 Medal of Honor awarded
 July 12, 2011**

ACTIVITIES

USSOCOM Mission

- ♠ Provide fully capable Special Operations Forces to defend the United States and its interests.
- ♠ Synchronize planning of global operations against terrorist networks.

Title 10 Authorities and Responsibilities

- ♠ Develop special operations strategy, doctrine and tactics
- ♠ Prepare and submit budget proposals for SOF
- ♠ Exercise authority, direction and control over special operations expenditures
- ♠ Train assigned forces
- ♠ Conduct specialized courses of instruction
- ♠ Validate requirements
- ♠ Establish requirement priorities
- ♠ Ensure interoperability of equipment and forces
- ♠ Formulate and submit intelligence support requirements
- ♠ Monitor Special Operations

- officers' promotions, assignments, retention, training and professional military education
- ♠ Ensure Special Operations Forces' combat readiness
- ♠ Monitor Special Operations Forces' preparedness to carry out assigned missions
- ♠ Develop and acquire special operations-peculiar equipment, materiel, supplies and services
- ♠ Command and control of U.S. based Special Operations Forces
- ♠ Provide Special Operations Forces to the geographic combatant commanders
- ♠ Activities specified by the President or Secretary of Defense

SUB-COMMANDS

USSOCOM SUBORDINATE SPECIAL OPERATIONS COMMANDS

Established in 1980, the **Joint Special Operations Command** is a sub-unified command of USSOCOM. JSOC provides a joint headquarters to study Special Operations requirements, ensures interoperability and equipment standardization, develops joint Special Operations plans and tactics, and conducts joint Special Operations exercises and training.

The **Joint Special Operations University** resides at MacDill Air Force Base, Fla. JSOU's mission is to educate Special

Operations Forces executive, senior and intermediate leaders and selected other national and international security decision-makers, both military and civilian, through teaching, research and outreach in the science and art of Joint Special Operations.

The **Special Operations Command - Joint Capabilities** headquartered at Norfolk, Va., has the mission of acting as the Department of Defense's primary joint special operations forces trainer and integrator.

THEATER SPECIAL OPERATIONS COMMANDS

Each geographic combatant command have a Special Operations component commander just like it has a ground, air and naval component commander. The TSOC provides the geographic combatant commanders with a separate element to plan and control joint SOF in their theaters.

SOCAFRICA

Special Operations Command - Africa supports AFRICOM and is headquartered in Stuttgart, Germany.

SOCCENT

Special Operations Command Central is headquartered at MacDill Air Force Base, Fla., and supports U.S. Central Command.

SOCEUR

Special Operations Command Europe

headquarters is located at Stuttgart, Germany, support European Command.

SOCKOR

Special Operations Command Korea, located at Camp Kim in Yongsan, Korea, is the Theater SOC for United States Forces Korea .

SOCPAC

Special Operations Command Pacific, located at Camp H. M. Smith, Oahu, Hawaii, and serves as the SOF component command for the U.S. Pacific Command.

SOCSOUTH

Special Operations Command South is headquartered at Homestead Air Reserve Base, Fla., and supports Southern Command.

COMMANDS

INVENTORY

OPERATORS

EXERCISES

INVENTORY

AIRCRAFT

AC-130H/U

Primary function: Armed over-watch, close-air support, air interdiction and force protection. **Speed:** 300 mph. **Dimensions:** Wingspan 132 ft. 7 in.; length 97 ft. 9 in.; height 38 ft. 6 in. **Range:** 1,496 miles unlimited with air refueling. **Armament:** AC-130H, 40 mm Bofors cannon and 105 mm Howitzer. AC-130U, 25 mm Gatling gun, 40 mm Bofors cannon and 105 mm cannon. **Crew:** AC-130H, 14, and AC-130U, 13.

CV-22B Osprey

Primary function: Special Operations Forces long range infiltration, exfiltration and re-supply. **Speed:** 277 mph (cruising speed). **Dimensions:** Wingspan 84 ft. 7 in.; length 57 ft. 4 in.; height 22 ft. 1 in.; rotary diameter, 38 ft. **Range:** 2,100 miles with one re-fueling **Crew:** Four.

EC-130J Commando Solo

Primary function: Military information support operations. **Dimensions:** Wingspan 132 ft. 6 in.; length 97 ft.; height 38 ft. 8 in. **Speed:** 335 mph. **Range:** 2,300 miles unrefueled. **Crew:** 10.

MC-130E/H Combat Talon

Primary function: Infiltration, exfiltration and resupply of Special Operations Forces. **Speed:** 300 mph. **Dimensions:** Wingspan 132 ft. 7 in.; length MC-130E 100 ft. 10 in.; MC-130H 99 ft. 9 in.; height 38 ft. 6 in. **Range:** 2,700 miles unrefueled. **Crew:** MC-130E, nine; MC-130H, seven.

MC-130P Combat Shadow

Primary function: Air refueling Special Operations Forces helicopters. **Speed:** 289 mph. **Dimensions:** Wingspan 132 ft. 7 in.; length 98 ft. 9 in.; height 38 ft. 6 in. **Range:** 4,000 miles unrefueled. **Crew:** Eight.

MC-130J Combat Shadow II

Primary function: Infiltration, exfiltration and resupply of Special Operations Forces; in-flight refueling of special operations vertical lift aircraft. **Speed:** 385 mph. **Dimensions:** Wingspan 132 ft. 7 in.; length 97 ft. 9 in.; height 38 ft. 9 in. **Range:** 3,200 miles unrefueled. **Crew:** Seven.

MC-130W Combat Spear

Primary function: Infiltration, exfiltration and resupply of Special Operations Forces; in-flight refueling of special operations vertical lift aircraft. **Speed:** 300 mph. **Dimensions:** Wingspan 132 ft. 7 in.; length 98 ft. 9 in.; height 38 ft. 6 in. **Range:** 1,208 miles unrefueled. **Crew:** Seven.

U-28A

Primary function: Provide support to Special Operations Forces. **Speed:** 359 mph. **Dimensions:** Wingspan 57 ft. 11 in.; length 46 ft. 8 in.; height 14 ft. 4 in. **Range:** 350, 1,700 miles. **Crew:** Two.

INVENTORY

AIRCRAFT

AH-6M Little Bird

Primary function: Close air support. **Speed:** 143 mph. **Dimensions:** Length: 32.05 ft., Rotor diameter: 27.5 ft., Height: 8 ft. 11 in. **Range:** 230NM. **Armament:** 2x 12.7 mm GAU-19 or 2x 7.62 mm M134 minigun, 2x M260 rocket pods or 2x MJ-12 rocket pod; Anti-tank guided missile, 2x AGM-114 Hellfire air to ground missiles. **Crew:** Two.

MH-6M Little Bird

Primary function: Externally transport several combat troops. **Speed:** 143 mph. **Dimensions:** Length: 32.05 ft., Rotor diameter: 27.5 ft., Height: 8 ft. 11 in. **Range:** 230 NM. **Payload:** up to 6 personnel. **Crew:** Two.

MH-60K/L/M Black Hawk

Primary Function: Conduct overt or covert infiltration, exfiltration and resupply of Special Operations Forces. **Speed:** Max 222 mph, Cruise 138 mph. **Dimensions:** Length: 64 ft. 10 in. **Range:** 450NM. **Payload:** 10 personnel w/internal tanks. **Armament:** 2 x 7.62 mini-guns. **Crew:** Four.

MH-60L/M Black Hawk Defensive Armed Penetrator (DAP)

Primary Function: Armed escort and fire support for Special Operations Forces. **Speed:** Max 222 mph, Cruise 138 mph. **Dimensions:** Length: 64 ft. 10 in. **Range:** 450NM. **Armament:** 2x7.62 mm M134 minigun, M230 30MM Chaingun, 70mm Hydra rockets, AGM-114 Hellfire air to ground missiles. **Crew:** Four.

MH-47 Chinook

Primary function: Conduct overt and covert infiltration, exfiltration, heavy assault, resupply, and sling load operations. **Speed:** Max 195 mph, Cruise 132 mph. **Dimensions:** Length 99 ft, Rotor diameter: 60 ft, Height: 18 ft 8 in. **Unrefueled Range:** 525 NM. **Armament:** M-134 and M-240 7.62mm machine guns. **Combat Crew:** Six.

NSAV (Light) PC-12

Primary Function: Provides flexible rapid, short suspense operational movement of personnel. **Speed:** 359 mph, **Dimensions:** Wingspan 57ft. 11 in., length 46ft. 8in., height 14ft. 4in. **Range:** 350, 1,700 miles 350ER 2,700 miles. **Crew:** Two

NSAV (Light) M-28

Primary Function: Provides flexible rapid, short suspense operational movement of personnel. **Speed:** Max 220 mph. **Dimensions:** Length 5.26 m, width 1.74m, height 1.72m. **Range:** 785 ER **Crew:** Three.

NSAV (Medium) Do-328

Primary Function: Provides flexible rapid, short suspense operational movement of personnel. **Speed:** In excess of 310 mph. **Range:** 500 nm with 8,750 lb payload **Crew:** Two.

MQ-1 Predator

Primary function: Armed reconnaissance, airborne surveillance and target acquisition. **Speed:** Up to 135 mph. **Dimensions:** Wingspan 48 ft. 7 in.; length 27 ft.; height 6 ft. 9 in. **Range:** 454 miles. **Armament:** AGM-114 Hellfire missiles.

MQ-9 Reaper

Primary function: Unmanned hunter/killer weapon system. **Speed:** 230 mph. **Dimensions:** Wingspan 66 ft.; length 36 ft.; height 12.5 ft. **Range:** 3,682 miles. **Armament:** AGM-114 Hellfire missiles; GBU-12, GBU-38 JDAM. **Crew:** Pilot and sensor operator on the ground.

AECV/Puma AE

Primary function: All Environment Capable Variant, Small Unmanned Aircraft System. Provides autonomous low altitude electro-optical, infrared camera reconnaissance and surveillance; recoverable either land or maritime. **Speed:** 23-46 mph. **Dimensions:** Wingspan 110 inches; length 56 inches. **Range:** 15 km with a flight endurance of 2 hours.

Viking 400 (V400)

Primary function: Provides Day/Night Reconnaissance. **Speed:** 60 knots. **Dimensions:** Wingspan 20 ft.; Length 14.7 ft.; Height 5 ft. **Range:** 75+ Nautical Miles. **Crew:** Pilot and Sensor Operator.

INVENTORY

MARITIME - SURFACE

MK V Special Operations Craft

The MK V Special Operations Craft performs medium-range infiltration and extraction of SOF, limited coastal patrol and interdiction in low to medium threat environments. The MK V SOC is a high-performance combatant craft sized to permit air deployment aboard C-5 aircraft. Each craft is manned by a crew of five Special Warfare Combatant-craft Crewmen and can carry 16 SOF personnel.

Special Operations Craft-Riverine

The Special Operations Craft-Riverine performs short-range insertion and extraction of SOF in riverine and littoral environments. The SOC-R is a high-performance craft sized to permit air transport aboard C-130 or larger military aircraft. Each craft is manned by a crew of four Special Warfare Combatant-craft Crewmen and can carry eight SOF personnel.

Rigid-hull Inflatable Boat

The Rigid-hull Inflatable Boat performs short-range insertion and extraction of SOF, limited coastal patrol, and interdiction and reconnaissance. The RHIB is a high performance combatant craft that is air transportable by C-5 Galaxy, C-17 Globemaster and C-130 Hercules aircraft, and it can be air dropped from C-130 or larger military aircraft. Each craft is manned by a crew of three Special Warfare Combatant-craft Crewmen and can carry eight SOF personnel.

MARITIME - UNDERSEA

MK VIII MOD SEAL Delivery Vehicle and Dry Deck Shelter

The Dry Deck Shelter is a floodable pressure vessel carried by a host submarine for undersea operations. A minimum crew of six Navy divers operates the controls for flooding, draining and pressurizing the DDS. The host submarine provides the DDS with electrical power and high-pressure air. The DDS can be used to launch and recover a SEAL Delivery Vehicle or to conduct mass swimmer lock-out/lock-in operations utilizing SEALs and Combat Rubber Raiding Craft. The divers who operate the DDS control assist in all launch and recovery operations.

SEAL Delivery Vehicle

The MK VIII MOD 1 SEAL Delivery Vehicle is a free-flooding wet submersible designed for undersea special operations including direct action, hydrographic reconnaissance and insertion/extraction of SEALs. SDVs can be inserted into the water via a DDS-equipped submarine, MK V SOC or surface ships.

INVENTORY

GROUND

Mine Resistant Ambush Protected Vehicle

The RG-31s/RG-33s/RG-33 Auxiliary Utility Vehicles provide protection for SOF operators against the expanded use of improvised explosive devices, and provide a lethal offensive capability in the form of an integrated remote weapon station.

MRAP All Terrain Vehicle

The M-ATV provides a mine-resistant all-terrain vehicle capability specifically for small-unit combat operations in highly restricted rural, mountainous, and urban environments.

Ground Mobility Vehicle

The GMV is a standardized joint SOF combat vehicle with the operational flexibility to support the SOF core activities of direct action, special reconnaissance, unconventional warfare, counterterrorism, security force assistance, and counterinsurgency operations.

Ground Mobility Vehicle-Navy

The GMV-N is a humvee specifically designed for SEALs that employs a multitude of weapons and is fitted with a modular armor kit. Depending on the mission, armor can be added or removed to either increase speed and maneuverability or increase protection. The GMV-N can carry up to five operators into some of the harshest terrain in the world.

Non-Standard Commercial Vehicle

The NSCV is a commercial vehicle with varying levels of modification, depending upon mission need. Models include, but are not limited to, pickup trucks, sport utility vehicles, sedans, and vans. Vehicles can range from unarmored and low-profile to heavily armored and overtly military. NSCVs provide SOF with the capability to conduct missions where there is no military logistical presence and where vehicles must be maintained on the economy.

Lightweight Tactical All Terrain Vehicle

The LTATV is a side-by-side seat vehicle that provides a light, all-terrain capability to allow SOF to undertake operations across a wide variety of missions with increased mobility and maneuverability. The LTATV is internally transportable by H-47 and V-22 variant aircraft; carries two personnel; can be used for a multitude of operations from logistic support to casualty evacuation; and provides a high degree of speed and mobility over rough terrain.

All Terrain Vehicle

The ATV provides individual, all-terrain mobility to deployed SOF in austere locations and across a myriad of special operations missions. The vehicles are extremely flexible and internally transportable within rotary wing assets, and they allow fully combat-equipped SOF operators to move around the battlespace rapidly in terrain not easily navigated by larger, heavier vehicles.

INVENTORY

WEAPONS

***MK20
Sniper Support Rifle***

The **Combat Assault Rifle** is a family of weapons from the MK 13 to the MK 20 and is a modular rifle made for the U.S. Special Operations Command. This family of rifles consist of two main types. The CAR-L, for light, is chambered in the 5.56x45mm NATO cartridge and the CAR-H, for heavy, fires 7.62x51mm NATO. Both are available in Long Barrel and Close Quarters Combat variants.

MK 17 Long Barrel

MK 17 (Close Quarters Battle)

MK 13 mounted to MK 17

MK 13 (Stand Alone)

MK 13 mounted to MK 16

Multi-purpose Anti-armor Anti-personnel Weapon System

The MAAWS capability provides an 84 mm recoilless, shoulder-fired, man-portable, line-of-sight, re-loadable, anti-armor, and anti-personnel weapon system.

Lightweight Assault Weapon

The LAW development is a Fire-from-Enclosure capability, allowing the Warfighter to fire both variants (M72A7 Anti-Armor and M72A9 Anti-Structure Rounds) from confined spaces.

INVENTORY

COMMAND, CONTROL, COMMUNICATIONS, AND COMPUTERS

The **Enterprise Networks Division** is responsible for designing, acquiring, fielding, and sustaining the garrison and tactical network automation infrastructure systems. The programs include the Special Operations Command Research, Analysis, and Threat Evaluation System (SOCRATES); C4 and Intelligence (C4I) Automation Systems (C4IAS); and Tactical Local Area Network (TACLAN).

The **Tactical Communications** consists of 1) Blue Force Tracking, 2) Joint Tactical C4I Transceiver System, 3) Joint Base Station/Radio Integration System, and 4) SOF Tactical Communications. These tactical radio systems provide the critical C2 link between SOF commanders and SOF teams deployed globally. They also provide interoperability with all Services, various government agencies, air traffic control, commercial agencies, and coalition forces.

Military Information Support Operations and Civil Affairs Systems include the Media Production Center Heavy, Medium, and Light; Special Operations Media System-Broadcast (SOMS-B); Fly-Away Broadcast System (FABS); and PDS. These systems primarily provide the capability to develop, produce, distribute, and disseminate MISO products to overseas target audiences.

SPECIAL RECONNAISSANCE, SURVEILLANCE, AND EXPLOITATION

Biometrics and forensics system equipment provide SOF with the capability to rapidly and efficiently examine and exploit sensitive sites. The collection of forensic evidence and the identity verification of personnel detained on-site produce actionable intelligence that expedites SOF decision-making processes. Biometric tools are also used to gather and store information on captured combatants and to verify the identities of local nationals seeking employment or access to foreign and domestic U.S. bases and installations.

Clandestine Tagging, Tracking, and Locating exploits emerging technologies to locate and track targets or items of interest. CTTL is a Science and Technology development and prototyping program that is unique in its focus on SOF Warfighter-defined capability gaps and selection of highly promising technology solutions.

The **Special Operations Tactical Video System/Reconnaissance Surveillance Target Acquisition** program provides sensor systems that equip SOF with enhanced stand-off capabilities for both manned and unmanned special reconnaissance missions. Capabilities within the portfolio range from man-in-the-loop imagers and data transmission devices to fully automated, programmable unattended ground sensors emplaced by SOF operators that support information and intelligence gathering operations.

COMMANDS

INVENTORY

OPERATORS

EXERCISES

OPERATORS

USASOC

Special Forces

Special Forces units perform seven doctrinal missions: Unconventional Warfare, Foreign Internal Defense, Special Reconnaissance, Direct Action, Combatting Terrorism, Counter-proliferation, and Information Operations. These missions make Special Forces unique in the U.S. military, because they are employed throughout the three stages of the operational continuum: peacetime, conflict and war.

The "Quiet Professionals," Special Forces units are today deployed worldwide displaying their dominance in full spectrum operations through their unconventional warfare expertise. From humanitarian assistance and training of indigenous forces, to direct action and special reconnaissance missions, Special Forces Soldiers live up to the Special Forces motto: De Oppresso Liber, to Free the Oppressed.

Army Ranger

Rangers are capable of conducting squad through regimental size operations using a variety of infiltration techniques including airborne, air assault and ground platforms. The 75th Ranger Regiment remains an all-volunteer force with an intensive screening and selection process followed by combat-focused training. Rangers are resourced to maintain exceptional proficiency, experience and readiness. The 75th Ranger Regiment is a proud unit and a team of teams serving the Nation - Rangers Lead The Way.

NSWC

Sea, Air, Land (SEAL)

The SEAL Team is the heart of the NSW force; a multipurpose combat force organized and trained to conduct a variety of Special Operations missions in all environments. SEALs conduct clandestine missions infiltrating their objective areas by fixed- and rotary-wing aircraft, Navy surface ships, combatant craft, submarines and ground mobility vehicles.

Special Warfare Combatant-craft Crewmen

Special Boat Teams are manned by Special Warfare Combatant-craft Crewmen who operate and maintain state-of-the-art surface craft to conduct coastal patrol and interdiction and support special operations missions. Focusing on infiltration and exfiltration of SEALs and other SOF, SWCCs provide dedicated rapid mobility in shallow water areas where larger ships cannot operate. They also bring to the table a unique SOF capability: Maritime Combatant Craft Aerial Delivery System — the ability to deliver combat craft via parachute drop.

Enablers

If SEALs and SWCC are considered to be the action arms of NSW, then the Enablers would be the backbone of the organization. SEALs rely heavily on the services of technicians such as mobile communications teams, tactical cryptologic support and explosive ordnance disposal specialists. Enablers contribute heavily toward the success of the special warfare operations mission.

OPERATORS

AFSOC

AFSOC Special Tactics Airmen include Combat Controllers, Pararescuemen, Special Operations Weathermen and Combat Aviation Advisors.

Combat Controllers are Special Operators and certified air traffic controllers who are an integral part of the Air Force Battlefield Airmen team. Their motto, “First There,” indicates the CCT commitment to be the first deployed into restricted environments by air, land or sea to establish assault zones.

Pararescuemen, commonly known as PJs, are the only Defense Department specialty specifically trained and equipped to conduct conventional and unconventional recovery operations. A PJ’s primary function is as a personnel recovery specialist with emergency trauma medical capabilities in humanitarian and combat environments. Their motto, “That Others May Live,” reaffirms the Pararescueman’s commitment to saving lives and self-sacrifice.

Special Operations Weathermen are Air Force weather technicians with unique training to operate in hostile or denied territory. They gather, assess, and interpret weather and environmental intelligence from forward deployed locations, working with Special Operations Forces.

Combat Aviation Advisors of the 6th Special Operations Squadron help U.S. global partners to wield airpower. These Air Commandos are culturally savvy, linguistically trained and politically astute Airmen, hand selected for their skill, maturity and professionalism to advise foreign forces in rotary and fixed-wing combat aviation, maintenance, base support, security and tactics.

Critical Skills Operator

Critical Skills Operators are the front line Marines and Sailors who are complex problem solvers able to operate across the full spectrum of Special Operations in small teams under ambiguous, sometimes austere, environments while maintaining a high level of mental flexibility and physical endurance. CSOs exemplify the Marine Corps' concepts of Distributed Operations and the Strategic Corporal. These warrior-diplomats are able to operate across the spectrum of force. They are experts in utilizing the right force at the right time with the right effect. MARSOC forces provide Foreign Internal Defense, special reconnaissance, and direct action capabilities to commanders. In other words, MARSOC Marines often train host-nation military groups, gather information about the enemy, and engage the enemy with lethal force when necessary.

OPERATORS

EXERCISES

EXERCISES

SOF GLOBAL FOOTPRINT

**Special Operations Command - Pacific
Balikatan
Republic of the Philippines**

Annual bilateral combined exercise, held in the Philippines, structured to further develop the Armed Forces of the Philippines.

**Special Operations Command - Europe
Cold Response
Norway**

Norwegian sponsored, scheduled, and conducted multinational invitational exercise, with more than 9,000 military personnel from 14 countries.

**Special Operations Command - Africa
Flintlock
Trans-Sahara Africa**

U.S. Africa Command's premier Special Operations Forces exercise and trains joint multinational forces to improve information sharing at the operational and tactical levels across the Saharan region while fostering increased collaboration and coordination.

**Special Operations Command - Korea
Foil Eagle
Republic of Korea**

Annual large-scale exercise focused on rear area security and stability operations, onward movement of critical assets to the forward area, special operations, ground maneuver, amphibious operations, combat air operations, maritime action group operations.

**Special Operations Command - South
Fuerzas Comando
Central and South America**

Military skills competition between top military and police Special Operations teams in the Western Hemisphere. Security forces from 19 countries take part promoting military-to-military relationships, increased interoperability and improved regional security.

**Special Operations Command - Europe
Jackal Stone
Europe**

Coordinated by Special Operations Command Europe, the exercise is designed to build Special Operations Forces capacity, the capabilities of current and future partner nations, and to promote interoperability between the participating forces.

**Special Operations Command - South
Panamax
Panama**

Special operations forces from Peru, Colombia, Brazil, Panama and the United States train together in an exercise simulating a multi-national effort to defend the Panama Canal.

SOF TRUTHS

- ♠ Humans are more important than hardware
- ♠ Quality is better than quantity
- ♠ SOF cannot be mass produced
- ♠ Competent SOF cannot be created after emergencies occur
- ♠ Most Special Operations require non-SOF support
