YOUTH REGIONAL TREATMENT CENTERS

Indian Health Service currently provides recurring funding to 11 tribally and federally operated youth regional treatment centers (YRTCs) to address the ongoing issues of substance abuse and co-occurring disorders among American Indian and Alaska Native youth. Through education and culture-based prevention initiatives, evidence- and practice-based models of treatment, family strengthening, and recreational activities, youth can overcome their challenges and recover their lives to become healthy, strong, and resilient leaders in their communities.

Mission Statement

The mission of YRTCs is to provide quality, holistic behavioral health care for American Indian and Alaska Native adolescents and their families in a substance-free, residential environment that integrates traditional healing, spiritual values, and cultural identification.
