SERDP AND ESTCP ANNOUNCE TECHNICAL PROGRAM AND TRAINING OPPORTUNITIES AT ANNUAL SYMPOSIUM & WORKSHOP

The Strategic Environmental Research and Development Program (SERDP) and the Environmental Security Technology Certification Program (ESTCP) will hold the annual *Partners in Environmental Technology Technical Symposium & Workshop*, "*Meeting DoD's Environmental Challenges,*" November 29 – December 1, 2011, at the Washington Hilton in Washington, D.C. This nationally recognized conference focuses on the Department of Defense's (DoD) priority environmental issues. The approximately 1,200 attendees span the military Services; academic and research institutions; private sector technology and environmental firms; and Federal, state, and local regulatory and policy making organizations.

This year's Symposium & Workshop will offer an opening Plenary Session, 15 technical sessions, four short courses, more than 450 technical poster presentations, and exhibitors from funding and partnering organizations. Technical sessions will highlight research and innovative technologies that assist DoD in addressing increasingly complex environmental and mission sustainability challenges. Short courses on select technologies and alternative approaches in the environmental restoration and munitions response areas will offer unique training opportunities on recent advancements in science and technology.
