(CT:CON-407; 06-29-2012)
(Office of Origin: CA/OCS/L)

7 FAM 861 STATE LAWS LIMITING PRACTICE OF CERTIFICATION OF TRUE COPIES

(CT:CON-407; 06-29-2012)

- a. Some states in the United States provide that notaries public may execute certifications of true copies of documents. Many U.S. states, however, have eliminated this as a function of notaries due to concern about security and fraud.
 - (1) See the Martindale-Hubbell Law Digest volume for the U.S. state in question. This is available to U.S. Department of State personnel via Lexis/Nexis, which you can access by contacting the U.S. Department of State Library Lexis/Nexis Page.
 - (2) Consult the web page for the National Association of Notary Public Administrators (NPA);
 - (3) You may also contact CA/OCS/L at Ask-OCS-L-Dom-Post@state.gov; or
 - (4) See 7 FAM Exhibit 861 for a chart with state requirements.
- b. **Avoid Certifying True Copies of Public Documents: Refer Inquirer to Custodian of Records:** If the document is a public document, such as a birth, death, marriages or divorce record, a notarizing officer should direct the inquirer to the custodian of records in that state or other jurisdiction. See HHS/NCHS Where to Write for Birth, Death, Marriage and Divorce Records.

Note: CA/OCS is aware that in international adoption, for example, a notarized certified true copy of a birth, death, marriage, divorce decree is not acceptable in most foreign jurisdictions. Applicants must obtain copies certified by the official custodian of the public records. See country specific adoption information material on the Consular Affairs Internet home page

(travel.state.gov). For consular reports of birth or death, see How to Apply for a Certified Copy of One of These Reports.

7 FAM 862 SWORN OR AFFIRMED STATEMENT BY THE BEARER

(CT:CON-110; 09-13-2005)

- a. **Sworn or Affirmed Statement by the Bearer:** An alternative is to permit the requester to make a sworn statement that the document presented is a true copy (see 7 FAM 850). This is a process whereby an individual makes a sworn statement declaring that a copy is an exact reproduction of an original document he or she possesses. This is also known as a “Copy Certification by a Document Custodian.”
- b. Notarizing officers should ask the following questions before performing this function.

7 FAM 863 THRESHOLD QUESTIONS

(CT:CON-407; 06-29-2012)

- a. Foreign Public Documents:
 - (1) Is it possible for the applicant to obtain a duplicate original or certified true copy of the document in the host country from the custodian of records?
 - (2) If the answer to (a) is “no,” has the applicant presented adequate evidence that the document is required for use in the United States?
- b. U.S. Public Documents:
 - (1) Is a notary public authorized to execute certified true copies of documents, including vital records (birth, death, marriage records, etc.) located in the jurisdiction where the document will be used?
 - (2) If the answer to (a) is “yes,” has the applicant presented adequate evidence that the document is required for use in the United States? The state Notary Public Administrator can provide this information. [CA/OCS/L](#) is conducting a survey of states to confirm current state law on this subject.
