This looks good. A couple of minor comments attached. I would also add a bullet to the cover page referencing the upcoming projects which are approaching the 21 day timeframe.

Subject: Notes from weekly DOE Credit Programs call

All,

Please find attached the notes summarizing today's call re: the DOE Credit Programs. Highlights include:

- "Monitoring": DOE's "system" for monitoring loans is quite problematic (barely any review of materials submitted, no synthesis for program management, inherent conflicts in origination team members monitoring the deals they structured, etc.) and does not seem to be a program priority, although 2 more loans are expected to close in the coming weeks/months

Regards,
