

Dear National Fire Academy Student:

Congratulations on being accepted into the U.S. Fire Administration/National Fire Academy's (USFA/NFA's) *Youth Firesetting Prevention and Intervention* (YFPI) course. The purpose of the course is to provide you with the knowledge and skills necessary to identify children and adolescents involved in firesetting and how to establish programs to meet their needs. The course framework guides practitioners through the process of developing a comprehensive strategy to combat the misuse of fire and incendiary devices by youths.

Course units include

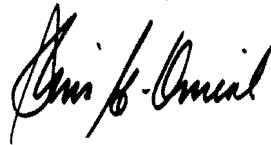

- **National Fire Protection Association (NFPA) 1035, *Standard for Professional Qualifications for Fire and Life Safety Educator***--Examination of the roles and responsibilities of the Juvenile Firesetter Intervention Specialist I and II.
- **The Extent of the Problem**--Examine data on youth firesetting; discuss national trends and the use of incendiary devices by adolescents.
- **Who Sets Fires and Why**--Research on motivations and classifications of children and adolescents who set fires.
- **Identification, Intake, and Screening**--Procedures for identifying children and adolescents involved in firesetting, how to collect background information on the juvenile and family regarding the incident, and how to conduct an effective interview.
- **Abraxas Youth Center**--Visit a residential firesetting treatment center for male adolescents and have the opportunity to interview the residents.
- **Intervention Strategies**--Various intervention strategies will be discussed with emphasis on the components of an effective educational intervention.
- **Program Development**--Administrative functions and procedures, partners, and resources will be discussed.
- **Program Evaluation**--How to develop an evaluation plan to measure effectiveness of your program.

It is important to note that this is a 6-day course, and the first day of class begins on Sunday at 8 a.m. Classes meet daily from 8 a.m. to approximately 5 p.m. with graduation scheduled on Friday at 4 p.m. You will be provided lodging for Friday night.

Attached is the precourse assignment which is a prerequisite for attending this course. You are to email a **copy of the completed checklist** to Mary Marchone at [mary.marchone@fema.dhs.gov](mailto:mary.marchone@fema.dhs.gov). This document must be sent no later than 1 week prior to the course. You are to bring the completed assignment with you to class.

Should you need additional information related to the course content or requirements, please feel free to contact Ms. Mary Marchone, Fire Prevention Management Curriculum Training Specialist, at (301) 447-1476 or email at [mary.marchone@fema.dhs.gov](mailto:mary.marchone@fema.dhs.gov)

Sincerely,

A handwritten signature in black ink, appearing to read "Denis Onieal". The signature is written in a cursive style with a large initial "D".

Dr. Denis Onieal, Superintendent  
National Fire Academy  
U.S. Fire Administration

August 2012

***YOUTH FIRESETTING PREVENTION AND  
INTERVENTION***

**PRECOURSE ASSIGNMENT**

## **Introduction**

Welcome to the National Fire Academy's (NFA's) *Youth Firesetting Prevention and Intervention* (YFPI) course. This course will empower you with understanding the motivations behind youth firesetting behaviors, factors that may influence its occurrence, and strategies for intervention. It will also provide guidance on developing or expanding a youth firesetting prevention and intervention program.

Whether or not your community currently has a youth firesetting prevention and intervention program, an important prerequisite **before** you come to NFA is to explore the past history, current experience, and projected future impact of youth firesetting at the local level. This task will require you to examine local community demographics, fire experience history, and what your department and community have done to prevent and address youth firesetting behaviors. Investing the time to do this task will prepare you for a successful NFA experience. You will continue to use this information after your departure from NFA; most specifically, as you process the YFPI culminating assignment that calls for producing a plan to create a youth firesetting prevention and intervention program in your community.

You do not have to do the precourse assignment by yourself. NFA encourages you to get other members of your organization and the community involved in the process. The task of gathering data relating to youth firesetting can sometimes be a challenging process.

The most effective youth firesetting prevention/intervention programs use a collaborative approach that involves the fire department, juvenile justice (law enforcement) officials, schools, parents, social services, mental health providers, and other support services from the community. That said, if you are not sure where or how to get the information for the precourse assignment, ask other people or agencies for help.

Also, content presented in the YFPI course closely corresponds with National Fire Protection Association (NFPA) 1035, *Standard for Professional Qualifications for Public Fire and Life Safety Educator*. There is a section of NFPA 1035 that incorporates the Job Performance Requirements (JPRs) expected of a Level I and II Youth Firesetting and Intervention Specialist. If your department is a member of NFPA, please obtain a copy of NFPA 1035 and review it prior to initiating this precourse assignment.

**There are five sections of the precourse assignment**

**Part 1.** Assessment of community demographics.

**Part 2.** Assessment of your local youth firesetting problem.

**Part 3.**

- Study of your departmental mission statement.
- If you have a program, study of your youth firesetting prevention and intervention program mission statement.
- Investigation of your State's fire/arson laws.
- Examination of your State's *Age of Accountability* Law.
- If you have a program, documentation of standard operating procedures (SOPs).
- If you have a program, bringing copies of the youth firesetting intake and screening forms.

**Part 4.** Exploration of your department's fire safety programs that help prevent youth firesetting behaviors.

**Part 5.** Completion and submission of the precourse assignment checklist.

(Note: This document must be submitted to NFA no later than a week prior to the YFPI course.)

Since sections one and two of the precourse assignment will likely require the most research, you should begin working on collecting the information as soon as possible. The other sections of the assignment can be completed in whatever order works best for you.

## PART 1: ASSESSMENT OF COMMUNITY DEMOGRAPHICS

**Information from this section will be used throughout the YFPI course.**

### Introduction

The National Fire Academy is an institution of higher education dedicated to serving the emergency services. Many NFA courses require completing a pre-course assignment. The purpose of this requirement is so you come to the academy with baseline information that can be utilized to enhance your learning experience and create an action plan to apply in your home community.

A core component of most precourse assignments includes a community risk assessment of the service area you are responsible for. This assessment entails locating, collecting, and evaluating both people and problem-related data. This tutorial provides an introduction of how to gather both. Let's start with people-related data.

### People-related Data

People-related data can create a demographic profile of your community. In addition to showing where people live, it can identify how they live. A good profile will explain the social, cultural, and economic composition of the area you protect.

One of the most reliable sources of demographic information is the U.S. Census Bureau. Data for the Decennial Census is collected by the Bureau every ten years. Data from the Decennial Census is utilized to determine congressional districts. The Decennial Census seeks to determine the *number of people* who live in a community.

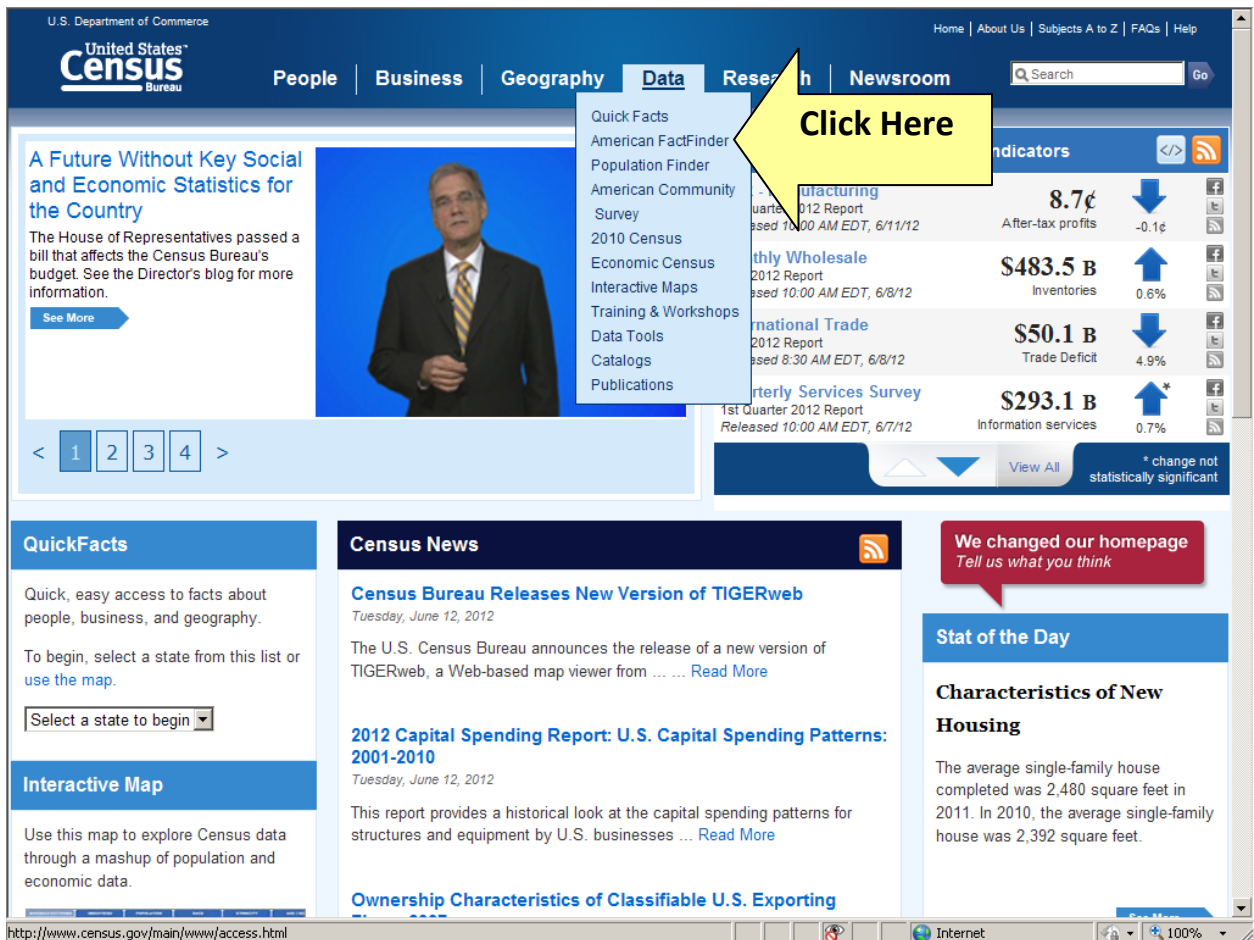

A second type of census, the American Community Survey (ACS), is as an on-going task of the Bureau. The American Community Survey is mailed to over three million U.S. residents annually. The Bureau's goal is to survey each U.S. resident every seven years to create demographic profiles of local communities. ACS data is important to risk reduction specialists because it provides information about *where and how* people live.

Data from the American Community Survey is available to the public through the American FactFinder database. FactFinder is an important tool for risk reduction practitioners because it allows us to explore demographic data both community-wide and by census tracts. Census tracts are defined geographical areas within a city, town, county, or village. Each tract carries a numerical identification.

Census bureau data is collected and analyzed by trained professionals. It is made available for public use through the Bureau's website. Part One of this tutorial will show you how to use the Bureau's site.

**Use American FactFinder**

1. To get started, go to the Bureau's website located at [www.census.gov](http://www.census.gov). Once you are there, you should see a screen that looks like the one displayed in the screen shot shown below. Go to the Data section on the top of the Census Bureau's home page. Click on the **American FactFinder** link.

2. Upon arriving at the FactFinder site, you should see the screen displayed below. Enter the name of your community (city or county – plus the state); then hit Go.

The screenshot shows the American FactFinder website interface. At the top, the U.S. Census Bureau logo is visible. Below it, the 'FactFinder' logo is prominently displayed. A navigation bar includes links for 'MAIN', 'SEARCH', 'WHAT WE PROVIDE', and 'USING FACTFINDER'. On the right side of the navigation bar, there are links for 'Feedback', 'FAQs', 'Glossary', and 'Help', along with language options for 'English' and 'Español'.

The main content area is divided into several sections:

- Your Selections:** A box indicating that no selections have been made.
- Search using the options below:** A list of search criteria including Topics, Geographies, Race and Ethnic Groups, and Industry Codes.
- Quick Start:** A search input field with a 'GO' button. The input field contains the placeholder text 'Your Community Here'. Below the input field are radio buttons for 'topics', 'race/ancestry', and 'industries'.
- Address Search:** A section for finding data by street address.
- Reference Maps:** A section for viewing geographic boundaries.
- Load Query:** A section for restoring a previously saved query.
- News and Notes:** A section displaying recent news items, such as 'The 2006-2010 American Community Survey (ACS) Selected Population Tables (SPT) are now available for the U.S., states, the District of Columbia, Puerto Rico and many smaller geographic areas...'.

A yellow callout box with a black border points to the search input field. The text inside the callout box reads: 'Enter name and then click here'.

- For the sake of this tutorial, we entered Hagerstown, Maryland as the example community. The following series of screen shots will walk you through the various types of demographical data that is available about a community at-large.

We will begin by examining data from the Decennial Census and then ascend to data from the American Community Survey.

The screenshot shows the U.S. Census Bureau FactFinder interface. The search results are for 'Hagerstown city, Maryland'. The 'Community Facts' section is expanded to show '2010 Census' data, including 'Population, Age, Sex, Race, Households and Housing ...'. A yellow callout box with a black border and arrow points to this section, containing the text 'Click Here for Decennial Data'. Below the callout, the 'American Community Survey' section is also visible, listing various demographic and economic indicators. The search results table at the bottom lists 9,137 tables, with the first few rows showing demographic profiles and social characteristics data for 2010.

ID	Table, File or Document Title	Dataset	About
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 Demographic Profile SF	<a href="#">i</a>
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 SF2 100% Data	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 3-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 3-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>

- The screen shot displayed below represents only a small portion of what is available pertinent to the 2010 Decennial Census. Be sure to scroll down and see all of the data available on both people and housing characteristics.

**When ready to return to return to the previous screen, click here.**

**Scroll down for more data.**

Subject	Number	Percent
<b>SEX AND AGE</b>		
Total population	39,662	100.0
Under 5 years	3,432	8.7
5 to 9 years	2,876	7.3
10 to 14 years	2,511	6.3
15 to 19 years	2,403	6.1
20 to 24 years	2,718	6.9
25 to 29 years	3,227	8.1
30 to 34 years	2,888	7.3
35 to 39 years	2,566	6.5
40 to 44 years	2,645	6.7
45 to 49 years	2,762	7.0
50 to 54 years	2,610	6.6
55 to 59 years	2,217	5.6
60 to 64 years	1,919	4.8
65 to 69 years	1,333	3.4
70 to 74 years	1,073	2.7
75 to 79 years	874	2.2

Upon completing the exploration of general census data, go to the top of the screen and click on the Back to Search function.

- Next, click on each of the four sections that display data from the American Community Survey. The Census Bureau strives to update this data on an on-going basis. Each section will help you build an overall profile of your community at-large.

The screenshot shows the American FactFinder interface. On the left, there are navigation menus for 'Your Selections', 'Topics', 'Geographies', 'Race and Ethnic Groups', and 'Industry Codes'. The main content area displays 'Community Facts' for 'Hagerstown city, Maryland', including sections for '2010 Census' and 'American Community Survey'. A yellow arrow points to the 'American Community Survey' section with the text 'Explore all four of these sections.' Below the navigation is a search results table.

ID	Table, File or Document Title	Dataset	About
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 Demographic Profile SF	<a href="#">i</a>
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 SF2 100% Data	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 3-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 3-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>

Note – a smart strategy is to print a hard copy of each section so you can examine and compare all of the data.

- Now that you have developed a demographic profile of your community at-large, the next step is to learn how to find data on specific geographical areas known as census tracts. Let's go back to the example on Hagerstown, Maryland. Locate the Geography category located on the left side of the screen and click it.

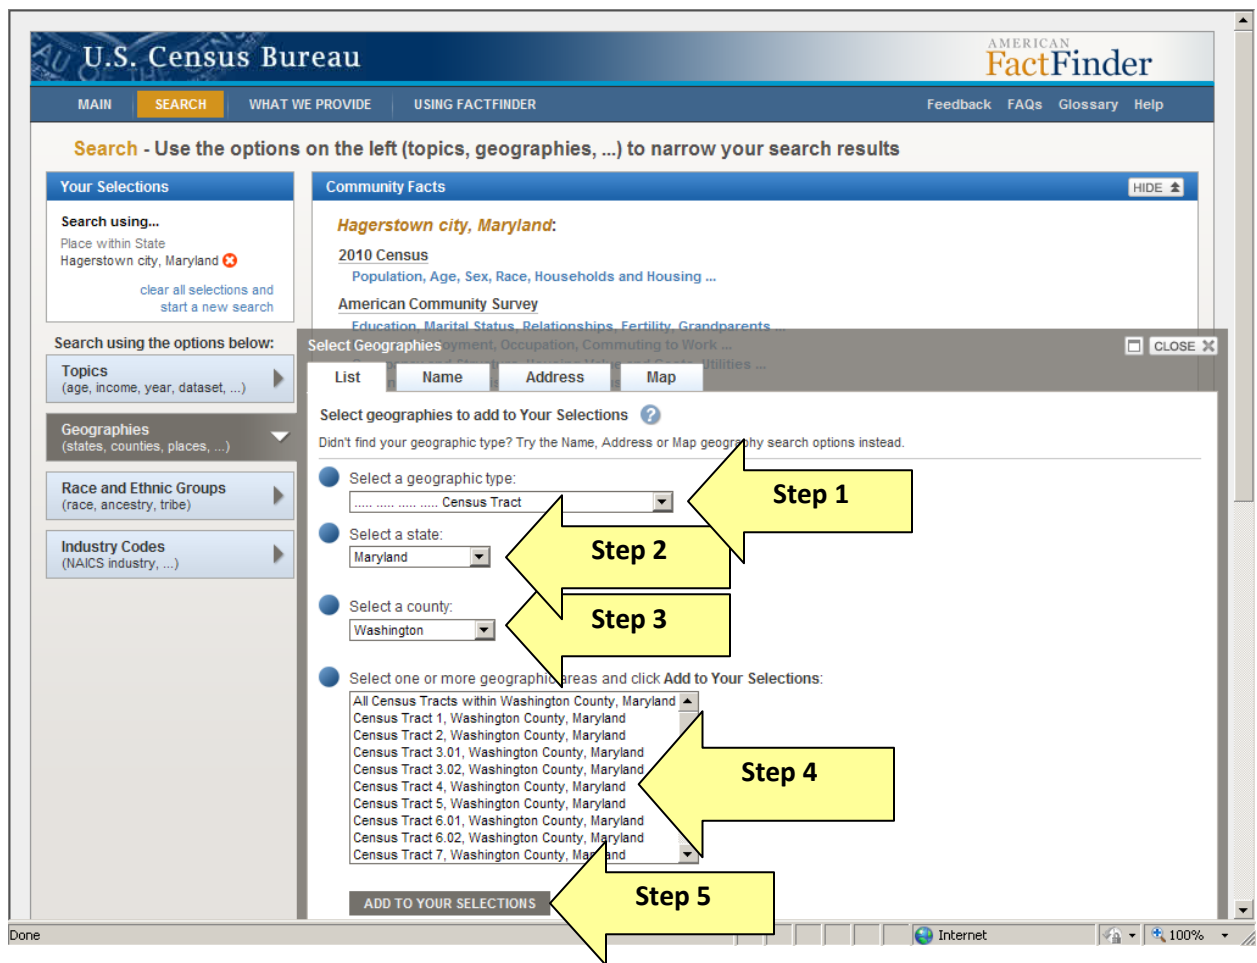

The screenshot shows the American FactFinder interface. On the left sidebar, under 'Search using the options below:', the 'Geographies' filter is highlighted with a yellow arrow and the text 'Click Here'. The main content area shows search results for 'Hagerstown city, Maryland', including sections for '2010 Census' and 'American Community Survey'. Below the search results, there is a table of datasets.

ID	Table, File or Document Title	Dataset	About
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 Demographic Profile SF	<a href="#">i</a>
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 SF2 100% Data	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 3-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 3-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>

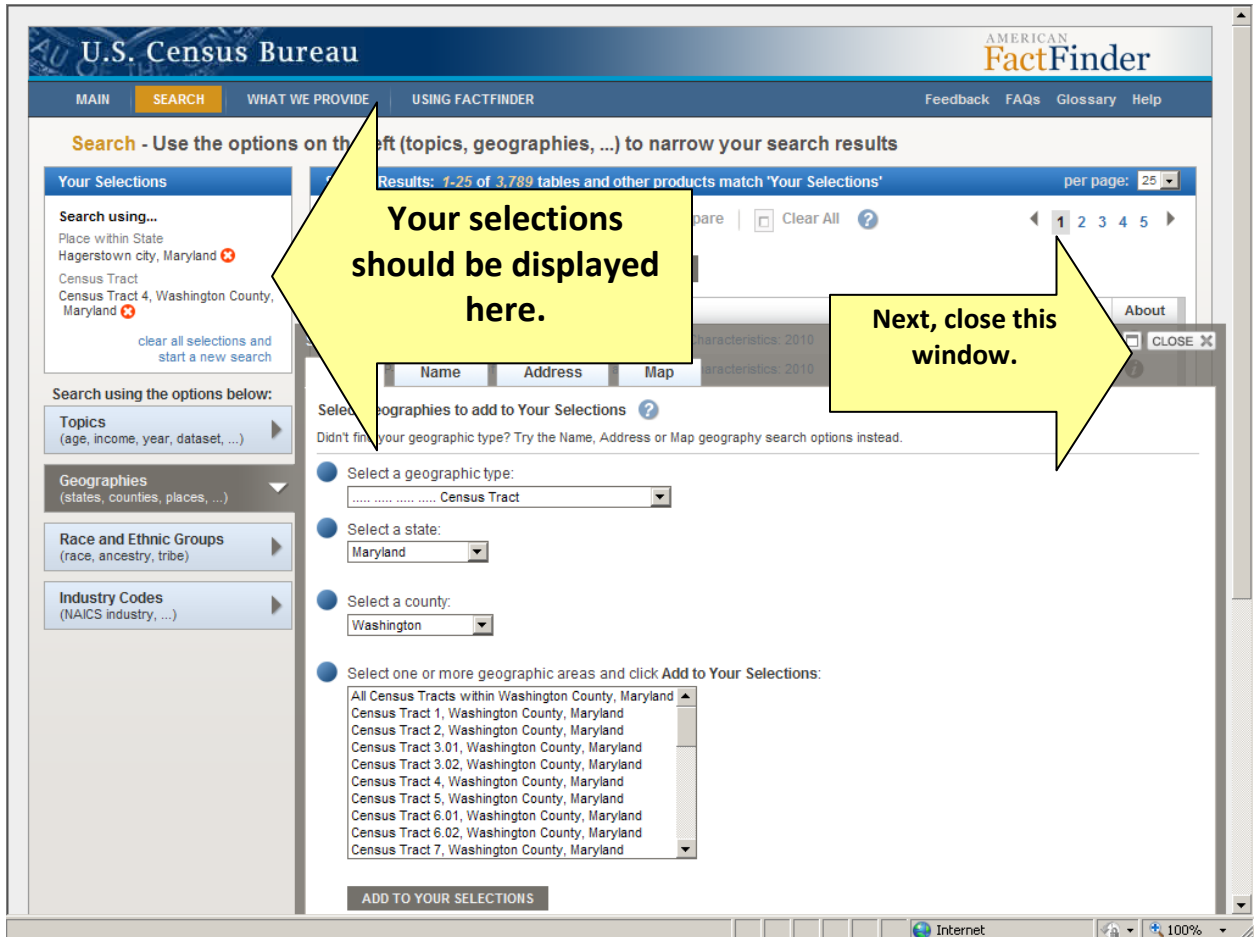

7. When the screen that is displayed below appears, perform a three-step process:
  - Step 1 – Locate the geographic type, click on it, and select Census Tract.
  - Step 2 – Select your state.
  - Step 3 – Select your county.
  - Step 4 – Select the census tract you wish to explore.
  - Step 5 – Click on Add to Your Selections

The field with census tracts for your county will become populated. You now have the option to explore your community by census tract. For this example, we will examine Census Tract 4 in Washington County, Maryland.

Note – you will need to know which census tract corresponds to the area of your community that you wish to explore. All census tracts in your entire county will be available for exploration.

8. If you have done the process correctly, you will see your city and census tract displayed in the Your Selections section.  
Next, close the overlay screen that offers census tract options.

9. You should now see a screen that displays the data specific to the census tract you selected. In our case, it is for Census Tract 4 in Hagerstown, Maryland. Each specific category of data can now be explored by census tract. For this example, we will select the Profile of General Population and Housing Characteristics 2010.

Note – the selections that reference “United States” allow you to compare the census data with national statistics. Your local data will not have a “United States” reference.

The screenshot shows the American FactFinder interface. The search criteria are: Place within State: Hagerstown city, Maryland; Census Tract: Census Tract 4, Washington County, Maryland. The search results list 25 items, with the first item being the 'Profile of General Population and Housing Characteristics: 2010' for DP-1. A yellow arrow points to this first result with the text 'Click Here'.

ID	Table, File or Document Title	Year	About
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP03	SELECTED ECONOMIC CHARACTERISTICS	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>
<input type="checkbox"/> DP04	SELECTED HOUSING CHARACTERISTICS	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> DP04	SELECTED HOUSING CHARACTERISTICS	2010 ACS 5-year Selected Population Tables	<a href="#">i</a>
<input type="checkbox"/> DP05	ACS DEMOGRAPHIC AND HOUSING ESTIMATES	2010 ACS 5-year estimates	<a href="#">i</a>
<input type="checkbox"/> QT-H1	General Housing Characteristics: 2010	2010 SF1 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-H2	Tenure, Household Size, and Age of Householder: 2010	2010 SF1 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-H2	Tenure, Household Size, and Age of Householder: 2010	2010 SF2 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-H3	Household Population and Household Type by Tenure: 2010	2010 SF1 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-H3	Household Population and Household Type by Tenure: 2010	2010 SF2 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-P1	Age Groups and Sex: 2010	2010 SF1 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-P1	Age Groups and Sex: 2010	2010 SF2 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-P10	Hispanic or Latino by Type: 2010	2010 SF1 100% Data	<a href="#">i</a>
<input type="checkbox"/> QT-P11	Households and Families: 2010	2010 SF1 100% Data	<a href="#">i</a>

10. You now have data for the specific census tract requested.

The screenshot shows the U.S. Census Bureau FactFinder interface. The page title is "Profile of General Population and Housing Characteristics: 2010" and "2010 Demographic Profile Data". The Geography is set to "Census Tract 4, Washington County, Maryland". A table displays demographic data for various age groups. A yellow callout box points to the Geography dropdown menu with the text: "If the census tract you are seeking is not displayed here, click on the drop-down menu to locate and enter it."

Subject	Number	Rate
<b>SEX AND AGE</b>		
Total population	2,189	
Under 5 years	173	7.9
5 to 9 years	134	6.1
10 to 14 years	120	5.5
15 to 19 years	140	6.4
20 to 24 years	143	6.5
25 to 29 years	152	6.9
30 to 34 years	155	7.1
35 to 39 years	134	6.1
40 to 44 years	173	7.9
45 to 49 years	180	8.2
50 to 54 years	195	8.9
55 to 59 years	150	6.9
60 to 64 years	127	5.8
65 to 69 years	76	3.5
70 to 74 years	43	2.0
75 to 79 years	40	1.8

Note – if the census tract is not displayed in the Geography window, simply click on the drop-down menu to locate and enter it.

Special Section – Building a Map of Census Tracts

If you don't know the numerical designations of the census tracts in your community, you can build a map to identify them. Here's how:

Step 1 – Return to the Community Facts screen for your community.

Step 2 – Click on the Geographies feature.

Step 3 – Locate the Map feature on the Select Geographies menu and click on it.

The screenshot shows the American FactFinder website interface. The main content area displays 'Community Facts' for 'Hagerstown city, Maryland: 2010 Census'. A yellow callout box points to this area with the text 'Step 1 – Be sure you are back to this page.' On the left sidebar, the 'Geographies' menu is expanded, and a yellow callout box points to it with the text 'Step 2 – Click Here'. A 'Select Geographies' dialog box is open in the foreground, showing options for 'List', 'Name', 'Address', and 'Map'. A yellow callout box points to the 'Map' button with the text 'Step 3 – Click Here'. Below the dialog box, a table of datasets is visible.

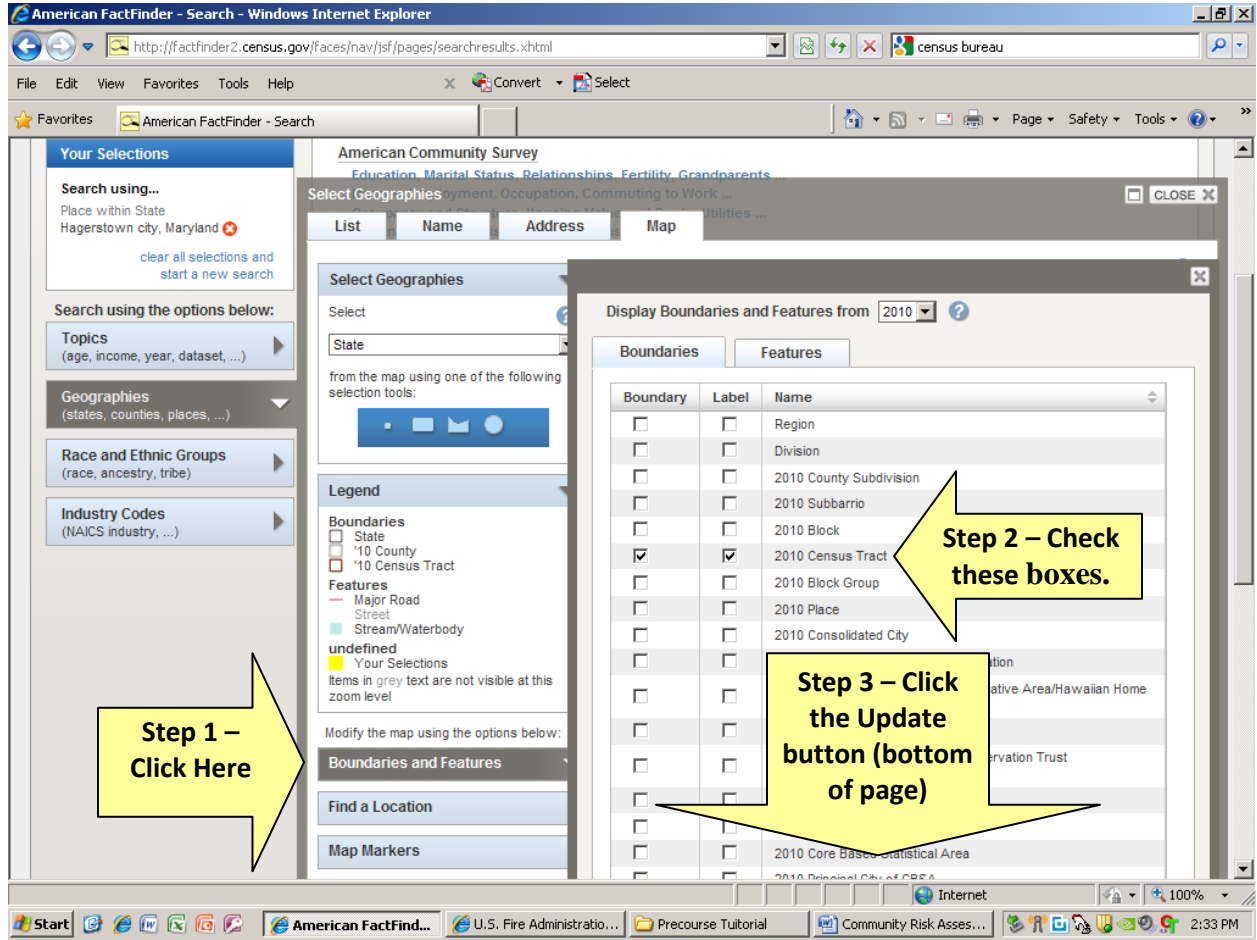

ID	Table, File or Document Title	Dataset	About
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 Demographic Profile SF	<a href="#">?</a>
<input type="checkbox"/> DP-1	Profile of General Population and Housing Characteristics: 2010	2010 SF2 100% Data	<a href="#">?</a>
<input type="checkbox"/> DP02	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 3-year estimates	<a href="#">?</a>
<input type="checkbox"/> DP03	SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES	2010 ACS 5-year estimates	<a href="#">?</a>

You should now have the screen displayed below.

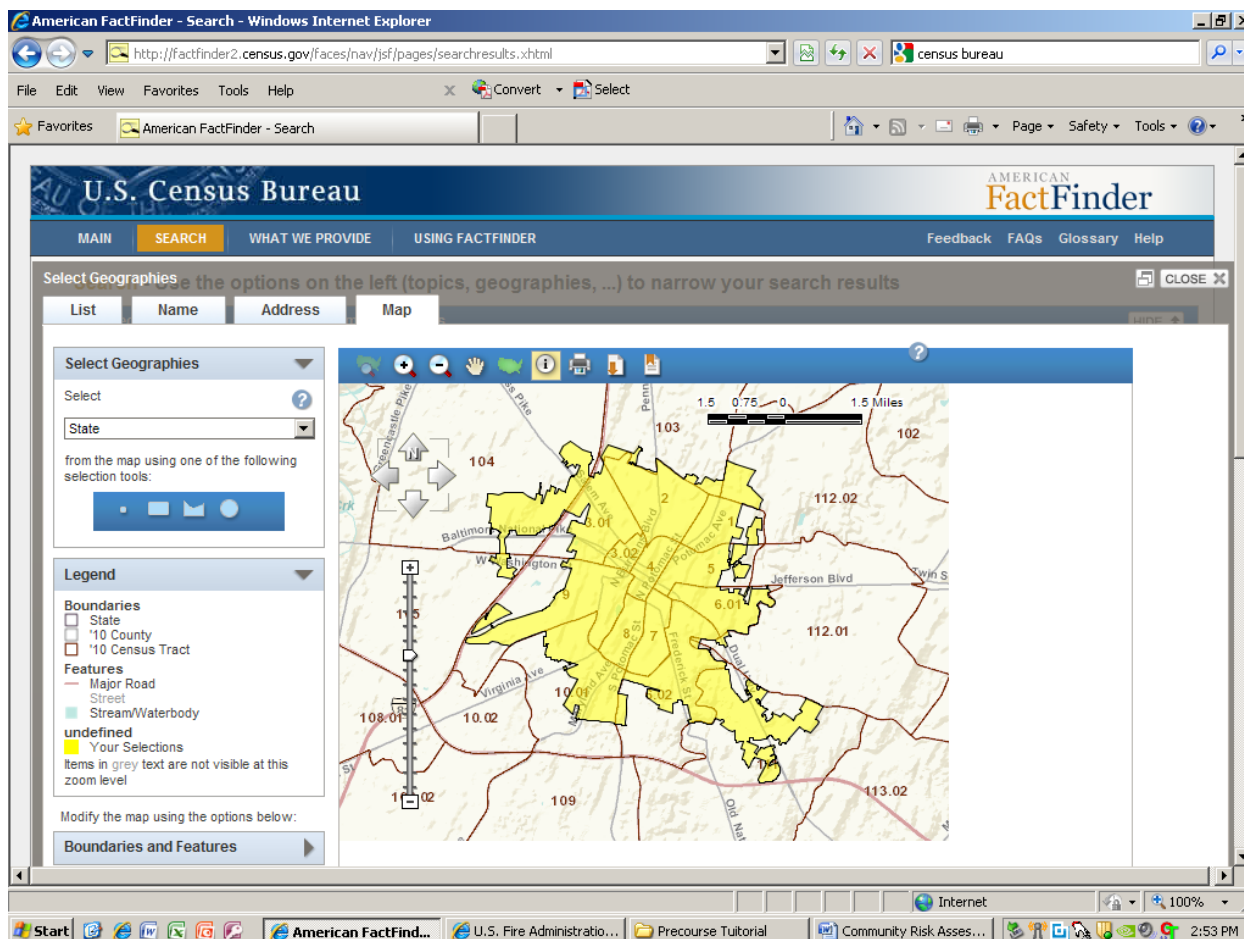

Step 1 – Locate the Boundaries and Features category and click on it.

Step 2 – Once the Boundaries and Features are displayed, click on both boxes for census tracts.

Step 3 – Click the Update button at the bottom of the screen. Note – this is not visible on the screen shot below.

Your map with census tracts should appear. You may also print this map.

### Summary of People-related Data

While the process of gathering data from the U.S. Census Bureau may appear intimidating at first, it is a task easily mastered with experience. Each time you work with the Bureau's database, the process will get easier.

The census bureau data analysis tools are very powerful instruments that can provide you with a wealth of information about the demographics of your local community. As more resources become available, the bureau plans to incorporate enhanced capabilities that will allow communities to integrate Geographic Information System (GIS) tracking/mapping with local demographics.

### Problem-related Data

Data on fire experience in the U.S. is available through the United States Fire Administration (USFA). USFA began the National Fire Incident Reporting System (NFIRS) in 1975. Under NFIRS, local fire departments forward fire incident data to a state coordinator. The coordinator collates statewide fire incident data and reports information to the USFA.

The following is an overview of how to obtain and review NFIRS data for your local community.

1. Obtain an NFIRS Account.
  - a. Request an NFIRS account from the person in your department responsible for NFIRS reporting. Your state NFIRS program manager or your local NFIRS person with an account with system administration permission assigns accounts. The NFIRS Support Center at the United States Fire Administration can provide you with the contact information of your state NFIRS program manager. Call (888) 382-3827 from 8:30 a.m. ET to 4:30 p.m. ET or email [FEMA-NFIRSHelp@fema.dhs.gov](mailto:FEMA-NFIRSHelp@fema.dhs.gov).
  - b. Your NFIRS account needs only the following four permissions: Startup, Report Submit, Report Fetch, and Report Generate.

2. Log in the NFIRS Summary Output Reports Tool (a.k.a. SORT).

- a. Go to the following website: [www.nfirs.fema.gov](http://www.nfirs.fema.gov).
- b. Select Web-based Tools from the menu bar.

3. Select Summary Output Reports Tool from the Web-based Tools menu.

### Web-based Tools

Web-based Tools section. General Information about the below.

---

#### NFIRS 5.0 Web-based Tools

New web-based tools which provide reporting and data transmission capabilities through the use of standard Internet technology are now being offered to State Program Managers participating in the USFA NFIRS 5.0. Following the test period of each tool, a phased approach for its release and implementation allows State Program Managers to review system requirements and plan their state's user participation.

If State Program Managers choose to do so, they may assign to selected users in their state the necessary permission for one or more of the new web-based tools. The user must have an activated NFIRS 5.0 User account with necessary permissions assigned for the tool use or action.

Using the web-based NFIRS 5.0 Tools requires Internet connectivity, a browser version and PC that meets necessary system requirements as outlined for each tool on its information page.

Report Name	Report Description	Report Category	Sample Report
<a href="#">Civilian Casualties</a>	The Civilian Casualties report summarizes the user's choice of either injuries or fatalities involving civilians. The report breaks down the numbers into five graphs: by property use, by incident type, total injuries, fire incidents, and non-fire incidents. The last three graphs are grouped using a user-chosen time period including the day of the week, day of the month, the hour of the day, month of the year, quarter of the year, week of the month, or week of the year.	Casualty Reports	
<a href="#">Data Inventory By FDID</a>	The Data Inventory by FDID report summarizes incident data within a given alarm date range by presenting a table for each selected fire department that provides counts of various incident modules broken down by incident validity, original incident data version, and incident publication state.	Fire Reports	
<a href="#">Data Quality</a>	The Data Quality report quantifies the quality of reported incidents as a total number and percentage of the presence of key fields on various modules such as the Basic Module, Fire Module, and Apparatus Module.	Management Reports	
<a href="#">Detailed Selected Statistics</a>	The Detailed Selected Statistics report summarizes incidents by the presence and frequency of a particular coded field as chosen by the user (such as the Cause of Ignition field on the Fire Module). Additionally, the user may add ad hoc filters to further narrow the incidents included. The results include the frequency, frequency percentage, number of exposures, average number of EMS and suppression personnel and apparatus, average man hours, total man hours, and average response time.	Management Reports	
<a href="#">FDID Incident Type Summary</a>	The FDID Incident Type Summary report summarizes counts of incidents by incident type (incident type in the 100s, 200s, 300s, etc., U [Undetermined - 4.1 conversion], or none) and total incidents for each FDID chosen by the user. A total for all FDIDs included is given at the end of the report.	Incident by FDID Reports

Note – for the sake of this tutorial, we will be focusing on how to create and print the following reports: Summary by Incident Types, Tally, and Residential Structure Fire Causes.

7. Select the Summary by Incident Type report from Available Reports.

<a href="#">Residential Structure Fire Causes</a>	The Residential Structure Fire Incidents by Fire Cause Category report summarizes fire incidents in residential structures. The rows of the report are broken down by computed cause code/categories. The information summarized includes the count and percentage frequency of each cause code, the count and percentage of both civilian and fire fighter injuries and casualties, and the count and percentage of property, contents, and total loss. The computed cause codes include such categories as smoking, heating, and cooking.	Fire Reports	
<a href="#">Structure Fire Causes</a>	The Structure Fire Causes report summarizes structure fires by cause. The cause code may be either fire cause or priority cause category. Optionally, the results can summarized by a coded field within the cause code.	Fire Reports	
<a href="#">Structure Fires by Property Use</a>	The Structure Fires By Property Use report summarizes structure fire incidents by several property use categories. The categories are residential property uses, public property uses and other property uses, which are displayed graphically using bar charts. The report ends with a numerical summary of the same categories further broken down by counts of fires, fire fighter deaths & injuries, civilian deaths & injuries, and property loss amounts.	Fire Reports	
<a href="#">Summary by Incident Type</a>	The Summary by Incident Type report is a table of incidents categorized by frequency, percentage of total incidents, mutual aid statistics and exposures broken down by fires, EMS, and other incident types. The report also has a summary of dollar loss and casualties.	Incident Reports	
<a href="#">Tally</a>	The Tally report lists several counts and percentages for a selected set of incidents that includes the frequency of occurrence, civilian and fire service injuries and deaths, and property, contents and total loss. These are organized by one of a number of coded fields chosen by the user. Among these choices are incident type, property use, cause of ignition, and Hazmat disposition.	Incident Reports	
<a href="#">Unresolved Fire Incidents</a>	The Unresolved Fire Incidents report contains a list of all fire incidents with a fire cause of "Undetermined" or "Investigating" with an incident date that occurred on or before a date given by the user. The report includes the FDID, the fire department name, the incident date, the incident number, the incident type, and the cause (which will be either Undetermined or Investigating). The report can be sorted either by FDID or fire dept. name and includes a sub-total of incidents for each one.	Investigation Reports

8. You should see the screen displayed below. Follow the directions listed at the bottom of this screen shot.

- A. Enter the following parameters:
1. From Date (format mm/dd/yyyy)
  2. To Date (format mm/dd/yyyy)
  3. Incident Status = All
  4. Incident Version = All
  5. Release Status = All
  6. Include Individual FDID Reports = blank
- B. Select the fire department to include in the report.

1. In the FDID Selection section, drill down to the fire department.
  2. Check the box next to the fire department.
- C. Generate the report.
1. Move down to the button named Generate Report.
  2. Select Generate Report.
- D. Print the report.
1. Select My Recent Reports from the Reporting Menu.
  2. View the status of the report.
    - a. Submitted – the report is waiting to be processed.
    - b. In Process – the report is being created.
    - c. Completed – the report is created.
  3. If the status of the report is completed, select the PDF version of the report from the Report Format section.
  4. Open the report.
  5. View and print the report.
  6. Close the report after it prints.

**YOUTH FIRESETTING PREVENTION AND INTERVENTION**

Note – the report you ultimately generate will look similar to the one displayed below. The report should be populated with data pertinent to your department.

**Summary By Incident Type**  
 Report Period: From 01/01/2004 to 01/01/2008  
 Fire Department Name: null  
 Fire Department ID: null

Calls By Incident Type	Frequency	Percent Of Total Calls	Mutual Aid None	Mutual Aid Given	Mutual Aid Received	Other Aid Given	Invalid Aid Flag	Exposures	Total Incidents

    - b. In Process – the report is being created.
    - c. Completed – the report is created.
  - 3. If the status of the report is completed, select the PDF version of the report from the Report Format section.
  - 4. Open the report.
  - 5. View and print the report.
  - 6. Close the report after it prints.

### Summary of NFIRS Tutorial

Because fire departments and states take part in NFIRS voluntarily, NFIRS conclusions may not completely reflect the entire nation's fire experience.

Also, remember that when utilizing any type of data collection software, it is critical that everyone responsible for incident reporting does his or her job in an objective manner. Simply stated, this means that your department must set a protocol for how incidents are classified.

Here is an example: Consider the typical unattended cooking fire that occurs when a person forgets about a pan of oil being heated on a stovetop. Unless your department has agreed on how your staff will classify the incident, you may end up reporting one of several selections. Over a period of time, this subjectivity in reporting can lead to the creation of an unreliable set of data about unattended cooking fires whereby you cannot discern how many incidents of people walking away from a stove you actually respond to.

If you submit data to NFIRS, it is a very wise strategy to explore the NFIRS webpage thoroughly. There are many sections that include helpful suggestions on how to classify and report incident data.

## DEMOGRAPHIC WORKSHEET

Use *FactFinder* to build a demographical, social, economic, and housing profile of your community. Create your own version of the worksheet that can be expanded upon as you explore additional information.

**Note:** When performing the precourse assignment, please consider *all* census tracts. However, you only have to develop a **general overview** of your community's demographical profile.

Category	Questions to answer about your community
----------	--

<b>Demographic Information</b>	1. What is the total population of your community? _____
	2. In each category, identify areas from your community (possibly more than one) with significant concentrations of the following populations:
	a. Young children (age 5 and under) _____
	b. Juveniles (age 7 to 11) _____
	c. Adolescents (age 12 to 17) _____
	d. Adults that did not complete high school _____
	e. Adults that are high school graduates _____
	f. Adults with some level of college education _____
	g. White/Caucasian/Europeans _____
	h. African American/Black _____
	i. Asian/Asian American _____
	j. Hispanic/Puerto Rican/Mexican American _____
	k. Native American _____
l. Other _____	
m. People who speak little or no English _____	

<p align="center"><b>Economic Characteristics</b></p>	<ol style="list-style-type: none"> <li>1. Households at or below poverty level _____</li> <li>2. Low income level (working poor) _____</li> <li>3. Middle income households _____</li> <li>4. Upper income households _____</li> <li>5. What is the employment profile of your constituency?</li> <li>6. Types of jobs:              _____              _____              _____             <ol style="list-style-type: none"> <li>a. How many people live/work in the community versus commute to their job? _____</li> <li>b. Unemployment rate _____</li> </ol> </li> </ol>
<p align="center"><b>Housing Profile</b></p>	<p>Overall housing profile of your community</p> <ol style="list-style-type: none"> <li>1. Average age of homes _____</li> <li>2. Estimated percentage of homes equipped with automatic detection and suppression system equipment _____</li> <li>3. Estimated percentage of homes equipped with working smoke alarms _____</li> <li>4. Types of residential properties             <ol style="list-style-type: none"> <li>b. Number of single-family units _____</li> <li>b. Number of duplex homes _____</li> <li>c. Number of multiunit buildings _____</li> </ol> </li> <li>5. What is the percentage of renters versus owner occupied homes? _____</li> <li>6. Location of greatest distribution of rental properties _____              _____</li> <li>7. Transience (how often do people relocate in your community)? _____              _____</li> </ol>

<p><b>School System</b></p>	<p>Please identify the following:</p> <ol style="list-style-type: none"> <li>1. Number of school districts within the community _____</li> <li>2. Number of students _____</li> <li>3. Number of preschool centers within the community _____</li> <li>4. Number of students _____</li> <li>5. Number of elementary schools in community _____</li> <li>6. Number of students _____</li> <li>7. Number of middle school schools in community _____</li> <li>8. Number of students _____</li> <li>9. Number of high schools in community _____</li> <li>10. Number of students _____</li> <li>11. Number of alternative schools (behavioral-issue driven) in community _____</li> <li>12. Number of students _____</li> <li>13. Number of special education schools in community _____</li> <li>14. Number of students _____</li> </ol>
<p><b>Growth Trends</b></p>	<p>Use Population Finder to project growth trends for your community. This option is located above the fact sheet selection option.</p> <p>Briefly explain how your community has changed over the past 20 years and what its profile may look like 5 years from now.</p>

<b>PART 2: ASSESSMENT OF YOUTH FIRESETTING PROBLEM</b>
--

**Information from this section will be used throughout the YFPI course.**

**Background Information**

Collecting and analyzing problem-related data is an essential component of community risk-reduction. You must know where you are **before** you can plan a course of action that gets you where you want to be. In the case of youth firesetting, you must identify who is setting fires, how, why, where, and when incidents are occurring. Performing Part Two of the precourse assignment will help you identify that information.

Data on the occurrence and motivations associated with youth firesetting has been studied extensively in some communities. While in others, limited (or sometimes no) data has been collected or studied. Whatever the case in your community, it is important to try and obtain as much information as possible on your local youth firesetting problem prior to attending the YFPI course.

If you have good data on your youth firesetting problem, completing this part of the precourse assignment will not take long. If you lack data, the process may take a bit longer but **please** do not become discouraged. The reason you are coming to NFA is to either start or enhance a youth firesetting prevention/intervention program. Knowing where you currently are with regard to understanding your local problem is essential to the learning and skill development process. A worksheet to assist you begins on the next page.

The following represent potential sources of data to explore:

- fire department response data (in-house and National Fire Incident Reporting System (NFIRS));
- fire marshal's office data (local/State level);
- local law enforcement agencies;
- local juvenile justice authorities;
- mental health practitioners; and
- local school system.

Please note: If you do not currently have an existing relationship that allows official exchange of information between agencies about juvenile firesetting, getting the data could be a challenge or maybe impossible due to privacy laws. **Do not become discouraged.** Finding out what you can (or cannot) currently obtain is part of the learning process.

YOUTH FIRESETTING PROBLEM WORKSHEET

Category	Questions to answer about your community
<p style="text-align: center;"><b>Youth Firesetting Problem: Community Level</b></p>	<ol style="list-style-type: none"> <li>1. Total number of reported youth-set fires last year _____</li> <li>2. Incendiary devices (includes bottle bombs) _____</li> </ol> </li> <li>9. Identify areas (census tracts) in your community that have significant occurrence of youth firesetting _____</li> <li>10. Age distribution of youth firesetters (explore several years of data)               <ol style="list-style-type: none"> <li>d. Young children (age 5 and under) _____</li> </ol> </li> </ol>

	<p>b. Juveniles (age 7 to 11) _____</p> <p>c. Adolescents (age 12 to 17) _____</p> <p>11. Gender distribution of youth firesetters:</p> <p>e. Number of males (consider averaging over several years) _____</p> <p>b. Number of females (consider averaging over several years) _____</p>
<p><b>Youth Firesetting Problem: School- Based</b></p>	<p>12. Total number of reported school fires last year _____</p> <p>13. Average annual number of school fires (several years) _____</p> <p>14. Identify percentages of locations for school fires (several years)</p> <p>f. Preschool centers _____</p> <p>b. Elementary schools _____</p> <p>c. Middle schools _____</p> <p>d. High schools _____</p> <p>e. Alternative schools (behavioral-issue driven) _____</p> <p>f. Special Education schools _____</p> <p>15. Identify the percent of the total for each location within schools where fires were set (several years):</p> <p>g. Bathroom _____</p> <p>b. Cafeteria _____</p> <p>c. Classroom _____</p> <p>d. Hallway _____</p> <p>e. Playground/common areas _____</p>

**PART 3:**

- Your department's mission statement
- Youth firesetting prevention and intervention program mission statement (if applicable)
- State fire and arson laws
- Age of Accountability Law
- SOPs--your youth firesetting prevention and intervention program (if applicable)
- Intake and screening forms

**Information from this section will be used throughout the YFPI course.**

1. Please locate and bring to NFA a copy of your department's mission statement.
2. If you have a youth firesetting prevention and intervention program, please bring a copy of its mission statement.
3. Research your State and local fire/arson laws.

You should have knowledge of what constitutes the following crimes and the penalties when the law is violated:

- first and second degree arson;
- first and second degree malicious burning;
- manufacture of incendiary/explosive devices;
- false fire alarms and 9-1-1 system abuse; and
- reckless endangerment.

Note: Titles of laws may vary by State.

4. Research your State's Age of Accountability Law.

You should know at what age a juvenile can be arrested for any of the crimes listed in #3.

Note: Your fire marshal's office or local law enforcement agency should be able to provide information on the crimes listed above and the Age of Accountability Law.

5. If your department has a youth firesetting prevention and intervention program, please bring a copy of its SOPs.
6. If you have a program, please bring copies of intake and screening forms used.

**PART 4: ASSESSMENT OF EXISTING PREVENTION PROGRAMS**

**Information from this section will be used throughout the YFPI course.**

Primary prevention involves actions to prevent an incident from occurring. Public education is the root of primary prevention. Most fire departments provide some level of primary prevention at their local schools. The questions to answer before coming to NFA are

- "What types of school-based programs are performed **and** what is included that specifically addresses prevention of youth firesetting?"
  - "What types of community-based programs are performed **and** what is included that specifically addresses prevention of youth firesetting?"
1. Summarize the amount of school-based education that is invested annually into the prevention of youth firesetting behaviors at each of the following locations:

Note: Please clarify what component of the program addresses the prevention of child, youth, or adolescent firesetting.

Type of School	Program	Annual Hours Invested
Preschool Centers		
Elementary Schools		
Middle Schools		
High Schools		
Alternative Schools (behavioral-issue driven)		
Special Education Schools		

2. Summarize the amount of community-based education that is invested annually into the prevention of youth firesetting behaviors.

Location	Program(s)	Annual Hours Invested

<b>PART 5: PRECOURSE ASSIGNMENT CHECKLIST</b>
---

Use the following checklist to confirm completion of each component of the precourse assignment. Email a copy of the completed checklist to Mary Marchone, Training Specialist for Fire Prevention Management at the NFA. The address is [mary.marchone@fema.dhs.gov](mailto:mary.marchone@fema.dhs.gov) This document must be received by NFA no later than a week prior to the YFPI course.

Assignment	Completed
<b>Part 1:</b> Assessment of community demographics	
<b>Part 2:</b> Assessment of your local youth firesetting problem	
<b>Part 3:</b> Copy of your departmental mission statement  Copy of youth firesetting prevention and intervention program mission statement  Investigation of State fire and arson laws  Examination of State Age of Accountability Law  Youth firesetting prevention and intervention program SOPs  Intake and screening forms	
<b>Part 4:</b> Exploration of your department's fire safety programs	
<b>Part 5:</b> Completion and submission of the precourse assignment checklist
