US Army Corps of Engineers  
Antilles Office  
400 Avenida Fernandez Juncos  
San Juan, Puerto Rico 00901-3223

Dear **Exemption (b)(6)**:

Eng. Daniel Pagan was recently advised by Casa Pueblo representatives that they had submitted to the U.S. Army Corps of Engineers a series of Biological Studies related to the Via Verde project. The Puerto Rico Electric Power Authority (PREPA) would appreciate it if a copy of all Biological Studies presented by Casa Pueblo, or any other group opposed to the Via Verde project, would be provided to PREPA for review and response.

If it is possible to provide this information in digital format it would expedite the review. The information can be sent directly to Eng. Pagan at his email address, [daniel\\_paganrosa@yahoo.com](mailto:daniel_paganrosa@yahoo.com). If the information cannot be provided electronically, please send a hard copy of the documents to:

PREPA  
ATTN: Ivelisse Sanchez-Soultaire  
7<sup>th</sup> Floor  
1101 Avenida Juan Ponce de Leon  
San Juan, Puerto Rico 00901

You may also call Eng. Pagan (787-382-7330) if it would be more convenient for the documents to be picked up at the Antilles Office.

If no Biological Studies were provided by Casa Pueblo, or any other group, in response to the Public Notice issued for the Via Verde project, please advise PREPA of that fact.

Best regards.
