Re: Submittal to National Remedy Review Board

Dear Ms. Legare,

The Hanford Advisory Board is a U.S. Department of Energy Environmental Management Federal Advisory Committee Act board which has offered advice for the past 17 years to the Tri-Party Agencies (US DOE, US EPA and Washington State Department of Ecology) on the remediation efforts at the Hanford Nuclear Reservation.

We appreciate the opportunity to submit the following advice for consideration on the following Remedy Review Projects in Region 10:

Specific to 100-K remediation please consider Hanford Advisory Board Advice #253.

Please consider, for 100-K, UP-1 and the 300 Area, Hanford Advisory Board Advice #197, Advice #246 and Advice #173.

The advice is attached for your convenience and we thank you in advance.

Sincerely,

Susan Leckband, Chair
Hanford Advisory Board

This letter represents Board consensus for this specific topic. It should not be taken out of context to extrapolate Board agreement on other subject matters.
