CERTIFIED MAIL

Ms. Lidice O'Brien
Heart of America Northwest
1314 NE 56th Street Suite 100
Seattle, Washington 98105

Dear Ms. O'Brien:

FREEDOM OF INFORMATION ACT REQUEST (FOI 2011-01376)

Your Freedom of Information Act (FOIA) request dated June 21, 2011, was received in this office on June 27, 2011. In that letter you requested the following records:

1. "Drums and/or containers of waste that leaked, spilled, released, or contaminated workers at the Waste Repackaging and Processing facility (WRAP) since January 1, 2011, including, but not limited to, any "occurrence reports", laboratory or other tests to identify the contents of waste released or leaked, doses received or exposures to contaminants or hazardous substances."
2. "Notification of releases, leaks, spills or contamination to the Washington State Department of Ecology, U.S. Environmental Protection Agency, Coast Guard or any other regulator;"
3. "Any correspondence (including, but not limited to, letter(s), emails, phone call or meeting notes) to and/or from the Washington State Department of Ecology (Ecology) and/or Environmental Protection Agency (EPA) that report on building, unit or facility inspection(s) conducted pursuant to federal and state hazardous waste laws (RCRA and HWMA) for all buildings, units, storage areas where these wastes were at the time of the leak, spill, release and areas where they were previously stored."
4. "Identifying where, length of time, and how the waste was stored prior to storage or processing at the WRAP facility, including any inspection reports and occurrence reports for the area, building or unit where the waste was stored."
5. "All documents and records relating to a formal designation under Federal and State Hazardous Laws of wastes in the drums (or similar containers) that leaked, spilled or released."
6. "All occurrence reports, analysis of causes, and plans for response pertaining to the leak(s), spills or releases of waste at the WRAP facility; and, at the facility(ies) or buildings where the wastes were stored prior to being moved to WRAP."

7. "Permit conditions in effect for managing drums and containers of waste, for analyzing wastes, and for responding to leaks for the facility(ies) where the leak(s) occurred, and the facility(ies) where the waste was held prior to WRAP or such other facility or building(s) where releases, spills or leaks occurred. Please include all correspondence between USDOE and/or USDOE's contractors with the Washington Department Of Ecology and/or US EPA regarding compliance with permit conditions or drafting or new conditions based on inspections prompted by, or analyses of the causes of recent leaks, spills, releases."

8."All correspondence between the U.S. Department of Energy (USDOE), Ecology, EPA, and/or any of their contractors or agents, that concern to the storage of the waste by WRAP and or the facility(s) that stored the waste prior to WRAP, compliance with container management requirements under any permit or federal or state hazardous waste laws."

9. "All correspondence between USDOE, Ecology, and EPA, and or any of their contractors or agents concerning the leak(s), spills, releases or contamination incidents which occurred at the WRAP facility since January 1, 2011."

10. "Identifying the quantities and types of wastes stored and awaiting treatment or disposal at the Central Waste Complex (including identification-of any non-solid or liquid wastes), schedules for removal for treatment, and conditions or compliance schedules for meeting requirements of federal and state hazardous waste laws which limit the time period for storing wastes without treatment. This includes, but is not limited to, identification of the quantities of wastes stored in each building, area or unit; length of time stored; designations of wastes stored; permit or other conditions governing management of the wastes to ensure incompatible wastes are not stored; and, provisions for secondary containment."

This is a partial response. In response to item 2, this office has interpreted this item in light of item 1 for documents which covers the time period of January 1, 2001, to June 27, 2011. If our interpretation of your request is incorrect, please notify this office at the above address. We have conducted a thorough search for documents and the following documents are enclosed:

- CH2M HILL Plateau Remediation Company (CHPRC) to Washington State Department of Health (WDOH), Subject: 2336W PROCESSING AREA DIFFERENTIAL PRESSURE, dated February 21, 2011
- CHPRC to WDOH, Subject: TEMPORARY LOSS OF PROCESS AREA VENTILATION AT WRAP, dated March 14, 2011
- CHPRC to WDOH, Subject: WRAP 2404WB IDENTIFICATION OF RADIOACTIVE CONTAMINATION, dated April 28, 2011

- CHPRC to WDOH, Subject: RE: WRAP 2404WB IDENTIFICATION OF RADIOACTIVE CONTAMINATION, dated May 5, 2011
- CHPRC to WDOH, Subject: PLANNED OUTAGE FOR WRAP 2336-W AND SHUTDOWN OF THE PROCESS AREA EXHAUST SYSTEM, dated May 6, 2011
- CHPRC to WDOH, Subject: TEMPORARY LOSS OF VENTILATION AT VARIOUS LOCATIONS, dated May 16, 2011
- CHPRC to WDOH, Subject: RE: WRAP 2404WB IDENTIFICATION OF RADIOACTIVE CONTAMINATION, dated June 3, 2011
- Letter: U.S. Department of Energy, Richland Operations Office to Washington State Department of Ecology, Nuclear Waste Program, Subject: Notification of Inability to Perform Resource Conservation and Recovery Act Inspections of Container Stored in the 2404-WB Building at the Waste Receiving and Processing (WRAP) Facility, dated May 14, 2011.
- Letter: U.S. Department of Energy, Richland Operations Office to Washington State Department of Ecology, Nuclear Waste Program, Subject: Notification of Inability to Perform Resource Conservation and Recovery Act Inspections of Container Stored in the 2404-WB Building at the Waste Receiving and Processing (WRAP) Facility Have Resumed, dated June 8, 2011

In response to Item No. 7, enclosed is a copy of the Hanford Facilities RCRA Permit, Revision 8c and Attachment 9 identifying the WRAP Facility as under interim status awaiting final permit conditions from Ecology.

The "Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement)" identifying that the WRAP Facility is operated under interim status awaiting final status permit conditions from Ecology is publicly available on the Internet at: <http://www.hanford.gov/?page=82>

No documents were located regarding permit conditions or drafting of permit conditions based on the recent contained leak at the WRAP Facility.

We continue to search and review documents responsive to the remaining items of your request. We will provide you with appeal rights when your request has been complete.

Ms. Lidice O'Brien
