(Office of Origin: CA/VO/L/R)*

9 FAM APPENDIX I, 401 TIMING

(CT:VISA-1074; 10-15-2008)

Reports of nonimmigrant visas (*NIV*) issued and refused are *compiled in the Department* semiannually. The reporting periods are October 1 - March 31 and April 1 - September 30. The *nonimmigrant data are* continuously replicated to the Consular Affairs (*CA*) *Consular Consolidated* Database (CCD) in Washington, *DC*. Therefore, posts are not required to submit a formal report. Posts' semiannual report data will be retrieved from the CCD approximately 10 days after the end of each reporting period. Any cases that were printed during the semiannual reporting period but have not been Q.A.'ed as of that time will **not** be included in the semiannual workload totals. Therefore, posts should verify that there are no cases pending Q.A. status at that time.
