Airport Certification Information Bulletin 2010-03

The FAA Aircraft Rescue and Firefighting Training DVD has been distributed to the Regional Offices and enclosed with this bulletin. This new training DVD has been designed to be incorporated into the initial and annual recurrent ARFF training program to supplement the site specific training. Other ARFF training programs are described in AC 150/5210-17B, *Programs for Training of Aircraft Rescue and Firefighting Personnel*. This ARFF training DVD replaces the Computer Based Training (CBT) program previously distributed by the FAA on a 3 set CD program several years ago.
