

DCFO Bean Counters... Donating Beans, and a lot MORE

The staff of the Deputy Chief Financial Officer (DCFO), in the Office of the Under Secretary of Defense (Comptroller), is actively supporting this year's Feds Feed Families food drive. The team filled and refilled collection boxes at DCFO offices in the Pentagon and Crystal City throughout the campaign.

For the month of June, DCFO's three offices sparked a friendly competition which, as conceived by bean counters, was driven by self-reported accounting metrics. Each office rated itself green, yellow, or red based on donations of items requested in the Office of Personnel Management's Most Wanted Items list.

For the month of July, DCFO Mr. Mark Easton challenged his team of 40+ accountants to fill a box at an All Hands meeting. The team filled not one, but two Feds Feed Families boxes. In recognition of its generosity, the boss will treat his staff to counting vanilla and cacao beans, in the form of ice cream, of course.

Great job, DCFO team!
