Range of Approval/Disapproval Time:

From 60 to 90 days. RHS uses a two-stage application process for the Farm Labor Housing Program. First, applicants submit preapplications, which are used to determine preliminary eligibility and feasibility. RHS then invites some applicants to submit formal applications. Section 514/516 funds are divided between off-farm housing and on-farm housing. The off-farm program provides loans and grants to organizations that assist farm workers at off-farm locations with no restrictions that workers be employed on a particular farm. Under new regulations effective June 1999, preapplications for the off-farm program funds must be submitted in response to a Notice of Funding Availability (NOFA) published in the Federal Register every year. RHS scores the preapplications, using a ranking process to determine which applicants will be invited to submit formal applications. The on-farm program makes loans to eligible farmers (or a group of farmers) to provide Housing, usually for their own laborers. Preapplications for on-farm units, or for repair and rehabilitation of existing off-farm units, may be submitted at any time are processed on a first-come, first-served basis.

Length and Time Phasing of Assistance:

Loans are usually made for 33 years at 1 percent interest. Grants may cover up to 90 percent of development cost. The balance may be (and usually is) a Section 514 loan. RHS rental assistance (RA) subsidy can be used to limit tenant payments to 30 percent of their income. A grant will not exceed 70 percent of the total fiscal year funds that a qualifying State requires to operate and administer its mediation program, or \$500,000, whichever is less. Eligible costs are limited to those that are reasonable and necessary to carry out the mission of the State's mediation program and may include activities related to the intake and scheduling of cases, the provision of background and selected information regarding the mediation process, financial advisory and counseling services, and the mediation session.

Applicant Eligibility:

Beneficiary Eligibility:

Agricultural producers, creditors of producers (as applicable) and persons directly affected by actions of the Department of Agriculture.

Credentials/Documentation:

Have a mediation program which has been certified by the Administrator of FSA, and for which certification has not been withdrawn; provide evidence to justify the estimated costs of operating and administering the State's mediation program. The Governor of a State or head of an entity designated by the Governor of a State must make a written request to FSA on or before August 1 of each year to receive a matching grant during the fiscal year commencing on October 1, of that same year. Request for certification are accepted after August 1 of each year; however, the State will be considered in order of date received for reserved grant funds. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. To be certified as a qualifying State, the mediation program of the State must mediate issues involving agricultural loans (regardless of whether the loans are made or guaranteed by the Secretary of Agriculture or made by third party); and may provide mediation services for disputes involving wetlands determinations, compliance with farm programs including conservation programs, rural water loan programs, grazing on National forest system lands, pesticides, and such other issues, under the jurisdiction of the Secretary meeting the requirements of Section 501 of Title V of the Agricultural Credit Act of 1987 (7 U.S.C. 510), as

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act (FORMULA)

The Renewable Resources Extension Act of 1978 (P.L. 95-306, 92 Stat. 349, 16 U.S.C. 1671 et seq.) provides for an expanded and comprehensive extension program for forest and rangeland renewable resources. The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state.

Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects which have served to expand comprehensive extension programs for forest and rangeland renewable resources on a national, regional, or multi-institutional scale through better program coordination, innovative technologies, and extension models that can be easily duplicated.

(b) Rural Health and Safety

The authority for this program is under Section 502 (i) of Title V of the Rural Development Act of 1972, as amended (7 U.S.C. 2662). The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I. The Rural Health and Safety Education Competitive Program addresses the Individual and Family Health Education component of the authorization.

(c) Extension Services at the 1994 Institutions

This program is authorized under Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 201 note), as amended by the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 U.S.C. 7601). This section amends Section 3 of the Act of May 8, 1914 (Smith-Lever Act) (7 U.S.C. 341 et seq.), as amended. Under this authority, appropriated funds are to be awarded to the 1994 Land-Grant Institutions (hereinafter referred to as 1994 institutions) for Extension work and funds are to be distributed on the basis of a competitive application process.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Title VI Section 604 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7642) states that -The Secretary of Agriculture shall continue operation of the Food Animal Residue Avoidance Database program (referred to in this section as the FARAD program) through contracts, grants, or cooperative agreements with appropriate colleges or universities.

(f) Federal Administration

L. 110-246) grants will be awarded under the Facilities Grants Program to the 1890 land-grant institutions, including Tuskegee University and West Virginia State University. The Omnibus Appropriations Act, 2009 appropriates funds under Division A, Title I, 7 U.S.C 341-349.

OBJECTIVES:

GENERAL: [As reflected in Part I.B. of the Request for Applications (RFA) or Formula Grant Opportunity (FGO)]

1. 3b & c Formula Funds

a) Cooperative Extension Programs at 1862 Land-Grant Institutions (aka 3b & c Formula Funds) (FORMULA)

These funds are used by institutions eligible to receive funds under the Act of Congress approved July second, eighteen hundred and sixty-two, entitled An Act donating public lands to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts (Twelfth Statutes at Large, page five hundred and three) (1862 Land-grant Institutions), for the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending or resident in 1862 Land-grant Institutions in the several communities, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

The purpose of this funding is to conduct agricultural extension work.

(b) Cooperative Extension Programs at 1862 Land-Grant Institutions (Special Needs) aka ESPN Special Needs (FORMULA)

The purpose of this funding is to increase the level of agricultural extension work. These funds are used to support extension activities identified in the eligible institutions approved 5-Year Plan of Work. Special Needs funds are allocated to a State Cooperative Extension Service to fulfill a purpose or overcome a condition peculiar to the State, as compared to the country as a whole, or for a purpose not normally a part of the continuing extension program.

(c) Smith-Lever Special Needs Program (aka ESPN Special Needs Projects) Funds support innovative extension education approaches to addressing risks, hazards and disasters. The Cooperative Extension Service (CES) has an important role in reducing the impact of disasters through extension education. The Extension Special Needs program sponsors targeted projects that enable CES to assist in preparing for, providing an educational response to, and recovering from disasters. Education programming funded by this program will help communities, families and individuals become more self-sustaining by strengthening and increasing their resiliency to disaster. Some types of hazards and disaster related events funded in previous years include uncertainties caused by losses of economic infrastructure, severe weather or other natural disasters, security breaches, human disease, or high consequence animal diseases and plant pests.

There has been an increase in public awareness regarding the number and severity of disaster type critical incidents involving earthquakes, tsunamis, tornadoes, wildfire, drought, contagious disease, and terrorist events. The National Academy of Sciences Committee on Environment and Natural Resources and the Subcommittee on Disaster Reduction of the National Science and Technology Council have acknowledged the many effective roles that the Cooperative Extension System (CES) has played in disaster preparedness, response and remediation.

Within the states and territories, the CES has repeatedly served as the trusted community organization that has helped to enable families, communities, and businesses to successfully prepare for, respond to and cope with disaster losses and critical incidents. Once a disaster has occurred, the local extension outreach includes: 1) Communicating practical science-based risk information, 2) Developing relevant educational experiences and programs, 3) Working with individuals and communities to open new communication channels, and 4) Mitigating losses and facilitating recovery. Never was this more evident than after hurricanes Katrina, Rita and Wilma in 2005 and during the 2008 Midwestern Summer flooding. During and after these incidents, local Extension agents served as a critical communication node throughout affected urban and rural areas, particularly when traditional communication systems were temporarily overwhelmed or destroyed.

The Extension Special Needs RFA encourages proposals that specifically address one or more of the following six key target areas:

1. Education and Technical assistance through inter-disciplinary and multi-state disaster training programs and demonstration projects for problem solving,

especially those which build upon already existing strengths, contribute to or expand the EDEN and/or eXtension educational materials related to disaster preparation, mitigation, response and recovery;

2. Collaboration with Federal, state and local agencies and other disaster relief organizations to support education and service activities that enhance recovery of impacted rural communities, schools, businesses and agricultural-based activities;

3. Long range family, community and regional planning projects that will enhance implementation of programs that serve public needs in preparation for, during and after emergency situations within impacted States and across impacted regions;

4. Communication delivery of key information that meets end-users needs in a timely fashion with consideration of potentially limited communication channels due to disaster situations;

5. Dissemination of credible, science-based information that is reliable and easily accessible even if electronic access is compromised; and

6. Integrated Research and Extension Planning Projects (up to \$15,000) are intended to provide assistance to applicants in bringing together teams for the development of highly competitive grant proposals where extension personnel would apply for large grants (in excess of \$250,000) from other grant programs (e.g., the Agriculture and Food Research Initiative and etc) and lead nationally important disaster prevention, protection and mitigation projects.

Fundable projects should support education and extension activities which:

1. Reduce risk through planning, disaster preparedness and emergency response by improving communication between the public, community leaders, state and Federal agencies;

2. Develop strategies and educational materials and/or programming in the area of emergency planning, infrastructure design and disaster recovery operation;

3. Develop community networks that provide real-time disaster education information; and/or

4. Develop or expand educational materials regarding disaster issues suitable for use and distribution by the Extension Disaster Education Network (EDEN) or the eXtension Community of Practice working with disaster planning.

(d) CSRS Retirement Contributions Program (aka ERET CSRS Retirement) (FORMULA)

There has been an increase in public awareness regarding the number and severity of disaster type critical incidents involving earthquakes, tsunamis, tornadoes, wildfire, drought, contagious disease, and terrorist events. (d) CSRS Retirement Contributions Program (aka ERET CSRS Retirement) (FORMULA)

These grants are used to defray the CSRS Retirement costs to the 1862 land-grant institutions for the former Schedule A Appointments who conduct agricultural extension work.

Funds are provided for the retirement costs of the former Schedule A Appointments at the 1862 land-grant institutions. These funds are allocated based on each institutions relative share of the total payments to OPM during the previous year.

The separate allocation of funds for this purpose is being phased out over a 10-year period, beginning in FY 2007. The amount available for this program is reduced each fiscal year by \$1,473,658 and the same amount is added to the funds available for distribution under the Smith-Lever Act, Section 3(b) and (c), statutory formula.

The Schedule A 213.3113 (a) (1) was issued by the U.S. Office of Personnel Management (OPM) for the United States Department of Agriculture (USDA) to employ individuals in the Cooperative Extension Service (CES) as a joint appointment between USDA and the land grant institution. The official title of Schedule A appointees includes the title Agent (e.g., Agent/Cooperative Extension Director; Agent/Cooperative Extension Educator) as by law only agents with a Schedule A appointment were eligible to participate in the Federal benefit plan(s).

Employment is dependent upon an individuals appointment in the CES at the university. The appointment must be a regular position with at least 50 percent of the staffs time dedicated to extension projects, and the appointee must work and be paid over a 12-month period.

Agents in the Cooperative Extension program are not classified under the General Schedule (GS) classification system or any other Federal pay system. The positions are classified by the employing land grant institution, and the salary is established according to policies and procedures at the institution. The OPM has the authority and responsibility for issuing rules and regulations covering Schedule A appointments and resulting benefits. OPM has delegated to the USDA the responsibility for overseeing and managing Cooperative Extension Schedule A appointments and the accompanying Federal benefits, (e.g., retirement and insurance plans). The Human Resources Division (HRD)/Cooperative Extension Service (CES) Team within Administrative and Financial Management (AFM) of the Agricultural Research Service (ARS) carries out this function for USDA.

Effective January 31, 2003, the authority to grant Schedule A Excepted Appointments to CES employees was terminated. Public Law 107-171, Farm Security and Rural Investment Act of 2002, dated May 13, 2002, Section 7220, terminated the Schedule A appointing authority used by USDA to grant a companion Federal appointment and Federal benefits to state/university employees of the Cooperative Extension Service. The law allowed the CES Federal appointees that were employed on the day before the date of the enactment of the Act, (i.e., May 12, 2002) to: a) continue to accrue Federal

creditable service for retirement; and b) participate in the following benefits as long as the employees continued their employment with the Cooperative Extension Service:

- 1) the Federal Employees Health Benefits Program (FEHB);
- 2) the Federal Employees' Group Life Insurance Program (FEGLI);
- 3) the Civil Service Retirement System (CSRS);
- 4) the Federal Employee Retirement System (CSRS);
- 5) the Thrift Savings Plan (TSP); and
- 6) the Federal Long Term Care Insurance Program (FLTCIP).

The Federal Office of Workers Compensation Program (OWCP) is the only Federal program that will not continue as it is not a program that the dual appointee was vested in. Claims already on file with the Department of Labor (DOL) Office of Workers Compensation Office will continue to be processed by the DOL. Using a formula based in the prior years injury or illness claims, NIFA will pay these claims on behalf of each institution and charge that institution by reducing its annual retirement allocation by the amount remitted. If the amount of claims paid exceeds the institutions annual retirement allocation, NIFA will bill the institution for any OWCP costs in excess of the annual retirement allocation.

Changes and new features for the current Federal Benefits programs such as FEHB, FELGI, TSP and FLTCIP will be offered to the CES organizations and employees that are eligible to participate in the affected program(s). However, former Federal appointees cannot participate in new Federal benefit programs that were not in effect as of May 12, 2002.

Effective January 31, 2003, CES can no longer grant Schedule A Federal appointments to new employees because they no longer have a Federal appointment authority available to make new Federal appointments. Former CES Schedule A appointees may be reappointed to another CES organization and continue their benefits as long as they do not have a break in service.

(e) FERS Retirement Contributions Program (aka ERET FERS Retirement) (FORMULA)

Federal funds are provided for the retirement costs of the former Schedule A Appointments at the 1862 land-grant institutions. These funds are allocated to the 1862 land-grant institutions with former Schedule A Appointments based on each institutions relative share of the total payments to OPM during the previous year.

The separate allocation of funds for this purpose is being phased out over a 10-year period, beginning in FY 2008. The amount available for this program is reduced each year by \$376,826 and this same amount is added to the funds available for distribution under the Smith-Lever Act, Section 3(b) and (c), statutory formula.

The Schedule A 213.3113 (a) (1) was issued by the U.S. Office of Personnel Management (OPM) for the United States Department of Agriculture (USDA) to employ individuals in the Cooperative Extension Service (CES) as a joint appointment between USDA and the land-grant institution. The official title of Schedule A appointees includes the title Agent (e.g., Agent/Cooperative Extension Director; Agent/Cooperative Extension Educator) as by law only agents with a Schedule A appointment were eligible to participate in the Federal benefit plan(s).

Employment is dependent upon an individuals appointment in the CES at the university. The appointment must be a regular position with at least 50 percent of the staffs time dedicated to extension projects, and the appointee must work and be paid over a 12 month period.

Agents in the Cooperative Extension program are not classified under the General Schedule (GS) classification system or any other Federal pay system. The positions are classified by the employing land-grant institution, and the salary is established according to policies and procedures at the institution. The OPM has the authority and responsibility for issuing rules and regulations covering Schedule A appointments and resulting benefits. OPM has delegated to the USDA the responsibility for overseeing and managing Cooperative Extension Schedule A appointments and the accompanying Federal benefits, (e.g., retirement and insurance plans). The Human Resources Division (HRD)/Cooperative Extension Service (CES) Team with Administrative and Financial Management (AFM) of the Agricultural Research Service (ARS) carries out this function for USDA.

Effective January 31, 2003, the authority to grant Schedule A Excepted Appointments to CES employees was terminated. Public Law 107-171, Farm Security and Rural Investment Act of 2002, dated May 13, 2002, Section 7220,

terminated the Schedule A appointing authority used by USDA to grant a companion Federal appointment and Federal benefits to state/university employees of the Cooperative Extension Service. The law allowed the CES Federal appointees that were employed on the day before the date of the enactment of the Act, (i.e., May 12, 2002), to: a) continue to accrue Federal creditable service for retirement; and b) participate in the following benefits as long as the employees continued their employment with the Cooperative Extension Service:

- 1) The Federal Employees Health Benefits Program (FEHB);
- 2) The Federal Employees' Group Life Insurance Program (FEGLI);
- 3) The Civil Service Retirement System (CSRS);
- 4) The Federal Employee Retirement System (FERS);
- 5) The Thrift Savings Plan (TSP); and
- 6) The Federal Long Term Care Insurance Program (FLTCIP).

The Federal Office of Workers Compensation Program (OWCP) is the only Federal program that will not continue as it is not a program that the dual appointee was vested in. Claims already on file with the Department of Labor (DOL) Office of Workers Compensation Office will continue to be processed by the DOL. Using a formula based in the prior years injury or illness claims, NIFA will pay these claims on behalf of each institution and charge that institution by reducing its annual retirement allocation by the amount remitted. If the amount of claims paid exceeds the institutions annual retirement allocation, NIFA will bill the institution for any OWCP costs in excess of the annual retirement allocation.

Changes and new features for the current Federal Benefits programs such as FEHB, FELGI, TSP and FLTCIP will be offered to the CES organizations and employees that are eligible to participate in the affected program(s). However, former Federal appointees cannot participate in new Federal benefit programs that were not in effect as of May 12, 2002.

Effective January 31, 2003, CES can no longer grant Schedule A Federal appointments to new employees because they no longer have a Federal appointment authority available to make new Federal appointments. Former CES Schedule A appointees may be reappointed to another CES organization and continue their benefits as long as they do not have a break in service.

(f) District of Columbia Public Postsecondary Education Reorganization Act Program (Cooperative Extension Programs) aka EUDC

These funds are used by the University of the District of Columbia for the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending the University of the District of Columbia, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

Sections 208 of the District of Columbia Public Postsecondary Education Reorganization Act provides, in pertinent part, that In the administration of the Act of August 30, 1890 (7 U.S.C. 321-326, 328) (known as the Second Morrill Act), the University [of the District of Columbia] shall be considered to be a university established for the benefit of agriculture and the mechanic arts in accordance with the provisions of the Act of July 2, 1862 (7 U.S.C. 301-305, 307, 308) (known as the First Morrill Act); and the term "State", is used in the laws and provisions of law listed in the preceding, paragraphs of this section shall include the District of Columbia. In the administration of the Act of May 8, 1914 (7 U.S.C. 341-346, 347a-349) (known as the Smith-Lever Act) the University [of the District of Columbia] shall be considered to be a university established for the benefit of agriculture and the mechanic arts in accordance with the provisions of the Act of July 2, 1862 (7 U.S.C. 301- 305, 307,308); and the term "State" as used in such Act of May 8, 1949, shall include the District of Columbia, except that the District of Columbia shall not be eligible to receive any sums appropriated under section 3 of such Act. In lieu of an authorization of appropriations for the District of Columbia under section 3 of such Act of May 8, 1914, there is authorized to be appropriated such sums as may be necessary to provide cooperative agricultural extension work in the District of Columbia under such Act. Any reference in such Act (other than section 3 thereof) to funds appropriated under such Act shall in the case of the District of Columbia be considered a reference to funds appropriated

under this subsection.

Therefore, this grant funds the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending the University of the District of Columbia, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

Section 7417 of the Food, Conservation, and Energy Act of 2008 (Public Law 110-234) amended section 208 of the District of Columbia Public Postsecondary Education Reorganization Act to eliminate any matching requirement for the extension formula funds provided to the University of the District of Columbia, effective October 1, 2008.

Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.

7 CFR 3419.1 defines matching funds as funds from non-Federal sources made available by the State to the eligible institutions ... 4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act

The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state. Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award. Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(b) Rural Health and Safety

The Rural Health and Safety Education Competitive Grants Program provides funds to meet national goals for addressing the health and access needs of rural Americans.

NIFA does not require matching or cost sharing support for this program and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award.

Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(c) Extension Services at the 1994 Institutions

Appropriated funds are to be awarded to the 1994 Land-Grant Institutions for Extension work and funds are to be distributed on the basis of a competitive application process.

NIFA does not require matching support for this program, and matching resources will not be factored into the review process as evaluation criteria.

Under the TCEP, the use of grant funds to plan, acquire, or construct a building or facility, or to acquire land, is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, grant funds may be used to purchase equipment, or for improvements, alterations, renovations, or repairs to land, buildings, or equipment, deemed necessary to retrofit existing spaces and resources in order to carry out a funded project under this grant. However, requests to use grant funds for such purposes must demonstrate that such expenditures are incidental to the major purpose for which the grant request is made and no more than twenty-five percent of the project budget may be used to purchase equipment. Any equipment purchased with Federal funds is the property of the grantee or the subgrantee, as appropriate.

Indirect costs are unallowable costs, and no funds will be approved for this purpose. Costs that are a part of the institutions indirect cost pool may not be reclassified as direct costs for the purpose of making them allowable.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act

(FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

There are no matching requirements associated with the Rural Youth Development program, and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of facility space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act of 2008, amended the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310(a)), limiting indirect costs to 22 percent of the total Federal funds provided under each award. Therefore, when preparing budgets, applicants should limit their requests for recovery of indirect costs to the lesser of their institutions official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded. If no rate has been established the applicant may indicate "Nonewill negotiate" and a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested. NIFA will request an indirect cost rate proposal and provide instructions, as necessary. An applicant may elect not to charge indirect costs and, instead, use all grant funds for direct costs. If indirect costs are not charged, the phrase "None requested" should be written in this space.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Pursuant to Sec. 604 of the Agricultural research extension and Education Reform Act of 1998 [7 USC 7642(d)], applicants requesting recovery of indirect costs should limit their requests to the lesser of their institutions official negotiated indirect costs rate or the equivalent of 19 percent of total Federal funds awarded.

(f) Federal Administration (DIRECT APPROPRIATION)

Pertinent details will be provided at a future date.

(g) 1890 Facilities (Section 1447)

In Fiscal Year (FY) 09 NIFA assessed four percent (4%) of the appropriated amount for Federal Administration, distributed sixty percent (60%) of the balance equally, and distributed the remaining forty percent (40%) based on the formula found in Section 1444 of NAREPTA of 1977, as amended (Pub. L. No. 95-113).

Within each institution, the research, teaching and extension programs must each receive at least 20 percent of the annual allocation. The remaining 40 percent may be allocated based on institutional needs for research, teaching, or extension. No more than 60 percent of the total allocation should be directed to research, teaching, or extension. However, if there are unique situations in your institution which warrant a deviation from these guidelines, we will consider requests for reallocation. Such reallocations must be justified by the submission of a situation statement which describes the research, teaching, and extension facilities needs in your institution and how previously available Federal funds were utilized.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. The obligation and expenditure of funds awarded under these grants are limited to equipment, land, buildings and other related costs which are or will be used in the administration and conduct of approved research, teaching and extension activities. In accordance with NAREPTA Section 1447 (e), funds provided for this program may not be used for the payment of any overhead costs of the eligible institutions. Some funds are Fully Discretionary. Some funds are

Mandatory.

Beneficiary Eligibility:

Extension Programs at the State and county level are available to the general public.

Credentials/Documentation:

A Data Universal Number System (DUNS) number must be obtained - A DUNS number is a unique number that identifies an organization. It has been adopted by the Federal government to help track how Federal grant money is distributed. If your organization does not have a DUNS number, call the special Dun & Bradstreet hotline at 1-866-705-5711 to receive one free of charge. You will receive a DUNS number within several days of your request. Please note, individual proprietorships (i.e. farmers, ranchers) can request and receive a DUNS number, but must register with Grants.gov as an organization, not as an individual.

Registration with Central Contractor Registry (CCR) is required - The CCR is the central government repository for organizations working with the Federal government. If your organization is not already registered, identify the primary contact who should register your organization. When your organization registers with CCR, it will be required to designate an e-Business Point of Contact (e-Business POC). The e-Business POC authorizes individuals to submit grant applications on behalf of the organization and creates a special password called a Marketing Partner ID Number (M-PIN) to verify individuals authorized to submit grant applications for the organization. Visit the CCR Web site at <http://www.ccr.gov> to begin this process. It may take several days to collect the information needed for your organizations registration. The CCR Assistance Center can be reached at 888-227-2423. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs.

Applicants must furnish the information required in the request for applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following:

Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is

approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information.. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

All RFAs are published on the Agency's website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information:

http://www.grants.gov/applicants/get_registered.jsp. This program is excluded from coverage under E.O. 12372.

1. SMITH-LEVER 3(b) & (c):

(a) Cooperative Extension Programs at 1862 Land-Grant Institutions (aka 3b & c Formula Funds) (FORMULA)

States are eligible for funds appropriated under this Act according to the following formula: Out of each annual allocation, each State will be entitled to receive a sum of money equal to the sums available from Federal cooperative extension funds for the fiscal year 1962, and subject to the same requirements as to furnishing of equivalent sums by the State, except that amounts heretofore made available to the Secretary for allotment on the basis of special needs shall continue available for use on the same basis. Further, the University of Guam and the University of the Virgin Islands will receive \$100,000 each in addition to the sums appropriated for the several States of the United States and Puerto Rico under the provisions of sections 3(b) and 3(c) of the Smith-Lever Act. Of the remainder so appropriated for each fiscal year 20 per cent will be paid to the several States in equal proportions, 40 per cent will be paid to the several States in the proportion that the rural population of each bears to the total rural population of the several States as determined by the census, and the balance will be paid to the several States in the proportion that the farm population of

each bears to the total farm population of the several

States as determined by the census. Any appropriation made under sections 3(b) and 3(c) of the Smith-Lever Act will be allotted in the first and succeeding years on the basis of the decennial census current at the time the appropriation is first made, and as to any increase, on the basis of decennial census current at the time such increase is first appropriated.

Cost Sharing or Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. 343(e)(1)) states, with regard to institutions in the 50 states, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work. However, section 3(e)(4) of the Smith-Lever Act (U.S.C. 343(e)(4)) provides that Effective beginning for fiscal year

2003, in lieu of the matching funds requirement of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marianas Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section..... The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.

Funds will be distributed to the institutions on a quarterly basis. See Appendix A of the Formula Grant Opportunity (FGO) for the specific allocation.

Cost Sharing or Matching

1862 Land-grant Institutions in the 50 States must match 100 percent of the Special Needs funds they receive with funds from non-Federal sources such as State or county appropriations. The matching must be in the form of cash. Matching funds must be used for extension activities approved in the eligible institutions 5-Year Plan of Work.

(c) Smith-Lever Special Needs Program (aka ESPN Special Needs Projects)

Cost Sharing or Matching
Pursuant to rules and policies governing Section 3(b) & (c) of the Smith-Lever Act, as amended through Public Law 107-293, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work.

1. To comply with the matching requirements of the Special Needs Program, applicants are required to provide 100 percent matching funds from non-federal sources for all proposed federal funds sought in the application. In-kind and third party contributions are not allowed for the Smith-Lever Special Needs program. Grant awards cannot be issued until ALL required matching has been documented and verified.

2. Matching Alternative. Extension Directors may certify an offset of guaranteed non-Federal funds to your application. The signed certification of offset must be scanned and included as a PDF attachment (see Part IV.,B.,2.,c.,(1) for specific instructions).

3. Matching Exception. Insular Areas: In lieu of the matching funds requirement, the insular areas of the Commonwealth of Puerto Rico, Guam, and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the grants awarded. The Secretary may waive this matching fund requirement for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year. Insular applicants may submit a waiver request as a PDF attachment to the application (see Part IV.,B.,2.,c.,(2) for specific instructions).

For all projects:

Matching: Applications shall include written verification of commitments of

matching support from non-federal sources. Written verification means: The sources and the amount of all matching support from outside the applicant organization should be summarized on a separate page and placed in the application as a part of the Budget

Justification attachment (see Field K on the Form SF 424 (R&R) Budget). Include the matching amount, the budget category for the match, and detail how the matching support, from each source, will be used (e.g., salary and position supported). Additionally, all pledge agreements must be included as a PDF attachment in Field K as well.

The value of applicant contributions to the project shall be established in accordance with the applicable cost principles. Applicants should refer to OMB Circulars A-21, Cost Principles for Educational Institutions; A-87, Cost Principles for State, Local, and Tribal Governments; 2 CFR Part 215, Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A110); for further guidance and other requirements relating to allowable costs.

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. 343(e)(1) states, with regard to institutions in the 50 states, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work. However, section 3(e)(4) of the Smith-Lever Act (U.S.C. 343(e)(4) provides that Effective beginning for fiscal year 2003, in lieu of the matching funds requirements of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marian Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section. The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.

(e) FERS Retirement Contributions Program (aka ERET FERS Retirement) (FORMULA)

Federal funds are distributed according to an administrative formula described in the Formula Grant Opportunity (FGO). See Appendix A of the FGO for specific allocations.

Cost Sharing or Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. 343(e)(1) states, with regard to institutions in the 50 states, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work. However, section 3(e)(4) of the Smith-Lever Act (U.S.C. 343(e)(4) provides that Effective beginning for fiscal year 2003, in lieu of the matching funds requirements of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marian Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section. The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.

(f) District of Columbia Public Postsecondary Education Reorganization Act Program (Cooperative Extension Programs) aka EUDC

There is no matching requirement for these funds.

2. Agricultural Extension at 1890 Land-Grant Institutions, Including Tuskegee University and West Virginia State University (Section 1444) (FORMULA)

The 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University, are eligible for funds appropriated under this Act according to the following formula: Any funds annually appropriated under NARETPA section 1444 up to the amount appropriated for the fiscal year ending September 30, 1978, pursuant to section 3(d) of the Act of May 8, 1914, as amended, for eligible institutions, will be allocated among the eligible institutions in the same proportion as funds appropriated under section 3(d) of the Act of May 8, 1914, as amended, for the fiscal year ending September 30, 1978, are allocated among the eligible institutions. Of the funds in excess of that amount, 20 per cent will be allotted among the eligible institutions in equal proportions; 40 per cent will be allotted among the eligible institutions in the proportion that the rural population of the State in which each eligible institution is located bears to the total rural population of all the States in which eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated; and the balance will be allotted among the eligible institutions in the proportion that the farm population of the State in which each eligible institution is located bears to the total farm population of all the States in which the eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated. For purposes of computing the distribution, the allotments to Tuskegee University and Alabama A&M University will be determined as if each institution were in a separate State.

Cost Sharing or Matching

NARETPA section 1449 (7 U.S.C. 3222d) states that the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.

7 CFR 3419.1 defines matching funds as funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ...or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions. It defines non-Federal sources as funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees. Finally, it defines qualifying educational activities as programs that address food and agricultural sciences components of an eligible institution.

7 CFR 3419.6 states that The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.

3. SMITH-LEVER 3(d):

(a) Expanded Food and Nutrition (EFNEP) (ENUT Nutrition Education) (FORMULA)

Section 7116 of the Food, Conservation, and Energy Act of 2008 (FCEA) amended Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3175) to accomplish the following:

Notwithstanding section 3(d) of the Smith-Lever Act of May 8, 1914 (7 U.S.C. 343(d)) for administration, technical, and other services for coordinating the extension work of the Department and the several States, Territories, and

possessions the remainder shall be allocated among the States as follows:

1. 1862 Institutions shall receive a base in an amount equaling their FY 1981 allocation.
2. Four percent (4%) shall be available for administrative expenses.
3. \$100,000 will be distributed to each 1862 and 1890 Land-Grant Institution including the University of the District of Columbia.
4. For fiscal year (FY) 2009 10 percent of funds appropriated for EFNEP in excess of funds appropriated in FY 2007 will be allocated to the 1890 Institutions in an amount that bearing the same ratio to the population living at or below 125 percent of the poverty level (as prescribed by the Office of Management and Budget and as adjusted pursuant to section 673(2) of the Community Services Block Grant Act (42 U.S.C.9902(2))) in the State where the 1890 Institution is located; bears to the total population living at or below 125 percent of the poverty level in all States where 1890 Institutions are located; as determined by the most recent decennial census at the time when the appropriated amount first exceeds levels appropriated for EFNEP in FY 2007. This FY 2009 rate of 10 percent is to increase by 1 percentage point annually until FY 2014 maxing out at 15 percent and remaining at that level for every year thereafter.
5. The remainder will be allocated to each 1862 Land-Grant Institutions in an amount that bears the same ratio to the total amount allocated as the population living at or below 125 percent of the poverty level in the State; bears to the total population living at or below 125 percent of poverty level in all States; as determined by the most recent decennial census at the time at which each such additional amount is first appropriated.

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act

The majority of the appropriated funds are distributed to eligible institutions

based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state. Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award.

Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(b) Rural Health and Safety

The Rural Health and Safety Education Competitive Grants Program provides funds to meet national goals for addressing the health and access needs of rural Americans.

NIFA does not require matching or cost sharing support for this program and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award.

Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(c) Extension Services at the 1994 Institutions

Appropriated funds are to be awarded to the 1994 Land-Grant Institutions for Extension work and funds are to be distributed on the basis of a competitive application process.

NIFA does not require matching support for this program, and matching resources will not be factored into the review process as evaluation criteria.

Under the TCEP, the use of grant funds to plan, acquire, or construct a building or facility, or to acquire land, is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, grant funds may be used to purchase equipment, or for improvements, alterations, renovations, or repairs to land, buildings, or equipment, deemed necessary to retrofit existing spaces and resources in order to carry out a funded project under this grant. However, requests to use grant funds for such purposes must demonstrate that such expenditures are incidental to the major purpose for which the grant request is made and no more than twenty-five percent of the project budget may be used to purchase equipment. Any equipment purchased with Federal funds is the property of the grantee or the subgrantee, as appropriate.

Indirect costs are unallowable costs, and no funds will be approved for this purpose. Costs that are a part of the institutions indirect cost pool may not be reclassified as direct costs for the purpose of making them allowable.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the

redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

There are no matching requirements associated with the Rural Youth Development program, and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of facility space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act of 2008, amended the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310(a)), limiting indirect costs to 22 percent of the total Federal funds provided under each award. Therefore, when preparing budgets, applicants should limit their requests for recovery of indirect costs to the lesser of their institutions official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded. If no rate has been established the applicant may indicate "Nonewill negotiate" and a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested. NIFA will request an indirect cost rate proposal and provide instructions, as necessary. An applicant may elect not to charge indirect costs and, instead, use all grant funds for direct costs. If indirect costs are not charged, the phrase "None requested" should be written in this space.

(e) Food Animal Residue Avoidance Database Program (FARAD)
Pursuant to Sec. 604 of the Agricultural research extension and Education Reform Act of 1998 [7 USC 7642(d)], applicants requesting recovery of indirect costs should limit their requests to the lesser of their institutions official negotiated indirect costs rate or the equivalent of 19 percent of total Federal funds awarded.

(f) Federal Administration (DIRECT APPROPRIATION)
Pertinent details will be provided at a future date.

(g) 1890 Facilities (Section 1447)
NIFA assessed four percent (4%) of the appropriated amount for Federal Administration, distributed sixty percent (60%) of the balance equally, and distributed the remaining forty percent (40%) based on the formula found in Section 1444 of NAREPTA of 1977, as amended (Pub. L. No. 95-113). Within each institution, the research, teaching and extension programs must each receive at least 20 percent of the annual allocation. The remaining 40 percent may be allocated based on institutional needs for research, teaching, or extension. No more than 60 percent of the total allocation should be directed to research, teaching, or extension. However, if there are unique situations in your institution which warrant a deviation from these guidelines, we will consider requests for reallocation. Such reallocations must be justified by the submission of a situation statement which describes the research, teaching, and extension facilities needs in your institution and how previously available Federal funds were utilized.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. The obligation and expenditure of funds awarded under these grants are limited to equipment, land, buildings and other related costs which are or will be used in the administration and conduct of approved research, teaching and extension activities. In accordance with NAREPTA Section 1447 (e), funds provided for this program may not be used for the payment of any overhead costs of the eligible institutions.

MOE requirements are not applicable to this program.

USES AND USE RESTRICTIONS:

Federally appropriated School Breakfast Program funds are available to reimburse participating public and nonprofit private schools, of high school grade and under and residential child care institutions, for breakfasts, meeting the nutritional requirements prescribed by the Secretary of Agriculture, served to eligible children. The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2010 through June 30, 2011, the rates of reimbursement are 26.0 cents for paid breakfasts, 118.0 cents for each reduced price breakfast, and 148.0 cents for each free breakfast. The maximum reduced price charged for breakfast is 30 cents. Schools serving 40 percent or more free and reduced price lunches in the second preceding school year get up to 146.0 cents and 176.0 cents for each breakfast served to children qualifying, respectively, for a reduced price and a free breakfast. All participating schools must agree to serve free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability. School aged children receive one of three benefit levels based on an application used to determine need.

Please refer to Program Regulations (CFR)

Part 220 -- School Breakfast Program
Part 235 -- State Administrative Expense

Meals served to non-needy children also get cash assistance. Such determinations are made in accordance with income eligibility guidelines prescribed by the Secretary and cross reference household income with household size. The Secretary prescribes these income eligibility guidelines by July 1; the statistical source used in making such revisions is the Federal Income Poverty Guidelines. Children from households certified to receive Supplemental Nutrition Assistance Program (SNAP), the Food Distribution Program on Indian Reservations, Temporary Assistance for Needy Families and some children in Head Start Programs are automatically eligible for free meals. Homeless children, children in certain runaway and homeless youth grant programs, and migrant children are automatically eligible for free meals.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

Statutory Formula: Federal funds are made available for breakfast assistance in accordance with Section 4 of the Child Nutrition Act on a performance basis by: (1) multiplying the number of paid breakfasts served to eligible children during the fiscal year by a National Average Payment (NAP) prescribed by the Secretary; (2) multiplying the number of breakfasts served free to eligible children by a NAP prescribed by the Secretary for free breakfasts; and, (3) multiplying the number of reduced price breakfasts served to eligible children by a NAP prescribed by the Secretary for reduced-priced breakfasts. The amount of Federal funds given the grantee is the sum of the products obtained

from these three computations, plus an additional 6 cents for every breakfast served. Schools with a high percentage of needy may receive additional payments. The statistical factors used in this formula are: (1) The NAP's; (2) the number of paid breakfasts served; and (3) the number of breakfasts served free or at reduced price to eligible children. The NAP's are prescribed by the Secretary and adjusted each July 1, in accordance with the Food Away From Home component of the Consumer Price Index for All Urban Consumers. The source of this adjustment factor is the Bureau of Labor Statistics. The source of the numbers of breakfasts served, including the number served free or at reduced price, is the monthly programmatic reports submitted to Food and Nutrition Service. This program has no maintenance of effort (MOE) requirements.

Matching requirements are not applicable to this program.

This program does not have MOE requirements.

Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Schools must maintain full and accurate records of the breakfast program. Such records shall be retained for a period of 3 years after the end of the fiscal year to which they pertain, except that if audit findings have not been resolved, records shall be retained beyond the 3 year period until audit findings have been resolved.

Formula and Matching Requirements:

Statutory Formula: The funding formula for the general cash for food assistance phase of the program is set forth in Section 4 of the National School Lunch Act, as amended; the formula for special cash assistance is described in

Section 11 of the Act. The program is funded on a performance basis. For every lunch served during the applicable fiscal year, the State receives a payment from funds made available under Section 4. In addition, the State receives a payment from Section 11 funds for each lunch served to a child eligible for free or reduced price lunches. The amounts of such per-lunch payments are determined by "National Average Payment" (NAP) factors. The amount due the State under this program is obtained by: (1) multiplying the total number of eligible paid lunches and free and reduced price lunches served during the fiscal year by the Section 4 NAP factor for lunches; (2) multiplying the number of free lunches served by the Section 11 NAP factor for free lunches; (3) multiplying the number of lunches served at reduced price by the Section 11 NAP factor for reduced price lunches; (4) multiplying the total number of lunches served during the fiscal year in school food authorities which served 60 percent or more free or reduced price lunches in the second preceding school year by \$.02; and (5) adding together the four products obtained thereby. The NAP factors are prescribed by the Secretary in accordance with Sections 4 and 11, respectively, of the Act; the numbers of lunches are obtained from programmatic reports submitted to Food and Nutrition Service. In addition, the funding formula for snacks in after school care programs is described in Section 17 A of the Act. Section 11(a)(3) of the Act requires that the NAP factors be adjusted annually, according to changes in the Food Away From Home series of the Consumer Price Index for All Urban Consumers; the source is the Bureau of Labor Statistics. Each State must appropriate from State revenues and use, for program purposes, an amount equal to 30 percent of the Section 4 funds made available to the State in the 1980-81 school year. Also, commodity schools are eligible to receive donated commodities equal in value to the sum of section 6 and section 4 assistance rates, except that up to 5 cents of this amount may be received in cash for processing and handling commodities. In addition, commodity schools are eligible for Section 11 free and reduced price meal reimbursements.

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are made available to State agencies to encourage the consumption of fluid milk by children in public and private nonprofit schools of high school grade and under, public and private nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, except Job Corps Centers, provided that these schools and institutions do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966. The Child Nutrition Amendments of 1986 expanded eligibility in the program to include children in split session kindergarten and pre-kindergarten programs in nonprofit schools and institutions who do not have access to the Federal meal service program operating in schools the children attend. Disbursement to States is made on the basis of the number of half pints of milk served to non-needy children, using a reimbursement rate specified by law. Milk served free to eligible needy children is reimbursed at the average cost of a half pint of milk. Please refer to Program Regulations (CFR):

Part 215 -- Special Milk Program

This generally includes nonprofit nursery schools, child-care centers, settlement houses and summer camps. Schools with split session kindergarten and pre-kindergarten programs can receive subsidies for milk served to children in the split session kindergartens and pre-kindergartens who do not have access to another meal service program operating in the school. All schools and child care institutions which participate must agree to operate the program on a nonprofit basis for all children without regard to race, sex, color, National origin, age or disability.

10.558 CHILD AND ADULT CARE FOOD PROGRAM

CACFP

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Richard B. Russell National School Lunch Act, as amended, Sections 9, 11, 14,

16 and 17, as amended, 89 Stat. 522-525, 42 U.S.C. 1758, 1759a, 1762a, 1765 and 1766.

OBJECTIVES:

To assist States, through grants-in-aid and other means, to initiate and maintain nonprofit food service programs for children and elderly or impaired adults enrolled in nonresidential day care facilities, children attending afterschool care programs in low-income areas, and children residing in emergency shelters.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are made available for disbursement to eligible institutions to reimburse their costs in providing meals and snacks to children and adults enrolled in nonresidential day care, children attending afterschool care programs, and children residing in emergency shelters. Disbursement is made on the basis of the number of breakfasts, lunches, suppers, and snacks served, using annually adjusted reimbursement rates specified by law. The program allows reimbursement for up to two meals and one snack served each day to children through the age of 12, children of migrant workers through the age of 15, and persons with disabilities, in child care centers and day care homes. Adult day care centers receive reimbursement for up to three meals served each day to enrolled adults who are functionally impaired or 60 and older. The program also provides reimbursement to emergency shelters for up to three meals served to residents through age 18. In at-risk afterschool care programs, reimbursement is available for one snack served each day to children through age 18. Reimbursement may also be available for one additional meal in afterschool care programs in eligible states. All program meals must meet minimum requirements of the United States Department of Agriculture (USDA). Funds are also paid to participating State agencies for administrative expenses related to program staffing and oversight.

Applicant Eligibility:

The State or U.S. Territory agency applies for and signs an agreement to receive Federal funds for disbursement. Where the State does not currently administer the program, an applicant institution may sign an agreement and receive funds directly from USDA.

Beneficiary Eligibility:

Approved institutions providing nonresidential day care services may participate in the program. Eligible public and nonprofit private organizations may include day care centers, outside-school-hours care centers, settlement houses, family and group day care homes, Head Start programs, and institutions providing day care services to children with disabilities. Private for-profit centers may also participate if at least 25 percent of the children in care (enrolled or licensed capacity, whichever is less) are eligible for free or reduced price school meals or receive benefits under Title XX (of the Social Security Act). Also eligible for participation are nonprofit centers which provide nonresidential adult day care, and private for-profit centers if the center receives compensation under Title XIX (of the Social Security Act) or Title XX, and at least 25 percent of the adults enrolled in the center receive benefits under Title XIX, Title XX, or a combination of both. Emergency shelters which provide shelter and meals to children experiencing homelessness, and at-risk afterschool care programs in low-income areas are also eligible. Any eligible institution may participate in the Child and Adult Care Food Program upon request with State agency approval.

Credentials/Documentation:

The allowability of costs incurred by States in administering the program will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Parts 3016 and 3019). Applicants that are not public or proprietary institutions must furnish evidence of tax-exempt status under the Internal Revenue Code of 1986. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process required by the State. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official

designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Institutions apply to the responsible State agency. Where the State does not administer the program, the application is submitted to the USDA Food and Nutrition Service (FNS) Regional Office. This program is subject to the provisions of USDA Uniform Federal Assistance Regulations (7 CFR Parts 3016 and 3019).

Award Procedure:

When the application is approved, the institution signs an agreement with the administering agency.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

The administering agency must provide a hearing procedure for local institution grievances.

Renewals:

Not less frequently than every three years.

Formula and Matching Requirements:

Statutory Formula: Program funds are provided to the States through letters of credit to reimburse institutions for costs of food service operations, including administrative expenses. Appropriate rates of reimbursement, multiplied by the number of meals served to enrolled participants, represent the basic program payment that an institution receives for each meal served. The assigned rates of reimbursement are adjusted annually on July 1. For child care centers, adult day care centers, emergency shelters, and at-risk afterschool care programs, the annual adjustment reflects changes in the Food Away from Home series of the Consumer Price Index for All Urban Consumers. For day care homes, the adjustment reflects changes in the Food at Home series of the Consumer Price Index for All Urban Consumers. Donated foods or cash in lieu of donated foods are also made available. Program payments to child care or adult day care centers depend on the number and types of meals served to enrolled participants, multiplied by the appropriate rate of reimbursement. Rates for meals served to enrolled children and eligible adults in day care centers are determined by the participants' eligibility for free, reduced price, or paid meals using USDA Income Eligibility Guidelines. All resident children through age 18 in eligible emergency shelters receive free meals without application. At-risk afterschool care programs, which must be located in low-income areas, are reimbursed at the free rate for all snacks--and meals in eligible States--served to children through age 18. Sponsoring organizations of day care homes are reimbursed at a gradational administrative rate based on the number of homes they operate. The level of reimbursement for meals served to enrolled children in day care homes is determined by economic need based on either the location of the day care home, the income of the day care provider, or the income of an individual child's household. Meals served in day care homes to the provider's own children are reimbursable only if those children are determined eligible for free and reduced price meals, and at least one other nonresident child is participating in the meal service. The reimbursement for food service is passed on by the sponsoring organization to the day care facility. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

For the period covered by the agreement. Method of awarding/releasing assistance: by letter of credit.

Reports:

Institutions file monthly reports on program operations to claim reimbursement for meals served. They must submit final meal claims no later than 60 days after the claiming month. States must then submit final program reports to FNS no later than 90 days after the claiming month. No cash reports are required. No progress reports are required. No expenditure reports are required. No

performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Audits may be conducted less frequently under conditions specified in OMB Circular No. A-133. For-profit institutions are subject to audit by their administering State agencies.

Records:

Institutions must maintain full and accurate records of program operations for a period of 3 years after the end of the fiscal year to which they pertain. However, where there are unresolved audit findings, records must be retained until there is satisfactory resolution of all audit issues.

Res. 302 (102nd Congress), Public Law 102-PIL 110-246, 8701 U.S.C 4405.

OBJECTIVES:

As defined in the H.Con.Res. 302(102nd Congress), the 14 goals of the Hunger-Free Communities initiative are:

1. Having a community-based emergency food delivery network that coordinates the services of programs such as food pantries, food banks, and congregate meals facilities.
2. Assessing food insecurity problems and evaluating existing services in the community to determine necessary strategies for responding to unmet needs.
3. Establishing a group of individuals, including low-income participants, to develop and to implement policies and programs to combat food insecurity, to monitor responsiveness of existing services, and to address underlying causes and factors related to hunger.
4. Participating in federally assisted nutrition programs that should be easily accessible to targeted populations, such as the Federal programs that provide school breakfast, school lunch, summer food, child care food, and food for homeless and older individuals.
5. Effectively integrating public and private resources, including local businesses, to alleviate food insecurity.
6. Having an education program about food needs of the community and the need for increased local citizen participation in activities to alleviate food insecurity.
7. Having available information and referral services for accessing both public and private programs and services.
8. Having initiatives for alleviating food shopping constraints through the development of creative food resources such as community gardens, buying clubs, food cooperatives, community-owned and operated grocery stores, and farmers' markets.
9. Carrying out activities to identify and target food services to high-risk populations.
10. Having adequate transport and distribution of food from all resources.
11. Coordinating food services with park and recreation programs and other community-based outlets to which residents of the area would have easy access.
12. Improving public transportation, human service agencies, and food resources.
13. Having nutrition education programs for low-income citizens to enhance good food-purchasing and food-preparation skills and to heighten awareness of the connection between diet and health.
14. Having a program for collecting and distributing nutritious food, either agricultural commodities in farmers' fields or foods that have already been prepared, that would otherwise be wasted.

The total percentage allocated to title II and title III combined must be no less than 15 percent and no greater than 20 percent.

By law, a participating county receiving more than \$100,000 must allocate a portion of its payment to title II and/or title III by September 30 each year. For these counties, failure to submit these elections (allocations) by the deadline will result in the county being considered to have elected to return 15 percent of its share to the U.S. Treasury in lieu of allocating 15 to 20 percent for title II and/or title III projects.

Title II- Special Projects on Federal Land (Federal Financial Assistance)

Title II projects are recommended by resource advisory committees and approved by the Secretary or designee such as Forest Supervisor or District Ranger. Title II funds may be used for making additional investments in, and creating additional employment opportunities through, projects that improve the maintenance of existing infrastructure, implementing stewardship objectives that enhance forest ecosystems, and restoring and improving land health and water quality. Projects shall enjoy broad based support with objectives that may include, but not limited to:

- Road, trail, and infrastructure maintenance or obliteration;
- Soil productivity improvement;
- Improvements in forest ecosystem health;
- Watershed restoration and maintenance;
- Restoration, maintenance and improvement of wildlife and fish habitat;
- Control of noxious and exotic weeds; and
- Re-establishment of native species.

At least 50 percent of all Title II funds must be used for projects that are primarily dedicated to:

- Road maintenance, decommissioning, or obliteration; or
- Restoration of streams and watersheds.

Title II projects recommended by Resource Advisory Committees (RACs) must be within the RACs geographical boundary.

After the issuance of a decision document for the project and the exhaustion of all administrative appeals and judicial review of the project decision, the Secretary and the RAC shall enter into an agreement addressing, at a minimum, the following:

The schedule for completing the project;
The total cost of the project, including the level of agency overhead to be assessed against the project;
For a multiyear project, the estimated cost of the project for each of the fiscal years in which it will be carried out; and
The remedies for failure of the Secretary to comply with the terms of the agreement.

The Secretary may decide to cover the costs of a portion of an approved project using Federal funds appropriated or otherwise available to the Secretary for the same purposes as the project

As soon as the Secretary and the RAC have reached agreement with regard to a project to be funded, the Secretary shall transfer the proper funds to the Forest Service. The Forest Service shall not begin a project until the project funds are available.

Counties shall notify the Secretary of Agriculture of its allocation of funds to Title II no later than September 30 of each fiscal year. By September 30 of each fiscal, a RAC shall submit to the Secretary a sufficient number of project proposals that if approved, would result in the obligation of at least the full amount of the project funds reserved by the participating county in the preceding fiscal year.

Unobligated project funds shall be available for use as part of a RAC project submission in the next fiscal year. Any project funds not obligated by September 30, 2012, will be returned to the U.S. Treasury.

Title III- County Funds

Counties shall notify the Secretary of Agriculture of its election of funds in Title III no later than September 30 of each fiscal year. Title III projects are developed and selected by the counties. Projects should be advertised for 45 days to allow public comment. Proposed projects should also be sent to the Resource Advisory Committee (RAC) if one exists in the county.

Title III funds may be used to:

- (1) carry out activities under the Firewise Communities Program to provide homeowners in fire sensitive ecosystems education and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires;
- (2) reimburse the participating county for search and rescue and other emergency services, including firefighting that are performed on Federal land after the date on which the use was approved and paid for by the participating county; and
- (3) develop community wildfire protection plans in coordination with the Secretary of Agriculture.

Under the new Secure Rural Schools Act, counties receiving more than \$350,000 total payments cannot allocate more than 7 percent to title III projects, with the balance allocated to title II or returned to the U.S. Treasury.

Counties allocating funds for Title III projects must submit certification that the funds were used in accordance with Title III to the Secretary of Agriculture no later than February 1 of the year after county funds were expended. The Forest Service will notify participating counties of the process and format the Secretary will use for certification before the end of fiscal year 2009.

The authority to initiate Title III projects terminates on September 30, 2011. Funds not spent or obligated by September 30, 2012, will be returned to the U.S. Treasury.

Matching Requirements: The amount paid shall represent 25 percent of all moneys received during the preceding fiscal year from each National Forest. When a National Forest is in more than one State, territory, or county, the distributive share to each shall be proportional to its area therein. The term "moneys received" includes: 1) all collections under the Act of June 9, 1930

(Knutson-Vandenberg Act); and 2) all amounts earned by or allowed to purchasers of National Forest timber and other forest products within such State, as purchasers credits for the construction of roads on the National Forests Transportation System within such National Forests or parts thereof in connection with any Forest Service timber sales contract, as well as direct receipts from the sale of forest products, minerals and land use. MOE requirements are not applicable to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: Title I- established a stable payment to counties to benefit public education and county road systems. Under the Secure Rural Schools Act and 1-year extension, 39 States received a total of \$2.75 billion from 2001-2007. As directed in the act 80 to 85 percent of these funds are applied to Title I. At the discretion of counties the remaining 15 to 20 percent of funds can be applied to Title II and/or Title III projects.

Title II- established a process for counties to set aside up to 15 to 20 percent of the full payment amount for use on resource improvement projects on, or near, Federal lands. The title established Resource Advisory Committees (RACs), consisting of 15 members representing commodity production and environmental, recreational, and State, local and tribal interests. The RACs function is to solicit, review and recommend resource improvement projects to the local/regional Forest Service contact. To date, RACs have recommended more than 5,100 projects at a cost of over \$230 million (Title II).

Title III- established that counties may use the 15 to 20 percent of funds to support services including search, rescue and emergency services on Federal lands; community service work camps; easements for conservation or recreational purposes; forestry -related educational activities; and fire protection/county planning.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2009: From 2004 to 2007, the Rogue-Umpqua RAC approved more than \$897,000 of Title II funds for the purpose of restoring water quality and fisheries at Diamond Lake. The funds helped to build a canal to lower the lake by 8 feet and purchase a fish toxicant Rotenone (a plant-based substance, approved by the Environmental Protection Agency and not toxic to humans, other mammals and birds. It is undetectable within weeks of treatment), which was applied in September 2006. Application of the toxicant by the Oregon Department of Fish and Wildlife successfully rid the lake of an estimated 90 million tuichub (an invasive fish species). The project also provided funds for application training and wetland creation next to the lake. Due to the removal of the tuichub, zooplankton and insect populations revived, promoting a flourishing trout population. Fiscal Year 2010: No Current Data Available

EXAMPLES OF FUNDED PROJECTS:

The following activities were among those funded in fiscal year 2004: (1) The project will remove small diameter trees, reduce fuel loads and other flammable materials on 200 acres of Forest Service land that abuts private land north of Shady Brook and around campgrounds on the west end of Taos. Emphasis will be on eliminating crowded and non-native plant and tree species by removing trees less than 12 inches in diameter. Healthy old and large trees and snags in both conifer and aspen stands will be preserved. Free firewood will be distributed to local residents and posts and poles less than 12 inches in diameter will be provided to recipients with permits. Local community members will be hired for thinning projects. The project proponents estimate that 10-12 jobs

will be created for the thinning work, and at least eight people will be trained in forest practices. (2) The project will gather and review information about the Santa Domingo Pueblo Bosque (riparian) area and upland resources to identify information gaps; establish methodologies for fuel loading inventories to establish monitoring protocols; conduct baseline surveys of vegetation; explore the feasibility of opening a tribal wood-yard for small diameter timber; involve the community in the development of the project; develop a comprehensive fuels management strategy; and conduct a pilot restoration treatment on 50 acres of Tribal Bosque and woodland. The project includes a summer education and work program for Santo Domingo youth on the restoration protection of the Rio Grande floodplain protection. (3) The project will conduct fuels reduction and forest restoration treatments to reduce hazardous fuels, improve habitat, reduce non-native species and improve watershed conditions on 225 acres of Ponderosa Pine, mixed conifer, and pinyon-juniper forest on Tribal, BLM and NM State Lands near the communities of Candy Kitchen and Fort Wingate. Logs over 9 will be milled, graded, and dried to sell to the Zuni Furniture company and others. Lower grade material will be dried and sold to the community for construction. Logs too small for milling will be made into posts and vigas with traditional Zuni carvings for local and regional markets. The grantees will also study the feasibility of biomass heat and/or power applications for the remaining materials and milling waste. High school students will collect data for multi-party monitoring and assessment reports. (4) This project will chip trees resulting from forest restoration and Wildland Urban Interface fuels reduction projects on the Gila National Forest to provide the Fort Bayard Medical Center with biomass for a new biomass fired boiler system. Gila WoodNet will purchase and install chip handling and processing equipment to be used in screening and re-chipping; purchase and install chip storage bins and equipment to deliver chips; purchase a truck for chip transport; purchase and install scales and moisture monitoring equipment for determining BTU content and value; install transfer, storage, and re-chipping facilities to receive and process biomass; and provide monitoring and system evaluation assistance to other biomass heating projects in the state. The project will create up to five permanent year-round jobs and support up to twenty other forest and wood product related jobs. (5) This project will develop and manufacture high value wood products using logs removed from forest restoration and Wildland Urban Interface fuels reduction projects on National Forest lands in Catron County. The Forestry Association will: purchase, fabricate, and install milling equipment and train local operators to manufacture products made from small diameter trees; participate in collaborative processes that incorporate forest restoration principles and work with business enterprises; mentor young people through Youth Conservation Programs; and design and coordinate community-based multi-party forest restoration monitoring efforts. (6) This project will develop maps, models and assessments of current, reference, and alternative future forest conditions and fire behavior in the Sheep Basin and Negrito Watershed areas and use a collaborative process to develop science-based prescriptions for forest restoration. Treatments will restore the size and age class distribution and spatial pattern of trees to their historic range and variability on approximately 456 acres of the Gila National Forest. The mechanical treatments will be followed by broadcast burns to reintroduce fire when it is ecologically appropriate and safe to do so. The grantee and their partners will develop a model of science-based adaptive management practices through multi-part monitoring and assessment of the ecological and socio-economic effects of the project. (7) The project will conduct forest restoration and fuels reduction treatments on approximately 249 acres of tribal and municipal land. The non-federal match includes the treatment of 267 acres of adjoining tribal land. The project acres adjoin other on-going forest restoration projects on Forest Service land (153 acres) and private land (99 acres). The harvested material will be used by local businesses to produce wood shavings for animal bedding, compost and mulch products. Data for a multi-party assessment of the ecological and socio-economic effects of the project will be collected with assistance from the Mescalero Apache School and Youth Conservation Corps. (8) The Santa Fe County Fire Department will thin trees to reduce fire risk and restore forest health on 43 square miles of high hazard County land in the Wildland Urban Interface where people have built homes and live in forested areas adjacent to County lands. The County will use a collaborative process to identify and prioritize areas to be treated, develop treatment methods, solicit proposals from local contractors, measure and assess treatment processes, implement a media campaign, analyze data, and train participants.

CRITERIA FOR SELECTING PROPOSALS:

Proposals will be evaluated to determine if they followed the administrative requirements of the program and the proposal format described in the Request for Proposals. The Collaborative Forest Restoration Program Technical Advisory Panel will evaluate grant proposals based on the purpose and eligibility requirements described in the Community Forest Restoration Act of 2000 (Section 3 and Section 5, Title VI, Public Law 106-393). The Panel will consider the proposed projects effect on long-term management and the capability of the proponents to accomplish the project. The Panel will also examine the degree to which proposed activities complement existing projects and programs and evaluate whether the project would reduce the danger of wildland fire in high-risk areas in New Mexico.

Assistance to tribal lands held in trust by the United States Government is provided directly by the Forest Service, and thus are not included in this cooperative program. However, other tribal lands, such as Alaska Native Corporation Lands, that are not held in trust are included.

Applicant Eligibility:

State Forestry, State Agriculture or equivalent State agencies, subdivisions of states, Alaska native corporations and tribal governments, institutions (public and private), organizations (profit and non-profit), and municipalities are eligible. Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

Award Procedure:

Established by the Regional, Area or IITF Office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Submission due dates are developed for each fiscal year. Contact Region, Area or IITF office. State single point of contact will have 30 days from notification of tentative allotments to comment.

Appeals:

Not Applicable.

Renewals:

Submit SF-424(A) with SF 424 application to amend the allotment amount or length of commitment; other requirements may be established by the Regional, Area or IITF Office.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Funding for the Cooperative Forest health Protection program is provided to states to help support a base level of professional forest health expertise for non-federal forest managers. Grants for this program are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states, other factors, and amount of funding available through annual appropriations; the purpose of this funding is to help support a base level of professional forest health expertise through non-federal forest land managers. Applicant matching for cooperative Forest health Protection programs and projects that treat specific forest health problems on non-federal lands is required and is usually about 50%. In cases where it is mutually agreed upon that an applicant will treat federal lands as part of a cooperative project or program, the Forest Service reimbursement is 100% for the federal portion. However, applicant matching rates may be adjusted in emergency or extraordinary situations. Forest Service cost-share rates for activities involving development of new and improved forest health protection methods and technologies, and the conduct of special projects and evaluations are negotiated on a project-by-project basis with the grantee. The applicant share of cooperative programs may be in the form of cash, services, or in-kind contributions. If a state elects to consolidate the annual forest service financial assistance, in lieu of functional cost sharing mechanisms, the total consolidated payment to any state during any fiscal year may not exceed the total amount of non-federal funds expended to implement its state forest resources program during that year. However, the Forest Service may exceed the non-federal amount for specific selected activities under the program as long as the total federal expenditure during any fiscal year does not exceed the total non-federal expenditure during that year under the state forest resources program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Electronic transfers of payments are encouraged. See the following for information on how assistance is awarded/released: Payments made based on authorization and negotiation of provisions with cooperator.

Reports:

Program reports are not applicable. Cash reports are not applicable. Periodic and annual accomplishment reports are required per the provisions in the final agreement. SF425 is required no less than annually and no more than quarterly for each agreement. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

State and other generally accepted accounting systems are permissible, if acceptable to audit and reconciliation. All grantees need to maintain adequate systems for collecting and recording statistical data.

Account Identification:

10.681 WOOD EDUCATION AND RESOURCE CENTER (WERC) (WERC)**FEDERAL AGENCY:**

Forest Service, Department of Agriculture

AUTHORIZATION:

Public Law 105-277, Div. A, Section 101(e) Title III, Section 343, 112 Stat. 2681-231, 2681-297; Cooperative Forestry Assistance Act of 1978, as amended, 16 USC 2101 et, seq.; Forest and Rangeland Renewable Resources Act of 1978, as amended, 6 USC 1600-1614.

OBJECTIVES:

To provide funds, on a cost-share basis, for projects that focus on enhancing opportunities for sustained forest products production for primary and secondary hardwood industries located in the eastern hardwood forest region. In order to maintain and improve the health and stewardship of our eastern hardwood forests, local wood-using industries need to be vibrant and able to utilize a wide variety of resources from the forest. Priorities include:

Maintain the economic competitiveness of primary and secondary hardwood industries. Examples include:

- 1) Encouraging the adoption of new technology to improve competitiveness and profitability,
- 2) Bringing information and technology about processing, marketing, and business-related skills as well as urban wood utilization to existing and emerging businesses, and
- 3) Developing utilization options that improve forest stewardship and health.

Increase the knowledge and information about how the hardwood industry can contribute to the green building movement. Examples include chain of custody certification for sustainable wood products as well as life cycle analysis for a range of wood products.

Increase the knowledge, information, and promotion of how carbon sequestration by wood products can provide a competitive edge to a sustainable hardwood industry. An example includes developing specific carbon storage factors for a range of wood products.

Develop technology and markets to address urgent issues on a global or domestic scale, including:

- 1) Sanitizing wood packaging materials, firewood, and similar products to eliminate these pathways for the transport of insect and disease pests, and

- 2) Developing markets for and using unexpected increases in the volume of urban and rural wood due to new pest introductions (for example, emerald ash borer) and weather events such as tornadoes and ice storms.

Increase the sustainable use of woody biomass to meet our Nations needs for energy and raw materials. Examples include public/private partnerships for using woody biomass in heating and cooling, process energy, cogeneration, district energy systems, and solid and liquid fuel production. Projects may also develop or maintain local markets and forest industry infrastructure by using woody biomass for both energy and value-added products. Provide key information to address the economic, social and ecological aspects of woody biomass production and use.

Conservation Registry. Oregon, Washington, and Idaho. Conservation partners created a user-friendly, web-based database to map and report information on a full range of on-the- ground conservation projects, allowing comprehensive tracking and analysis of conservation investments.

Montana Cabinet-Yaak Mountains Grizzly Bear Augmentation. Northwest Montana and Northern Idaho. This project included moving five female grizzly bears to the Cabinet Mountain Range to increase Montana's smallest population of native grizzlies. The project also includes bear monitoring and conflict assistance.

Swan Valley Grizzly Bear Monitoring (MT). The Swan Valley in western Montana. Partners collected detailed grizzly bear habitat use and mortality data to evaluate the effectiveness of management efforts to minimize bear-human conflicts and resulting mortalities.

Hydrologic Assessment of Sierra Nevada Meadow Restoration. Partners assessed meadow restoration benefits for both wildlife and downstream water users. Meadows evaluated included those selected from 10 national forests in the Sierra Nevada, from the Modoc in the north to the Sequoia in the south, which had previously eroded and lost their capacity to store water.

Freshwater Fish Habitat Keystone Initiatives

Apache Trout Keystone Initiative. Headwaters of Little Colorado River, Black River and White River in Arizona. Partners expanded habitat restoration to recovery Apache trout meta-populations in new areas and increased population sizes in marginally recovered streams.

Upper Klamath Basin Key Fisheries Restoration: Phase I. Upper Klamath Lake and the Sprague, Williamson and Wood Rivers (Klamath River headwaters). Partners developed a science-based and economically viable strategic path to recovery key fisheries, designed landowner conservation programs, and implemented restoration actions.

Bird Habitat Keystone Initiatives

The Raptor Population Index Project. United States, Canada and Mexico. Partners consolidated diurnal raptor migration counts from a network of volunteer citizen scientists to create a permanent North American monitoring system.

Golden-winged Warbler Conservation Initiative - Year 3. Summer: Appalachian and Great Lakes regions; Winter: Costa Rica, Nicaragua, Panama, Colombia & Venezuela. In year 3, partners completed research, monitoring, and management leading to on-the-ground conservation to sustain Golden-winged Warblers and associated species in North, Central, and South America.

Eastern Shrubland-Dependent Bird Recovery. Eastern United States (Bird Conservation Regions 12, 13, 14, 23, 25, 26, 27, 28, 29, and 30). Partners provided a program of technical assistance and land management activities on public and private lands to restore populations of shrubland dependent birds. This program addresses urban runoff from public roads and right of ways.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Only after water quality and soil conservation thresholds have been achieved, funds may be used to address other environmental threshold categories. That additional requirement is clear identification of sources and amounts of proposed match funding. Implementation of construction projects under awarded grants are not allowed until a signed project decision under NEPA has been made, allowing the use of federal grant funds for implementation. Local Office monitors grant awards to assure compliance of this restriction. Planning, design, and monitoring grants do not require an environmental impact assessment. Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Project narratives submitted through the pre-application process are reviewed by an interagency technical advisory committee convened by the Federal grants program managers. Projects are then identified for selection for award, along with instructions for any needed revisions to the project narratives. At that time, eligible applicants submit revised narratives along with standard application forms and assurances to the Local Office, as furnished by the Federal agency.

Award Procedure:

Award letter sent to grantee, with identification of grant requirements, in letter from Local Office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

El Dorado County has planned or implemented projects in Montgomery Estates (EC), Apalachee (EC), Sawmill (EC), and Christmas Valley (EC). Washoe County has done planning and implementation in two phases of the Crystal Bay area. The City of South Lake has done project planning and implementation for several phases of the Sierra Tract, several phases Al Tahoe (EC), and two phases of the particularly difficult

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2009: No Current Data Available Fiscal Year 2010: Our funding is matched 1:1 by local governmental entities and goes primarily towards two types of projects. Those projects are stream and/or meadow restorations, and erosion control projects. Our purpose is to increase the quality of the water that runs into Lake Tahoe from surface roads and developed areas of the Lake Tahoe Basin Watershed. Stream/meadow restorations help to increase the quality of the water that comes through the watershed by way of ephemeral and permanent creeks and waterways. Erosion control projects seek to reduce the source of the pollutants, correct the hydrology of the area, and treat the runoff for pollutants of concern. We also fund effectiveness monitoring and some BMP research to a lesser degree. Fiscal Year 2011: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Grants must address planning, construction, or monitoring of projects identified in the Tahoe Regional Planning Agency environmental improvement program. For this, primary criteria projects are selected based on direction provided in the LTRA to provide to the maximum extent practicable that each political subdivision receives some funding and to allocate funding based on the relative need for and merits of projects.

10.787 BROADBAND INITIATIVES PROGRAM

Broadband Initiatives Program (BIP)

FEDERAL AGENCY:

Rural Utilities Service, Department of Agriculture

AUTHORIZATION:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5, 123 Stat. 115, 7 U.S.C 901.

OBJECTIVES:

The purpose of the Broadband Initiatives Program (BIP) to make loans and grants for the purpose of facilitating broadband deployment in rural areas.

TYPES OF ASSISTANCE:

Direct Loans; Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Under BIP, RUS awards grants, loans, and loan/grant combinations to facilitate broadband deployment in unserved and underserved rural areas. Additionally, the Recovery Act mandates that priority be given to projects which: (1) give end users a choice of providers; (2) serve the highest proportion of rural residents that lack access to broadband service; (3) are projects of current or former RUS borrowers (Title II borrowers); and (4) are fully funded and ready to start once Recovery Act funding is received. BIP application scoring criteria rewards projects that implement these priorities.

On July 9, 2009, RUS and the National Telecommunications and Information Administration (NTIA) published a joint Notice of Funds Availability (NOFA) in the Federal Register. On January 22, 2010, RUS published a NOFA for a second round of funding. This funding announcement focused on last mile projects, and middle mile projects generally involving current RUS program participants. The Second Round NOFA also announced the opening of a future window for specific grants for Satellite, Rural Library Broadband, and Technical Assistance. A Request for Proposals (RFP) outlining the requirements for applications for Satellite, Rural Library Broadband, and Technical Assistance Projects was published in the Federal Register on from May 7, 2010. The following terms shall apply to the loans, as well as other terms that are specified in the loan documents:

i. Interest rate. Loans shall bear interest at a rate equal to the cost of borrowing to the Department of Treasury for obligations of comparable maturity. The applicable interest rate will be set at the time of each advance.

ii. Repayment period. Unless the applicant requests a shorter repayment period, broadband loans must be repaid with interest within a period that, rounded to the nearest whole year, is equal to the expected Composite Economic Life of the assets to be financed, as determined by RUS based upon acceptable depreciation rates.

iii. Amortization period. Interest begins accruing on the date of each loan advance and interest payments are due monthly. Upon completion of the buildout, or a date certain that is determined at closing, whichever occurs first, monthly principal payments will be established in an amount that amortizes the outstanding balance over the remaining term of the loan.

iv. Fidelity bonding. Applicants must agree to obtain a fidelity bond for 15 percent of the loan amount. The fidelity bond must be obtained as a condition of loan closing. RUS may reduce the percentage required if it determines that 15 percent is not commensurate with the risk involved.

v. Security. The loan portion of the award must be adequately secured, as determined by RUS.

10.861 PUBLIC TELEVISION STATION DIGITAL TRANSITION GRANT PROGRAM

Public Television Station Digital Transition Grant Program

FEDERAL AGENCY:

Rural Development, Department of Agriculture

AUTHORIZATION:

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2006; Title III, Rural Development Programs; Rural Utilities Service; Distance Learning, Telemedicine, and Broadband Program; Public Law 109-97.

OBJECTIVES:

The Federal Communications Commission (FCC) has ordered all television broadcasters to initiate the broadcast of a digital television signal and to cease analog television broadcasts. The result of this conversion will be a new, high performance television system that is highly efficient in its use of the radio spectrum. This will free spectrum to enable the introduction of new wireless telecommunications services such as mobile wireless Internet access. Before spectrum can be reallocated to new uses, all television stations must make the transition to the new broadcast system. The FCC required all television broadcasters to have converted their transmitters to broadcast digital signals by June 12, 2009. A significant number of stations have not completed the transition, and many are rural stations that have no funding to proceed. For rural households this has meant in some cases losing the benefits of public television programming, additionally, many school systems are left without the educational programming they count on for curriculum compliance. This grant program assists rural public television stations in making the transition to digital television signal broadcasting.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants may be used to install digital television facilities through purchase or lease (up to three years of lease costs); and for associated engineering and environmental studies. All broadcast facilities acquired under this program must be capable of delivering both digital television (DTV, sometimes called standard definition) and high definition television (HDTV) at both the interim and final channel power authorizations. Grant funds may be used to fund facilities directly connected to the digital transition of the broadcast signal such as: digital transmitters; digital translators; transmitting antennas; new towers or improvements to existing towers necessary for antenna installation; tower ground infrastructure such as land, buildings, fencing, standby power, and where commercial power is unreliable, power generation and conditioning facilities; studio to transmitter/translator communication links; television program production and management equipment; datacasting equipment; and subject to RUS approval, other facilities directly necessary for the digital transition of the broadcast signal. Grants shall not be used: to fund operations or for facilities not owned by the applicant (except for leased facilities as described above); for salaries, wages, and other public television employee benefits; for construction performed or expenditures made prior to the application deadline; or for facilities funded under other grants.

Applicant Eligibility:

The applicant must be a public television station that serves a rural area regardless of whether they also serve an urban area. (Rural area means any area of the United States not included within the boundaries of any incorporated or unincorporated city, village, or borough having a population in excess of 20,000 inhabitants.) The applicant must also be required to convert from analog to digital transmission under the rules of the FCC. For the purpose of this grant program, a public television station must be an organization which (1) qualifies for Federal funding under Section 396(k) of the Public Broadcasting Act of 1967, and (2) which is either: (a) under the rules and regulations of the FCC in effect on November 2, 1978, eligible to be licensed as a noncommercial educational broadcast station and which is owned and operated by a public

agency or nonprofit private foundation, corporation, or association; or (b) owned and operated by a municipality and which transmits only noncommercial programs for education purposes.

Beneficiary Eligibility:

Anyone who receives the improved digital television signal from a rural public television station or attends an educational institution that uses public television in its curriculum.

Credentials/Documentation:

The applicant must provide evidence demonstrating that it meets the definition of a public television station in section 81, above. The applicant must also provide evidence that the FCC has authorized the initiation of digital broadcasting at each of the Applicant's transmitter and translator sites. In addition to Government-wide requirements, the applicant shall provide a description of the project including: an executive summary, a project cost spreadsheet, broadcast coverage maps, a complete narrative description, and an environmental assessment.

Award Procedure:

All complete applications from eligible applicants that meet the application deadline will be scored in a competitive process to determine which projects are funded. There are three scoring categories. The first is rurality, a measure of the rural character of the applicant's digital television coverage area. Up to 50 points can be earned in this category. The second uses the National School Lunch Program eligibility percentage as a measure of the economic need of the people in the applicant's coverage area. This category earns up to 25 points. Finally, up to 25 points can be awarded based on critical need.

The Agency will score each application in order to prioritize each proposed project. The evaluation criteria that the Agency will use to score these projects are: Whether the borrower has established a market for the advanced biofuel and the byproducts produced. Whether the area in which the borrower proposes to place the biorefinery has other similar advanced biofuel facilities. Whether the borrower is proposing to use a feedstock not previously used in the production of advanced biofuels. Whether the borrower is proposing to work with producer associations or cooperatives. The level of financial participation by the borrower, including support from non-Federal and private sources. Whether the borrower has established that the adoption of the process proposed in the application will have a positive impact on resource conservation, public health, and the environment. Whether the borrower can establish that, if adopted, the biofuels production technology proposed in the application will not have any significant negative impacts on existing manufacturing plants or other facilities that use similar feedstocks. The potential for rural economic development, including the number of local jobs created and inclusion of local banks or other capital sources in any proposed debt syndication. The level of local ownership proposed in the application. Whether the project can be replicated. The extent to which the project converts cellulosic biomass feedstocks into advanced biofuel. Whether the project is a first-of-a-kind technology, system, or process.

10.922 HEALTHY FORESTS RESERVE PROGRAM (HFRP)

Healthy Forests Reserve Program (HFRP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Healthy Forest Restoration Act of 2003, Title V, 16 U.S.C 6571-6578.

OBJECTIVES:

To assist landowners in restoring and enhancing forest ecosystems to: promote the recovery of threatened and endangered species; improve biodiversity; and enhance carbon sequestration.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals

and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes.

Beneficiary Eligibility:

Only landowners.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Applications can be obtained through local USDA Service Center.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

10.923 EMERGENCY WATERSHED PROTECTION PROGRAM

(Emergency Watershed Protection (EWP) Program)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5; Section 216 of the Flood Control Act of 1950, Public Law 81-516; the Agricultural Credit Act of 1978, Section 403, Public Law 95-334, 33 U.S.C 701B-1.

OBJECTIVES:

The objective of the EWP Program is to assist sponsors, landowners, and operators in implementing emergency recovery measures for runoff retardation and erosion prevention to relieve imminent hazards to life and property created by a natural disaster that causes a sudden impairment of a watershed.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency.

Applicant Eligibility:

Public and private landowners are eligible for assistance but must be represented by a project sponsor. Project sponsor means a State government or a State agency or a legal subdivision thereof, local unit of government, or any Native American tribe or tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency; is capable of obtaining necessary land rights, and permits; and is capable of carrying out any operation and maintenance responsibilities that may be required. Sponsors are also responsible for furnishing the local cost share and for accomplishing the installation of work. Work can be done either through Federal or local contracts. Emergency watershed protection is authorized in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Awards may be used for activities such as developing and updating a strategic plan and for implementing the plan by carrying out projects for site acquisition and preparation, construction, rehabilitation, and equipping facilities, technical assistance, market or industry research and analysis, and other activities set out in 13 CFR 313.7. To receive assistance, a community must petition to be designated as an Impacted Community, meaning that the community is significantly affected by trade impacts. A community may receive such designation from the Secretary of Commerce if the community demonstrates that: (1) the community has a Cognizable Certification, that is Secretary of Labor has certified a group of workers in the community as eligible for TAA for Workers benefits, the Secretary of Commerce has certified a firm in the community as eligible for TAA for Firms benefits, or a group of agricultural producers in the community has been certified to receive benefits under the TAA for Farmers and Fishermen program; and (2) the Secretary determines that the community is significantly affected by the threat to, or the loss of, jobs associated with that certification. All EDA grants are discretionary. EDA does not award any formula grants.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Planning proposals that are intended to (1) diversify and strengthen the community's economy; (2) identify impediments to economic development that result from the impact of trade; and (3) develop a community strategic plan to address economic adjustment and workforce dislocation in the community. Preference shall be given to plans submitted by EDAs existing partnership planning grantees and that identify other federal, State and local resources available to assist the community. 11.313 TRADE ADJUSTMENT ASSISTANCE FOR FIRMS

Trade Adjustment Assistance for Firms

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.).

OBJECTIVES:

The Trade Adjustment Assistance for Firms (TAAF) program helps economically distressed U.S. business in building competitiveness strategies to increase exports and thereby create jobs. The program provides technical assistance to U.S. businesses that have lost sales and employment due to increased imports of similar or competitive goods and services. Technical assistance is provided through a nationwide network of eleven Economic Development Administration (EDA) funded Trade Adjustment Assistance Centers (TAACs) in the development of a petition EDA for certification of eligibility under the program, and in the development and implementation of business recovery plans and matching funds for projects.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under Chapters 3 and 5 of Title II of Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), a firm may apply to the Economic Development Administration (EDA) of the Department of Commerce for certification of eligibility to apply for trade adjustment assistance (TAA). Interested firms that believe they meet the requirements set forth in 13 CFR part 315 may contact EDA or one of the EDA-funded Trade Adjustment Assistance Centers (TAACs). TAACs will assist firms, at no cost, in completing and submitting a petition (Form ED-840P or any successor form) to EDA. Before a firm receives technical assistance under the program, the firm must have an adjustment proposal approved by EDA. Usually the adjustment proposal, which includes an unbiased diagnostic of the firm's strengths, weaknesses, opportunities and threats, is prepared by the

TAAC in cooperation with the certified firm. The adjustment proposal also identifies technical assistance tasks, which when implemented, will guide the firm toward economic recovery. The adjustment proposal must also demonstrate that the implementation of the technical assistance tasks has a reasonable chance helping the firm recover. The firm must pay at least 25 percent of the cost of preparing the adjustment proposal. After a firm's adjustment proposal is accepted by EDA, the firm is authorized to apply for technical assistance to implement the recovery strategy. The technical assistance is usually provided by a private consultant, who is jointly hired by the certified firm and the TAAC. The certified firm and the TAAC each typically pay one half of the consultant's fees. Actual provision of TAA will depend on the feasibility of the firm's adjustment proposal, compliance with the requirements of the Trade Act, EDA's regulations and guidelines, and the availability of funds. Organizations representing trade-injured industries are eligible under the Trade Act to apply to EDA for industry-wide assistance.

Applicant Eligibility:

Section 253 of the Trade Act (19 U.S.C. 2343(b)) provides that grants may be awarded to "intermediary organizations (including Trade Adjustment Assistance Centers)" to provide assistance to trade-injured firms. For an industry association or other organizations to be eligible for industry assistance under section 265 of the Trade Act (19 U.S.C. 2355(a)), the applicant must submit evidence demonstrating that the industry faces import competition and includes a substantial number of Trade Act-certified firms or worker groups.

Beneficiary Eligibility:

Only firms certified by EDA on behalf of the Secretary of Commerce are eligible for assistance under the TAA program. Industries that can demonstrate they have been injured by imports and have a substantial number of Trade Act certified firm or worker groups may also benefit. The principal benefit is cost-shared technical assistance: the TAA program pays up to one-half of the cost of assistance by private-sector consultants and contractors for operational improvements at certified firms.

Credentials/Documentation:

The TAACs act as intermediaries for this program between EDA and the firm. Entities seeking industry-wide assistance must contact EDA staff to discuss their needs, describe the import injury and determine if funding is available for industry-wide projects. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The nationwide network of 11 TAACs apply to EDA each year for funding for the coming fiscal year. Industry associations or other organizations seeking industry assistance must submit an application (SF-424) if invited to do so by EDA.

Award Procedure:

Awards to TAACs are made based upon submitted applications, previous performance under cooperative agreements with EDA, and the availability of funds. Acceptance of an application or amended application for a cooperative agreement does not ensure funding by EDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EDA is statutorily required to review petitions for certification of eligibility under the program within 40 days of petition acceptance; and has 60 days to make a final determination on an adjustment proposal.

USES AND USE RESTRICTIONS:

Awards made under this program may be used to support programmatic and project expenses related to coral reef conservation activities conducted by U.S. States and Territories, Regional Fishery Management Councils with jurisdiction over coral reefs, and International partners in four key regions, and project costs associated with research studies and conservation activities undertaken by other eligible non-governmental partner organizations in the U.S. The Coral Reef Conservation Act (16 USC6403) stipulates that at least 40% of funding must go to recipients in the Pacific and at least 40% must go to recipients in the Atlantic/Caribbean. In addition, 6403(g) requires that only projects that are consistent with the National Coral Reef Action Strategy and meet the ten specific criteria listed in that section may be funded through this program.

Applicant Eligibility:

Institutions of higher education, non-profit organizations, commercial organizations, local and Indian tribal government agencies, foreign governments, relevant Regional Fishery Management Councils (i.e., Caribbean Fishery Management Council, the Gulf of Mexico Fishery Management Council, the South Atlantic Fishery Management Council, and the Western Pacific Regional Fishery Management Council), and State, Territorial and Commonwealth resource management agencies that were appointed by their respective Governors to serve as the primary point of contact agencies for coral reef conservation activities in each of the jurisdictions of American Samoa, Florida, the Commonwealth of the Northern Mariana Islands, Guam, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

Beneficiary Eligibility:

Organizations and individuals with professional expertise in managing and conserving coral reef ecosystems in the U.S. and internationally.

Preapplication Coordination:

Pre-applications are required for some funding categories. Environmental impact information is required for this program for projects that are not covered by the CRCPs PEA/FONSI. E.O. 12372, "Intergovernmental Review of Federal Programs" applies to some of the funding categories administered by the CRCP. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Proposals should be submitted through Grants.Gov. Applicants will need to enter the Funding Opportunity and/or CFDA number to access the application package and instructions. Application packages will then be forwarded directly to the applicable federal program. Proposals are subject to the requirements of 15 CFR Parts 14 and 24, as applicable.

Award Procedure:

Awards are made on the basis of proposals evaluations, technical reviews and administrative reviews, if applicable.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 150 to 210 days after the proposal submission deadline.

Appeals:

Not Applicable.

Renewals:

No-cost extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should submit one extension request per award. With sufficient justification, the federal program office will recommend approval of a no-cost extension. Although the federal program office discourages extensions of more than 12 months, the federal program office may recommend approval in some cases. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Per the Coral Reef Conservation Act of 2000 (16 USC 6401 et seq; specifically 6403) Federal funds may not exceed 50% of the total cost of a project unless a waiver to this requirement is obtained by the applicant. Provision of a waiver is at the discretion of the CRCP Program Manager, who was delegated authority for this purpose by the NOAA Administrator. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: FY 2009 - Since 2000, the NOAA Coral Reef Conservation Program (CRCP) has funded a number of competitive awards supporting a variety of governmental and non-governmental partners that are working to ensure the conservation of U.S. and international coral reef ecosystems. Funded efforts in the past addressed both local and national conservation priorities, and focused on key threats to coral reefs identified in the National Coral Reef Action Strategy and other policy documents such as the Coral Reef Local Action Strategies developed by States and Territories in conjunction with the

U.S. Coral Reef Task Force. Fiscal Year 2010: FY 2010 - The NOAA Coral Reef Conservation Program (CRCP) will continue to fund competitive awards supporting a variety of governmental and non-governmental partners that are working to ensure the conservation of U.S. and international coral reef ecosystems. Funded efforts address both local and national conservation priorities, and following the publication of the CRCPs 20-year Goals and Objectives and the CRCP International Strategy, are targeted to focus primarily on the three key threats to coral reef ecosystems: climate change, fishing impacts, and land-based sources of pollution as well as supporting efforts to designate and manage marine protected areas that encompass coral reefs. Fiscal Year 2011: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Allowable costs will be determined in accordance with OMB Circular A-87 for State and local governments and Indian Tribes; OMB Circular A-122 for nonprofit and for-profit organizations; OMB Circular A-21 for institutions of higher education; and 48 CFR Part 31 for commercial organizations. Financial assistance management will be in accordance with 15 CFR Part 14 for institutions of higher education, hospitals, and other non-profit and commercial organizations, and with 15 CFR Part 24 for state and local governments. Further guidelines are outlined in Department Administrative Order 203-36, dated May 15, 1985 (Department of Commerce Grants Administration) and also the NOAA Grants and Cooperative Agreement Policy Manual. The CRCP Grant Program Implementation Guidelines are also applicable to these awards. The guidelines were first published in 2002; final revised guidelines that reflect the restructured CRCP grant program will be published in the June 2010 Omnibus FRN.

11.419 Coastal Zone Management Administration Awards; 11.426 Financial Assistance for National Centers for Coastal Ocean Science; 11.430 Undersea Research; 11.441 Regional Fishery Management Councils; 11.463 Habitat Conservation

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available Fiscal Year 2011: Since 2000, the CRCP has provided funding to a variety of recipient types to support projects in the following categories: coral reef management, coral reef monitoring, coral reef research, international coral reef conservation, Regional Fishery Management Councils awards for coral reef fisheries projects, and general coral reef conservation. Each of these funding categories has different priorities and eligibility requirements, which are described in annual funding announcements. Examples of funded projects, which number in the hundreds, are provided below by program. Coral reef management awards provide programmatic funding to support personnel, equipment and supplies, and travel for staff within state and territorial resource management agencies. Awards also support funding for projects conducted by local staff and partners; such projects may include activities related to direct action, MPA development and management, outreach and education efforts, management-driven research projects, watershed management activities, and other conservation-focused projects. This is the largest funding category in terms of funding provided; \$3.5M was awarded in FY09. Coral reef monitoring awards provide programmatic funding to support personnel, equipment and supplies, and local travel for staff within state and territorial resource management agencies that are conducting long-term monitoring of coral reef

habitats, the communities that live in association with them, and the environmental factors that influence their condition (e.g., sediment and water quality). Funds also support data management and analysis, and data reporting efforts, such as in CRCPs State of the Reefs reports (<http://ccma.nos.noaa.gov/ecosystems/coralreef/coral2008/welcome.html>). Coral reef research awards fund members of the academic community to conduct research projects in coral reef ecosystems. These awards have been competed by regional NURP centers to leverage NOAA resources and support high-caliber science. Research results have supported management actions of Regional Fishery Management Councils and other State and Federal agencies. International coral reef conservation awards, in the form of relatively small competitive grants, have been provided to a variety of recipients around the world to conduct projects within specific themes such as coral reef MPA and MPA network development, socioeconomic training and monitoring projects, watershed management, and reduction of land-based sources of pollution to coral reefs. Support to FMCs has provided funding that made it possible for these regional councils to engage with CRCP on coral reef fishery related issues. Awards have funded personnel and staff travel as well as a variety of mapping projects (particularly in important areas for fisheries such as MPAs/closed areas, spawning aggregation sites, etc.), conferences and workshops related to coral reef fishery management, research studies and surveys, and production of outreach materials (e.g., brochures and calendars) for fishers. General coral reef conservation awards support the involvement of community groups and smaller NGOs in coral reef conservation projects and support a wide variety of activities. Awards provide small grants for projects focused on outreach, community engagement, capacity building, and various comparative studies related to fisheries, land-based sources of pollution and climate change.

CRITERIA FOR SELECTING PROPOSALS:

Proposals are subject to office evaluations, technical reviews, administrative reviews, and externals reviews, if applicable. Recommendations for funding to the selecting official take into consideration factors such as scientific/technical merit, applicability to the goals of NOAA CRCP and jurisdictional partners, direct benefit to coral reef resources and ecosystems, past performance of the recipient, cost-effectiveness, adequacy of the project implementation plan, and availability of matching funds, as described in annual Federal Funding Opportunity notices for each competition.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2009: No Current Data Available Fiscal Year 2010: Comprehensive Community Infrastructure (CCI):

CCI/Infrastructure projects are designed to deploy new or improved broadband Internet facilities (e.g., laying new fiber-optic cables or upgrading wireless towers) and to connect community anchor institutions such as schools, libraries, hospitals, and public safety facilities. These networks help ensure sustainable community growth and provide the foundation for enhanced household and business broadband Internet services.

West Virginia Statewide Broadband Infrastructure Project

The West Virginia Statewide Broadband Infrastructure Project was funded to bring high-speed Internet access to a vastly underserved region by expanding the states existing microwave public safety network and adding about 2,400 miles of fiber. The expanded statewide network expects to directly connect more than 1,000 anchor institutions, including public safety agencies, public libraries, schools, government offices, and other critical community facilities at speeds of up to 45 Mbps. As a result of this project, every K12 school in the state will have a high-speed Internet connection. In addition, access to healthcare, distance learning opportunities, and broadband and video applications for emergency first responders will be greatly expanded. The project intends to spur affordable broadband service impacting more than 700,000 households, 110,000 businesses, and 1,500 anchor institutions, by allowing local Internet service providers to connect to the projects open network.

Public Computer Centers (PCC):

PCC projects are designed to establish new public computer facilities or upgrade existing ones that provide broadband access to the general public or to specific vulnerable populations, such as low-income individuals, the unemployed, seniors, children, minorities, and people with disabilities.

SmartChicago Public Computer Centers

According to a 2009 study commissioned by the City of Chicago, as many as 40 percent of city residents lack home broadband access, making libraries and other public computer centers essential resources for employment, training, and educational opportunities. Over 60 percent of Chicago libraries currently report average wait times for a computer of three hours or longer. The SmartChicago Public Computer Centers project proposes a wide-scale upgrade and expansion of workstation capacity at more than 150 locations, including city libraries, community colleges, public housing sites, workforce centers, senior centers, after-school programs, and other community locations throughout Chicago. The project will provide hundreds of thousands of hours of training, including digital literacy instruction and assistance for job seekers. The project plans a specific focus on low-income residents, at-risk youth, senior citizens, people with disabilities, and the unemployed.

Sustainable Broadband Adoption (SBA):

SBA projects are designed to focus on increasing broadband Internet usage and adoption, including among vulnerable populations where broadband technology traditionally has been underutilized. Many projects include digital literacy training and outreach campaigns to increase the relevance of broadband in peoples everyday lives.

Broadband Awareness and Adoption

The Broadband Awareness and Adoption project of the California Emerging Technology Fund (CETF) proposes to increase adoption of broadband in vulnerable and low-income communities in Los Angeles, the Central Valley, Orange County, San Diego, and the Inland Empire. CETF has identified key populations with low broadband adoption rates and developed partnerships with organizations uniquely qualified to reach out to each of these populations. Working with these partners, CETF plans to coordinate a targeted media

campaign, bolstered by outreach from trusted ambassadors and grassroots mobilization, to reach 5 million multi-lingual residents. CETF intends to provide digital literacy training for more than 678,000 low-income individuals, including more than 300,000 youth. The project expects to increase household adoption of broadband in these high-priority, low-income communities by more than 133,000 households. Fiscal Year 2011: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

In determining whether to approve an application, in whole or in part, and the amount of the grant, the NTIA Assistant Secretary, or its designate, will consider the projects conformance with the program purposes and funding criteria set forth in the legislation and the Notice of Funding Availability.

USES AND USE RESTRICTIONS:

HUD insures lenders against loss on mortgage loans. These mortgage loans may be used by owner-occupant mortgagors to finance the purchase of proposed, under construction, or existing single family housing, and condominiums. This final calculation will almost always result in a lower amount than would be available under Section 203(b). The Section 245(a) calculation is to make certain that the loan amount with all deferred interest added does not exceed 97 percent of the appraised value including closing costs at the time the loan was made.

Applicant Eligibility:

All persons intending to occupy the property are eligible to apply for Section 245(a).

14.171 MANUFACTURED HOME CONSTRUCTION AND SAFETY STANDARDS

(Manufactured Housing)

FEDERAL AGENCY:

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

AUTHORIZATION:

Manufactured Housing Construction and Safety Standards Act, Title 42, Part 5401, 42 U.S.C 5401.

OBJECTIVES:

To protect the quality, durability, safety and affordability of manufactured homes; to facilitate the availability of affordable manufactured homes and to increase home ownership for all Americans; to provide for the establishment of practical, uniform, and, to the extent possible, performance-based Federal construction standards for manufactured homes; to encourage innovative and cost-effective construction techniques for manufactured homes; and to protect residents of manufactured homes with respect to personal injuries and the amount of insurance costs and property damages in manufactured housing.

TYPES OF ASSISTANCE:

DISSEMINATION OF TECHNICAL INFORMATION; INVESTIGATION OF COMPLAINTS

USES AND USE RESTRICTIONS:

Manufacturers who build "manufactured homes", as defined by the Act, for sale in the United States are subject to the Act and must comply with preemptive Federal Manufactured Home Construction and Safety Standards (24 CFR 3280). Designs of homes are reviewed for compliance, and homes are inspected during construction by HUD-approved third-party inspection agencies. Consumers receiving defective homes have recourse, ranging from the right to be notified that their home contains a defect to correction by the manufacturer of serious defects and imminent safety hazards. Retailers are prohibited from selling homes which they know are not in compliance with the Federal Standards. As required by the 2000 amendments to the Act, the Department has now established installation standards for siting of new manufactured homes. These installation standards cover the joining of sections and anchoring, as well as stabilizing and support systems. As required by the same amendments to the Act, the Department has also established a national manufactured home dispute resolution program.

Applicant Eligibility:

Any purchaser of a manufactured home built on or after June 15, 1976 for residential use is automatically covered by the program.

Beneficiary Eligibility:

Any purchaser of a residential manufactured home built on or after June 15, 1976.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Manufacturers must have designs for each manufactured home model to be

produced, reviewed and approved by a HUD- approved third-party design inspection agency. Each home must be inspected during at least one phase of construction and every stage of the manufacturing process inspected by a third-party in-plant inspection entity. A purchaser may file a complaint with HUD or a HUD-approved State Administrative Agency (SAA).

Award Procedure:

Unless defects or noncompliance with the standards are found in homes, manufacturers may label and retailers may sell the units. If a purchaser complains, HUD or an SAA may request an investigation by the manufacturer or the dealer, and may then initiate enforcement actions under applicable regulations (24 CFR 3282). As required by the 2000 amendments to the Act, the Department has established a dispute resolution program to provide for the timely resolution of disputes between manufacturers, installers, and retailers regarding responsibility for repairs. Consumers may file complaints and otherwise participate in this program.

OBJECTIVES:

To manage and dispose of multifamily housing projects that are owned by the Secretary or that are subject to a mortgage held by the Secretary in a manner

that is consistent with the National Housing Act; protect the financial interests of the Federal government, and will, in the least costly fashion among reasonable available alternatives: preserve certain housing so that it can remain available to and affordable by low-income persons; preserve and revitalize residential neighborhoods; maintain the existing housing stock in a decent, safe and sanitary condition; minimize the involuntary displacement of tenants; maintain housing for the purpose of providing rental housing, cooperative housing, and home ownership opportunities for low-income persons; supporting fair housing strategies; and dispose of such projects in a manner consistent with local housing market conditions.

TYPES OF ASSISTANCE:

SALE, EXCHANGE, OR DONATION OF PROPERTY OR GOODS

USES AND USE RESTRICTIONS:

This section only applies to multifamily housing projects owned by the Secretary or that are subject to a mortgage held by the Secretary for which a foreclosure sale is to be held. A property can be sold with its current project-based Section 8 contract assigned to the new owner so that contract and its requirements stay in place. A property can be sold with tenant-based Housing Choice Vouchers (14.871) being provided to eligible tenants, which give the tenants the ability to stay on-site in units that meet HUD standards, or move to another location. In both cases, the residents must meet the eligibility requirements of those programs, which are defined elsewhere. A HUD-owned property may be sold with an up-front grant to assist in paying for rehabilitation or rebuilding provided funds have been appropriated by Congress. To be eligible, in addition to the property being HUD-owned, it must have more than 50 percent of the units in the project occupied by very low-income residents at the time a disposition plan is approved by HUD, or HUD must determine it is essential, as affordable housing, to the revitalization of its community; it must be located in a housing market or submarket in which there is not sufficient habitable, affordable, rental housing, as defined in 24 CFR 290.3; it will generate, after rehabilitation or rebuilding, sufficient rental income in a competitive market to cover all operating expenses, meet after sale debt service requirements, fund required reserves and throw off positive cash flow; will provide affordable housing for at least 20 years, after the rehabilitation and/or rebuilding is completed; meets such other requirements, including deed restrictions, loan provisions, and monetary penalties for non-performance, as HUD may determine are appropriate on a case-by-case basis. The maximum that HUD will fund per project in an up-front grant or loan is 50 percent of total development cost (TDC), or \$40,000 per affordable, finished unit, whichever amount is less (not to exceed the current number of residential units in the project).

Applicant Eligibility:

These properties can be purchased by governmental entities, private individuals, corporations, or nonprofit organizations who have the requisite qualifications and agree to abide by the conditions set by HUD for the particular property sale.

Beneficiary Eligibility:

The ultimate beneficiary of those properties sold for continued use as affordable housing are low-income individuals and families.

Credentials/Documentation:

Interested parties must file HUD form 2530, "Previous Participation Clearance Application," and certify to HUD that any properties owned by the purchaser in the same geographical area of the property being purchased meet all applicable standards and housing codes. This program is excluded from coverage under OMB Circular No. A-87.

Foreclosure sales are conducted on an open, oral bid process, with sealed bids also being permitted. HUD-owned properties may be purchased without competition by governmental entities. HUD can sell some

properties non-competitively to nonprofits. All other HUD-owned properties are sold through a full and open competition, usually sealed bids, auctions, or a Request for Proposals. HUD maintains a mailing list of individuals and firms interested in buying these projects, and maintains a website which lists all properties currently available for sale.

Award Procedure:

Properties sold at foreclosure are sold to the highest responsive and responsible bidder. HUD-owned projects may be sold to governmental entities who agree to meet HUD's requirements. Certain HUD-owned projects can be sold to nonprofits who agree to meet HUD's requirements. 14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS

Community Development Block Grant program for Entitlement Communities.

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Part 24, Section 570, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5321.

OBJECTIVES:

To develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipient communities may undertake a wide range of community-based activities directed toward neighborhood revitalization, economic development, and community services, facilities, and improvements. Entitlement communities develop their programs and set their funding priorities in conformance with the statutory standards, program regulations, and other federal requirements. Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Within program limitations, CDBG funds can also pay for public services. Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Recipients are states; cities in Metropolitan Areas designated by OMB as a central city of the Metropolitan Area; other cities over 50,000 in Metropolitan Areas; and qualified urban counties of at least 200,000 (excluding the population in entitlement cities located within the boundaries of such counties) are eligible to receive CDBG entitlement grants determined by a statutory formula.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD). The recipient must certify that at least 70 percent of the grant funds received during a 1, 2, or 3-year period, that it designates, are expended for activities that will principally benefit low- and moderate-income persons.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Executive Order 12372 is applicable only where a recipient proposes to use funds for the planning or construction (reconstruction or installation) of water or sewer facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372,

"Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

Award Procedure:

None.

Deadlines:

Nov 15, 2009 to Aug 15, 2010: See below. For formula grants, action plans associated with the Consolidated Plan must be submitted based on the grantee's program year, but no earlier than November 15 or no later than August 16 of the fiscal year for which the funds are allocated.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive

CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to three non-entitlement counties. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low and moderate income persons. For non-metropolitan areas, low and moderate income is generally defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. States must follow the fiscal requirements contained in 24 CFR 570.489. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits

its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2009 to Aug 16, 2010 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

There is no matching requirement for the non-entitlement counties in Hawaii. This program does not have MOE requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

States, metropolitan cities, urban counties, and territories. Local governments receiving formula allocations may distribute all or part of their grants to nonprofit recipients to be used for ESG activities. State grantees must distribute ESG funds to local governments, or directly to nonprofit organizations with the approval of the local government. Only local governments and nonprofit organizations may apply for ESG funds directly from States. The territories receive their allocations based on their population size.

Homeless families and individuals, and low-income persons in immediate risk of losing their housing due to eviction, foreclosure, or utility shutoffs.

Credentials/Documentation:

States, metropolitan cities, urban counties, and territories that elect to

Formula and Matching Requirements:

Statutory Formula: Each grantee must certify that it will supplement the assistance provided under the program with an equal amount of funds from other sources, except for State grantees under \$100,000 exemption. Matching Requirements: After a portion of the ESG appropriation is set aside for the territories, the amount of each grant for formula grantees is determined by the Community Planning Block Grant (CDBG) formula using several objective measures of community need, including poverty, population, housing overcrowding, age of housing and growth lag. Allocations among the territories are based on their populations. If, according to the formula, an eligible government receives less than 05. percent of the yearly appropriation, then that grant is added to the allocation for that State. A State must allocate to its local government or to nonprofit organizations the entire grant, except for the up to five percent used to administer the grant. The administrative funds must be shared with local government grantees in that State. Grantees must match grant funds with an equal amount of funds from other sources including donated material or a building, leasehold value, additional staff salaries, and volunteer time.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Length and Time Phasing of Assistance: Length and Time Phasing of Assistance: Grant awards should be made within 45 days of HUD's receipt and approval of the Consolidated Plan. A State should make available to its

recipients all of its grant allocation within 65 days of the date of the grant award by HUD. A State recipient should have its entire grant obligated by 180 days from the date on which the State made the grant available to it, and spent the entire grant within 24 months of this date. For State homeless prevention funds, the State may continue to make available homeless prevention funds within 180 days of grant award. State recipients that are local government agencies and nonprofit organizations then have 30 days to obligate the funds, and up to 24 months to spend them. Each local government grantee should have all of its grant funds obligated by 180 days from its grant award by HUD, and entirely spent within 24 months. Method of awarding/releasing assistance: by letter of credit.

Each jurisdiction must make matching contributions for affordable housing throughout a fiscal year in an amount not less than 25 percent of the HOME funds drawn from the U.S. Treasury during the federal fiscal year for projects. AUTHORIZATION:

Department of Housing and Urban Development Appropriations Act, 2010, Public Law 111-117.

OBJECTIVES:

Under the new Transformation Initiative at HUD, the approach to technical assistance, capacity building and the organization of the TA delivery system itself has been fundamentally changed this year. The new TA structure for CPD named the OneCPD Integrated Practitioner Assistance System (OneCPD) will provide grantees with a single cross-program, results-focused demand-response delivery system driven by local needs and administered directly from HUD Headquarters. The following programs are covered under OneCPD: HOME Investment Partnerships and Community Housing Development Organizations (HOME/CHDO), the National Housing Trust Fund, Community Development Block Grant (CDBG), Housing Opportunities for Persons with AIDS (HOPWA), and the Homeless Assistance programs. The purpose of the OneCPD program is to provide state and local government and nonprofit recipients of federal community development, affordable housing, and special needs funding with the technical and capacity building assistance needed to successfully carry out CPD programs. The Core Curricula for Skills-based Training will ensure that grantee staff for all of HUDs programs will have the necessary skills and qualifications to successfully carry out their responsibilities. The purpose of the HUD Core Curricula for Skills-Based Training is to develop and deliver training courses and seminars to improve the core skills of grantee staff in the following areas common to many HUD programs: Development Finance, Environmental Review and Compliance, Financial Management and Analysis, Asset Management and Preservation of HUD-Assisted Projects, and Construction and Rehabilitation Management. Providers will work closely in conjunction with HUD program staff to address the skills-based training needs of PIH, CPD, and Housing grantees and their program partners. Eligible applicants seeking funding to provide assistance under both the OneCPD and Core Curricula Training programs must submit a separate application for each.

This must include at least one in-house staff person for the applicant, or the lead applicant in the case of a joint application, who is HOME Program certified. AUTHORIZATION:

national Housing Act, as amended 12 U.S.C. 1710, Sections 203(b), 203(k), 204, 24 CFR 291.

OBJECTIVES:

To sell the inventory of HUD-acquired properties in a manner that expands home ownership opportunities, strengthens neighborhoods and communities, and ensures a maximum return to the FHA mortgage insurance fund.

TYPES OF ASSISTANCE:

SALE, EXCHANGE, OR DONATION OF PROPERTY OR GOODS

USES AND USE RESTRICTIONS:

The Single Family Property Disposition Program is the marketing and sale of one to four unit properties acquired by HUD after foreclosure of an FHA-insured mortgage. Within the general program there are special disposition programs through which a portion of the property inventory is sold. These programs are referred to collectively as the Good Neighbor Initiatives and include Good Neighbor Next Door Sales program for law enforcement officer, teachers and firefighters/emergency medical technicians, Discount Sales to Nonprofits and Local Governments program and Dollar HOME Sales to Local Governments program. Information for each of these programs is covered separately. The majority of foreclosed one to four unit properties are sold through the general disposition program. HUD contracts with private companies to manage and market the properties. Properties are listed for sale by each company for the company's contract area; generally, several states. The listings may be viewed by going directly to the contractor's website or visiting HUD's website at <http://www.hud.gov/homes>, where you will be directed to the listings for your state. The listings provide the appraised value of the property, the property address, a brief description of the property and access to a Property Condition Report prepared by the contractor. Complete information explaining the sales process and earnest money requirements is also available. Bids must be submitted electronically by a real estate broker. An earnest money deposit is required with each bid submitted. Special opportunities are available for bidders who intend to occupy the purchased property as their personal residence. Properties not purchased during this Exclusive Listing Period are then available for the general public, including investors, during an Extended Listing Period. FHA financing may be available for purchasing many homes, including the FHA 203(k) and 203 Special (k) program providing a loan to purchase a property and pay for repairs or improvements as permitted by FHA rules. Interested persons should contact their FHA approved lender. Refer to <http://www.hud.gov/ll/code/llplcrit.html> for assistance in locating a lender.

Applicant Eligibility:

Local Governments and Nonprofit Organizations: HUD contractors in the

specific area should be contacted regarding eligibility requirements. Contact HUD at Tollfree: (800) CALLFHA or (800) 225-5342 for a listing of nationwide HUD contractors. FHA Insured Financing: Generally, anyone who has a satisfactory credit rating; enough cash to close the loan; sufficient, steady income to make the monthly payments without difficulty; and who will live in the home can be approved for an FHA insured mortgage. Income is only one of several factors that apply in the lending process. Interested buyers should contact their lender for more information.

Beneficiary Eligibility:

Individual, governmental and organizational homebuyers.

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

AUTHORIZATION:

Section 202b of the Housing Act of 1959, as amended and the Consolidated Appropriations Act, 2010 (Public Law 111-117).

OBJECTIVES:

To preserve the current elderly housing stock by converting units with a grant into Assisted Living Facilities (ALFs) for the frail elderly, as defined in Section 232(B)(6) of the National Housing Act and 202(k). The program is expected to promote aging in place and prevent premature institutionalization of the target population.

USES AND USE RESTRICTIONS:

Assisted living facilities (ALFs) are designed to accommodate frail elderly persons and people with disabilities who can live independently but need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities.) ALFs must provide support services such as personal care, transportation, meals, housekeeping, and laundry. Typical funding will cover basic physical conversion of existing project units, as well as related common and services space. The ALCP provides funding for the physical costs of converting some or all of the units of an eligible development into an ALF, including unit configuration, common and services space and any necessary remodeling, consistent with HUD or the State's statute/regulations (whichever is more stringent). There must be sufficient community space to accommodate a central kitchen or dining facility, lounges, recreation and other multiple-areas available to all residents of the project, or office/staff spaces in the ALF. Funding for the supportive services must be provided by the owners, either directly or through a third party.

Applicant Eligibility:

Only private nonprofit owners of eligible multifamily assisted housing developments specified in Section 683(2)(B), (C), (D), (E), and (F) (Section 202 projects for the elderly, Rural Housing Section 515 projects receiving Section 8 rental assistance, projects receiving project-based rental assistance under Section 8, projects financed by a below-market interest rate loan or mortgage insured under Section 221(d)(3) of the Housing Act, or housing financed under Section 236 of the National Housing Act) that have been in occupancy for at least five years are eligible for funding. To be eligible, owners must meet the following criteria: (1) Must be in compliance with Loan Agreement, Capital Advance Agreement, Regulatory Agreement, Housing Assistance Payment Contract, Project Rental Assistance Contract, Rent Supplement or LMSA Contract, or any other HUD grant or contract document; (2) Must be in compliance with all fair housing and civil rights laws, statutes, regulations, and executive orders as enumerated in 24 CFR 5.105(a).

Beneficiary Eligibility:

Eligible residents who meet the admissions/discharge requirements as established for assisted living by State and local licensing, or HUD frailty requirements under 24 CFR 891.205 if more stringent. The residents must be able to live independently but may need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities).

Credentials/Documentation:

The assisted living facility must be licensed and regulated by the State (or if there is no State law providing such licensing and regulation, by the municipality or other subdivision in which the facility is located). The application must include a firm commitment for the supportive services to be offered at the ALF as part of the application. The Notice of Funding Availability contains all the necessary information for applicants to apply for the grant. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Applicants must have contacted the State licensing agency for such a project to determine if the proposed project will meet state licensing requirements. A Supportive Service Plan (SSP) for the services and coordination of the supportive services which will be offered in the ALF must be developed and submitted to the appropriate State or local organization. Applicants must comply with all applicable statutory requirements and statutory requirements

under Section 232(b)(6) prior to application submission. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Applications are only accepted in response to the Notice of Funding Availability which is published in the Federal Register each fiscal year. OBJECTIVES:

To provide fair housing throughout the United States and an administrative enforcement system which is subject to judicial review.

TYPES OF ASSISTANCE:

INVESTIGATION OF COMPLAINTS

USES AND USE RESTRICTIONS:

With limited exceptions, no housing offered commercially for sale or rental, may be advertised, sold, leased out, financed or appraised in a manner which discriminates on the basis of race, color, national origin, religion, sex, disability or familial status (the presence of children under the age of 18 in a household or a pregnant woman). In addition, housing providers and others must allow

reasonable modifications to units and provide reasonable accommodations when these are necessary to allow a person with a disability full housing rights. Finally, multi-family housing built for occupancy after March 13, 1991, must comply with the Accessibility Guidelines established. Complaints of discrimination are investigated and conciliated. When conciliation is unsuccessful and where investigation indicates reasonable cause to believe that discrimination occurred or is about to occur, complainants may pursue their complaints before an Administrative law judge or in Federal district court (The Department of Justice litigates on behalf of complainants in Federal district court, or HUD litigates on their behalf in the administrative forum). Also conferences and training sessions are held to explain rights and responsibilities under the law to attorneys, developers, the real estate industry and the general public.

Applicant Eligibility:

Any aggrieved person, or the Assistant Secretary, may file a complaint based on an alleged discriminatory housing practice because of race, color, religion, sex, familial status, disability, or national origin. The complaint may be filed with the Department of Housing and Urban Development or a State or local fair housing agency with processes, procedures and remedies substantially equivalent to those of the Department, and which the Department has approved.
