Intertek Testing Services Taiwan Ltd., 14/F Huei Fung Building, 27, Chung Shan North Road, Sec. 3, Taipei, Taiwan

#### **Background**

##### *Expansion of Recognition*

On August 24, 1994, Intertek Testing Services NA Inc., as "Inchcape", made individual applications for expansion of its recognition as a Nationally Recognized Testing Laboratory. The applications were for the recognition of additional sites, and included facilities located in Taipei, Taiwan (see Exhibit 25A), and Kowloon, Hong Kong (see Exhibit 25B). On-site investigations of these facilities had been carried out previously as part of a large-scale overseas investigation of sites requested for recognition by several other NRTLs. On-site Review reports, dated December 15, 1994, of the investigation of the Taipei, Taiwan site [see Exhibit 25E(4)], and of the Kowloon, Hong Kong site, [see Exhibit 25E(3)], both carried out in September 1993, were prepared. On April 3, 1996, ITS applied for an expansion of its recognition for yet other sites including two former Warnock Hersey sites, now owned by ITS, in Pittsburg, California and Coquitlam, British Columbia (see Exhibit 25D). The test standards requested for these two sites were: ASTM E152—Fire Test Method for Door Assemblies, and ASTM E163—Standard Method of Fire Tests of Window Assemblies. In addition, ITS

informed OSHA of the official transfer of ownership of the Warnock Hersey, Inc., "WHI" registered certification mark to ITS, which will be used by ITS to identify products certified at the two facilities and under the two test standards noted above (see Exhibit 25C).

##### *Change of Name*

OSHA was notified by letter, dated December 6, 1996, of a change in ownership of Inchcape Testing Services NA, Inc. (see Exhibit 25F). At the time, no change of corporate name was requested, although OSHA was informed that such a request would be made at a later date. Such a request for name change was made by letter dated April 14, 1997 (see Exhibit 25G). The requested name change was from Inchcape Testing Services NA, Inc. to Intertek Testing Services NA Inc. The abbreviation of the company name as "ITS" would continue to be used.

##### **Final Decision and Order**

Based upon a preponderance of the evidence, and the OSHA staff findings and recommendations, including the original and the February 26, 1997 On-Site Review Reports of the four facilities being recognized, OSHA finds that ITS has met the requirements of 29 CFR 1910.7 for expansion of its present recognition, and ITS's recognition is hereby expanded to include the additional sites, all subject to the conditions listed below. The recognition is limited to equipment or materials which, under 29 CFR part 1910, require or permit testing, listing, labeling, approval, acceptance, or certification by a Nationally Recognized Testing Laboratory. The recognitions of the Coquitlam, B. C. and the Pittsburg, CA sites are further limited to the use of the following 2 test standards for the testing and certification of equipment or materials included within the scope of these standards.

##### *Recognition of Test Standards for the Coquitlam and Pittsburg Sites*

ITS has stated that these standards are used to test equipment or materials which can be used in environments under OSHA's jurisdiction, and OSHA has determined that they are appropriate within the meaning of 29 CFR 1910.7(c).

ASTM E152—Standard Methods of Fire Tests of Door Assemblies  
ASTM E163—Standard Method of Fire Tests of Window Assemblies

##### *Conditions*

Intertek Testing Services NA Inc. must also abide by the following conditions of the recognition, in
