Hi Martha,

I am already the USGS liaison to the JAG, as you probably saw in the document. So I hesitate to tie you up in order to provide another USGS leadership liaison. However, this SDOT looks to be distinct from the JAG... maybe it is intended to provide someone there at the NIC HQ who knows what is going on? Let me call you to get a better feel for what you think the SDOT is all about.

I do suggest removing Catherine Cesnik from the list as a USGS representative.

Mark

I've been listed on the Subsurface Dispersed Oil group by default. I can participate but wondered if there was some else that should be designated to the group. Thanks
