

## **May 2012**

Monthly Financial Reports and Customer Collaborative

# Customer Collaborative Financial Overview for FY 2012 through May 31, 2012

## Agency

- Agency Net Revenues through May are \$158 million. This is \$18 million higher than the 2nd Quarter Review forecast.
- The end-of-year net revenue forecast for the 2nd Quarter Review is \$42 million. This is \$64 million below the SOY forecast and \$21 million below the rate case.
- The start-of-year (SOY) estimate of the net revenues for the fiscal year is \$106 million and the rate case forecast is \$64 million.

## Power Services

- Power Services net revenue through May is \$110 million. This is \$8 million higher than the 2nd Quarter Review forecast.
- The 2nd Quarter Review net revenue forecast is \$2 million. This is \$61 million below the SOY forecast and \$51 million below the rate case forecast.
- For the month of May, net revenue is essentially on track with the Q2 forecast. There were minor variances, but no significant deviations between actual results and the forecast for May.

# Customer Collaborative Financial Overview for FY 2012 through May 31, 2012

## Transmission Services

- Transmission Net Revenues through May are \$77 million. This is \$8 million higher than the 2nd Quarter Review forecast.
- The 2nd Quarter Review forecast is \$83 million. This is a \$5 million decrease from the SOY forecast and \$26 million increase from the rate case.
- The start-of-year estimate of net revenues for the fiscal year is \$88 million and the rate case forecast is \$57 million.

- For BPA management reports, Gross Sales and Purchase Power are shown separated from the power bookout adjustment (EITF 03-11, effective as of Oct 1, 2003) to provide a better picture of our gross sales and purchase power.
- Although the forecasts in this report are presented as point estimates, BPA operates a hydro-based system that encounters much uncertainty regarding water supply and wholesale market prices. These uncertainties among other factors may result in large range swings +/- impacting the final results in revenues, expenses, and cash reserves.
- The consolidated FCRPS Statement reduces reported Revenues and Expenses where between business line transactions occur, the most significant of which are for Transmission Acquisition and Ancillary Services.
- Beginning in FY 2004, consolidated actuals reflect the inclusion of transactions associated with a Variable Interest Entity (VIES), which is in accordance with the FASB Interpretation No. 46 (FIN 46) that is effective as of December, 2003.
- The Residential Exchange Program expenses reflect the Scheduled Amount of REP benefits payments established in the 2012 REP Settlement Agreement. The Scheduled Amount of REP benefit payments incorporates a \$76,537,617 reduction in REP benefits to provide Refund Amount payments to COUs. The Refund Amount returned to the COUs is reflected through a reduction in the Gross Sales amount.

<sup>&</sup>lt;1 For BPA management reports, Gross Sales and Purchase Power are shown separated from the power bookout adjustment (EITF 03-11, effective as of Oct 1, 2003) to provide a better picture of our gross sales

<sup>&</sup>lt;2 Although the forecasts in this report are presented as point estimates, BPA operates a hydro-based system that encounters much uncertainty regarding water supply and wholesale market prices. These uncertainties, among other factors, may result in large range swings +/- impacting the final results in revenues, expenses, and cash reserves.</p>

<sup>&</sup>lt;3 The Residential Exchange Program expenses reflect the Scheduled Amount of REP benefits payments established in the 2012 REP Settlement Agreement. The Scheduled Amount of REP benefit payments incorporates a \$76,537,617 reduction in REP benefits to provide Refund Amount payments to COUs. The Refund Amount returned to the COUs is reflected through a reduction in the Gross Sales amount.</p>

- <1 For BPA management reports, Gross Sales and Purchase Power are shown separated from the power bookout adjustment (EITF 03-11, effective as of Oct 1, 2003) to provide a better picture of our gross sales and gross purchase power.</p>
- <2 Although the forecasts in this report are presented as point estimates, BPA operates a hydro-based system that encounters much uncertainty regarding water supply and wholesale market prices. These uncertainties among other factors may result in large range swings +/- impacting the final results in revenues, expenses, and cash reserves.</p>
- <3 The Residential Exchange Program expenses reflect the Scheduled Amount of REP benefits payments established in the 2012 REP Settlement Agreement. The Scheduled Amount of REP benefit payments incorporates a \$76,537,617 reduction in REP benefits to provide Refund Amount payments to COUs. The Refund Amount returned to the COUs is reflected through a reduction in the Gross Sales amount.</p>
- <4 This is an "accounting only" (no cash impact) adjustment representing the mark-to-market (MTM) adjustment required by ASC 815, Derivatives and Hedging (formerly SFAS 133), for identified derivative instruments. In FY2010, BPA began applying ASC 980, Regulated Operations, treating the unrealized gains and losses on derivative instruments as Regulatory Assets and Liabilities.</p>

<sup>&</sup>lt;1 Although the forecasts in this report are presented as point estimates, BPA operates a hydro-based system that encounters much uncertainty regarding water supply and wholesale market prices. These uncertainties, among other factors, may result in large range swings +/- impacting the final results in revenues, expenses, and cash reserves.</p>

<sup>&</sup>lt;2 Beginning in FY 2004, consolidated actuals reflect the inclusion of transactions associated with a Variable Interest Entity (VIES), which is in accordance with the FASB Interpretation No. 46 (FIN 46) that is effective as of December, 2003.</p>
