

This fact sheet presents recent **employment and unemployment** figures for Maine and the United States. The **Consumer Price Index (CPI)** measures price changes or inflation for particular commodities and services at the retail level. The **Producer Price Index (PPI)** measures price changes or inflation for particular commodities and services at the wholesale level and is widely used by business firms as an escalator in long-term contracts. The **Employment Cost Index (ECI)** measures price changes or inflation of labor costs which include wages and salaries and employer costs for employee benefits. The **Occupational Employment Statistics (OES)** program estimates occupational employment and wages for 22 major occupational groups and 801 detailed occupations in every state and metropolitan area. All data are not seasonally adjusted.
