

Multi-Buyer Export Credit Insurance

Exporters of U.S. goods and services can reduce its risks of selling on credit terms by insuring their export accounts receivable with Ex-Im Bank's Short-Term Multi-Buyer Export Credit Insurance. The policy can help increase its international sales by extending competitive credit terms while minimizing risks, and is valuable as a:

- | | |
|----------------------|--|
| Risk Mitigation Tool | → insure export accounts receivable against nonpayment by international buyers |
| Marketing Tool | → extend competitive credit terms to international buyers |
| Financing Aid | → arrange attractive financing with the exporter's lender by using insured export-related accounts receivable as additional collateral |

Coverage

This policy covers losses due to commercial reasons (such as bankruptcy and protracted default) and political events (such as war, revolution, seizure of goods, revocation of import license, and foreign exchange inconvertibility).

Ex-Im Bank coverage is 95% for commercial or political losses. A first-loss deductible is only applied to any loss.

Coverage for approved, bulk agricultural commodities is 98%, and coverage for sovereign obligors is 100%.

For an additional premium, the exporter may request pre-shipment coverage. This is valuable in cases where goods are special ordered, or there is a long manufacturing run prior to shipment. By obtaining this extra coverage, the exporter locks in coverage conditions for a specified period of time (generally up to 180 days from contract signing). Pre-shipment coverage excludes contract cancellation risk. Endorsements for non-acceptance cover and other types of specialized cover are also available.
