Attachment J.2

Hardware and Software System Requirements

- a. The Contractor shall provide a DOD 5015.x compliant individual electronic file system for each open claim in addition to the paper file system. All claim files must be part of a single, orderly central computerized file storage system which includes the software and hardware. This system shall be used to receive, record, locate and sort all assigned claims and related data. Should the Contractor change the data base management system, the Contractor will be responsible for transferring all electronic and hardcopy data into the new system at no charge to DOE and prior to the initiation of the new system.
- b. The electronic system shall allow the Contractor the ability to access and sort the claims electronically by various criteria such as employer, claimant name, claim number, social security number, etc. The system shall be designed to provide the required reports (see section F) and other reports as requested by the Contracting Officer (CO) or Contracting Officer's Representative (COR). In addition, the system shall provide direct, continuous, and secure (https on standard port 443) web-based access to any and all information entered into its system that relates to Hanford Site claims under this Contract. DOE will use its in-house equipment and software to interface with the Contractor's system. DOE uses the following: Dell compatible personal computers, Microsoft Office XP Professional, Microsoft Internet Explorer v7, and Microsoft Office 2007. This computer access will exclude the capability for DOE or Hanford Site Contractor's to add, delete, and edit, in any way, Contractor's computer files and data. **NO ADDITIONAL CHARGES WILL BE ALLOWED FOR THE ABOVE ACCESS. THIS IS INCLUDED IN THE CONTRACT PRICE. NO ADDITIONAL USAGE CHARGES WILL BE PAID FOR CONNECTING TO OR TIME SPENT REVIEWING INFORMATION ON CONTRACTOR'S COMPUTER SYSTEM.**
- c. The electronic system must be accessible by covered Site Contractors' designees as well as by the COR. The COR shall identify the designees and approve access. The Contractor shall ensure that individual covered Hanford Site Contractors' designees only have access to those portions of the system containing information on the specific of their claims.
- d. The system shall meet all State and Federal Claims reporting requirements (e.g. the WSDL&I Self-Insurance Electronic Data Reporting System (SIEDRS), and the Medicare secondary payer reporting system). The Contractor's systems shall comply with future State and Federal legislation as enacted.
- e. This system must include an image process that allows the COR to view all claim documents via the web-based access.
- f. The system must be capable of securely transmitting sensitive data. Notwithstanding any other language in the Contract, email attachments, and any files transmitted or received electronically containing sensitive data will be encrypted. The encryption used must be either a FIPS 140-2 certified system or the current DOE encryption system. All parties will protect encryption keys from disclosure and misuse.
- g. The Contractor shall provide required software if the software necessary to read these reports is not already used by DOE.
- h. The Contractor shall coordinate and provide training as well as supplying a User Manual sufficient to enable all parties to operate the system effectively. Additional training date(s) shall be coordinated with the COR for any change or upgrades to the on-line system.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.24 per hour or \$129.60 per week or \$561.60 per month

VACATION: 2 weeks paid vacation after 1 year of service with a Contractor or successor; 3 weeks after 5 years, 4 weeks after 10 years, and 5 weeks after 20 years. Length of service includes the whole span of continuous service with the present Contractor or successor, wherever employed, and with the predecessor Contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. Contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY:

If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and

incendiary materials. All operations involving regarding and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this Contract (either by the terms of the Government Contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The Contractor or Sub-Contractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all Contractors and Sub-Contractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government Contract, by the Contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. Links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE
{ Standard Form
1444 (SF 1444) }

Conformance Process:

The Contracting Officer shall require that any class of service employee which is not listed herein and which is to be employed under the Contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the Contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications

Attachment J.3

and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the Contractor prior to the performance of Contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the Contract. {See Section 4.6 (C) (vi)} When multiple wage determinations are included in a Contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the Contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After Contract award, the Contractor prepares a written report listing in order of proposed classification title, a Federal grade equivalency (FGE) for each proposed classification, job description, and rationale for proposed wage rate, including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the Contracting Officer no later than 30 days after such unlisted class(es) of employees performs any Contract work.
- 3) The Contracting Officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the Contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency Contracting Officer, or notifies the Contracting Officer that additional time will be required to process the request.
- 5) The Contracting Officer transmits the Wage and Hour decision to the Contractor.
- 6) The Contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
