

National Environmental Policy Act (NEPA)

In accordance with section 6.03 of the NOAA Administrative Order 216-6 (Environmental Review Procedures for Implementing NEPA, May 20, 1999), NMFS has preliminarily determined that the proposed issuance of this IHA to Dr. VanBlaricom by NMFS meets the definition of a "Categorical Exclusion" and is exempted from further environmental review. NMFS will continue to review the action to include consideration of any comments either on this preliminary determination or on the issuance of the IHA.

Preliminary Conclusions

NMFS has preliminarily determined that the short-term impact of abalone research, as described in this document and in the application for an IHA, should result, at worst, in the temporary modification in behavior by California sea lions, Pacific harbor seals and northern elephant seals. The effects of abalone research surveys on SNI are expected to be limited to short term and localized changes in behavior involving relatively small numbers of pinnipeds. While behavioral modifications, including temporarily vacating onshore haulouts, may be made by these species to avoid the presence and nearness of abalone researchers, this action is expected to have a negligible impact on the animals. In addition, no take by injury or death is anticipated, and harassment takes will be at the lowest level practicable due to incorporation of the mitigation measures mentioned previously in this document.

Proposed Authorization

NMFS proposes to issue an IHA to Dr. Glenn R. VanBlaricom for the potential harassment of small numbers of Pacific harbor seals, California sea lions and northern elephant seals incidental to abalone population trend research, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. NMFS has preliminarily determined that the proposed activity would result in the harassment of small numbers of Pacific harbor seals, California sea lions and northern elephant seals and will have no more than a negligible impact on these marine mammal stocks.

Information Solicited

NMFS requests interested persons to submit comments, information, and suggestions concerning this request (see ADDRESSES).

Dated: November 29, 2004.
