---------	-------------------	-----------------------------------	-----------------------------------	-----------------------------------	-----------------------------------	-------

PROCUREMENT:

Open Market Acquisitions Under \$100K and Delivery Orders Under Existing Contracts

NOTE: All Simplified Acquisition Standards begin upon receipt of: 1. a complete acquisition package (procurement request, description of item or performance work statement, evaluation factors (if other than technically acceptable, low price)); 2. the timely review of revised description of items or performance work statement and revised evaluation factors, received, and 3. a timely and complete evaluation of technical proposals.

PURCHASE ORDERS, DELIVERY ORDERS AND BLANKET PURCHASE AGREEMENT (BPA) SET UP

Less Than \$25,000.00 1-15 business days	70%	38.04%	A number of complete acquisition packages were not received from the customer upon assignment of the action. Reporting of the actual date of receipt of the complete acquisition package should have been better documented by procurement in order to obtain more accurate results of the turnaround time of these actions. Procurement intends to improve on the reporting of this data in order for the metrics to reflect more accurate results and will take additional steps to ensure that specialists are more proactive in obtaining the required documentation from the customer to begin processing an action when one has been assigned.			
Greater than \$25,000.00 15-45 business days	80%	89.90%				

CONTRACT ACTIONS

NOTE: All Contract Action Standards begin upon receipt of: 1. a complete acquisition package (procurement request, description of item or performance work statement, evaluation factors (if other than technically acceptable, low price)); 2. the timely review of revised description of items or performance work statement and revised evaluation factors, received, 3. the number and quality of proposals/quotes received, and 4. a timely and complete evaluation of technical proposals.

Large Schedule Orders 30-90 business days	85%	97.54%				
Commercial Items 45-120 business days	85%	90.91%				
Uniform Contract Format (UCF) Contracts except Cost Reimbursement 90-180 business days	85%	N/A				
Cost Reimbursement Contracts 150- 270 business days	85%	N/A				
Administrative Modifications (Includes COTR Changes, Funding Changes, and Address Changes) 1-10 business days	85%	86.92%				
Other than Administrative Modification (Excludes contractor name changes and novations) 1-30 business days	85%	81.63%	A substantial number of modifications of this nature require adjustments of a more intricate nature and ultimately require a considerable amount of time for assessment to ensure all modifications to the order are acceptable. In many of these instances the contractor's response time in returning a signed modification caused the completion timeframe to surpass the 30 day deadline. Additionally, while the overall compliancy standard may not have been met, only 245 out of 1334 "other than administrative" modifications required more than the established timeframe to complete.			
Claims/Ratifications 14-60 calendar days	85%	N/A
