symbols, roads and easily identified geographical features are portrayed.
- Scale: 1:125,000
- Updated: Per need, as determined by the FAA
- Available in digital format
