

The NewsRoom

Release: #3205

Date: November 22, 2004

**Hurricane Ivan Evacuation and Production Shut-in Statistics
as of Monday, November 22, 2004**

Due to the Thanksgiving Holiday on Thursday, the next report will be issued Monday, November 29, 2004 at 1:00 pm CDT.

This survey is reflective of 18 companies' reports as of 11:30 a.m. Central Time.

Districts	Lake Jackson	Lake Charles	Lafayette	Houma	New Orleans	Total
Platforms Evacuated	0	0	0	0	9	9
Rigs Evacuated	0	0	0	0	1	1
Oil, BOPD Shut-in	0	0	0	1,532	194,690	196,222**
Gas, MMCF/D Shut-In	0	0	0	11.56	666.91	678.47**

**Shut-in production rates do not include production lost due to the destroyed platforms.

These evacuations are equivalent to 1.18% of 764 manned platforms and 0.85% of 117 rigs currently operating in the GOM.

This shut-in oil production is equivalent to 11.54% of daily production of oil in GOM, which is approximately 1.7 million BOPD. The 196,222 barrels per day that is currently shut-in is approximately 0.99% of the 19.7 million barrels consumed in the U.S. each day.

This shut-in gas production is equivalent to 5.52% of the daily production of gas in the GOM, which is approximately 12.3 BCFPD. The 678.47 MMCF per day that is currently shut-in is approximately 1.13% of the 60.184 BCF consumed in the U.S. each day.

The cumulative shut-in oil production for the period 9/11/04-11/22/04 is 31,092,939 bbls, which is equivalent to 5.172% of the yearly production of oil in the GOM which is approximately 605 million barrels.

The cumulative shut-in gas production 9/11/04-11/22/04 is 125.055 BCF, which is equivalent to 2.810% of the yearly production of gas in the GOM which is approximately 4.45 TCF.

These cumulative numbers reflect updated production numbers from all previous reports. The reports only represent input received by 11:30 a.m. CDT. If a

company does not report by 11:30 a.m. it is not included in the special information release, but it is included in the cumulative shut-in production. This may result in an apparent increase in the cumulative report amount.

The Minerals Management Service is the federal agency in the U.S. Department of the Interior that manages the nation's oil, natural gas, and other mineral resources on the Outer Continental Shelf in Federal offshore waters. The agency also collects, accounts for, and disburses mineral revenues from Federal and American Indian lands. MMS disbursed more than \$8 billion in FY 2003 and more than \$143 billion since the agency was created in 1982. Nearly \$1 billion from those revenues go into the Land and Water Conservation Fund annually for the acquisition and development of state and Federal park and recreation lands.
