

Just-in-time logistics

In peacetime or wartime, the Defense Medical Logistics Standard Support [DMLSS] delivers an automated and integrated information system with a comprehensive range of medical materiel, equipment, war reserve materiel and facilities management functions for the Department of Defense Military Health System.

Product Features

- Allows users to select and order the best value item required
- Maintains medical and facility maintenance records along with work order history
- Implements just-in-time logistics, eliminating the need to maintain large pharmaceutical and medical/surgical inventories at the wholesale level

Benefits to the Military Health System

- Standardizes medical logistics management among the military services
- Reduces the time healthcare providers and health professionals spend on logistics planning and management
- Improves the effectiveness, efficiency and quality of healthcare delivery
