AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service (hereinafter the "Corporation"), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, the Corporation is soliciting comments concerning its proposed renewal of its Disaster Response Database (DRD).

The DRD is a data collection tool that allows the Corporation to collect information from its programs and grantees on disaster response activities across the country. This tool serves as a central repository of information on Corporation disaster response activities for reporting to the public.

Copies of the information collection requests can be obtained by contacting the office listed in the address section of this notice.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by March 24, 2006.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Background

The Corporation for National and Community service regularly engages its national service programs and grantees to respond to disasters as a part of its mandate to promote community service and meet community needs. The great number of national service participants and variety of support offered necessitates a centralized reporting tool to track and measure resources dedicated to supporting communities recovering from disaster.

Current Action

The Corporation seeks to renew the data collection, which was originally approved through emergency clearance. The database is a web-based system that permits programs and grantees to report contributions to disaster responses. No changes are being made to the currently approved database.

The Corporation also seeks to continue using the current application until the revised application is approved by OMB. The current

application is due to expire on April 30, 2006.

Office of Planning, Evaluation and Policy Development

Type of Review: Revision.

Title: Longitudinal Analysis of Comprehensive School Reform Implementation and Outcomes (LACIO).

Frequency: Annually.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 15,455. Burden Hours: 10,774.

Abstract: This evaluation assesses the accomplishments of the CSR program in implementing school reform and thereby improving student achievement. The evaluation also makes a preliminary assessment of the conditions influencing the sustainability of reforms once federal CSR funding ends. The evaluation uses a variety of data sources to understand the complex interplay of state policies, school districts, educational support, and CSR school conditions affecting CSR implementation and outcomes. The major evaluation questions are: (1) To what extent have CSR-supported schools made gains on state assessments in comparison to gains for schools in the

same state with similar characteristics; (2) How effective is CSR support for reform; (3) How have district policies and state policies affected CSR implementation and comprehensive school reform; (4) What implications can be drawn from CSR implementation and outcomes for reform in Title I schoolwides; and (5) How effective are various school reform activities in secondary schools, and to what extent can school progress be linked to comprehensive school reform. A mixed method approach will be used to collect appropriate data for addressing each evaluation question. The methods include mail surveys of 500 CSR program and non-CSR program schools, online surveys of 50 states and 65 school districts, and case studies of 40 "sites" to produce an understanding of the dynamic of the actual relationships among school, district, and state actions, policies, and practices (each "site" consists of a CSR school and matched comparison school as well as the district, state, and support infrastructure in which the schools operate). Evaluators will be able to link information from these various sources in order to provide policymakers and other stakeholders with coherent findings.
