

Total Burden Hours: 54,809 hours.
Total Annual Cost Burden: \$693.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Authority: 44 U.S.C. 3506(c)(2)(A).

Dated: September 13, 2012.

George F. Triebsch,
Certifying Officer.

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0082]

Proposed Renewal of Existing Information Collection; Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration is soliciting comments concerning the extension of the information collection for 30 CFR 77.1901. OMB last approved this information collection request on January 8, 2010. The package expires on January 31, 2013.

DATES: All comments must be postmarked or received by midnight Eastern Time on November 19, 2012.

ADDRESSES: Comments concerning the information collection requirements of this notice must be clearly identified with "OMB 1219-0082" and sent to both the Office of Management and Budget (OMB) and the Mine Safety and Health Administration (MSHA). Comments to MSHA may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Facsimile:* 202-693-9441, include "OMB 1219-0082" in the subject line of the message.

- *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939. For hand delivery, sign in at the receptionist's desk on the 21st floor.

Comments to OMB may be sent by mail addressed to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, 725 17th Street NW., Washington, DC 20503, Attn: Desk Officer for MSHA.

FOR FURTHER INFORMATION CONTACT: Greg Moxness, Chief, Economic Analysis Division, Office of Standards, Regulations, and Variances, MSHA, at moxness.greg@dol.gov (email); 202-693-9440 (voice); or 202-693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. The sinking of slopes and shafts is a particularly hazardous operation where conditions change drastically in short periods of time. Explosive methane and other harmful gases can be expected to infiltrate the work environment at any time. The working environment is typically a confined area in close proximity to moving equipment. Accordingly, 30 CFR 77.1901 requires operators to conduct examinations of slope and shaft areas for hazardous conditions, including tests for methane and oxygen deficiency, within 90 minutes before each shift, once during each shift, and before and after blasting. The surface area surrounding each slope and shaft is also required to be inspected for hazards.

The standard also requires that a record be kept of the results of the inspections. The record includes a description of any hazardous condition found and the corrective action taken to abate it. The record is necessary to ensure that the inspections and tests are conducted in a timely fashion and that corrective action is taken when hazardous conditions are identified, thereby ensuring a safe working environment for the slope and shaft

sinking employees. The record is maintained at the mine site for the duration of the operation.

This information collection addresses the recordkeeping associated with:

§ 77.1901 Records of preshift and onshift inspections.

II. Desired Focus of Comments

The Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to this safety standard on records of preshift and onshift inspections of slope and shaft areas of slope and shaft sinking operations at coal mines. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of the MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses) to minimize the burden of the collection of information on those who are to respond.

The public may examine publicly available documents, including the public comment version of the supporting statement, at MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939. OMB clearance requests are available on MSHA's Web site at <http://www.msha.gov> under "Rules & Regs" on the right side of the screen by selecting *Information Collections Requests, Paperwork Reduction Act Supporting Statements*. The document will be available on MSHA's Web site for 60 days after the publication date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because comments will not be edited to remove any identifying or contact information, MSHA cautions the commenter against including any information in the submission that should not be publicly disclosed. Questions about the information collection requirements may be directed to the person listed in

the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

The information obtained from mine operators is used by MSHA during inspections to determine compliance with safety and health standards. MSHA has updated the data in respect to the number of respondents and responses, as well as the total burden hours and burden costs supporting this information collection extension request.

Summary

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Records of Preshift and Onshift Inspections of Slope and Shaft Areas of Slope and Shaft Sinking Operations at Coal Mines.

OMB Number: 1219-0082.

Affected Public: Business or other for-profit.

Cite/Reference/Form/etc: 30 CFR 77.1901.

Total Number of Respondents: 27.

Frequency: Various.

Total Number of Responses: 11,880

Total Burden Hours: 14,850 hours.

Total Other Annual Cost Burden: \$0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Authority: 44 U.S.C. 3506(c)(2)(A).

Dated: September 13, 2012.

George F. Triebisch,
Certifying Officer.

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0095]

Proposed Extension of Existing Information Collection; Explosive Materials and Blasting Units (Pertains to Metal and Nonmetal Underground Mines Deemed To Be Gassy)

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed

and continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration is soliciting comments concerning the extension of the information collection for requirements under 30 CFR 57.22606(a). OMB last approved this information collection request (ICR) on February 1, 2010.

DATES: All comments must be postmarked or received by midnight Eastern Standard Time on November 19, 2012.

ADDRESSES: Comments concerning the information collection requirements of this notice must be clearly identified with "OMB 1219-0095" and sent to the Mine Safety and Health Administration (MSHA). Comments may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
- *Facsimile:* 202-693-9441, include "OMB 1219-0095" in the subject line of the message.
- *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939. For hand delivery, sign in at the receptionist's desk on the 21st floor.

FOR FURTHER INFORMATION CONTACT: Greg Moxness, Chief, Economic Analysis Division, Office of Standards, Regulations, and Variances, MSHA, at moxness.greg@dol.gov (email); 202-693-9440 (voice); or 202-693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Under Title 30 U.S. Code of Federal Regulations (30 CFR) Parts 7 and 15, the Mine Safety and Health Administration (MSHA) evaluates and approves explosive materials and blasting units as permissible for use in the mining industry. However, since there are no permissible explosives or blasting units available that have adequate blasting capacity for some metal and nonmetal gassy mines, 30 CFR 57.22606(a) outlines the procedures for mine operators to follow when using non-approved explosive materials and blasting units. The standard requires

mine operators of Class III metal or nonmetal mines to notify MSHA in writing prior to their use of non-approved explosive materials and blasting units. MSHA then evaluates the non-approved explosive materials and determines whether they are safe for use in a gassy environment.

II. Desired Focus of Comments

The Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Explosive Materials and Blasting Units when used in metal and nonmetal underground mines deemed to be gassy. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of the MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses), to minimize the burden of the collection of information on those who are to respond.

The public may examine publicly available documents, including the public comment version of the supporting statement, at MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939. OMB clearance requests are available on MSHA's Web site at <http://www.msha.gov> under "Rules & Regs" on the right side of the screen by selecting *Information Collections Requests, Paperwork Reduction Act Supporting Statements*. The document will be available on MSHA's Web site for 60 days after the publication date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because comments will not be edited to remove any identifying or contact information, MSHA cautions the commenter against including any information in the submission that should not be publicly disclosed. Questions about the information collection requirements may be directed to the person listed in
