**AGENCY:** U.S. International Trade Commission.

**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on January 14, 2009, based on a complaint filed by O2 Micro International, Ltd. of the Cayman Islands and O2 Micro, Inc. of Santa Clara, California (collectively, “O2 Micro”). 74 Fed. Reg. 2099. The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. § 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain cold cathode fluorescent lamp inverter circuits and

products containing the same by reason of infringement of several U.S. patents. The complaint names ten respondents.

On June 12, 2009, complainant O2 Micro moved to terminate the investigation as to the '519, '938, and '035 patents. Neither the Commission investigative attorney nor the respondents opposed O2 Micro's motion.

On June 22, 2009, the administrative law judge issued the subject ID granting O2 Micro's motion to terminate the investigation as to the '519, '938, and '035 patents. No petitions for review of the ID were filed. The Commission has determined not to review the ID.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. § 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 C.F.R. § 210.42).

By order of the Commission.

Secretary to the Commission
