RE: Additional Guidance on ARRA reporting

On September 24, 2010, OMB released OMB M-10-34, which contains updated guidance on Recovery Act reporting (<a href="http://www.whitehouse.gov/sites/default/files/omb/memoranda/2010/m-10-34.pdf">http://www.whitehouse.gov/sites/default/files/omb/memoranda/2010/m-10-34.pdf</a>). After reviewing this information, the Corporation has updated our AmeriCorps State and National Recovery Reporting Guideline for grantees to reflect the changes made in OMB M-10-34.

Please see the attached AmeriCorps State and National Recovery Reporting Guidelines – Revised 09-28-2010. The majority of changes are to clarify how to report on specific data elements in the 1512 reports in FederalReporting.gov. The sections which have been changed include:

- CCR reminder added
- Final Report data element: new language added to explain when to mark a 1512 report as final.
- Quarterly Activities/Project Description data element: clarified language regarding how to describe quarterly activities for grants which fund multiple projects or activities. Added new language regarding information needed for final reports
- Total Amount of Payments to Vendors Less than \$25,000/Award data element: language clarified to specify that amount reported must be cumulative.
- Total Amount of Sub-Awards less than \$25,000/Award data element: language clarified to specify that amount reported must be cumulative.

Additionally, we have updated the "upcoming due dates" in the guidelines to reflect future dates. We have also added information about final reports to the FFR, FederalReporting.gov and progress report sections of the guidance.

Detailed information on the changes to each section has been integrated into the guidelines. Additionally, we have highlighted in yellow the data elements sections of the FederalReporting.gov guidelines which have changed to make it easier for you to identify.

As you are wrapping up your Recovery programs, we want to thank you for all of your diligent reporting, Please remember, your **1512 reports are due in FederalReporting.gov no later than October 10, 2010**.

As always, please contact your Grants or Program Officer if you have questions.

AmeriCorps State and National recipients of American Recovery and Reinvestment Act (Recovery) funding are required to submit three types of reports.

- 1. Federal Financial Reports (FFR);
- 2. OMB Reporting at FederalReporting.gov; and
- 3. Progress Reports

This document provides an overview of the reporting requirements.

#### 1. FEDERAL FINANCIAL REPORTS (FFR)

#### **Reporting Timelines**

FFRs are submitted through eGrants on a quarterly basis for the entirety of the grant period. The upcoming due dates are:

- October 10, 2010
- January 10, 2011
- April 10, 2011

Additional reports may be required based on your grant's project period end date.

A memo was distributed to grantees on July 9, 2009, which clarified the financial reporting requirements grantees must follow for Recovery Act grants and reminders of processes you must have in place to properly manage grant funds. That memo is located at:

http://www.americorps.gov/for\_organizations/manage/commcenter\_detail.asp?tbl\_pr\_id=1406

#### **Final Financial Reports**

Before you close your recovery grant, you must submit a final financial report. Please use the guidance below as you wrap up your programs.

- If your grant has expired, you may not expend funds beyond the end date of your grant. However, you may draw down and disburse funds that were expended before the end date of your grant as part of the closeout process.
- All FFRs will continue to be due 10 days after the calendar quarter as long as you are submitting reports in FederalReporting.gov. If you are unable to submit a <u>final</u> FFR by the quarterly deadline of the 10<sup>th</sup>, you should submit the FFR by the deadline and then work with your GO to return the FFR to you to finalize.
- From the end date of the award you will have up to 90 days to close your grant.
- When closing the grant, the amounts reported in the Payment Management System, and to CNCS in eGrants must equal each other to the penny.

# 2. THE OMB REPORTING AT FEDERALREPORTING.GOV (as required under Section 1512 of the ARRA)

The data that you report at FederalReporting.gov provides OMB, Congress, and the general public with important information on:

- Who is receiving Recovery Act dollars and in what amounts
- What projects or activities are being funded with Recovery Act dollars
- The completion status of such projects or activities and the impact on job creation and retention

#### **Reporting Timelines**

The OMB reports are submitted at FederalReporting.gov on a quarterly basis. *Remember, you must keep your CCR registration active in order to submit a report.* 

The upcoming due dates are:

- October 10, 2010
- January 10, 2011
- April 10, 2011

Additional reports may be required based on your grant's project period end date and completion of grant requirements as listed below.

The timeline for submitting and reviewing your reports is as follows:

- 1. REPORT
  - Days 1-10: Submit Reports Online at FederalReporting.gov
- 2. REVIEW (Comment Period)
  - Days 11-13: Prime Recipient Review. During this period, you will be able to make revisions to your data at federalreporting.gov.
  - Days 14-29: CNCS Review. CNCS will review your submission(s). If any changes are required, the report will be returned to you for revision. All revisions must be completed by the 29<sup>th</sup>.
- 3. RELEASE
  - Day 30: Data is released for public viewing on Recovery.gov.
- 4. CONTINUOUS QUALITY ASSURANCE
  - Days 33 74: Prime recipients may update or correct previously submitted reports.

#### Final FederalReporting.gov (1512) Report

You should mark your 1512 report as final when your project has met the following requirements:

- The project status is "Fully Complete,"
- All members have completed their terms of service,
- All Recovery Act funds have been expended by the prime recipient, and
- If you have subawards, all or nearly all funds have been invoiced and received. If expenditures are reimbursed to subrecipients and invoices/receipts lag expenditures, you may mark a project as final when all funds have been expended and 75% of more of the funds have been invoiced and received.

<sup>\*</sup>Reporting timelines may change slightly for each reporting period. Go to <a href="www.FederalReporting.gov">www.FederalReporting.gov</a> to view the current timeline.

Additionally, if your final expenditures are less than your grant award, you must provide a brief explanation as to why the final amount in the "Total Federal Amount of ARRA Expenditure" is less than the amount in the "Award Amount" field and confirm that no additional funds will be expended. CNCS staff will be reviewing all reports marked as final to determine if the above requirements have been met. If your report is correctly marked as final, then you will be relieved of these reporting requirements, barring any errors later identified for correction.

#### **Data Elements**

Below is the list of the data elements that you will report to OMB at FederalReporting.gov. Included with each data element is guidance for how to complete the field and an example. Please contact your program or grants officer if you have questions regarding a particular field.

Number of Jobs	<ol> <li>Follow these instructions if you received only an Expansion Grant. Report only on staff and members created or retained by Recovery funds.</li> <li>Calculate the aggregate number of full-time equivalent (FTE) staff positions funded in whole or part by the recovery grant for the reporting quarter which just ended. This includes (a) new staff employed during the quarter; and (b) staff employed or retained in previous quarter(s) who worked all or part of the current quarter.</li> <li>Use the following calculation to convert staff time into FTEs: Total number of Recovery Act-funded hours worked within the reporting quarter ÷ Quarterly hours in a full-time schedule.</li> <li>Determine the aggregate number of AmeriCorps member MSYs serving during the quarter. This includes (a) new</li> </ol>	Example for Expansion Grant: Through a Recovery expansion grant, the grantee is able to retain 2 half-time staff positions which they would calculate as 1 FTE. The grantee enrolls 200 new quarter-time AmeriCorps members in this quarter, which equates to 52.91 MSYs. The grantee would report these staff and AmeriCorps members together as 53.91 jobs.

	previous quarter(s) who continued serving in the current quarter; and (c) members who exited during the quarter and completed 15% or more of their term of service.	
	DO NOT include any members who exited during the quarter and served less than 15% of their term.	
	To calculate the number of MSYs serving, determine (a) the number of filled positions for each slot type; (b) subtract any members who exited in previous quarters; (c) subtract any members who exited in the current quarter who served less than 15% of their term;(d) convert the remaining slots into an MSY amount following our standard conversion factors.	
	3. Add these two numbers together and enter the total in this field.	
	Follow these instructions if you received <u>only</u> a Match Replacement Grant:	Example for Match Replacement Grant: The grantee has an existing AmeriCorps
	<ul> <li>(Note: Because the match replacement funds are being added to an existing award, you must report the total number of jobs retained as a result of the Recovery funds in proportion to the amount of match replacement funds received.)</li> <li>1. Divide the amount of match replacement funds awarded by the current operating budget (non-Recovery funds + Recovery funds). You will use this factor to calculate the portion of member and staff positions retained with the Recovery match replacement funds.</li> </ul>	grant with a total project budget (CNCS share + Grantee share) of \$100,000. The grantee received a \$10,000 match replacement grant in order to retain 2 half-time staff positions (1 FTE) and 200 quarter-time AmeriCorps members (52.91 MSYs)
	<ol> <li>Calculate the aggregate number of full-time equivalent (FTE) staff positions in your non-Recovery grant.</li> <li>Use the following calculation to convert staff time into FTEs: Total number of Recovery Act-funded hours worked within the reporting quarter ÷ Quarterly hours in a full-time schedule.</li> </ol>	for a total of 53.91 jobs. Since the number of jobs retained is proportional to the amount of match replacement funds received, the grantee multiplies 53.91 by 10%
	3. Calculate the aggregate number of AmeriCorps member MSYs enrolled in your <u>non-Recovery</u> grant. Use the enrolled MSYs data in the My AmeriCorps Portal.	which equals 5.391 jobs retained.
	4. Add these two numbers together to get a total number of jobs for the grant.	
	5. Multiply the total number of jobs (in step #4) by the factor from step #1. Enter this amount as the total number of jobs retained as a result of match replacement funds.	
	<ul> <li>Follow these instructions if you received both an Expansion grant and Match Replacement Funds:</li> <li>1. Calculate the number of staff positions and AmeriCorps member positions created and/or retained with Expansion funds by applying the Expansion grant guidance above.</li> <li>2. Calculate the number of staff positions and AmeriCorps</li> </ul>	Example for grantees who received both Expansion and Match Replacement: The grantee received a Recovery grant to place 50 new full-time AmeriCorps members.

	member positions retained with match replacement funds by applying the Match Replacement guidance above.	Included in the grant, was \$25,000 in match replacement funds to
	3. Add the two numbers from steps #1 and #2 together and enter the total in this field.	retain 75 full-time members enrolled in the
		grantee's non-Recovery grant. When the match replacement funds are added to the non-Recovery grant, the total operating budget (CNCS share and Grantee share) was revised to \$500,000.
		To calculate the number of AmeriCorps MSYs created and retained with Recovery funds, the grantee first determines the MSY value for the members serving in the expansion grant during the reporting quarter. If the grantee 30 full-time AmeriCorps members serving, then it will report 30 MSYs.
		Next, the grantee calculates the share of match replacement funds in the non-Recovery grant by dividing \$25,000 by the current operating budget of \$500,000 (\$25,000 ÷ \$500,000 = 5%). The grantee then multiples this percentage by the MSY value for the 75 full-time non-Recovery members. 75 MSYs x 5% = 3.75. This is the MSY value for the non-Recovery members being retained with match replacement funds.
		The grantee then adds the number of non-Recovery MSYs retained (3.75) to the number of Recovery MSYs serving (30) and reports 33.75 as the number of jobs created/retained for this grant.
Description of Jobs Created	Use the language below to describe jobs created and/or retained during the reporting quarter. You must use this standard	Due to Recovery funding, we created and/or retained

#### 3. PROGRESS REPORTING

In addition to the quarterly FFRs and the quarterly OMB reporting on FederalReporting.gov, you must submit quarterly reports to CNCS on your progress toward meeting your Recovery performance measure targets.

#### **Reporting Timelines**

The upcoming due dates are:

- October 30, 2010
- January 30, 2011
- April 30, 2011

Additional reports may be required based on your grant's project period end date and when members complete service.

You will use the customized ARRA Progress Report spreadsheets which you receive from the Corporation to record your performance. Program Officers will continue to send your customized spreadsheets to you each quarter, at least 2 weeks in advance of the progress report due date. You will submit the completed spreadsheets to your Program Officer.

Grantees who received <u>only</u> match replacement funds are not required to submit progress reports. Grantees who received <u>only</u> match replacement funds are still required to submit the quarterly FFR and quarterly OMB reports to FederalReporting.gov.

#### **Final Progress Reports**

The ARRA Progress Report can be marked as complete when all members have completed serving during the reporting quarter, and all performance measures data, demographic data and narrative data has been collected and reported to CNCS. To ensure that the Progress Report is marked as final by your Program Officer you must:

- Complete the required fields in the demographic section of the spreadsheet.
- Provide complete data on all of your grant's performance measures and explain any performance measures that were not met.
- Ensure that "other approved measures" has a final status that reflects the progress of the project.
- Complete the narratives sections of the spreadsheet.
- Ensure that the entire progress report is free of errors.

\*Note: State Commissions with both competitive and formula ARRA grants will need to continue to submit progress reports until member activity on BOTH grants are complete, because the Commission progress report spreadsheet includes performance data for all ARRA grants awarded to the Commission.
