

Paul D. Coverdell Fellows Program

Affordable Graduate School—You've Earned It!

The Peace Corps' Paul D. Coverdell Fellows Program encompasses graduate schools at more than 70 universities. The universities provide you with financial aid, and you put the skills learned in Peace Corps to work at home, through internships in underserved American communities. With degree programs ranging from agriculture to urban studies, and university partners located across the country, the Coverdell Fellows Program more than likely has the degree you want, where you want it.

Satisfactory completion of your Peace Corps service entitles you to lifetime eligibility for the Coverdell Fellows Program. Consider the benefits of becoming a Fellow:

- Earn an advanced degree at reduced cost and help an American community at the same time.
- Learn valuable skills during a “hands-on” internship that can easily be applied to a career in the United States or abroad.
- Study and exchange ideas with other returned Peace Corps Volunteers (RPCVs) who share your interests.
- Gain strong personal and professional support through access to a broad network of professionals in your field of study.

Future Generations Graduate School HC 73 Box 100 Franklin, WV 26807 www.future.edu	MA in Applied Community Change and Conservation. In addition, authorization is pending for a concentration in peace-building.	Community Development, Conservation, Peace-building.	Students will have internship opportunities in under-served West Virginia communities, supervised by the Partnership of African American Churches in the Charleston, WV area or Big Creek People in Action in southern West Virginia. These two organizations currently partner with the Future Generations Graduate School in its Broadband Opportunities Program, and will work with students in designing an internship appropriate to their abilities and interests.	Coverdell Fellows will receive a \$10,000 tuition discount, lowering the tuition to \$25,000 for the two-year program. This includes all in-country expenses during each of the four month-long study abroad residentials. Fellows are only responsible for their airfare to and from the country. FGGS is not a residential institution, so apart from the residentials, students live at home. The first year, Fellows will be able to continue to work, helping to offset some of the expenses; the second year, however, they will be engaged in the West Virginia internship. The Graduate School and the partnering organization will locate discount housing for the Fellow.	Christie Hand 304.358.2000 christie@future.edu

University of La Verne College of Law 320 East D St. La Verne, CA 91764 http://law.laverne.edu	JD (Juris Doctor).	JD/MBA; JD/MPA.	Service to the community is a core value embedded within La Verne Law's mission. Fellows will be required to complete two externship placements at a local public interest organization which consists of providing free legal services to members of the surrounding community who are unable to afford legal representation. Fellows will also have access to our Career Services and Professional Development Office. The office seeks to provide employment opportunities for students interested in working for local law firms, government agencies, corporate legal departments, public interest organizations, and judicial clerkships.	Prospective Fellows will have the \$50 application fee waived. As an added benefit, La Verne Law intends to provide a stipend for Fellows who qualify for the Program. The stipend can be used for fees, books, educational supplies, housing, travel, and medical insurance. Fellows are eligible to receive between \$1,500 to \$4,500 per year in stipends.
