STANDARD FORM 30 (REV. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

1. The following changes are hereby made to the contract:

A. Section J, Attachment J.13, Hanford Site Structures List, is revised as shown in Attachment 2 to this modification. This revision synchronizes the J.13 table in the PRC, MSA and TOC contracts by reflecting the changes already made on the PRC contract through modification 087, on the MSA contract through modification 052 and on the TOC contract as the contract was awarded. This update also revises the format of the table in all three contracts by reducing the number of columns to four (ID, Title, Area, and Contractor). The structure of Attachment 2 groups the revisions into three sections 1) structures that are retained but have changes in their ID, Title, Area or Owner, 2) structures that are deleted for various reasons (i.e. completed/dispositioned prior to September 2008, never built, leased, or private facilities), and 3) structures that are added. Structures that are listed as having dual ownership are currently in the process of changing from one responsible party to another and this change will be reflected in a future modification once that process is complete. A conformed copy of Attachment J.13 is included through Attachment 3 to this modification.

B. Section J, Attachment J.14, Hanford Waste Site Assignment, is revised as shown in Attachment 4 to this modification. This revision synchronizes the J.14 table in the PRC, MSA and TOC contracts by reflecting the changes already made on the PRC contract through modification 065, on the MSA contract through modification 052 and on the TOC contract as the contract was awarded. This update also revises the format of the table in all three contracts by reducing the number of columns to four (ID, Title, Area, and Contractor). The structure of Attachment 4 groups the revisions into two sections: 1) waste sites that are retained but have changes in their ID, Title, Area or Owner, and 2) waste sites that are added. A conformed copy of Attachment J.14 is included through Attachment 5 to this modification.

2. By signature on this modification, the Contractor agrees to the following Contractor's Statement of Release:

In consideration of the modifications agreed to herein as complete equitable adjustments for the Change Orders identified in item 1 above, the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to this change.
