VI. Procedural Determinations

I. Background on the Maryland Program

On February 18, 1982, the Secretary of the Interior approved the Maryland program. You can find background information on the Maryland program, including the Secretary's findings, the disposition of comments, and the conditions of approval in the February 18, 1982, **Federal Register** (47 FR 7214). You can find subsequent actions concerning conditions of approval and program amendments at 30 CFR 920.12, 920.15, and 920.16.

II. Submission of the Amendment

By letter dated July 10, 2000 (Administrative Record No. MD-582-00), Maryland submitted the proposed amendment to its regulatory program pursuant to the federal regulations at 30 CFR 732.17(b). Maryland proposed the amendment to make its program no less effective than the federal regulations at 30 CFR 707.5, 707.10, 874.10, and 874.17. These sections of the federal regulations describe procedures for financing abandoned mine land reclamation projects that involve the incidental extraction of coal. Maryland proposed to change the definition of the term, "Government-Financed Construction" at Code of Maryland Regulation (COMAR) 26.20.12.02 B(1)(a) by adding the phrase, "Funding at less than 50 percent may qualify if the construction is undertaken as an approved reclamation project under Environment Article, Title 15, Subtitle 11 Annotated Code of Maryland and 30 CFR Subchapter R."

Maryland also added new section .04 to COMAR 26.20.12. This section is titled, "Government Funded Reclamation Projects." The proposed rulemaking was published in the August 14, 2000, **Federal Register** (65 FR 49524). The public comment period closed on September 13, 2000. No one requested an opportunity to speak at a public hearing, so no hearing was held.
