Administration**

Office of Airport Safety  
and Standards

800 Independence Ave., SW.  
Washington, DC 20591

February 22, 2011

Dear Airfield Lighting Stakeholders:

Federal Aviation Administration (FAA) Draft Engineering Brief 84, **Secure Remote Access for ALCMS**, is being circulated to interested parties to obtain comments and recommendations.

Please review this draft and submit comments as appropriate. Comments should be submitted in a separate document and not embedded in the draft Engineering Brief. Additionally, please provide justification for all comments about oppositions with recommended modifications.

Comments received by **April 8, 2011**, will be considered for inclusion in the Engineering Brief. This Engineering Brief contains guidance on the use of virtual private network (VPN) technology for secure remote maintenance and monitoring of airport lighting control management systems.

The Draft Engineering Brief can be found on the FAA website at [http://www.faa.gov/airports/engineering/engineering\\_briefs/](http://www.faa.gov/airports/engineering/engineering_briefs/)

Sincerely,

A handwritten signature in cursive script that reads "Paul L. Friedman".

Paul Friedman  
Acting Manager, Airport Engineering Division
